One year ago, Cominform propaganda machine was hitting hard on the theme that U. S. pilots were dropping bacteriological bombs on the innocents of North Korea, famine-ridden areas of China. Only 'Inside Stuff' On Hildegarde and Johnson Splitup Is 30% of Take

Spittup IS 50% of 1ake
In the past two weeks it has become a city desk story in a number of dailles seeking the "inside"
of Hildegarde and Johnny Johnston splitting after a year's successful teaming. They're in their
final fortnight currently at the
Desert Inn, Las Vegas, at \$11,000

21, her new "partner" will be Jack Whiting.

The only "inside" on the Hildegarde-Johnston schism is a matter of terms. The male singer got 30%, of the take, which Anna Sosenko, longtime personal rep for the "chantoosey from Milwaukee," felt was too high considering the comedienne's costly costuming investiture, the general load of the entire operation (management, extra musicians, special violinist-conductor, and the like). Whatever Whiting's deal with Miss Hildegarde, who comes into the Pierre at over \$4,000 a week, it is predicated on his (Whiting's) stint as a featured support of the seasoned nitery songstress. It is said to be over \$1,000 a week as his net share. Johnston gave the impression—fils was a 50-50 deal; this, coupled with sundry film commitments, created the splitup.

Price Seemingly No Curb to Deluxe Record Packages

Along with the general upbeat in the album biz, the deluxe packages at fancy prices are coming into increasing favor among the major labels. Decca's heavy sales on its new Bing Crosby wax biog at \$27.50 is giving the latest spark to the deluxe package idea. A customer poll, via postcards etclosed in the "Bing" set, indicates that the relatively stiff price is no handicap to sales.

RCA Victor found that to be true with its click promotion of the Glenn Miller Limited Edition last year. That "limited edition" sold around 100,000 copies at a \$25 price tag. Victor, in fact, will market another Miller "Limited Edition (Continued on page 85)

'Legionnaires Aren't Millionaires'; D.C. Biz Off During Convention

Washington, Aug. 31. Estimated flow of 150,000 Amer Washington, Aug. 31.
Estimated flow of 150,000 American Legionnaires and their families into the Capital has had a downbeat effect on most phases of the entertainment industry here. Theatres are grossing below expectations, the better restaurants and cafes are off, and hotels still have vacancies. Reason, as one cafe owner put it, is that "Legionnaires aren't millionaires," and the delegates are for the most part restricting themselves to the less expensive hotels and motels.

Theatre operators said the Legionnaires have kept the local patrons away from the downtown districts, and the Legion trade hasn't been able to make up the difference. The Warner, playing "Cinerama," said since Sunday (29), fully 75% of its patrons have (Continued on page 85)

BELLES-LETTRES

Television has been litry almost from the start, but this season shapes as the peak-a-book in the belles-lettres department. Producers and story editors of hourshows are gumshoeing at a fast clip to get a beat on the hardcovers, and some of them, taking a leaf from Hollywood, are working hard and furiously on pre-publication rights (remembering with a wistful gleam that David O. Few New Trends in Paris Nitery Field; St. Germain Still Tops

By GENE MOSKOWITZ

Paris, Aug. 24.

As Parls is left to the tourists by the rapidly retreating Parislans, a looksec at the cleared nitery setup shows there have been definite trends this year. It is the tastes and fads of the returning cabaretgoers which will tell the story on next year's top nightclubs. In a previous survey last February, the concerted effort by a group of young club owners to turn the Palais Royale district into the nitery section of Paris was revealed, with the ensuing growth of the section as an afternoon cafe spot.

spot.

However, this now seems to have waned, and St.-Germain-Des-Pres still hangs on as top quarter, by dint of the tourists still unaffected by shifts in local tastes. Also, there is a lack of literary or philosophic bonanza or club to put another section of this town on the midnight mecca map. Paläis Royale, near the Comedie-Francaise, and a stone's throw from the Opera district, looked hot in these sweenstakes during the early part of 1954, with La Castagnette and Cour et Jardin, two new spots, drawing the snob and show biz set and the Macumba getting a steady carloca-inclined dance set (with the solid music of Renato). The Club Monthensier suddenly emerged as a fave spot for the disgruntled Existentialist set. Owners of P-R Find it Too Big
Two young cafe owners were responsible for the attempt at restoring Palais Royale-Marc Doelnitz and Duatre Cohelo. EARLY A.M. EPICURES FADING FROM B'WAY

Deploring the paucity of night life, which means that performers don't come in for the winderupper coffee-and-cheesecake bit — and that goes for the waiters and captains, and with them the overflow customers—Heller points only to Lou Walters' Latin Quarter as the sole remnant of a passing era of glamor. "It's too far to come from the Stork and the Copa," he adds, "and only on Saturday, and here we're also dead by 2:30; there's no night life any more. The late-hour filmgoers who wait for the cutrate price at the midnight movie certainly haven't got the price to come into Lindy's."

Hartman's 5-Point Plan for Par Prod.

Hollywood, Aug. 31. Paramount, in addition to going Paramount, in addition to going allout on bigger and better pictures this coming year, will put into effect five rules of filmmaking which everybody knows but which very frequently are overlooked, Don Hartman, studio production chief, reports.

Exec adds that by deviating from any one of the five a studio can miss out on a hit picture, "and Paramount doesn't intend to hit a miss."

For its upcoming program of 17 productions, one more than during the past 12-month period, company will expend \$35,000,000, according to Hartmân. This includes the \$7,000,000 "Ten Commandments," which Gecil B. DeMille will launch Oct. 14 in Egypt, most expensive picture ever to be turned out by Paramount.

Rules as set down by Hartman are specific, and include (1) the right story for a studio to make; (2) right screenwriter to work on that story; 3) right director; (4) right cast, and (5) the right technicians to back them up.

"This is the only method of turning out an honest picture," production chief points out. "It's like drawing for a royal flush—if you miss on any one card you miss your hand."

March of Dimes Radio-TV Stymie on Summer Drive

Stymie on Summer Drive

Summer drive of the March of Dimes appears to be in trouble as far as some phases of cuffo plugs on radio-tv networks are concerned. So far, MOD has had 12 telespots on ABC, another dozen on CBS and six on WOR-TV, N.Y. NBC tele used an MOD film blurb on "Today" and another on its "Home" show last week. NBC Radio had offered a pair of 15-minute periods, but MOD turned these down, presumably because they weren't "good" time. NBC-TV hadn't offered the organization any spots because that would upset its commercial schedules, and MOD apparently took umbrage at this shudout.

Behind the low-gear radio-tv exploitation this summer may be the fact that the fund group is not "recognized" by the Advertising Council, latter taking the position that since MOD doesn't account for its money and furnish written records, such recognition cannot be granted. Some broadcasters take their cues from the Ad Council on matters of this sort.

Invite Labor To Policy Huddles On Pix: O'Brien

British and American film labor should be repped at any film nego-tiations that concern them, Tom O'Brien, British labor leader, and M.P. who has just concluded a visit to this country, said in N. Y. last

"The position in the world today makes it imperative that the examination and solution of problems in connection with U. O'Brien opined that there should have been labor observers attending Anglo-American film pact talks "from the very start" to offer sug-

Groundwork is beling laid by 20th-Fox for another go at the use of widegauge film.

Company pioneered in that field in the late '20s via the Grandeur system and revived the idea just before the war. That equipment has now been dusted off by 20th engineers, who plan to make a series of tests with it. If plans work out 20th may lens "The Greatest Story Ever Told," Fulton Oursler's story of the Bible, both on widegauge film and CinemaScope.

The only other outfit currently working with widegauge stock—66m—is Todd-AO, which is lensing "Oklahoma." Film is also being duplicated in C'Scope.

Earl I. Sponable, 20th's research topper, conceded last week in N. Y. that 20th was collecting facts pertinent to an improvement of its old widegauge system. He said the company was currently engaged in a "general investigation" of the possibilities of wide film and was seeking facts on what advances might be expected in the color field, general production of raw stock in relation to the visibility of grain, etc.

Sponable said he was starting out with the Grandeur concept, "because we have that equipment," (Continued on page 22)

With a series of misunderstandings now successfully cleared up, the AFL Hollywood Film Council, which speaks for the Coast labor unions and guilds, has agreed to call off its pressure campaign against the exodus of U. S. tv film production to Britain pending further talks.

In reporting this in N. Y. last week (28), Tom O'Brien, British labor leader who is in this country with a mandate to speak for the four major British entertainment unions, said his mission had been a 100% success and that it had served to clear up a number of serious misconceptions on both sides. O'Brien, who leaves N. Y. by air tomorrow (Thurs.) for London, also said general agreement had been reached on the creation of a small, permanent Anglo-American labor liaison committee which would meet alternately in N. 'Caine' Again Boxoffice Champ, For Aug.; 'Obsession' Is Second; 'Living' Close Third; 'Lance' Takes Fourth

With grosses running \$500,000 to \$700 weekly ahead of last year at the same time in 24 representative cities, the outstanding development in the boxoffice sweepstakes for August was the increase in the number of high-grossing pix. This is revealed in VARIETY'S monthly boxoffice survey, which shows that the first six films at the wickets grossed \$660,000 or better each, with three of them in the \$1,000,000 class. Neither of the next two strongest dipped below \$250,000 each.

strongest dipped below \$250,000 each.

"Caine Mutiny" (Col) again finished first, same as in July, according to reports from Vanetry correspondents, although not holding in No. 1 spot every week of the month. Pic now is garnering the bulk of its coin from extended-run engagements. "Caine" bids fair to be Columbia's biggest grosser in the current fiscal year.

"Magnificent Obsession" (U) and "Living It Up" (Par) ran neck-and-neck most of the month, with "Obsession" finally copping second position. The fact that it wound up first one week, was second another one and never dipped below fifth, of course, figured in this rating. Although done previously as a pic, which generally is a handicap to becoming a big grosser, opus baffled the most optimistic exhibs not only with smash opening sessions but also by its ability to hold up on extended-runs.

Living' Shapes As

M&L's Top Draw; **Big Par Grosser**

Despite lukewarm appraisal from some newspaper critics, "Living It Up" seems assured of becoming the highest grossing Martin & Lewis comedy to date and one of Paramount's big money pictures of this year. It now appears certain of grossing \$5,000,000 in the domestic market and may even reach \$5,500,000, latter figure before wedleted on its children by

domestic market and may even reach \$5,500,000, latter figure being predicated on its ability to do comparably as well in smaller cities as it has done in major keys so far.

"Living" is running well ahead of "Sailor Beware," the biggest M&L pic to date, which had \$4,700,000 domestic gross. Thus far the latest Martin & Lewis vehicle not only has run ahead of both "The Caddy" and "Money From Home," two other big M&L films, but by surprisingly big margins. It has topped "Sailor Beware" business consistently in many spots.

In some locations the picture has equalled other champ Par grossers. Sharp example of this is Utica, N. Y., where it hit \$11,000 or about the same as "Greatest Show on Earth," which played there with an upped scale. This compares with \$6,800 done by "Caddy." Another instance is Columbus, O., where "Living" hit \$13,700. This compares with \$2,200 dene by "Caddy." which had the benefit of personals by Martin & Lewis when it preemed there.

In Pittsburgh, the film went to \$22,000 and held over at the Penn. This was \$7,000 ahead of "Caddy." (Continued on page 31)

TATSE international veepee Carl Cooper sald Monday (30) that among film editors, camermen and soundmen, the job figure is 98% or more; costumers have 80 to 85% employment, and stagehands in live tv are all employed, their situation best in 25 years.

Cooper explained that during bad years of 1950-51 many workers among backlot, grips and props, who dropped out, now hesitate to leave regular jobs and return to show biz. This is especially true among backlot workers.

"I feel that with studios making bigger and better pictures, with more and more tv shows going to film, and with live tv keeping up pace, the figure on overall employment may go even higher," said Cooper, He sees possibility of the shortage developing in some crafts, such as backlot. Comparatively slow expansion of CinemaScope abroad is seen speeding the release there of standard versions of Ciscope pix.

While none of the companies are on record as being flatly opposed to the release of 2-D versions of 'Scope films, they've also shown no inclination whatever to make pix available in that form. Reasoning is, of course, that this would affect the drawing power of the CinemaScope films.

Situation is gradually changing, however, with (1), the acceptance of C'Scope by the public and (2), the comparatively small number of C'Scope-equipped theatres abroad. It's particularly pressing for 20th-Fox, which is committed to a full C'Scope sked and has no major 2-D pix for distribution apart from those it might take on locally or from U.S. indies.

Foreign topper of one of the major companies this week stated flatly that his outfit intended to offer foreign exhibs their choice of 2-D or CinemaScope versions. "We owe that to our customers," he said. "They have the right to get the product." Such a policy is based on the assumption that CinemaScope no longer performs b.o. miracles abroad.

If one or several distribs adopt such a sales policy in the foreign market, it is certain to have reverberations in the U.S. The samewas true when Metro switched to Perspecta Sound abroad. Soon after, 20th modified its. C'Scope sound policy in the U.S., too.

Position of 20th on the question of standard versions isn't clear. The company still has a backlog (Continued on page 80)

EXHIBS' BIGGEST FACELIFT JOB

Goldwyn's Young Ideas

Hollywood, Aug. 31.

Samuel Goldwyn, who turned 72 last Friday (27), copped the spotlight on the educational front this week via a tieup with the U. of California at Los Angeles. The veteran filmmaker established an award of \$1,000 to be presented by the Goldwyn Foundation for the best creative writing submitted in an annual UCLA competition. University Chancellor Raymond B. Allen pointed out that this is the second endowment from Goldwyn, the first being a four-year, \$2,000 scholarship established at UCLA Medical School in 1953. After 1956 there continually will be four "Goldwyn scholars" at the med school.

The creative writing will be judged by a board comprising Robert E. Sherwood, the presidents of the Academy of Motion Picture Arts & Sciences (now Charles Brackett) and the Screen Writers Guild (now F. Hugh Herbert) and Prof. Kenneth Macgowan of the UCLA Theatre Arts Dept.

Ever-growing dependence of US

Ever-growing dependence of US-film companies on their foreign earnings has producers abroad mulling ways and means of exploiting this fact so as to push their pix in the American market.

This attitude has been given its clearest expression in recent weeks by Tom O'Brien, British labor emissary, who has been telling US unions that there must be reciprocity of some kind if the the American distribs are to continue reaping the benefits of large remittances from Britain.

O'Brien goes a step further and calls for a voluntary agreement on the part of American major circuits to show a certain number of British films each year. Their incentive for entering into such an arrangement, he says, is the realization that their welfare depends on the welfare of the producing distributing outfits. And the latter, of course, are in turn dependent on their foreign income, which runs anywhere between 42% and 46% of their total revenue.

American execs, while testifying to the importance of Hollywood's foreign take and its indirect bearing on all sectors of the industry—including exhibition—argue that (Continued on page 10)

Extra Italian Permit Aids U

Problem of Universal's demand for more Italian licenses was solved yesterday (Tues.) when the Motion Picture Export Assn. informed the foreign managers that the Italian government had agreed to grant MPEA an extra permit, bringing the total for the new pact year to 190.

MPEA at the same time got around the obstacles of the Italians' insistence that there be no transferability of permits among the companies. This was done by getting the Italians to agree that MPEA would pick up only 90% of its licenses now. The rest will be taken up before May 1, 1955, the half-year mark in the new Italo film agreement.

Availability of one more license, in addition to the permit offered by RKO, allows MPEA to swing into the plan outlined by United Artists' Arnold Picker. Scheme pro- (Continued on page 19)

Joseph Manklewicz arrived in N.Y. yesterday (Tues.) on the new Italian liner, Cristoforo Colombo, to pitch in on premiere preparations for "The Barefoot Contessa." Mankiewicz wrote, directed and produced the film, which is his first indie release. It bows at the Capitol, N.Y., Sept. 29 in a benefit for CARE, global relief and rehabilitation agency.

Following a brief stay in Gothanı, the filmmaker will trek to the Coast and a Samuel Goldwyn commitment. He's to direct Goldwyn's upcoming "Guys and Dolls."

Ginsberg on Coast to Get 'Giant' Production Going

Henry Ginsberg left New York for the Coast over the weekend following confabs with Warner Bros. homeoffice execs on George Stevens' production of Edna Ferber's "Glant."

On the Coast, Ginsberg will launch production on the film which he is producing in association with Stevens Later will direct and WB will release the film.

TNT Fight Deals **Set Despite Beefs**; **Expect New Mark**

Despite Initial beefs relating to the 50-50 terms. Nate Halpern's Theatre Network Television is chalking up deals for the Sept. 15 Rocky Marciano-Ezzard Charles closed-circuit theatre telecast. Halpern estimates that he can rack up 90% of the available closed-circuit situations if he can get a break on AT&T line clearances. The TNT topper said he had 75 spots, including 14 drive-ins, on the dotted line, but that the actual total of theatres at fight time is subject to line clearances. In any event, he's sure that he'll surpass the record 61, including nine ozoners, that carried the June meeting between Marciano and Charles. After some tough negotiating, particularly with the circuits, Halpern revised his terms and introduced a scale system based on the (Continued on page 29)

The only practical solution—and he doesn't favor any legislative moves towards that end—is a commercial agreement between the U. S. circuits and the British producers, providing for the chains to (Continued on page 22)

Loew's Splitaway **Winds Antitrust** Cases Vs. Majors

The separation of Loew's into separate theatre and production-distribution companies brings to a close antitrust litigation against the major film companies started by the Government in 1938. The initial complaint listed all eight major companies, and after the trial started in 1940, a consent decree was agreed upon by the five companies having theatre interests—Paramount, RKO, 20th-Fox, Warner Bros. and Loew's.

The separation of theatre and production interests, brought about through pressure applied by Allied States Assn. which is again seeking further Government regulation of the industry, brings to end an important era of the picture business and is estimated to have cost the film companies several millions in legal fees.

The original consent decree enjoined certain practices and provided that the Government would not seek a separation of the interests for a period of at least three years. In 1944, the Dept. of Justice took action to obtain divorement relief. A three-judge Expediting Court held hearings in 1945. It rendered an opinion in June, (Continued on page 27)

Woolf Seeks Code Okay on 'Camera'

James Woolf, repping Romulus Films, London, is due in N. Y. next week for meetings concerning Production Code approval of "I Am A Camera," picturization of the John van Druten play which is being cooroduced by Romulus and Moulin Productions. Latter, an American production unit, is headed by Alfred Crown.

Script has yet to be submitted to the Code Administration. It's understood that Woolf and Romulus exces will seek a determination of how the scenario must be shaped in order to win the okay. Story focuses on an amoral English girl in Germany at the time of anti-Jewish violence. Film is set for lensing in London and Germany beginning next month, with Julie Harris and Shelley Winters in key roles.

Woolf also will work on casting of "Story of Esther Costello," also on the Romulus-Moulin joint production sked. Two top femme assignments are open.

On another front, Moulin is sole producer of "Moby Dick," which is in its fifth week of production and is now shooting in Wales. John Huston is directing, with Gregory Peck and Richard Basehart in lead spots. Distribution tieup has yet to be set. Two previous Moulin entries, "Beachead" and "Duel in the Jungle," were released through Warners.

"White Christmas" should be a natural at the boxoffice, introducing as it does Paramount's new VistaVision system with such a hor combination as Bing Crosby, Danny Kaye and an Irving Berlin score.

combination as Bing Crosby, Danny Kaye and an Irving Berlin score. The debut of the new photographic process is a plus factor complementing the aiready solidly established draw of Crosby and Kaye. The widescreen process has an impressive vastness, with color clarity and sharp definition that add greatly to the visual quality of a production. VV's impact, while giving a full-stage effect to this musical, should be even greater when applied to outdoor and action-drama stories. An important value is the consistent picture quality in the various projection ratios (Paramount recommends 1.85), from the standard 1.33 up to 2 to 1. The quality carries over into 2.55-1 when the VV negative is printed anamorphically for that aspect ratio projection.

The above qualities were not displayed to their fullest on the answer print used at the preview, but have been decidedly evident in demonstration showings staged previously by Paramount.

Crosby and Kaye, along with VV, keep the entertainment going in

viously by Paramount.

Crosby and Kaye, along with VV, keep the entertainment going in this fancifully staged Robert Emmett Dolan production, clicking so well the teaming should call for a repeat. Both Crosby and Kaye are long in the talent department and provide a lift and importance to the material scripted by Norman Krasna, Norman Panama and Melvin Frank.

The directorial handling by Michael Curtiz gives a smooth blend of music (13 numbers plus snatches of others) and drama, and in the climax creates a genuine heart tug that will squeeze tears. The standout song presentation, beautifully socked by Rosemary Clooney, is "Love, You Didn't Do Right By Me." The top song-dance number is "The Best Things Happen While You're Dancing," strikingly terped by Kaye and Vera Ellen.

ingly terped by Kaye and Vera Ellen.

"Choreography" scores through Kaye's impression of modern ballet, with Miss Ellen and John Brascia providing the jazzier counterpoint to his hilarious posturing. The full Crosby flavor is heard on "What Can You Do With a General?" and "Count Your Blessings." latter reprised by Miss Clooney. Also listening favorably are "The Old Man." an ensemble number and the colorfully amusing "Minstrel Show Routine," including Berlin's oldie, "Mandy," with Crosby, Kaye, the Misses Clooney and Vera Ellen and ensemble doing the musical funning. As for "White Christmas," the Berlin hit Crosby introduced in "Holiday Inn" in 1942—it's still a top hit.

On a lesser level are "Sisters," tune introducing the sister act of the two femme stars, and "Snow. Both wear a bit, although the first has a very funny reprise by the Crosby-Kaye team. "Gee, I Wish I Was Back In the Army" and "Santa Claus Routine" are other new Berlin cleffings. "Blue Skies" and "Abraham" are among some of the oldies.

The plot holding the entire affair together has Crosby and Kaye, two Army buddies, joining forces after the war and becoming a big musical team. They get together with the girls and trek to Vermont for a white Christmas, The inn at which they stay is run by Dean Jagger, their old general, and the boys put on a show to pull him out of a financial hole, at the same time finding love with the girls.

Crosby wraps up his portion of

Crosby wraps up his portion of the show with deceptive ease, sell-ing the songs with the Crosby sock, shuffling a mean hoof in the dances and generally acquitting himself like a champion. Certainly he has never had a more facile partner than Kaye against whom to

bounce his misleading nonchalance. Kaye takes in stride the dance, kaye takes in stride the dance, song and comedy demands of his assignment, keeping Crosby on his toes at all times proving himself an ace entertainer of virtually unlimited talent. Miss Clooney does quite well by the story portions and scores on her song chores, while Vera Ellen is a pert terper who can also handle her lines well. Supporting roles are few. The chief featured part is in the able hands of Jagger and his finale scene, in which he reacts like a tough general with a heart to the turnout of his old division, is fine trouping. Mary Wickes, the inn's housekeeper, gets some chuckles. Brascia figures importantly in making the production numbers come over so well. Anne Whitfield, several unbilled chorines and others do their share.

The rough melodramatics in this story of a crooked cop are brought with fair results to the action fan. And because the names are good, topped by Robert Taylor, (average prospects are probable generally. Picture is one of several in the current cops-n'-robbers cycle, suggesting possibilities for those situations that like to give action audiences a double-barrelled crime bill, with this Metro entry as the uppercase booking.

The Nicholas Nayfack production gets off to a logically plotted start but doesn't remain believable for very long. Stronger supervision would have helped to hold things together better. Compensating are good performances and a rugged action pace that is stirred up by Roy Rowland's direction. Taylor is the rogue cop of the title, playing it with a suave toughness that fits a policeman on the take from the vested gang interests ruled over by George Raft. Footage opens with a knifing and Steve Forrest, Taylor's rookie brother, spots the killer. The big interests get into the act to force the case to be dropped. It seems the killer has something on Raft. When Taylor fails to bring Forrest into line by using money and his girl friend, Janet Leigh, the gang kills the young policeman, an act that bad cop and the windup features a guns-blazing climax as Taylor fights it out with the baddies and turns state's witness to unveil the workings of the syndicate.

The satisfactory performance by all concerned almost bring the show off, and had the scripting been more logical and moral values would have had more point. Miss Leigh, a bad girl going straight, and Anne Francis, Raft's moll who is brutally used and then killed, are the principal femmes mixed up in the melodramatics. Olive Carey spots a slick deliniation of a a newsie who stools for Taylor. Robert Ellenstein, a good policeman; Anthony Ross, a priest; Robert F. Simon and Alan Hale Jr., associates of Raft, and Peter Brocco, the killer in the opening sequence, come off okay.

Film's unusually small cast of four—the fourth appearing only in the final reel or so—make their pitch in and around an isolated sheepranch cabin on the California coast. Parts are undertaken by Jean Simmons, Rory Calhoun, Stephen McNally and Brian Aherne, but even with such able performers John Farrow isn't able to direct them past the hurdles of story and script.

Plot revolves around a vindictive sheriff, McNally, and his prisoner, Calhoun, crashing their plane enroute back to Utah—where latter is to face a manslaughter rap—and forced to hole up in the cabin belonging to Miss Simmons and her English professor-father, Aherne, until the storms which make travel impossible subside. Plot of the Schenck-Koch production for United Artists release is another of those William P. McGivern tales about a cop gone bad. It has been adequately scripted by Richard Alan Simmons, who also adapted from the book, and John C. and Howard W. Koch is rather slowly paced for the action fans. O'Brien, a detective, kills a bookmaker and lifts a \$25,000 roll he is carrying as the story opens. Killing goes into the books as a homicide in the line of duty, even though the gambling syndicate spreads some dirty rumors. The murder has been witnessed by a deafmute and, when O'Brien learns this, he commits a second killing. John Agar, a young detective trained by O'Brien, gets wise and after a wild and wooly chase-that has the bad cop dodging both the law and the syndicate's hatchetmen, the killer is trapped and shot down at the model home where he had hidden his loot.

Performances are to type, adequate to the melodramatics but never giving anything extra to the show. Costarring with O'Brien and Agar is Marla English, on loan from Paramount. Her chief asset to the picture will be lobby art from her role of the cigaret givith whom O'Brien is in love. David Hughes, the deafmute, Emile Meyer, detective captain, and Carolyn Jones, a B-girl, are among some of the others more prominently spotted in the plot. The tracking down of this informant unmasks the killer, apleasant young neighbor involved with the dead actress.

Andre Morell is excellent as the harassed father torn between paternal love and sense of duty. Thea Gregory registers more faintly, as his daughter while Patrick Holt does well in the rather thankless role of the suspected husband. Jack Watling provides an even more shadowy characterization as the killer, Arnold Bell vies with Andre Morell in realism as the investigating inspector. Helen Pollock contributes a correctly overacted cameo as a phoney seeress. Olive Sloane provides another gem as a roominghouse-keeper. The direction by Charles Saunders gives full value to the highlights and never strains at credulty. Clem.

THE GREAT PRINT 'MYSTERY'

2 Pix for 117 N.Y. Nabes

Just about every important neighborhood theatre in New York will be tied up with only a total of two pictures this week. Total of 117 houses have booked either RKO's "Susan Slept Here" or United Artists" "Apache" to run simultaneously.

Such programming time and again draws the fire of some industryites. They claim it means an inadequate menu from which the public might choose. Another complaint is that it gives the theatregoer insufficient time in which to "catch up" with a certain film.

theatergoer management and advantages. In the case of "Apache," for example, the film is being spread around immediately following its firstrun engagement at the Mayfair, on Broadway, and the showcase bally presumably still has effect. And the number of theatres on second-run can sponsor a sizable ad campaign inexpensively on a joint basis.

"Susan" opened yesterday (Tues.) in 73 locations, including houses in the RKO, Loew's, Skouras, Fabian, Randforce, Cinema, Island and Brandt circuits. "Apache" bows today in 29 Loew's theatres and 15 independent spots.

Cinerama Preps For O'Seas Bow

Cinerama, set to mark its second anni at the Warner Theatre, N. Y. during this month. Jaunched the first phase of its overseas operation yesterday (Tues.). Seven tons of electronic equipment left for London via Pan-American. The plane contained a virtually complete Cinerama installation. The London Casino Theatre is expected to be ready for the first showing of "This Is Cinerama," first picture in the medium, end of this month.

Cinerama technicians have been at work for three weeks readying the theatre. Changes in London's building and theatre codes were necessary to accommodate the needs of the process. The three projection booths and the large size of the film reels required revision of fire regulations for conventional film presentations. Similar changes in the New York City codes were made two years ago.

Sales execs do admit, however, that the industry's swing to color, and the introduction of stereophonic sound, have put a crimp into the delivery of prints by the labs. Latter—and particularly Technicolor—are said to be pushing out prints as fast as possible.

Exhibs say that the unavailability of prints is so severe that pix supposedly playing 21 days after firstrun, actually aren't getting to the theatres until 30 and 50 days later. One of the recent Allied Theatre Owners of Indiana bulletins had this to say about the print shortage:

"The 'playoff of product in the smaller situations is being delayed until the public's desire to see the picture has waned and most of the benefits of initial sales campaigns and national advertising have been lost. Possibly the most illegal consequence of the artificial print shortage is the piling of clearance on top of clearance, making a dead letter of the U. S. Court's ruling. The bulletin charged that, in "almost every case," additional clearance or later availability meant that a picture would have to compete against weaker product, and it also held that later availability on percentage pix frequently resulted in distribs getting more favorable playing time.

Columbia and Warner Bros, were officially mum on the blast leveled at both last week by Allied States Assn. on sales policy. Neither appeared desirous of "dignifying" the Allied statements by rejoinders. Ben Kalmenson, WB sales chief, simply refused to comment. Ditto for Abe Montague, Col sales head. But another exec offered to state the film company side. He said Col and WB were under Allied attack for the reason that these are the only outfits undertaking to sell films on 50-50 terms. Col has "Caine Mutiny" in this licensing groove and WB has "A Star Is Born" in the same slot.

The exec added that Montague has been in distribution for 30 years and could not have endured if his policies were unpalatable for theatremen. Further, it was said, there couldn't be any specifically-stated policy on "Caine" for the reason that "policy is subject to change as a film is placed in release."

picture business is placed by the group squarely on the shoulders of Ben Kalmenson and Abe Montague, sales chiefs of Warner Bros. and Columbia respectively. In private conversations Allied leaders say that it is unlikely that the exhib org's board would have decided on such a drastic step at this time had it not been for the uncompromising attitude of Kalmenson and Montague.

In a formally issued "declaration of emergency" following a board conclave last week in White Sulphur Springs, W.Va., the Allied toppers cited "the apparent hostility of Montague toward Allied, the committee, and exhibitors in general, and the utter callousness of Kalmenson in rejecting the just complaints against his company's policies." While Kalmenson and Montague were singled out, the Allied board expressed "appreciation of the encouraging statements" by 20th-Fox's Al Lichtman, Metro's Charles Regan, and RKO's former sales chief Charles Boasberg "on the subject of fair and equitable prices for motion pictures, implying thereby that an exhibitor is entitled to a profit as a reward for his investment and effort."

In a don't quote me statement, an Allied leader said that he regarded it as "highly unlikely" that the move toward Government regulation would have been taken if Kalmenson and Montague had shown the same consideration as Lichtman, Reagan and Boasberg. (Continued on page 31)

Detroit, Aug. 31.

Detroit, Aug. 31.

With a couple of exceptions, biz is slow at downtowners mainly because holdovers have been extended too long. Best of newcomers is "Magnificent Obsession" which is only slightly less than magnificent at the Michigan. "Dragnet" is dragging them in nicely at the Palms. "Cinerama" stays with the leaders in its 76th week at the Music Hall. "Gog" looks oke at the Broadway-Capitol.

Estimates for This Week

Adams (Balaban) (1,700; 80-\$1)—

Minneapolis, Aug. 31.

As has been usual here recently, holdovers again outnumber newcomers currently. However, only one of the three fresh entiries, "Black Shield of Falworth," is stirring up the top wicket activity in the face of stiff competition from the Minnesota State Fair, a tremendous counter attraction. "Valley of Kings" and "About Mrs. Leslie," ether arrivals are not going far. State Fair is expected to attract 1,000,000 people in its nine days. "Magnificent Obsession" and "Brides for 7 Brothers" looks top holdovers, former in fourth week.

Mainstem biz continues in the upper register, with at least one sock newcomer helping boost the already solid average. "Vanishing Prairie" at bandbox Dupont shapes near new record. "Seven Brides" in second stanza at Loew's Capitol paces the holdovers and continues sensational. Although all midtown houses donned their brightest lights for the American Legion convention, "Cinerama" at the Warner was sole pic making a strong, direct play for out-of-town biz. "Magnificent Obsession" still is rated bright in third round at the Palace.

Continuous V'Vision Flow at Par; **Lazy 8' Cameras Slowing Exhib**

Hollywood, Aug. 31.

True to the promise made last March by prexy Barney Balaban that Paramount would have a continuous flow of VistaVision pictures going into release, the studio has now backlogged seven completed VV features and has three currently before the caneras even before the first, "White Christmas," has opened. Latter makes its initial bow next month at the Radio City Music Hall, N. Y., but before that time Paramount will have launched two new VistaVision features.

While the industry not already

launched two new VistaVision features.

While the industry not already committed to CinemaScope has been slow to signal acceptance of VV lensing, main stumbling block has been the "lazy 8" cameras. Most of those either converted or specially built are on the Paramount lot and, although Technicolor is making some conversions, cameras remain in short supply with manufacturers reluctant to build without orders on hand.

A number of announcements of upcoming VV productions have been made since the successful demonstration staged at the studio March 2, but only one independent has taken actual steps at lensing. As a result, the first non-Paramount VV production will be "Girl Rush," the Rosalind Russell starrer which Frederick Brisson's Independent Artists will make at RKO. It's set for September rolling, using VV camera conversions furnished by Technicolor.

Paramount now has six converted Stein cameras, plus two Technicolor VV cameras on lease. This week the studio will take delivery on four new Mitchell cameras especially designed for the bigscreen process. These are said to represent the first modernization of the camera and projection since sound, and to be the greatest change in cameras in more than 25 years.

Nine Cameras Due

Nine Cameras Due

By Dec. 1 Paramount will have
a total of nine Mitchell VV cameras. Two will be high-speed, capable of shooting 96 frames a minute, or four times regular speed, and will be fused for special effects. The studio is also receiving a converted Bell & Howell for the title and inserts department, and another will be delivered in five weeks. More of these will come later for various uses.

Paramount, a holdout from the first against the anamorphic lensing processes, such as 20th-Fox's CinemaScope, and stereophonic sound on the ground that it could not continue to serve all of its customers in all types of theatres if switching to squeeze-lensing, is higher today on VistaVision than it was when the possibilities were first uncovered in September, 1953, when "White Christmas" scenes were tested.

first uncovered in September, 1953, when "White Christmas" scenes were tested.

"Christmas," starring Bing Crosby and Danny Kaye with an Irving Berlin score, started lensing Sept. 21, 1953, after Paramount had completed various tests with a converted Stein camera. This lone camera was used alongside a conventional camera when the picture rolled and for the first 10 days both methods of lensing were used. It was then that studio toppers made the decision that hereafter VV would be used, and a second converted Stein was brought in, Trade demonstrations around the world have been held since March of this year to show off the photographic quality of the "lazy 8" lensing. The term derives from the fact that negative is exposed to two frames at a time while running horizontally through the camera, instead of the conventional, four-sprocket-hole frame fed vertically through a standard camera.

initial release, but houses equipped with variable prismatic expander lenses and the large curved screens necessary for the anamorphic ratio will be supplied upon demand.

With VistaVision, Paramount is recommending Perspecta stereophonic sound, a three-track optical sound controlled to horns behind the screen. However, all prints, regular or squeezed, will carry a standard photographic sound track, with a control track for Perspecta, standard photographic sound track for Perspecta, so that they will reproduce on any standard optical sound head in any projector anywhere in the world.

any projector anywhere in the world.

A recent survey by the studio of 149 theatres in the 32 exchange centers revealed that 93% can play the recommended 1.85-1 aspect ratio at full screen width up to 50 feet. Only 30 of these key theatres could handle a picture width of more than 50 feet.

"White Christmas" was followed by "Three Ring Circus" (formerly "The Big Top") on the VV production line and since its completion lensing has been finished on "Air Command," "We're No Angels," "Run For Cover," "Love Is A Weapon" and "Two Captains" (formerly "Blue Horizons").

Down for September starts, also
in Technicolor, are Alfred Hitchcock's "The Trouble With Harry"
and a new Martin & Lewis comedy;

the O'Brien kind of reasoning doesn't take into account a number of human factors. "It's a fallacy of human factors. "It's a fallacy to say that all that's needed is the showing of British, French, Italian or any other foreign films on the circuits," was one comment. "There's just one thing missing—people have to come in and see these pictures, too."

people have to come in and see these pictures, too."

'Forcing' of Pix

While they can summon a number of good arguments against any "forcing" of foreign language pix on U.S. theatres, American industry observers also are fully aware that pure reason doesn't always enter into the argument. They know, for instance, that there is a wide misconception abroad about the potential of the U.S. market for foreign imports and that these misunderstandings largely spring from a failure to græsp the true composition of the American audience.

"That's why Europeans are often so astounded when one of their big hits doesn't make out over here," commented one of the indie importers this week. "They think tastes are largely the same, and that what's a hit in Europe is automatically a b.o. success in the U.S. When that doesn't happen, there is big disappointment all around, and, naturally, someone ests blamed."

Example of this is cited in connection with J. Arthur Rank's "A

gets blamed."

Example of this is cited in connection with J. Arthur Rank's "A Queen is Crowned" which, in the opinion of the Rank people, didn't get the kind of playoff in the U.S. it deserved. John Davis, Rank's top exec. blasted American exhibs for failing to give "Queen" a proper whirl. Actually, the film was weakened by thorough two coverage of the Coronation and a lack of interest in some parts of the country.

of the Coronation and a lack of inlearning. The term derives from the
fact that negative is exposed to two

instead of the conventional, foursprocket-hole frame fed vertically

Gain In Quality
By reducing this double frame
negative in the optical printing to
the regular 35m single frame, the
VV process reduces grain, eliminates fuzziness and "gives a bigger,
brighter and better picture" when
projected in the various widescreen
aspect ratios up to 2 to 1 or higher.
Same gain in quality is claimed
for squeeze printing the VV negative for 2.55-1 anamorphic projection via prismatic projection lenses
such as the SuperScope (Tushinsky).

Half-year comparison showed a drop in film rentals of more than \$500,000. However, other operating income was up by about \$1,000,000 and dividends by more than \$500,000. Amortization, taken on the same basis as in prior years, was down to \$27,869,351 for 1954 compared to \$33,205,273. Participation in film rentals was \$3,533,366 this year, compared to \$4,264,988 in '53, Film distribution and administrative expenses were up 988 in '53. Film distribution and administrative expenses were up about \$1,000,000—to \$14,245,290—in 1954. Film rental drop has no real significance other than that 20th took in almost the same in 1954 but with far fewer pix.

Whereas taxes on the 1954 net came to \$2,600,000, the \$153.309 earnings in 1953 required no tax provisions at all.

Earnings of 20th-Fox for 1953 before taxes were \$8,210,887. It's been estimated by 20th execs, on the basis of current earnings and pix forthcoming, *hat this figure may well double in 1954.

"Before this present splurge on big pictures, we'd have only the occasional super-special. However, there has been a general increase in patronage, too, for the socalled program pictures as tv's novelty wears off."

Inside Stuff—Pictures

The Schenectady (N.Y.) Union-Star in an editorial Thursday (26) on the recent report of the N.Y. State Joint Legislative Committee on Problems of the Aging, which criticized motion pictures for portraying senior citizens as "gabby grandpas, meddling aunts and ancient tramps" and showing old age as "a trap, a pit, a helpless end," declared that "What gets us is everybody is becoming so sensitive, so touchy. If every movie, every novel, every play, were watered down to spare anyone's feelings, they would be exceedingly dull, and highly inaccurate. Life doesn't run that way."

"What gets us is everybody is becoming so sensitive, so touchy. If every movie, every novel, every play, were watered down to spare anyone's feelings, they would be exceedingly dull, and highly inaccurate. Life doesn't run that way."

"Movies are entertainment," continued the editorial. "They should be viewed always in that perspective. In entertainment one of the most important things is to be able to 'laugh at ourselves." Although the writer "never saw a newspaper movie that didn't exaggerate, didn't irritate professionally, didn't present an 'unfair picture,' he "neverlost any sleep over it."

The editorial cited Lewis Stone in the Hardy series "of a few years back" as one example of motion pictures "in which older persons have been accorded due respect." Pointing out that "the movies have been blamed, from time to time, for being unfair to about every group, from ministers to gangsters," the Union-Star said, "in many instances the charge probably stands up."

Universal Consolidated Oil Co. is reported having completed its 20th-Fox No. 2 well, which did about 750 barrels of oil daily of 24-degree gravity crude. It is a 7,000-foot well in the previously-discovered deep zone in the Beverly Hills oil field. Los Angeles basin, and located on the film company's 260-acre lot. This well, together with the No. 1 well, have been shut in, awaiting installation of needed tankage and pipeline facilities. Universal company plans to start a third well on the same property in the next 30 days.

A number of coproductions both in Britain and on the Continent are now using American performers. If "High and Dry," which preview audiences have received very warmly, manages to break new ground, observers feel it'll be a further tipoff to where the key to the U. S. market is hidden. It's noted at U that Britain in the past has turned out some pix with high commercial appeal, such as "Blue Lagoon" and several outdoor adventure stories like "Ivory Hunters."

Trouble is that such pix have a tendency to copy Hollywood. At first, only two or three men would serve on the committee, which would constitute the official channel of complaint by any labor party on either side. "You shouldn't look for miracles," O'Brien commented, "but it's a great step forward." Both the U. S. and the British groups will have to officially approve the setting up of the committee,

of the committee.
O'Brien's visit to the U. S., which he feels was long overdue, was precipitated by a Hollywood Films Council resolution, transmitted to Douglas Fairbanks Jr., who is making ty pix in London. The Council expressed itself in the strongest terms against "runaway" tv film production from Hollywood at a time when, due to slackening production, employment had dipped. The Council also has taken other steps to pressure tv film producers and makers of theatrical pix from taking their cameras abroad.

What's the Fuss About?

What's the Fuss About?

What's the Fuss About?

The British hold the position that, with Hollywood taking out \$23,000,000 a year via theatrical film showings in England, there must be a certain reciprocity; that the Council's position violates a traditional U. S. policy favoring free trade, and that anyway U. S. ty film activity in Britain isn't worth making a fuss over.

O'Brien said that, in his meet with the Council, he was told that the group didn't have Britain so much in mind as the cheaper labor countries like Mexico, Italy and France. "I made it quite clear—and I believe they understood me well—that the British unions will never accept the view that Britain is a cheap labor-producing country, that we will not be tied up in the Council's or anyone else's mind with Mexico, France or Italy; that we are an old trade union movement where everyone gets paid exactly the negotiated contract rate."

He added that, if British film wages were lower than those in the U. S. films, even though it would take some adjusting.

O'Brien, after confabs with Mo-film Picture Assn. of America prexy Eric Johnston in Washington, then attended and addressed the IATSE convention in Cincinnati and from there went to the Film Council. After that he atended a Regina, Can., labor conwow at Santa Barbara.

Small Ratio

He stressed that the Film Council hadn't appreciated the British position until he had explained it. Among the points he made on the Coast—apart from the fact that tv film production for the U.S. in Britain was negligible—was that the ratio of British pix on British screens also is very small, in his screen also in the O'Brien dock Most of the rest are American.

When he first arrived in the U.S. in July, O'Brien declared that, unless a settlement was reached and the American unions' position was properly modified,

Final week in August served as

Come May, MPEA will examine the Italian situation to find how many permits haven't been picked up by its member companies. There is a firm expectation that there will be quite a few. Out of this surplus, MPEA will then assign an additional two to U and return one to RKO. It's uncertain whether the extra license granted by the Italians will also be returned.

granted by the Italians will also be returned.
Pickup of only 90% of the licenses provides a loophole for the Americans in that no official "shifting" will take place. In April, the Italians will simply be informed of who is to get the remaining licenses. Whole problem stems from U's contention that it occupies a new and more prominent place within the industry and that the divvying up of the Italian permits, based on last year's schedule, was unfair and unrealistic as far as U was concerned.

MEX TOURIST TRADE SOARING THIS YEAR

Mexico City, Aug. 24.

Mexico City, Aug. 24.
Optimism about tourism and its other benefits for Mexico is mostly limited to official-dom. While there are few pessimists because visitor trade is an established, important industry here, some contend that this biz continues to benefit only scattered sections of Mexico. Tourism yielded Mexico a net profit of \$165,122,000 in 1953, it is officially stated. The gross return was \$302,307,000, the coin spent by visitors.

But Gustavo Ortiz Hernan, gov-

the coin spent by visitors.

But Gustavo Ortiz Hernan, government's tourist de part ment chief, declares that since July 1, tourism, particularly American, has been "unprecedented." He points to turnaway biz by local hotels, remarks that this upswing is the result of coordination of the tourist trade and the government's efforts to attract wisitors. However, he cites no figures regarding the number of tourists and their spending. Much complaint continues over

Much complaint continues over expectations that the 8c peso would draw tourists because of more-perdollar was not fully realized. Some blame this failure on the fact that private and government tourist organizations did not make the most of this cheaper peso. Others stress that ment private have released of this cheaper peso. Others stress that many prices have risen so high the dollar doesn't buy much more than the 11.6c peso.

Bring Their Own Lunches

Bring Their Own Lunches
Tourist caterers say "there are quite a few of them, but most of the tourists seem to have left their spending money home or are bringing their lunches with them." A check of spots depending mostly on trippers reveals that spending is way down this season.

Limiteed benefits to Mexico from tourism are caused by overconcentration of that trade in only three belts—along the L. S. border, here and Acapulco, the Pacific portresort. Official and private interests are huddling on this. Headed by Alberto Amaya, counselor of the government's tourist department, means are being sought to spread visitors to other sectors of the country,

Motion picture and film theatre shares in last week's market surprised everyone by the way this segment of the amusement group held up against four successive days of selling in Wall St. It was strictly a "down" stanza on the stock market, with the averages of such representative groups as in-dustrials, rail and utilities taking a beating all along the line. But picture and theatre stocks sported gains or just about held even. And Loew's as well as 20th-Fox hit new highs for the year—all in the face of general and persistent selling.

Loew's went into new high ground on Wednesday (25) and then hit a new '54 peak of 1834 Friday (27), closing the week at this price. It was an advance of better than one point for the week. this price. A superior of the week. Tine Young Lovers
Odile Versois and newcomer David Knight. A sturdy b.o. proposition with strong exploitation possibilities which may make it a profitable entry in the U. S. market.

It is a development of the elementary boy meets girl theme. It is a development of the mentary boy meets girl theme. It is as development of the daughter of an Iron Curtain legation. The girl finds she's being follows and to stripper himself. Miss O'Hara looks good and Knox handles himself capably. Little kaughter of an Iron Curtain legation. The girl finds she's being follows and the Legation fear that confidential information is getting into the hands of the wrong people, so the girl is ordered home after she's told her father she's expecting a baby and the boy is placed under arrest pending removal to Washington. In the end, they both make a successful bid for freedom.

The script adroitly emphasizes

pecting a baby and the boy is placed under arrest pending is placed under arrest worlds, and there is no third place to go. From the Embassy point of view, any man is a suspect if he keeps questionable company, while the girl is accused of betraying her country and the revolution. The plot unfolds tenderly by pinpointing the emotions of the young lovers without indulging in unnecessary politics, using rare touches of humor to releve a tense situation with great skill.

Under Asquith's polished direction, the two leading players bring a genuine freshness to their roles, and give point to the arty touchs used by the merger to bring home the sensitive side of the story.

Odile Versois and David Knight dominate the screen and elevate the plot. Joseph Tometty, David Kossoff, Paul Carpenter and Theodore Bikel play the leading support roles, each contributing a measure of sincerity and conviction. Jack Asher's camerawork is excellent. Frederick Wilson has edited with a sure touch.

Asincere, rather than sensational effort to present the case for nudism is made in "Garden of Eden." On that score, it comes off okay, since it bears the stamp of approval of the American Sunbathing Assn. As a feature release, it is obvious that it falls in the exploitation class and should capture a goodly share of the ballyhoo be. in the situations that book that type of subject.

Walter Bibo produced for Excelsior Pictures Corp., and uncovers the subject of nudism through the medium of a stock drama that permits the principal action to take place at the Lake Como Club in Florida. There's aparticular skill shown in the direction by Max Nosseck, nor a the original script he wrote with Nat Tanchuck, although, by developing a respectable sense of humor in some portions and an okay idyllic feel in other spots, the offering gets by sufficiently. Another variation on the eternal riangle tone man and two women is used in this German film. To give it international exploitation values, pic stars Swedish actress Signe Hasso and has mainly been shot against the Swiss Alps. Pic has the ingredients to lure the average local patron, but because of some flaws this does not look likely to appeal to U. S. patrons.

A young doctor falls in love with the wife of a dangerously ill man. Latter dies of an overdose of medicine deliberately given him by his wife. Her lover deserts his duty as a doctor and doesn't report this to authorities, but leaves her. Later, she attempts to win him back the has meanwhile fallen for another woman't rying some blackmail. Although the dangerous woman gets killed in a bobsied accident, his doctor's conscience urges him to go to the police with his second femme sweetheart willing to wait for him.

Unfortunately, the basically interesting story has not been exploited to advantage. The story-telling lacks plausibility, too often bordering on the banal. Arthur Maria Rabenalt's direction is not very imaginative, but obviously he was handicapped by the material. Acting is varied. The most polished performance is given by Miss Hasso as the dangerous woman. Karlheira Boehm, usually a good actor, is not more than a sympathetic doctor in this. Others, with the exception of Claus Biederstaedt, turn in more or less mechanical performances.

Technically, the film has the standards of an average German production. Some fine camera shots of the Swiss Alps are standout.

N. Vlassov and S. Shenin contribute sterling work with their cameras whenever given an opportunity. Many of their traveling shots are excellent. But neither has quence, which is confined strictly to the limits of a single, modestly-furnished room. Direction of T. Lukashevich and B. The Sovcolor still does not impress although more even in hues than in previous efforts. The trouble is that the reds are not reds, the browns not browns and even one sunrise scene is so unrealistic that it looks staged. However, Sovcolor now has reached the stage where it compares favorably with some recent efforts by American companies, which still are far from perfect.

Some exhibs have displayed ingenuity by improvising vaude turns out of legit talent because genuine vaudeville acts are not numerous enough to supply all pix houses with talent.

This in itself has defeated the designs of backers of the law since they had hoped to create a new demand for tango vocalists. Exhibs were smart enough to book only talent with boxoffice appeal. Huddles with disk dealers, agents and nitery managers have been productive of obtaining improved acts in many of the better houses. Oddly enough, the general public so far has displayed so little interest in the vaudeville part of the cinema shows that they often time their arrival at the theatre to coincide with the start of the feature film.

Peace for British Film Biz Looms As 4 Assns. Huddle on Eady Fund

London, Aug. 31.

A peace pact for the British picture industry may be negotiated tomorrow (Wed.) when the four major trade associations resume their discussions on the future of the Eady Fund. Hopes have been running high, during the past few days, and trade toppers are showing, their first signs of optimism since the Cleavage of optimism since the Cleavage of optimism since the Cheavage of optimism

now being examined by the exhibs' accountants.

Origin of the present dispute can be traced to the prelim confabs started the latter part of last year on the future of the Eady Ievy. The CEA submitted a hardship claim and contended that unless the government approved an admission tax concession, their contribution to the production pool would be limited to a maximum of \$4,450,000.

The producers accepted the CEA argument and supported the exhibstax relief claim in Parliament and the press. The April budget brought a tax concession worth \$9,800,000 and the RFPA lost no time in claiming their share, even asserting that the minimum Eady coin necessary for production to prosper would be around \$9,800,000. This represented an increase of \$1,400,000 on the estimated revenue under the schedule then operating.

Producers Surprised

Producers Surprised

Producers Surprised

To the surprise of the producers, the CEA nixed the claim for extra Eady income. It instructed CEA members to pay their levies at the lower rate as from the current financial year which started this month. This decision led to the walkout of the two Rank circuits. It was followed by a decision by some of the other major groups to pay the difference between the old rate and the new into a suspense account for eventual distribution.

Arguing that producers were being deprived of their due share of the tax concession, the BFPA appealed to the Board of Trade to arbitrate, but governmental action will only be necessary if the current negotiations fail to produce a settlement. Any demand for legislation would have to wait until after the present Parliamentary recess in October, and the industry doesn't want to wait that long nor is it particularly anxious to attract more state control of its affairs.

ment for the year ended last June 28, two out of three companies in the J. Arthur Rank Group showed big improvements in gross earnings. One torporation, Gaumont-British, showed a gain in net profit of better than \$1,000,000. G-B net rose from \$800,000 to \$1,853,700 in the year, with the ordinary dividend being raised from 742% to 12½%. The Gaumont-British gross soared to \$10,158,000 as against \$8,748,200 a year ago.

Odeon Theatres gross roared ahead to \$21,571,000 for the year, an increase of \$2,425,900 over the previous year. As a result, the company restored the dividend with a 15% distribution on the common stock. However, because of increased taxation, Odeon net profit dipped to \$2,887,000 as compared with \$3,333,500 a year ago. An additional \$1,784,180 was wiped off the bank loan, making a total of \$31,132,400 reduction in the last five years.

Creation of a fourth major Brittheatre circuit was accomplished last week when the Essoldo Group acquired control of S. M. Associated Cinemas, giving a combine booking strength of 171 houses. The 65 S.M. theatres were involved in the takeover.

involved in the takeover.

By far the biggest theatre deal since the last war, the Essoldo buy involved the acquisition of assets valued at over \$7,000,000 although the purchase price is not being disclosed. W. Southan Morris, managing director of the S. M. group, remains with the company on a longterm pact. Soi Sheckman heads Essoldo.

Contracts for the deal were sig-natured by the two parties last Wednesday (25), and the takeover took immediate effect. For the time being, Essoldo will run S. M. as a separate company. Complete integration of the two circuits will be determined in due course in the light of experience.

Apart from the actual coin in-volved, the deal has particular local significance as it may lead to a complete reorientation of the British booking system which has hitherto been determined by the three major circuits, Odeon and Gaumont-British (both controlled by Rank) and Associated Eritish Cinemas.

Long Agitated for Fourth Circuit For some time, certain sections of the industry, notably the studio unions, have been agitating for a fourth circuit in order to establish greater booking freedom for independents and to end the make or break grip held by the majors. Under the rigid releasing system, which compels many indie theatres to play the circuit releases, producers have claimed that there's little hope of any gravy for a picture squeezed out of the major circuits.

Although the combined strength of the Elsoldo-S.M. group is substantially below the three top circuits, major and indie distribs believe that the deal will change the balance of power and encourage the producer who does not have an affiliation with the circuits. The two Rank groups control around 550 theatres, and ABC more than 400.

Seen as Good News for 20th-Fex Takeover by the Essoldo circuit here of the 65-theatre S. M. Asso-ciated Cinemas is seen here as spelling good news for 20th-Fox since both of these indie circuits are committed to Cinemascope, Essoldo, which is expanding, has some 30 houses equipped for C'Scone.

This is of importance to 20th-Fox which depends on the indies in Britain to carry the C'Scope ball. The Rank circuits have 75 C'Scope installations but 20th-Fex isn't booking its C'Scopers with them.

Several newspapers have set ad deadlines for theatremen a day earlier than usual. It's understood the dailies have added special proofreaders to scrutinize copy for sex allusions.

Loew's, WB and 20th appealed to the Supreme Court, which in June, 1950, affirmed the judgment and thereafter denied a petition for rehearing. WB and 20th then entered into consent judgments. Loew's then also decided to end the lengthy litigation and started negotiations with the Government looking toward a consent judgment. After prolonged confabs, a judgment was agreed upon between Loew's and the Dept. of Justice and approved by the Court on Feb. 6, 1952. It provided that Loew's separate its holding by Feb. 6, 1954. Terry O'Neill, Interstate Television's eastern sales chief, left for Europe late last week. Purpose of the junket is twofold, with the salesman out to investigate possible celluloid buys in England and to go to the Saturday (4) start of the British Pathe convention in Monte Carlo.

Striking departures from the traditional manner of selling and distributing films, on an industry-wide basis, conceivably could come about when the newly-formed Disabout when the newly-formed Dis-tributors Corp. of America swings into fullscale operation. For years, major company execs have been anxious to cut costs on peddling pix to relatively small money ac-counts. DCA has a plan designed to accomplish this; if it works, others doubtless will follow suit.

others doubtless will follow suit.

DCA's idea is to devote its major sales effort to up to 4,000 theatres. These are the firstruns and the better nabe and suburban situations. The balance of exhibition is being placed in a "secondary selling" category. The new outfit, which is headed by Fred J. Schwartz, hopes to license these accounts on a mass basis. Large groups of theatres with the "secondary" billing would be sold at the same time through central agencies, such as local exhib trade associations.

associations.

It's figured in major company circles that close to 80% of domestic distribution revenue comes from 3,500 to 4,000 theatres. And covering the field for that 20% balance is commensurately more expensive in terms of distribution overhead and man hours. One distribution v.p. in N. Y. claimed that his company actually loses money in servicing outlying, low flat rental situations but continues the practice "to keep the theatremen in business and give our pictures the widest circulation."

The plan to bring trade organizations into the booking act is a surprise feature of the DCA program. Each such exhib unit will have to set up special machinery for such an operation and make adjustments in organizational constitutions. But according to Schwartz this tune of calling to adjustments in organizational constitutions. But according to Schwartz, this type of selling will mean savings to exhibitors in the form of lower rentals. If the theatremen can be convinced of this, undoubtedly they'll give the plan

Lupino outfit, is offering all its product under the guarantee plan, negotiating theatre by theatre, city hegorating theatre by theatre, by city and situation. As explained by Levin, the system is similar to bidding, except that exhibs sign for the picture before it goes into production.

Levin and Young are currently in New York for the opening of "Private Hell" Friday (3) at the Paramount. They regard the Labor Day weekend engagement as something of a coup, since they feel this is the first indie-produced and this is the first indie-produced and indie-distributed film to play the Broadway showcase. This accomplishment plus the number of other engagements set for the picture, Levin feels, is due partly to exhib reaction against the 50% terms demanded by the major distribs for most of the current product available.

able.

Based on the reception of the guarantee plan, Young, who is prexy of the production company, is planning a schedule of six pictures for 1955. This is Filmakers' most ambitious program to date. It has completed four pictures this year and is weighing the start of a fifth. Young is currently negotiating for a property which Miss Lupino will direct. Company's first experience as an indie distrib was with Filmakers' "The Bigamist," released before the introduction of the guarantee plan. "Mad at the World" and "Crashout" will follow "Hell" as guarantee pictures. "Hell" as guarantee pictures.

"Crashout," produced by Hal
Chester, was partially financed by
Filmakers. "This is the first time
we've financed the work of an outside producer," said Young. "We
liked the story and thought it was
a worthwhile investment. We don't
know if we'll do it again in the
future."

Pergarding the release of outside

Regarding the release of outside films. Levin said his company would distribute other producers' pictures on a limited basis. "We're pictures on a limited basis. "We're not soliciting outside pictures," he said, "but if we run across the right product and can make the right deals, we'll do it. We have a capable production company in our own right, but if we can attract the right kind of producers, we'll handle them."

handle them."

The guarantee plan, according to Levin, is geared mainly for the main and sub-key situations. For subsequent selling to nabes and later-date situations, Filmakers sales org, made up of its own men and indie reps in various territories, will serve as the selling agent. Outfit is repped in 28 exchange cities.

Decision to form a distribution company, according to Young, was prompted by dissatification with the treatment received from major distribs. Filmakers previously re-

the treatment received from major distribs. Filmakers previously released through RKO. "We always came in second," said Young. "The same thing happens to every independent producer who releases through a major company. It's too expensive and it takes too long to collect your money. We're our own bosses and we can devote full time to selling each of our pictures individually."

Young said the production com-

Young said the production company is attracting star names "because of our record so far." Company, he pointed out, works on a deferment and percentage basis.
Young and Miss Lupino, who serve Young and Miss Lupino, who serve as writers and producers, with Miss Lupino on occasions lending her services as performer and director, work on deferment basis. Name performers hired for the pix are given a percentage. Working on this basis, Young noted that "The Bigamist" was brought in at a negative cash cost of \$50,000. He said that in seven and half months of release it had grossed \$700,000, representing some 5,500 domestic dates. "The Bigamist." Young said, "proved we were right in organizing our own distribution company. We paid off our negative cost in 90 days."

of undertermined origin caused damage estimated at nearly \$100,000 in Hub's film district last week completely destroying the Embassy Film Releasing Corp. storage building on Piedmont St. Considerable water damage also was reported by Eddie Comi, whose Massachusetts Theatre Equipment office and warehouse is adjacent to the Embassy storage stall. Embassy execs report that sixty prints of "Duel In the Sun" for which the company was the New England distrib, were lost in the blaze. the blaze.

This is the second fire of major proportions in this area within a week, the Town House restaurant less than two blocks away being gutted by a mysterious blaze last week.

since Metro couldn't supply a

print.
Distribs' answer is almost uniform. Universal, for instance, said it had put out 475 prints on "Glenn Miller Story" and, anticipating the demand, had ordered 450 prints on "Magnificent Obsession." "There's no deepdyed plot here to make exhibitors play behind their availability," a U exec held. He added that the company was aware that this today die faster than ever and that this necessitated a fast playoff. In the past, U used to buy around 325 Technicolor prints.

"You can keep increasing the print volume, but eventually you run into the law of diminishing returns," he stated.

Same attitude is taken at 20th-Distribs' answer is almost uni-

turns," he stated.

Same attitude is taken at 20thFox whose prexy, Spyros P.
Skouras, recently engaged in a
correspondence on the print situation with Independent Theatre
Owners of Ohio. Replying to a
charge of "false economy" in putting out insufficient prints, Skouras
cited the cost of a fourtrack magnetic C'Scope print as between
\$650 and \$800.

Execs at 20th say, what with Execs at 20th say, what with the still limited number of situations equipped for stereo sound, it costs them \$75 to service each booking. More than 400 prints were made on "The Robe" for domestic distribution. Due to the limited number of installations, a good many of these prints are sitting on the shelf, of no use to the company. As for the optical prints of C'Scope pix, 20th claims that they're just slow coming through.

At Metro, it's said that a Tech-

At Metro, it's said that a Technicolor film usually requires 425 prints. On its CinemaScopers, Metro turns out 275 magnetic and between 125 and 150 optical prints. between 125 and 150 optical prints. However, like 20th, it has difficulties getting the latter made. Exec at M-G blamed the industry's fast switch to color as one important factor. He pointed out that, by 1955, M-G's own plant would be in a position to turn out 2,500,000 feet of Eastman color print a week.

He opined, too, that the dropout of the "little" picture may have something to do with the shortage claimed by exhibs. "They used to buy all sort of films," he said. "Now, everyone wants to buy the big pictures. When the major companies had small attractions for sale, the theatres went to the competition in the hope of getting them cheaper. So we dropped the so-called B's. Now you have the consequences." He opined, too, that the dropout of the "little" picture may have

sequences."

There's a strong feeling on the part of the distribs that, with the evolving pattern of moving up clearances, it'll be a good while before this situation is worked out. "We've got to use our head," was one distrib comment. "These prints are expensive. There's no use having them unless you know they can be working. Somewhere along the line there must be a cutoff point." It's evident that the distribs consider a quota of between 400 and 450 prints on a major pic as representing that point.

Warner Bros. "A Star Is Born" one of the outstanding pre-sold pictures in recent film history. Although only in her early 30s, actress is already a show biz legend. Mere announcement of her

with requests for material on Miss Garland.

The buildup started on Sept. 7, 1952, when the announcement of "A Star Is Born," first appeared in print. The film was scheduled to start after the birth of Miss Garland's baby in January, 1953. However, actual production did not start until October and the film remained before the cameras for some nine months. It was a long production period by Hollywood standards and the stanza was marked by all sorts of rumors relating to difficulties on the set. However, it all contributed to the remarkable buildup. Column breaks, newspaper and wire service stories, magazine articles and picture layouts poured in. No less than a dozen separate magazines used headlines on feature stories about Miss Garland called "A Star Is Re-Born." These included such topline publications as Look and Collier's.

Vaude Hypo

Vaude Hypo
Plagued by illness and personal
difficulties since her 1950 film appearance, Miss Garland made a
sensational comeback at the Palsensational comboack at the Palace, N. Y., where she personally revived the two-a-day in an unprecedented 19-week run. The Palace vaude stint started a flood of rumors about her future picture plans and resulted in keeping name constantly before public.

Her hold on fans is evidenced in the unusual number of requests pouring into the Astor and Victoria Theatres, N. Y., asking when tickets for the picture can be bought. "Star" is set to open at both theatres for day-and-day runs early in October. World preem will be held at the Pantages Theatre, Hollywood, Sept. 29.

Heavy Ad Campaign
Realizing the hot property it has on its hands, WB is giving "Star" unprecedented backing. According to pub-ad chief Mort Blumenstock, the largest national magazine and Sunday supplement advertising campaign in WB history has been set to herald the Cinema-Her hold on fans is evidenced

tising campaign in WB history has been set to herald the Cinema-scope - Technicolor production. Scheduled to begin end of September to coincide with the world preem, it's estimated that the national ad campaign will reach a total readership of 170,000,000. The ad campaign will run from September through the end of the year. In addition, "Star" will receive day-and-date newspaper ad campaigns to coincide with national playdates and a tv spot campaign in the various distribution areas.

Plans for the New York opening are now in works. Talks with officials of City Investing Co., operators of the Astor and Victoria, are set for after Labor Day. Numerous preem ideas have been advanced but no final decision has been made.

made.
One thing is certain about the New York engagement. Miss Garland's name will be up in lights in perhaps the largest letters yet seen on the Main Stem. WB will construct a giant spectacular over both the Astor and Victoria Theatres. It will cover one whole block extending from 45th to 46th Sts. on Broadway.

McConnell Pic Bicg To Go On Despite His Death

Hollywood, Aug. 31.
Warners is going ahead with the screen biography of Capt. Joseph McConnell in spite of his recent death. Picture will go before the cameras late this year.

Henry Blanke will produce "Triple Jet Ace" with Alan Ladd in the title role and June Allyson costarring as his wife.

statement said that it was "shocked and amazed by the insensitive attitude of the sales heads towards the exhibitors critical problems." The exhib org's board decided on the Government appeal following meetings in New York with the various sales chiefs.

Reprisals Planned
While Abram F. Myers, Allied's general counsel, has been entrusted with the job of drafting for presentation to Allied's 1954 convention "a bill suitable for introduction in the next session of Congress." the exhib org is planning reprisals against Warners and Columbia. While not specifically stated and couched in extremely careful language, the reprisal action nevertheless implies some sort of boycott of the films of these two companies.

Allied's prexy Ben Marcus has been authorized to appoint an Emergency Defense Committee that will be charged with "the responsibility and duty of formulating and averageing to Allied regional asso-

Although individual exited the property tracescrib the property have to act pictures." Although individual exhibs do not necessarily have to accept the recommendations of the committee, they will be told whether or not it's advisable to pass up the picture or pictures of a particular company, according to an informed Allied source.

Allied units have been requested to form committees to cooperate with the Emergency Defense Committee "in the collection and dissemination of pertinent inform-

However, it is stressed that it's up to the exhibitors "to take such action theretened their corrections independent."

it is stressed that it's up to the exhibitors "to take such action thereto as their respective judgments dictate and as may be most beneficial to them."

Not Too Deeply

Allied apparently does not want the Government in the film business too deeply, since it describes the proposed bill as one "which if enacted would afford its minimum of regulation necessary in the public interest to preserve the theatres of the United States for the use and employment of the Ameraires of the United States for the use and employment of the American people and for other purposes" (a profit to exhibs for their investment and efforts). This can only be achieved, according to the Allied board, "by a just and equitable division of the boxofffice dollar as between the distributor and the exhibitor, thereby preserving the profit incentive without which no business can survive in our free American economy."

The Allied board stated that it

COMPO Poll Of 'Bests' Bogs Down

The Council of Motion Picture The Council of Motion Picture Organizations' proposed audience participation poll to select the "bests" in motion pictures appears bogged down. Originally scheduled to get off the ground this fall, the all-industry gimmick designed to spur interest in picturegoing seems to be having trouble getting out of the barrier gate. Some cynical industryites who have witnessed the disappearance of other well-intentioned "booster" ideas fear the poll may have the same fate as the industry tv show and the long-proposed travelling exposition.

fate as the industry tv show and the long-proposed travelling exposition.

COMPO has had no meetings to implement the poll plan and none is immediately scheduled. The only positive action taken recently was Allied States Assn's approval of the idea at its recent board meeting. The delay in setting up a positive plan for the conducting of the poll, it's indicated, may be due to the necessity of receiving full approval of the various components making up COMPO. So far, only Allied has given the idea an official nod.

Advocates of the plan discount the pessimist wailing by pointing out that the whole idea cn be put in motion in 45 days. However, even this time period would be beyond the original early fall target date. A later date would cause a conflict with other "bests" awards and could conceivably detract from the N. Y. Film Critics citations and Academy Awards.

First 'HQ' Cop-Pic Rolls Out of Studio

New firm. Headquarters Productions Inc., has finished the first in a series of half-hour telepix about New York's police force starring Jay Jostyn. Outfit, helmed by Thomas Prezioso, is seeking a national bankroller but indicated it'll shoot the remaining 12 in the first cycle if one isn't lined up within the next three weeks.

Shot at the Bedford Studios in N.Y., story, called "Headquarters," is based on the files of ex-city detective George O'Connor. Scripts are being done by Maurice Barrett.

'Living' Shapes

"Living" registered \$31.000 in New Orleans as against \$17,000 for "Money From Home." Gross in Chicago of \$92,700 was nearly twice as much as "Caddy" opening session, and went to better than double in the second week.
"Living" registered \$14,000 in Jacksonville opening week as against \$7,000, the biggest done by any previous Martin & Lewis comedy there in the big winter season. In Baltimore the picture ran for three weeks, which is unusual in itself, and got nearly double the money grossed by "Money From Home." The story is much the same in other keys where "Living" has opened.

The fact that most exhibitors have played up sexy cutouts of Sheree North, featured in the pic in much of the advertising and bally is regarded as being a plus factor. Continued from page 4

the major motion picture studios, as the lots continue the trend of slicing term deals.

Trend began a couple of years ago, when the studios began slicing number of writers on their payrolls in favor of hiring them on a picture-to-picture basis. It also fit in with the Hollywood pattern of fewer but bigger pictures on the various production skeds. For the first time in history, it's believed, one studio—RKO—has no writers on the payroll, either terms or others.

Since the new/pattern began, writer employment slid from 200 about two years ago, to 123 last Sept. 1. Then it dipped to an all-time low of around 90 last November, rose to 109 last January, and appears to be stabilizing, with the

Columbia is status quo, with 24 scribblers, same number as last fall. Big difference here, however, is that Col's tv subsid, Screen Gems, has 18 writers at work, a figure in excess of all the majors except Columbia and UI. Since last January, there's been an unswing in writer employment at Columbia, Republic. UI and Warners, with a downbeat at Metro. Paramount, 20th and RKO. But without exception the general trend continues to emphasize the picture-by-picture deal, with regular tickets being few and far between.

ABC-TV Chi-N.Y. Web-Within-Web May Set New Daytime Sale Pattern

Chicago, Aug. 31.
The Sterling (Red) QuinlanJohn Mitchell ABC-TV combine,
which last week launched its network-within-a-network tieup between the Chi and New York o&o's,
has come up with a new autonomy
wrinkle. The two o&o veeps are
moving further into the parent
web's daytime vacuum by pitching
shows to the ABC-TV affiliates via
a program service adjunct they're
in the program service adjunct an offer-

In the process of establishing.

The program service plan offering daytime shows to the individual ABC-TV outlets for hometown selling on a fee basis is admittedly experimental in its opening phases. The project, however, has the okay from AB-UP prexy Leonard Goldenson and if it proves feasible in terms of station acceptance it may well set the pattern for the neiwork's daytime operation which currently is confined to the early morning "Breakfast Club" simuleast. Similiar plans reportedly have been studied in theory by NBC-TV and CBS-TV as a guide to longrange planning.

As outlined by Quinlan, the venture can serve to fill the daytime needs of the web's affiliates by providing them with live strip shows for local selling, at a cost to the stations that would be less than if they programmed the time themselves. As with Quinlan and Mitchell's own two-city hookup with Chi's WBKB feeding some-two hours of afternoon programming to its N. Y. sister station WABC-TV, the program service setup is hinged to the fact that ABC has the N. Y.-to-Omaha cable under lease from 2 p.m. so there are no extra line costs.

First program to be offered will be Burr Tillstrom's "Kukla, Fran & Ollie" which has been purchased cross-the-board on WBKB and WABC-TV at 6-6:15 p.m. (CDT) by Gordon Baking. The two-city client will have first picks on those stations within its marketing area. The price tag for KKFO, which is slated to be offered to the affiliates a couple weeks after its Monday (6) starting date for Gordon, is currently being worked out between Quinlan and Till-strom. Plan, however, will be set up on a volume discount basis, with the price decreasing to individual stations as the number of "client" stations increase.

It's figured that "Kukla" is a natural to teeoff the venture since the show has a national rep which should require a minimum of preselling to the station managers. And with the price tailored to the size of the market, set circulation and the station's own rate card, it's argued that the outlets can offer

afford.

Second show to get the co-op treatment is "Creative Cookery," which will be aired over the 18-station "round-robin" cable look between N Y, and Cni starting Friday (6). Show airs daily from 11 to 11.55 a.m. (N. Y, time).

Clearance For 'Tonight' Pledged

Chicago, Aug. 31.

Despite early indications that NBC might have a problem on its hands getting together a network of stations that would attract sponsors for upcoming Steve Allen "Tonight" show, clearance problem is now "in the bag" with certainty that at least 30 basic stations will be going along for the 90-minute late night ride when the show preems last week in September.

There was some apprehension among network execs when some of the larger affiliates (the 'ery ones that had been carrying the torch for late night to live programming) served notice on the web that due to longrange commitments they would be forced to bypass "Tonight." However, they have since had a change of heart and notified the network to "count us in."

Meanwhile, network radio continued its decline, dropping to a four-network six-year July low of \$9.567,329. Last July the total was \$12,228,249. Total network figure for the first seven months was also well under last year's total, \$34.093,643, compared with \$95,001,140. CBS continued to lead the pack, with \$3,889,547 in July, but this represented a 7% drop from last July. NBC, with \$2,127,192, dropped 26% from last July, while Mutual, with \$1,451,767, dropped 5%. ABC, despite the loss of some nighttime half-hours, had the least decrease, 0.7%, with a \$2,098,823 gross for the month.

Stork Club' Dry **Run: New Format**

Saturday (4) will witness ABC-TV's "dry run" of the new "Stork Club" format, a week in advance of its debut on that network, in what boniface Sherman Billingsley calls "the most natural hour for a nitery show.—Saturday night at 10 to 10:30." By coincidence, tv production veepee Charles M. Underhill, who supervised "Stork Club" when it first came on the air for CBS-TV, is now in a parallel position with ABC and will personally handle the project.

The American "traditional night out" — Saturday—is figured by ABC-TV sales department to be a "natural" for a cafe show, instead of the week-night 7 or 7:30 p.m., as on divers occasion heretofore—an hour which Billingsley knows, from his own family life, presents a problem for adult lookership when youngsters in the family are battling for the video set for their own action films, kid shows, and the like.

ABC's intensive "dry run" is necessitated (1) by some \$150,000 worth of new video equipment, which (2), will have greater mobility utilization because of (3), the new format.

This calls for, in addition to

bility utilization because of (3), the new format.

This calls for, in addition to Billingsley's personal interviews as host with the sundry socialite and show biz celebs at the now renowned "Table 50" of the Stork Club, a greater flexibility. This means an exploration of all environs of the eight floors that comprise the Stork Club—the upstairs private dining rooms, the wine cellars, the sundry kitchens, the main room, the sacrosanct Cub Room, the bar, the bustling East 53d Street itself (with celebs alighting in cabs and private cars), and the like. Of Time & 'Lucy'

Emergence of "Public Defender" as the No. 1 rated show on the New York Nielsens for the four weeks ending Aug. 7 has deep significance both for NBC-TV and CBS-TV, for above all it attests to the continued pulling power of the Monday night at 9 ("I Love Lucy") slot on the Columbia web. "Defender," whose own status as a Philip Morris entry in '55 is still in doubt, has been doing summer duty for "Lucy." In its regular Thursday night berth, to which it returns for the balance of the year when "Lucy" goes back, it has failed to create any unteward excitement or enthusiasm. The continued impact of the Monday CBS time is of equal concern to NBC because of the latter web's cherished hope that the new "Medic" series, going in as the competition, will reverse the tables and end the longtime Columbia supremacy.

WGN-TY'S DAYTIME RATE OVERHAULED

Chicago, Aug. 31.

Chicago, Aug. 31.
With its nighttime schedule practically sold out and with the baseball telecasts ending soon, WGN-TV is currently revamping its day-time structure. First move has been to install a single spot and participation rate for the 9:30 to 5 daytimers, which in effect eliminates any premium charges on the station's participation strips during that period.

The new single rate, currently

ing that period.

The new single rate, currently ranging from \$120 to \$90, depending upon frequency discounts, has been worked out to simplify the WGN-TV supermart merchandising plan which is based on the advertisers' expenditures. For example, a client spending \$450 weekly for 13 weeks gets a week's display in A&P and Jewel Food stores; an \$850 buy gives the advertisers two displays for a week, and a \$1,250 weekly budgets earns a monthly bonus display.

TRADE WINDS IN BIG CHI BLOW

Chi: '54 Crossroads

Chicago, for this week at least, is the radio-ty capital of the nation with no less than five separate groups holding forth here in overlapping conclaves. The agendas of the different meetings cover practically the entire scope of radio-ty, 1954 model, from what's with network radio to what's with color ty.

Both the NBC-TV and the CBS Radio high brass are out in droves for their respective affiliate clambakes. The NBC-TV delegation, led by RCA board chairman David Sarnoff and prexy Sylvester (Pat) Weaver, are enscounced at the Drake Liotel today (Tues.) and tomorrow with practically their entire tele affiliation family of some 200 members. The CBS contingent, headed up by CBS prexy Frank Stanton and CBS Radio prez Adrian Murphy, open their two-session meeting tomorrow (Wed.) at the Edgewater Beach Hotel, with more than 125 stations represented.

Two sidebar meets are slated for Thursday (2). Temporary board of Television Advertising Bureau holds an organizational session designed to get video's new promotion arm off and running as soon as possible. Also holding forth same day will be the newlyformed Quality Stations Group, seeking a new taped radio programming exchange setup.

"Tex & Jinx" (McCrary) will be separated as an on-camera duo come next month, with Jinx (Falkenburg) going it alone though her spouse will be in a mastermind role. Another prospective casualty in the couple class has more serious overtones in the fadeout of "Faye (Emerson) & Skitch" (Henderson) from their quarter-hour strip. The pair are sans sponsorship in their 6:30 p.m. participation stanza and it's become an issue with the station management of "breaking up the leam."

Thus far Miss Emerson and Henderson have resisted these efforts at professional separation in the face of allegations by the outlet's powers-that-be that, while the stag side of the family is a top musician and conductor, he doesn't exactly rate an Equity card as a performer when applying himself to stints away from his basic role. A look at the multi-faceted agenda of the separate groups assembled would indicate a strictly upbeat tempo- for everyone concerned. Which is probably the case for the two-day meeting of NBC-TV affiliates with network high command, which got under way today (Tues.) at the Drake Hotel, For keynoting prevailing harmony and looking into an even brighter and more colorful tv future was the 800-word introductory posy tossed in the general direction of the David Sarnoff and "Pat and Bob" high network command by affiliate sparkplug Walter Damm, of WTMJ-TV, Milwaukee. In one of the alltime endearing eulogies which might have been captioned "Who took the Damm out of Walter," the erstwhile rambunctious sounding board for affiliate membership perhaps best reflected the "NBC-TV Story" in the intervening 18 months since the affiliate group last met at Princeton, N. J., in a near state of revolt. If this week's assembly develops into a sweetness and light chinfest, as it shapes up save for some minor issues, there would appear to be justification for it in light of 18-month transitional period.

87% Timt Exposure

Chicago, Aug. 31.
Robert W. Sarnoff, the administrative half of the NBC "Pat and Bob" team, told the NBC-TV affiliates here that by Jan. 1 about 87% of the nation's television families will be within pickup range of color tv programming.

By the end of the year, said Sarnoff, 82 NBC affiliated stations in the major cities of the nation will be equipped to carry the live color network shows.

Sarnoff Predicts **Tint Snowballing** From Here On In

Chicago, Aug. 31.

Predicting a snowballing growth in 'color circulation at the NBC affiliate meet here, RCA-NBC board chairman David Sarinoff indicated that the 10,000,000 colorset sale by 1959 may well prove to be underestimated. "We may well see once more that the vitality of the medium exceeds the imagination of its prophets," he said.

It's Sarnoff's belief color ty will attract a much larger share of advertising expenditure than ever before but warned that, while the potential is there, "We must keep our eye on what it takes to translate it into revenue."

Color television broadcasting could not have got off the ground without a strong network organization ready to take on the job. Black and white tv, and radio before it, would never have gained their great public acceptance and advertising support if they had not grown up around the network principle, and all that is included in its national program service. "If this principle is jeopardized, if networks are weakened in the administration of their business, the whole broadcasting structure as we know it is endangered," Sarnoff declared.

Sarnoff alluded to Sept. 15 "preem" of the new RCA 21-inch tricolor tube and demonstration of new color receiver "embodying major simplifications in circuitry." "These permit," he said, "significant reductions in production costs, which will be passed on to the consumer. We believe that this color receiver mill have enthusiastic public acceptance, and that it will provide the basis for volume production. Shortly after this demonstration we shall be able to be more informative than I can be today about prices, delivery dates, etc."

Chicago, Aug. 31.
Despite the outward one-big-family calm attending this year's meeting of the NBC brass with their affiliate television membership, there's one aspect of the Chiconclave that's causing no little concern. This pertains to the plight of the 128 optional tv stations linked with the network who feel they're getting the short end of the affiliation deal and want to know "what gives?" on getting some share of the sponsorship spoils. Too many shows, they lament, are being bankrolled on a 52-station basic network basis which, they protest, leaves them out in the cold.

Situation was brought to a head

52-station basic network basis which, they protest, leaves them out in the cold.

Situation was brought to a head by the recent pacting of Dow Chemical Co. for the new Monday night at 9 "Medic" series. The optional stations, which have already had an opportunity to witness the pilot film on recent closed circuit showing, share the enthusiasm of the network echelon in extolling "Medic" as one of the hottest program items to come down the line, but the enthusiasm is tempered somewhat by the fact that they're not being cut in for a slice of the Dow sponsorship melon, since client has negotiated only, for the basic network.

NBC knows that its got a toughie on its, liands in trying to resolve the situation and has scheduled the matter high on the agenda when the web brass sits down with the optional boys tomorrow (Wed.). To partially assuage the stations, NBC is coming up with several proposals which it hopes will be acceptable to the "fringe" operators. The network, for one thing, has promised a full-fledged campaign aimed at persuading the advertisers to embrace optional stations whenever and wherever possible. Further, the small market optionals will be asked to accept discount proposals as a client come-on.

However, the major proposal involves something of a "bonus" to the stations wherein they would be cuffoed three major shows on the morning, afternoon and nighttime schedules—namely "Home," "Howeld Doody" and the new Imogene Coca Saturday night show. These would be fed sans commercials, with the stations privileged to selithem locally (with the network cut in for a percentage of the local take).

Just how the stations will react to the plan remains to be seen, but

Just how the stations will react to the plan remains to be seen, but the web is hopeful that, until it can muster more sponsor support in terms of going full network at the prevailing high rates, the compromises will be acceptable to the stations.

Wha' Hoppened To **UHF—Asks Chi**

Chicago, Aug. 31.

If the "UHF Story" poses an industry problem, which it obviously does, there's very little of it in evidence here at the NBC Affiliate conclave, for these are the bluechip to boys flaunting their V's all over the Drake Hotel headquarters, with nothing but blue skies on the economic horizon. NBC's major U stake is in Norfolk, where it embraced WVEC-TV after losing WTAR-TV to the CBS competition in the days when NBC had an affiliate problem on its hands. But even Norfolk hasn't turned out as NBC had hoped, despite all the early exploitation-promotional drumbeating, Instead of the hopedfor 70% conversion, it's reported that not more than 50% of the ty populace can pledge allegiance to NBC programming, and the word now is that, come the new V in Norfolk, NBC will be climbing aboard for the affiliation and scrapping its U tleup.

Stanton's testimony evoked a demand for figures to show the need for o and o outlets. As a result, Examiner Donahue ruled that CBS be required to furnish data on the web's gross revenues for the past five years.

CBS-Columbia's CBS Show (A&A)

The CBS corporation is taking a cue from RCA—as well as continuing ith two practice—by doing a bit of bookkeeping sponsorship. With RCA long since established as a leading ladler of the largesse for a number of NBC radio and ty stanzas (including spectaculars) and CBS-Columbia not far behind in such identifications with shows aired under the CBS, Inc., banner, it's perhaps standard operating procedure by now to look for wherewithal from "Big Brother." But in the case of the CBS phono and radio-ty receiver outfit, it's a subsidiary that's being caused to latch on, whereas RCA is the head company. In either case, it's a bookkeeping practice, while also attesting to the faith held in given shows and priming the pump for same to impress sponsorial prospects. Latest f'rinstance is CBS-Columbia's pact for alternating the spending on "Amos 'n' Andy" in its returning 7:30-8 Sunday slot on CBS Radio. It's the first nibble since Rexall cancelled out on the

Part of the increase will be for a name host being sought in line with an upbeat in the tv trend to-ward conferenciers for live stanzas (such as "Justice") as well as the widnigary.

Washington Post, owner of the controlling interest in WTOP and WTOP-TV here, plans to buy the minority stock (45%) in the stations from CBS when and if the network is ready to sell. Intention to purchase was announced by Philip L. Graham, Post prexy, last week following testimony by CBS prexy Frank Stanton before the FCC that the web will dispose of minority interests in three stations when it obtains its quota of five wholly owned tv outlets.

Graham said he and Stanton have recently discussed the "probable" sale of the CBS interest and that he plans to purchase it "fifterms can be agreed on." He pointed out that the Post has right of first refusal in the event CBS desires to sell.

Regarding possibilities of the web selling to "other people who have indicated an interest in purchasing the shares as an investment," Graham said CBS "has kept us informed of these discussions which we regard as proper and helpful in shedding light on a fair value of the shares."

Stanton, testifying before Examiner Thomas Donahue at hearings on the contest for channel 11 in St. Louis, said CBS plans to sell the 47% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minneapolis and its 45% interest in WCCO and WCCO-TV in Minn

SEEK FRED ALLEN AS 'OMNIBUS' REGULAR

Fred Allen is being touted for a regular spot on a well entrenched twer that will return him to the medium after his shortterm "Judge for Yourself" quizzer. Robert Saudek, director of the TV-Radio Workshop of the Ford Foundation, is reportedly dickering with the comic to take over some segments on the CBSunday 90-minute "Ominibus," returning for its third season on Oct. 17.

Stanza stays away from standard clowns, one-liners and standup funnymen and is more nearly in the groove with such outings as Jack Benny's in his widely encomiumed "Horn Blows At Midnight." Bobby Clark and Bert Lahr made an appearance on the show to mixed results. Allen may write his own ticket as to how he'll format himself should the deal jell. Fred Allen is being touted for a

McC-E's \$33,000,000 TV Stake

Perhaps the standout success story among agencies in the "onward and upward with tv" sweepstakes is the emergence of McCann-Erickson into a "top six" ranking among the commission houses. (Others, although not necessarity in that order, are Young & Rubicam, J. Walter Thompson, Daneer, Fitzgerald & Sample, BBD&O and Blow.)

What makes the McCann-Erickson '54-'55 billings windfall unique, however, is that the agency's approximate \$33,000,000 being siphoned into tv represents almost a 40% advance over last year's dollar stake in the video programming picture. Add to that, too, the fact that, perhaps of all the agencies, McC-E has a greater stake in color shows than any other single agency, all of it riding with CBS.

all of it riding with CBS.

Agency is represented by the upcoming Thursday night Chrysler series (teeing off Oct. 1 with the Betty Grable-Harry James-Mario Lanza musical originating on the Coast.) In addition, it has Wednesday night "Best of Broadway" tinted dramatics for Westinghouse (along with the same client's "Studio One." All told, the Chrysler and Westinghouse to billings (time and talent) are said to exceed \$12,000,000 on an annual basis.

Other major video items on the McCann-Erickson roster include the Lever Bros. "Big Town" on NBC-TV; the forthcoming "Disneyland" on ABC-TV for Derby Foods; "It's A Great Life" vidpix series Tuesday nights on NBC-TV for Chrysler; the national spotting of "Death Valley Days" for Pacific Borax; "Uncle Johnny Coons" on CBS-TV for Pepsodent; "Halls of Ivy" on CBS-TV for National Biscuit Co.; Walter Winchell for both American Safety Razor and Gruen, and a stake in daytime tv for S.O.S.

Washington, Aug. 31.
Charges that West Coast department store exec Julius Meier Jr., gave "false and perjured" testimony during recent hearings before the FCC on the contest for channel 12 in Portland, Ore., were made in a petition filed with the agency last week asking that its decision favoring Oregon Television, Inc., be stayed and, the record reopened for new evidence. Petition, filed by Columbia Empire Telecasters, was based largely on the so-called "Stiles incident" involving the disappearance of Walter J. SARNOFF HITS BACK AT BRICKER

Firestone Voice Unstilled

Chicago, Aug. 31.

There are some apprehensions here, as the threat of the Sen. Bricker investigation of the networks hangs as a cloud over an otherwise clear-skies-ahead projection of the future, that NBC may find the "Firestone Case" returing to haunt the network. It's recalled that Firestone was ousted from its Monday night 8:30 berth on the network to make way for the upcoming Sid Caesar Show and the one-a-month specs. Firestone subsequently moved to the same time period on ABC.

It's considered a certainty that, aside from his private war against the "editorial content" of the networks. Bricker will want to throw a curve at the webs' control of time and programs, notably in such instances as the NBC-Firestone case. In appraising the overall D.C: climate, it has not escaped the network high command that there is a Capitol Hill affinity to the Firestone clan, specifically in the person of Presidential Assistant Charles Willis, who is married into the Firestone family. The link, say some, may not be so far-fetched.

In his message to the affiliates, Sarnoff specifically defended the right to remove or shift shows when they weaken the network schedule.

Kraft's Edgar Bergen as Disk Jock **Target of Crafty Platter Peddlers**

has the potential impact of the upcoming hour-long Edgar Bergen Sunday night (9 to 10) CBS Radio show begun to dawn on the record companies—notably in what Bergen could mean to the diskeries in terms of making or breaking a record.

In bowing for Kraft Foods with his own 60-minute AM showcase, Bergen essentially becomes a disk jockey (although the program will be divided into a number of other components, including Bergen's commentary on the Washington scene as a gabber). However, in this instance it establishes something of a precedent in terms of coverage, for never before has a disk jockey enjoyed a full hour of prime prestige time coast-to-coast, including a number of the most potent stations in the country.

For the past week Bergen has been making his headquarters at J. Walter Thompson (agency on the Kraft account) home base in N. Y., prepping his format and initial stanza. The parade of the platter pushers got under way almost from the moment the Bergen shingle went up in the JWT radio department.

Bergen's show will originate from Washington (he's already behis own 60-minute AM showcase,

Bricker investigation hanging over the networks' heads, NBC-RCA board chairman David Sarnoff took up the cudgels on behalf of a nervous industry at the network-affiliate powwow here today (Tues) and in no uncertain terms hit back at Government intervention. Specifically citing Bricker by name, Sarnoff left no doubts as to his target; lamenting the fact that networks, "and particularly the successful ones, have long been the whipping boy for any and all problems in broadcasting."

Much of it, he added, is due to fallure to understand and appreciate the facts and circumstances surrounding network operations. "so from time to time the cry goes up there ought to be a law."

Sarnoff made a plea not to tamper with art. "I do not think," he said, "that Government intervention in the business affairs of networks is practical or desirable. The economic machinery of network operation rests on a delicate balance of many different and sometimes conflicting elements. It's direction requires a high degree of creative imagination and initiative, as well as industry." Success and strength in this field, he added, should not be penalized, but encourageo.

Sarnoff called on affiliate membership to get behind NBC as ad-

should not be penalized, but encourageo.

Sarnoff called on affiliate, membership to get behind NBC as advocates of a strong network service, not only in their own interests but in the interests of the public they serve. He made a resounding plea for the perpetuation of the status quo in the conduct of its affairs (in the face of the threatened movein by the Bricker probe).

"As a competitive advertising medium," Sarnoff said, "a network must 'provide the largest circulation at the most economic cost. To do this, it must be free to select and bargain for affillations and clearances in the markets where it needs coverage, and with stations which best meet its requirements. It must be able to fix the price of a national circulation package it has the responsibility of selling.

"A network must also retain the responsibility for controlling its program structure, to maintain its overall service and its competitive circulation position, it must be able to select the programs it will present and remove or shift them when they weaken the schedule. In conducting its business, it must serve the interests of the public and it must also serve the interests of its affiliated stations, its clients, its employees and its stockholders."

Whatever Sarnoff's previous thinking as to the future of networks (as opposed to films, et al.). He was never more bullish in his advocacy of perpetuating them. His comments were also seen relating to the plight of network radio and the feeling in some quarters that network radio is doomed.

"If networks did not exist," Sarnoff pointed out, "they would have to be invented. Certainly there are other means of distribution confined to the mailing of tapes of rolling, what provision would be made for live transmission of news and important public events? Who

made for live transmission of news and important public events? Who would underwrite the cost of maintaining interconnections throughout the country on a permanent ready-to-serve basis? What central agency would deliver the simultaneous nationwide circulation which neither leaves the services of the control of the contr taneous nationwide circulation which national advertisers can buy from networks? And who would take on the responsibility for creating the cultural and informational programs which networks develop and offer on a sustaining basis?"

Examiner French favored Cowles over Murphy Broadcasting Co., headed by 24-year-old Kingsley Murphy, Jr., on the overall question of likelihood of carrying out proposals on a continuing basis. While giving Murphy an edge on the issue of diversification of media, in view of Cowles' ownership of the only daily newspapers in Des Moines, French held that this factor should not be determinative.

In summarizing his findings, French declared: "Cowles is much French declared: "Cowles is much more firmly rooted in the community by reason of its long standing identity with Des Moines in the field of press and radio, and its outstanding record in the operation of its radio stations (KRNT Des Moines, WNAX Yankton, S. Unless ABC-TV can come up with one or more sizable regional deals on its NCAA football package within the next two weeks, it stands to take one of the biggest individual program losses in video annals. The web will take it on the nose for something like \$2,500,000, and this for only 13 weeks of telecast-

web this week signed two regional sponsors for the games, which begin Sept. 18. Carnation Milk is bankrolling on the Coast in three states, while Humble Oil will sponsor in Texas and the Southwest. Remainder of the country at this point is sustaining, although the network is chasing down all possible leads for other regional clients. It'll cost the net about \$3,500,000 to telecast the schedule, this figure including rights, time, facilities, talent, etc. Most it can net from its two present sponsors is in the neighborhood of \$800,000.

This, of course, doesn't include the time the network gave over to supplementary sports programming in order to clinch the rights to the NCAA schedule. On tv, this comprises the telecasting of 26 additional events in the winter and spring on Saturday afternoons, and a one-hour preview show a week from Saturday (11). On radio, it's an hour weekly "Victory Dance" plus a half-hour weekly sports segment. As of the moment, the radio shows are still sustaining and there's no client in the house for any of the tv'ers.

ment. As of the moment, the radio shows are still sustaining and there's no client in the house for any of the tv'ers.

Lotsa Deals

Web has been "on the verge" of announcing complete sponsorship all summer, but has been unable to make it a fait accompli. At first it pitched to national clients, then went to regionals with the condition that the country be blanketed before any individual regional orders be accepted. Then it was back to a national deal, then to selling individual games in the schedule. Finally, it set the Carnation and Humble deals, taking its chances on getting the rest of the country sold. It's hoping that the fact that it's got the two clients on the books already will induce the wall-flowers to come in. If they don't, the losses sustained will all but kill the web's chances of emerging in the block this fall.

Tradesters are wondering whether it's mere coincidence or the outcome of the grid sponsorship picture that brought ABC prexy Robert E. Kintner back from vacation in Europe a week ahead of schedule. Kinjner wasn't due to return until next week, but arrived early this week and immedately went to work. It's a safe bet that the gravity of the football stution, at least in part, is responsible for his early return.

"You Are There," which recreates historical events in documentary fashion on CBS-TV, returned Sunday (29) with an account
dated Jan. 10, 1807, "The Treason'
of Aaron Burr." It wasn't the best
"You Are There" program, but that
may have been due to its peculiar
subject matter, which lacked the
drama of other shows.

The fact is, of course, that, while
some events in history lend themselves to this type of capsule treatiment, others do not. And the
character of Burr, and his complex
relationship with Jefferson, isn't
the kind of story one tells well in
a hurry. Yet, "You are There'
did a creditable job limning the
Burr expedition, its purpose and
its failure.

In July of 1806, Burr sent a
messenger to Gen. James Wilkinson, commander of the Army, outlining his plot to sail down the
Mississippi, rendevouz at Natchez
with Wilkinson's forces and start
the westward trek which would
separate the west form the States
and invade Mexico to boot. This,
incidentally, all happened just
about two years after Burr's fatal
duel with Hamilton, his subsequent
flight south and his return to the
Vice Presidency (all not mentioned
on the show).

By interviewing the personalities

a very happy formula, since history thus can be shown as well as explained. At times one wishes scripter Jeremy Daniel had put more searching questions into the CBS correspondents' mouths. For instance, Gen. Wilkinson's motives in denouncing Burr to Jefferson were never made quite clear the actually was playing ball with both the Americans and the Spaniards in whose pay he was!

Direction by Sidney Lumet lacked the crispness of some earlier shows, but he moved his characters with a sure hand. Richard Waring as Burr played the part of a snobbish, power-crazed adventurer who gambled and lost all. It was not a very believable figure, but then Burr wasn't a very usual person. Cameron Prudhomme gave Jefferson dignity, but here again the script failed to make clear the Jefferson-Burr relationship which saw the President hesitating to act despite several clear warnings.

Larry Fletcher as Gen. Eaton

ship which saw the President hesitating to act despite several clear warnings.

Larry Fletcher as Gen. Eaton was good even though he fluffed his lines; Larry Gates as the proburn Senator Pickering came through forcefully; Ray Walston did fine as the former attorney who had denounced the Burr conspiracy, and Robert Emhardt drew a vivid picture of the fence-stradding Gen. Wilkinson who denounced Burr to Jefferson.

CBS correspondent's on the show include, besides Walter Cronkite as the narrator, Harry Marble, Ned Calmer, Lou Cioffi and Dallas Townsend. It might be wise, on future programs of this sort, to concentrate more on the character of the personality involved and less on interviews with relatively unimportant figures. This would still permit attention to the visual part and to camera work—it was rather static last Sunday — with Cronkite at liberty to fill in the basic history.

Currently, Fisher is heading a good, quarter-hour musical session in which he carries the ball completely. Fred Robbins is billed as emcee, but on the two first shows, Robbins had virtually nothing to do beyond delivering one plug. Fisher gets about three full songs in per session and mixes up standards and current hits together with his own Victor numbers. First week's repertory included such tunes as "May I Sing To You," his theme, "I Love Paris," "Lady Of Spain," "Heaven Was Never Like theme, "I Love Paris," "Lady Of Spain," "Heaven Was Never Like This," "The Happy Wanderer," "Hey There" and "I Need You Now." Interesting and occasionally fascinating educational show is a less pretentious tv version of General Electric's pioneering "Science Forum" radio program, originated on WGY for many years. Aim of the quarter-hour, in which Bernard Krause, supervisor of WRGB-WGY productions, questions GE scientists as they discuss and demonstrate subjects pertinent to their fields, is to show the "how" of something the viewer already knows to exist, rather than to produce pregnant and startling news-as with "Forum."
On last segment caught, Jack Martin, of General Motors "Parado of Progress," came over from the Albany stand, to produce synthetic rubber from a glass tube, to show the outer toughness and inner fragility of glass, and to cook an egg on a "cold" stove. Demonstrations, particularly the one on rubber, were arresting. Martin's commentary became a shade too pand rehearsed. There's nothing that is as subject to as much "expert" opinion as a sports event—and that would include politics—so, few viewers will not see after a couple of minutes the differences between Canadian and U. S. grid. The balls are the same, so are the uniforms and many of the players (a good many big name collegians are playing in Canada) but the pace is different. Football picked up by NBC-TV via CBC is played on a longer and wider field than here. There are 12 instead of 11 men. There are only three downs instead of four and not as much time is allowed for huddles as here.

Stanton's Editorial

CBS' first "tv editorial" last Thursday night (26) when Frank Stanton, the corporate prexy, went on the network on a coast-coast 15-minute hookup to protest lack of equal radio-tv rights on covering the Joe McCarthy censure hearings, has definite milestone overtones for an industry still feeling its way in the realm of molding public opinion. It was a giant step forward toward erasing the timidity that heretofore has gripped "electronics journalism" and for that reason alone CBS merits a deep bow.

It wasn't particularly important whether Stanton as the torch-hearer "look the part" or performed as a pro talent (except insofar as his ability to convince his audience that he's in the right, and in this connection he undoubtedly would have been more persuasive and arresting had he made use of a teleprompter rather than reading his speech). What was important and more to the point was that CBS exercised its privilege to speak its mind on a major and controversial issue of subjecting a vital communications medium (and in turn the American listening and viewing public) to a "curtain of silence that has descended on the forthcoming hearings."

Stanton asserted that it was his belief the ban didn't stem from any bad faith, but "because of confusion and misunderstanding arising out of the fact that radio and television coverage are still something of a novelty." To the argument that radio and twencourage spectacle, create a circus atmosphere, cause legislators and other participants to misbehave and generally rob the hearings of a judical atmosphere." Stanton retorted: "To blame radio and television for blemishes or excesses makes no more sense than to blame a mirror because you do not like the reflection which you see in it."

To the claims that radio-tv coverage make for obtrusiveness, noise and disturbance and "create a disorderly atmosphere in which it is hard to concentrate and hard to tell the truth," Stanton entered into a chapter-and-verse refutation and breakcount of facilities to illustrate that "there is no d

mementos belonging to guest participants are used as a springboard for queries tossed off by emcee Allen Ludden.

Ludden did an affable job of conducting the opener Monday (30). His handling of the guests was geared to put them at ease, while questions asked were angled along interesting lines. Indicative of the need for a sturdy guest roster were the sock values provided by a six-year-old lad who's been picking up extra coin as a sidewalk artist in Greenwich Village. Kid's Picassoing was recently spotlighted nationally by Life mag.

What made the juve a strong-point of the show, besides his bening a novelty attraction, was the smooth and straightforward manner in which he responded to Ludden's questions. Following session with the kid, Ludden interviewed a femme hack driver for okay results. Weakest of the interview segments was the third and last, with actor Leif Erickson as guest.

A regular on the program with Ludden is songstress Toni Southern. Chirp delivers tunes requested by listeners because of their sentimental value. On initialer she gave "Wishing" a so-so work-over. Show also includes a segment wherein viewers are requested to send in letters describing why a person is very important to them, with contributors of correspondence read receiving a gift.

The Mickey Rooney "Hey Mulligan" series started off promisingly but then went completely filmflam in a slapstick operation culled from very near the bottom of the barrel. Costly Mickey Rooney-Volcano Pictures production out of General Service Studio on the Coast is a prime model of exceptional lensing and on-the-button movement. Such extra special Hollywood reliables as Regis Toomey and Claire Carleton have been recruited to help the Mick light up the screens, but the joemiller construction of the preemer doesn't suggest that any great care has been exercised by John Fenton Murray and Benedict Freedman in whilpping up the script, nor by Leslie Martinson in the staging.

winping up the script, nor by Leslie Martinson in the staging. Rooney plays a dumbdan page for a Coast broadcasting company (presumably NBC, to go by the opening flash) who's more interseted in theatrical emoting and, it's indicated, everything else but his menial errandry. Toomey is his policeman father and Miss Carleton his mother out of a burlesque queen background, but both play it realistically. The lad has become involved in an academy of the dramatic arts masterminded by Alan Mowbray (an irregular in the cast but whose fawncy British characterization can well be made more or less permanent). He pays his 60 bucks a month and gets his choice of no parts, merely bamboozled into understudy roles withat "hope springs eternal" look.

Opening show's centerpiece restricted

boozled into understudy roles with that "hope springs eternal" look.

Opening show's centerpiece re-volved around Rooney's getting that coveted chance to step into the lead role, whereupon all hands decided to play it like hellzapop-pin, with oldhat mala-props, in-loosed doorknobs, falling scenery, ad nauseam. This was an unfor-tunate teeoffer considering some bright elements, including a hand-picked cast, good decor and a cou-ple of well spotted laugh motifs. Carla Balenda is an attractive b'casting secretary roled as Roon-ey's girifriend, with John Hubbard as her genial boss. Joey Forman draws the role of Rooney's pal in the skein. Green Giant Peas is al-ternating with Pillsbury Mills on the tab with Rooney huckstering the plugs for the first-off Green Giant.

CBS-TV, from H'wood
(Gardner; Needham, Louis & Brorby)
Columbia has come forth with a new lease on "Life (With Father)" that sets the paterfamilias and the company into the 10 p.m. Tuesday time. What the web partisans choose to call "an immediate success" in the baptismal 7 o'clock Sunday berth last season hardly squares with the fact that the series inspired by the Clarence Day anecdotage was routed out of there in an "Operation Disaster" that, curiously, also wielded the ax on the major competition. For the Paul Winchell show likewise fell victim to the lethal guillotine, with "Father" getting sprung in favor of the offspring-appeal "Lassie" vidpixers for Campbell Souns and Winchell making way on NBC for Art Linkletter's "People Are Funy" under Toni auspices.

Now "Father"—inheriting the berth from "Danger" which has gone into the 9:30 Tuesday precede in the dumping of "Suspense"—will slug it out under fairly formidable conditions. ABC fronts its rotating U. S. Steel and Elgin "Hours" smack at the 10 o'clock halfway mark and NBC plays it razzle-dazzle with "Truth or Consequences" for Old Gold (in the ex-Fred Allen" util wood here

ex-Fred Allen "Judge for Your-self").

It would be a grave mistake to assume that "Father" will not have its adherents. But Alex Segal has shown that when he's at the top of his game with the 9:30 "Steel Hour" kicker-offer, it's questionable who's gonna invite himself in on "Father" at the 10 p.m. break. (The "Elgin Hour" will be preeming to await judgment on that score.)

Still there is no figuring out some

on "rather" at the 10 p.m. break (The "Elgin Hour" will be preeming to await judgment on that score.) Still there is no figuring out some tastes, and that would include the freedom to give the dropdead treatment to both "Father" and the "Hour" and go over to the "Truth" game. Whoever else will be having that wonderful time—what with those specolas and "Bway Bests" and Chrysler mellers and musicals—this l'affaire Mardi-a-dix will be a lulu in the competitive arena. Better a man would be off in a den of lions.

There was little shown in the first chapter of "Tather's" second leasehold to substantially alter the original appraisal. It was perhaps less frenzied and less self-conscious in its aftack, but it still tried to reach too far and too coldiboodedly for its pushbutton Sunday—now Tuesday—punches, and studio audience laffs were an obvious irriant, aside from the fact that these frequently covered the dialog to compound the injury.

Leon Ames, as Clarence Day, is one of Hollywood's most skilled supporting players, but here, in live display, his timing is not what it should be since he knows better. His strutting, bombastic, pompous stances are insufficient unto the Day. His vis-a-vis, Lurene Tuttle, is more into the part—suffering, less and denoting more—and when it is considered that Miss Tuttle's meatiest experience has been linked with radio, the comparison in her favor may rate a few and it is considered that Miss Tuttle's meatiest experience has been linked with radio, the comparison in her favor may raise a few evebrows. The brats and the neighbor entourage, et al., were in there pitching, amid the Victorian decor and behavioristic batterns, with verblage that too frequently took an offbeat tongue-in-cheek route for the benefit, apparently, of lower I.Q. looker-inners. There is nothing much to distinguish throw-back "Father" from average latterday "family" situations. Trau.

as one of that web's most potent shows. Last season Jack Webb & Co. took after the top-rating "I Love Lucy," closing the gap between Nos. 1 and 2 from 20 to about five points, and it will be interesting to see if the tv cop can pinch "Lucy" this senester.

No one else in all tv has utilized music as has Webb, and the booming dum-de-dum-dum of "Walter Schumann's score, heralding in the new season has all the punch of a billboard in rhythm. Incidentally, this marks the first season Webb will take over the production chores, although the opening stanza was produced when Stanley Meyers was still with Mark VII as exce producer, and Mike Meshekoff along as producer. Both have exited the company, and Webb now is producer-director-star.

Webb's initialer provided an answer to those who have accused him of a sameness in his shows based on cases in the L. A. Police Department Files. He and his partner. Ben Alexander, probe a high school pornographic pix ring, and their investigation leads them eventually to a has-been producer. There's a striking sequence as the producer turned peddler of filth takes them to a crumbling old film lot and retells his glories of yesteryear. During his narration of a film shot in the old days, the camera pans around the ghostly lot while sound effects contribute fights, galloping horses, etc. to illustrate. It makes for an imaginative and realistic piece of footage. It was overlong, however. Webb should have used the scissors for maximum effect. But the combination of pathos amidst smut makes for powerful drama. After his look into the pages of time, the has-been admits his guilt.

Webb and Alexander turn in good performances in their tailormade roles. Ralph Moody, as the heavy, is given a lot of footage for a supporting player, but carries off the has-been role very well. Caroline Jones gives a good albeit brief portaryal, of a gal victimized by the pornographic ring.

ring.

Webb's direction is outstanding, and his technique in the sequence on the old studio shows real inventiveness. He's remedied the old "Dragnet" weakness whereby all players spoke in the same dull monotone, and it unspools with much more realism as a result.

Morey Amsterdam is a battle-scarred veteran of commercial video (and radio). He's been a regular on every television web at least once since '48. He's had a least once since '48. He's had a touple of local shows too, yet in all the time recalled his brand of humor hasn't shown any measurable change. Keeping this in mind, Amsterdam continued being funny in a charming, mild, lispish way on his new stanza via WABC-TV, Gotham flag of ABC.

on nis new stanza via WABC-TV, Gotham flag of ABC.

Format of the daytime strip is also familiar. It was a loose affair Monday (30) with the comedian chatting rapidly from the confines of a chair or from behind his cello. Thrown in were the buxom charms of thrush Francie Lane and the casual talents of musiclan-turned-parttime- comic Milton DeLugg. Even the small orch got into the comedy act playing mute rolls in a dragged out skit.

The chief gagster was best when seen in some idle chatter with two juves, eliciting as he did vigorous if not always coherent responses. Amsterdam's showcase didn't have much appeal for juves, a good part of the audience potential of any local station during at least the 12:30-1 time.

Lux's tv companion piece to its
long established (20 years) "Lux
Radio Theatre" emerged into fullblown, full hour maturity last
Thursday night (26) on NBC-TV
when a handful of milestones were
solidified for both the network and
the sponsor. It was a rewarding
occasion for all concerned. For
Lux it was an ambitious dream
(three, and a half years in the making) come true—incepting for
video the pattern scaled years back
by the late Danny Danker of J.
Walter Thompson of full hour top
pix availabilities for the newer medium and bringing to tv its first
cualitative Coast-originating live
dramatic show with Hollywood
stars and properties as the basic
format premise (even though Paramount alone of all the majors has
greenlighted the pix-video wedding).
For NBC it was the crystallization of a drawn-out continuing
round of jockeying to wrest the
lucrative Lever billings from the
CBS competition (culminating in a
clean sweep encomnassing the client's "Lux Radio Theatre," which
for years was the keystone of CBS'
Monday night AM supremacy),
along with the tv "Big Town" and
the expansion of "Lux Video Theatre" from its erstwhile 30-minute
segmentation to its present ful
hour. For NBC, too, it represents
a strengthening of its already-potent Thursday night video lineup
which finds Groucho Marx's "You
Bet Your Life" and "Draqnet" near
the top of the Nielsen heap.

It was only natural that JWT's
topshelf productional
machine supported the poured into the
new video showcase, with Cornwell
Jackson taking over the executive
production reins (with Fred Coe as
major Haison in the east); Cal Kuhl

directors on a three-crew setup, and Sanford Barnett and Richard McDonagh scripting the adapta-

tions.

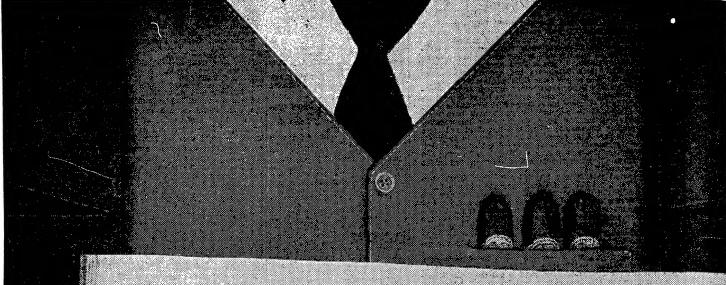

As for the Par properties, it wasn't too surprising that Lux got 'em for a price, for the reciprocal plugging of the studio's product on last Thursday's preem was unprecedented in itself and could probably have cued bewilderment as to whether Par was helping Lux pick up the expensive tab. Practically the last five minutes were given over to Par's "Rear Window," including some clips from the pix and James Mason (demilleling the Lux stanza) interviewing director Alfred Hitchcock. Similar you-Parme-Til-Lux-you payoffs will accrue each week on behalf of the studio's newer releases.

Initial entry was "To Each His Own" with Dorothy McGuire well cast in the role originally played in the '46 Par pic by Olivia de Havilland. One can hardly take issue with Mason's own summation that Miss McGuire set a high precedent for the coming season in her performance of the woman who suffered a double trasedy—the death of the man she loved and the surrendering for adoption of her only child, and the inevitable final clirich when they're reunited under dramatic circumstances. As for the Par properties, it wasn't too surprising that Lux got

surrendering for adoption of her only child, and the inevitable final cilinch when they're reunited under dramatic circumstances.

Of more than passing interest is the Coast technique of live presentation (as distinct from the New York-berthed "Studio One," "Television Playhouse." "Robert Montgomery Presents," etc.). The production itself was on a high qualitative level, for which practically everybody concerned can take a bow. Since Lux is in the business of perpetuating pic properties, it isn't surprising that the techniques employed in the live adaptations more closelv resemble filmed oroductions. The methods of time bridging and the lighting effects permitted for a smooth continuity and faster pace while suggesting an infinite variety of set changes. And it's a long time since camera close-ups were used so effectively. Certainly it's a technique that lent it-self admirably to the initial presentation and augurs well for the Coast entry into bigtime live dramatic programming.

Greensboro, N. C. — Harold Luther Nall has been appointed commercial manager of WFNS at Burlington, according to an announcement from C. G. "Jack" Starnes, general manager. Nall succeeds Wally Mack, who has accepted the post as general manager of WBUY in Lexington.

Radio-TV Exclusion From Hearings Gets **Town Meeting' Airing**

Town Meeting' Airing

A grave issue drew surprisingly little debate last week (24) as the "American Town Meeting of the Air" over ABC Radio discussed "Is Radio-Tv exclusion from Government Hearings Justified?" Question is extremely topical what with the decision to exclude radio-tv from the censure hearings on Sen. Joseph R. McCarthy.

The fact that the forum falled to develop a more fiery argument could be probably attributed to the respective positions of the two principals who, on many issues, seemed to be in general agreement. This was not surprising. considering that one was Ralph W. Hardy, v.p. of the National Assn. of Radio and Television Broadcasters, and the other Rudolph Halley, an attorney who entered the political appotlight as the chief counsel to the much-televised Kefauver crime committee.

Halley started out somewhat hestartly extaing that while he was

committee.

Halley started out somewhat hestantly, stating that, while he was of course in favor of the principle of tv coverage—"Our democracy flourishes on full publicity"—thereshould he a delay in the full use of the medium in Congressional hearings pending perfection of the technical details, such as lights, etc. Only later on did Halley develophis full argument, including such important points as protection of the individual and the dangers of one-sided presentations by station "editors."

Hardy, whose remarks lacked

one-sided presentations by station "editors."
Hardy, whose remarks lacked spontaneity, made the point that "radio and television do not create the procedures of Washington hearings. They merely record them—and without arly, editorializing in the process of their live broadcasts and telecasts." The rights of witnesses aren't fundamentally affected by radio or tv coverage, he added, arguing that it was silly to draw a line between a "public" and an "open" hearing.

The question of the degree to which tv affects the actual conduct of a hearing was never satisfactorily developed. However, Halley did distinguish between a committee like the Kefauver group, which had already heard most of the witnesses that were being televised, and a Congressional committee trying to develop facts from scratch. He urged Congress to be selective in what it permits to be televised and said each committee should have the right to decide whether or not it wants the camera to be present.

nave the right to decide whether or not it wants the camera to be present.

Halley also maintained that the tv camera's, by the very nature of the medium, had to seek emotional highspots rather than the facts, and that this might easily prejudice the viewers against the proceedings on the screen. He further warned that this camera selection could easily be carried further by the stations themselves via editing. To which Hardy replied that tv should be granted the same rights—and should assume the same responsibilities—as the press. The tv industry, Hardy argued, had gained a lot of experience with the recent Army-McCarthy hearings, and that while mistakes might be made, "the overall performance is very good."

One of Halley's big points was the denoted the same results was the denoted the same results.

"the overall performance is very good."

One of Halley's big points was the danger of "hamming it up" by the participating Senators, and he thought that lawmakers, busy with the process of orderly government, shouldn't have to worry in addition to how they looked on tv. The upcoming hearings on McCarthy were too important, he argued, to "gum up the works now" with tv. Hardy admitted there 'was editorializing in both radio and tv, but emphasized that the media were "fair" in their appraisals.

After roughly 11 years in radio,
"Meet Corliss Archer" is still considered by sponsors, judging by
current bankrollers, a good merchandise mover. But when caught
in its '54-'55 preem (30), it was
mostly a vehicle for antiquated situations and punchlines. Based on
an F. Hugh Herbert yarn, show

beau Dexter and their parents in
a race to see which of the characters could do the most juvenile
things in 30 minutes.

things in 30 minutes.

Implausability of setup ceased being funny after the first few minutes. It was about the tribulations of Corliss' and Dexter's parents over who owned the lawnmower. There were stock jokes, and thrown in for good measure were sundry quotes by Corliss from "Romeo and Juliet," the mere incongruity of which were obviously supposed to elicit laughs.

was superfluous. It led to flat and
very stagey bits like both reading

justify the presence of two gabbers, they exchanged obvious nonsequiturs re some of the music

most evident because of uncomfortable two-way Palaver.

Music was soft and pleasant for
pre-midnight listening. Included

properly subdued in various introductions.

Radio Followup

Mel Allen's matter-of-fact pitch against booing of ballplayers, on his WINS (N. Y.) sportscast of the Yankee game on Sunday, is a positive stand against juvenile delinquency at an important point of impact. Done on a local level, and without preaching, his observations on the needless booing of Whitey Ford and Mickey Mantle is the kind of subtle, yet effective, propaganda which should have bearing in curbing other juvenile exuberances. Allen's premise was that unless a player is downright rude in his department on the playing field, his missouts (errors, portiting, and otherwise perhaps ineffectual performance) should not be hissed—"because every ballplayer is always in there trying." Allen's anti-"hate" approach also included a reference to the Bible, and a statement, "I always read the Bible, on and off." He utilized that as a syringboard to dwell lightly but with sufficient impressiveness on needless hatred. His spiel, done casually in between calling the player, didn't achieve its effect pronto, because they were still hissing the players next time up, but it did appear to be with a somewhat diminishing force; indicating that perhaps some of the fans carried their portables into the Stadium.

Save for the occasional language lyrics of a Jan Bart of the informatic procession on the stadium.

fans carried their portables into the Stadium. Abel.

Save for the occasional language lyrics of a Jan Bart of the infrequent Yiddish ad libs of some of the comedians, such as Joey Adams or Harry Hershfield, the "Ameril can-Jewish Caravan of Stars" on WMGM, N. In fact it's booked that way, not restricting itself to the Lou Holtz style of humor—Henny Youngman's quips were of the same broad genre as when he plays vaude and nitery dates. Thrushes like Betty Clooney, Betty Reilly, Dolores Hawkins, et al. are regular "antidote" bookings to the Jan Bart, Moishe Oysher, Abe Ellstein, Barry Sisters and kindered type of secular singers and musicians. The George Gershwin sketch was solid, with the entire cast participating—Estelle Loring, Stan Fisher, Bart, et al, Miss Loring zinged on her own with "Young At Heart" and "Lullaby of Broadway" and Youngman utilized his upcoming "Youngman utilized his upcoming "Youngmania" pseudo-book title as a springboard for "released" gags. He observed that nowadays Lindy's displays books by Eddie Davis, Joey Adams, Earl Wilson—"I don't go in there to eat any more, just to browse around." Announcer De Freitas does a solid merchandising job peddling the multiple Jewish American viands, vittles and vintages which generally constitute the sponsorship roster. Every Trick in the Book

Every Trick in the Book

The other day I heard a broadcast from Moscow made by an
American of Brooklyn ancestry, in
which he addressed some citizen in
St. Paul, Minn., by name. "Mr.

warmongering millionaire exploiters of the masses." And so forth. And so forth. ers of the masses."

ers of the masses." And so forth.
They have employed another device, too, stolen right out of the good book. They garnish their diatribes with Cab Calloway and boogie woogie. The music is audible at the RCA monitors in New York with only the faintest interference. In fact, most of it is almost of studio quality.

When President Eisenhower said the other day that the Russians and her satellites are doing their best to separate the U. S. from her Allies, he was not exaggerating. Manipulators of the Big Lie in the Kremlin resort to every kind of chicanery to achieve this purpose, which is basic to their policy. Here's an example: A few days ago on the occasion of the anniversary of the signing of the Anglo-Soviet Treaty of Friendship in 1942. Radio Moscow in its transmission to the United Kingdom in English, extolled the virtues of the British soldier. "The bravest," "the best," "the most covered with When President Eisenhower said

English, extolled the virtues of the British soldier. "The bravest," the best," "the most covered with glory," etc. And the English people were a finer breed of men.

On the very same day, they broadcast by shortwave to Iran in the Persian language, addressed to people of that nation. Moscow's announcers told them to beware of the British botravers and the Brit announcers told them to beware of the British betrayers and the Brit-ish exploiters; the colonialists who want only to drain Iran of her oil riches, and leave nothing for the people who own it.

The fact little realized by the American people is that the war to undermine America in the eyes of

undermine America in the eyes of not only the Russian people, and all other people as well, is as fierce and relentless as it ever was. Moreover, it is not known that we who have most to lose in this do-or-die contest, are fighting back in what amounts to a weak, enfeebled defensive.

The wave of fear which has engulfed the world over the situation in the U. S. can be ascribed, at least to some degree, to the lassitude and indifference of the American people. ABC's "Center Stage" has been going heavy on originals (the Sept. 7 drama will be "The Day Before Atlanta," by John Gay), but its Tuesday successor, "Elgin Hour," is understood eyeing book author output. The alternater, Alex Segal's "U. S. Steel Hour," has presented several stanzas inspired from the prints and will probably continue on that kick.

The two Kraft shows (NBC and ABC) tackle an occasional book, being more in the groove, however, with Broadway adaptations. Philco's NBC "Playhouse" was launched six years ago with an emphasis on the five-foot shelfers, but the Talent Associates-Fred Coe operation has long since developed a major stable of telewriters who dream 'em up from scratch. There doesn't figure to be much of a change in that direction since TA already has pacted six top scribes to furnish the output for "Playhouse" as well as the packager's newly acquired "Circle Theatre."

Cleveland, Aug. 31.

Brewers have given this area's three video outlets a sudsy finan cial glow this summer both in spots purchased and local shows

From a tingling increase of 61/2% at WNBK, through a 31/2% by at WABE, through a 3/2% hike at WEWS, and a continued substantial outlay at WXEL, brewers virtually became the No. 1 industry spenders and the foremost proponents of local sponsored live shows, with a heavy emphasis on control.

At WXEL, for example, Carlings this year picked up the outof-town ball games, replacing pfeifers of last year. At the same time, the latter remained in the local market with a vidpix and hyneed enote outlaw. Also Carlings poed spots outlay. Also, Carlings has continued its cross-the-board, night-time sports review stint, and a weekly boxing show.

"We've all the brewing accounts we've all the brewing accounts we can accommodate," said Franklin Snyder, general manager at WXEL, who also pointed out brewers have always kept a favorable contact with the sports arena.

At WNBK, where the greatest hike in beer-time sales has been noted for the year, Bill Davidson, sales manager, declared that beer sponsorship has made possible the sponsorship has made possible the telecasting of many sports events that otherwise would not have been brought to the public's eye. He cited the Pilsener pickup of the polo matches, and Gold Bond's latching onto the horse races, as two examples.

On the entertainment side, Burkhardt has been sponsoring a 15-minute cross-the-board 11:15 p.m. stanza showcasing local talent

CBS president Frank Stanton's tv-radio editorial last week was slated for availability in color, but with stations asked that it be treated as a regular black-and-white presentation "from a publicity standpoint." This apparently meant that bloodthirsty ballyhoo on the tint aspect might open the web to criticism on "flamboyant" methods employed in connection with the mainmost issue—the speech itself—with the prexy going to bat for spot airing of the censure hearings on Senator McCarthy.

But two days later, several hours before Dr. Stanton took to the CBS stump on Thursday (26), another memo was sent out saying "the address will not be seen in color as originally announced."

Stanton's editorial received praise from the National Assn. of Radio and TV Broadcasters last week. Edgar Kobak, chairman of NARTB's Freedom of Information Committee, called the broadcast "a couragegus action" which "should strengthen the resolve of broadcasters everywhere in their continuing fight for freedom of speech and freedom of press."

Lightning or at least a call for a job while vacationing) can hit an actor twice in a season. Arnold Moss, driving back to N. Y. with his family from L. A., was contacted in Billings, Mont., last Wednesday (25), for a role in CBS-TV's-color show, "Danger," which went on last night (Tues.). He flew in Wednesday night, and will fly back this week to help drive the folks home. Similar instance happened in June, when Moss was driving his family to the Coast for a vacation. Reached by Hollywood somewhere in the midwest for a film assignment, he flew out, completed the stint, then flew back to pick up his family and continue on to the Coast with them.

Martin Manulis, producer for CBS-TV of new Westinghouse series, "Best of Broadway," was given a Special Service award by American Heritage Foundation at luncheon in his honor last Thursday (26) for "The Scrap Iron Curtain" on "Suspense" last January. Story was about the dramatic escape of Czechs from behind the Iron Curtain in a tank which they made from scrap metal. Award to Manulis stressed the importance of the program to the 1954 Crusade for Freedom in support of Radio Free Europe.

"Amos 'n' Andy" telefilm series, currently Sunday at 2 on WCBS-TV, N. Y., switches to Saturday at 5:30 on Sept. 11. This was the time earmarked for the "Abbott & Costello" package on the station, but WNBT got the nod on the comedy pair (slotting them at 6 o'clock) in one of the craisest mixed up hassles of the tv age, as reported last week.

Lehn & Fink and Dorothy Gray, which as alternate sponsors of ABC-TV's "Ray Bolger Show" are planning a heavy merchandising-promotion campaign shaped around the program, have now laid down the bait to station promotion managers. They're running a month-long contest offering a \$250 first prize to the promotion chief doing the best merchandising job on the show and the products. Second prize is \$150, third \$100 and fourth \$50, with other contestants getting gifts. Show preems Sept. 17, with closing date for the contest Oct. 8.

At last report, Park was seeking ways and means to squeeze out \$700 from his budget to pay for the extra labors.

RCA's Tinted Trickery

Kenyon & Eckhardt, RCA advertising agency, is producing a 15-minute films commercial in both color and monochrome for use as the electronic outfit's trademark. Treatment is confined to a close shot of a magico's hands manipulating the letters R-C-A and producing and vanishing the symbols. Magician in question is Kajar, who specializes in what's billed as "manual dexterity" and who, by happenstance, came in for national attention on "another network".—CBS about a year ago when he did his closeup handology on Ed Sullivan's "Toast of the Town." High-Budgeted 'Guest House' Hits 'Em With Local Talent, Receiver Test

Detroit. Aug. 31.

Worth Kramer. veepee and general manager of WJR, says that judging from the audience re-sponse to a local show, "Guest House," many people "don't know they aren't supposed to be listen-ing to radio."

His remarks were made as the crossboard show (7 to 7:30 p.m) celebrated its first birthday. It costs \$4,000 a week in talent alone, featuring Bud Guest as emcee, with vocalists Fred Kendall, Renee McKay, The Spellbinders and Max Leib's orch.

McKay, The Spellbinders and Max Leib's orch.

Station turns down a CBS network serial "Family Skelton," in order to get local talent into the premium time slot. And even though program apparently is too costly for fulltime local sponsors, station is content to pick up the leftover tabs.

"We feel," Kramer explains, "that nothing is going to happen to radio that radio doesn't bring on itself. Therefore, if we want listeners we've got to give them good shows—at least the best we have. Cost is important, of course. But we operate on the theory that a radio station can no longer expect listeners automatically. And every time you present a cheap product, you simply lose that many more persons to tv."

Recently five one-minute announcements were made regarding a contest to write in 50 words, or less, why listeners liked "Guest House." There were 8,346 replies in a week's time.

"Think of it," said Kramer, "we weren't giving away trips to Paris, convertibles or mink coats. All we gave away were 10 radios—something we thought nobody wanted anymore."

Web's A-B-C's In Kits to Kite AM

Expanded fall advertising-promotion campaign to stimulate local program pushery was unveiled this week by ABC Radio. Comprehensiveness of the campaign, biggest ever for the web, stems from both increased station activity and from the division of the web's radio and tv ad-promotion departments which took place in Janu-

which took place in January.

Web is sending out a filing cabinet full of ad-prom kits to 361 affiliates, containing an average of 24 envelopes each devoted to a different show. It's prepared 28 kits in all, most devoted to individual programs but some to blocs of shows such as morning dramatic and the Sunday night commentary.

Additionally, ABC is preparing to put its top talent on closed circuit next week for promotional spots which stations can pick up with their own transcriptions facilities for replays. Ad mats, according to ad-promotion director Gene Accas, are angled for local consumption, with 100-line and 70-line ads instead of 500-liners, which most stations can't afford at regular newspaper rates. Also included is copy for "editorial ads" made up to look like news stories.

Up-and-coming ABE-TV scored its first major victory in the competitive affiliation field this week, latching on to Milwaukee's second VHF station, WTVW, and landing it as a basic outlet of the web. Thus, for the first time, ABC finds itself in a major market situation where it holds at least a nominal superiority over NBC or CBS. In the case of Milwaukee, CBS' affiliate is a UHF, albeit a strong one, WCAN-TV. The NBC outlet and heretofore the only V in the market, is Walter Damm's WTMJ. As Asst. to Fellows

Washington, Aug. 31.

To take over duties to be relinquished by Robert K. Richards, Harold E. Fellows, prexy of the National Assn. of Radio and TV Broadcasters, last week appointed Howard H. Bell as Assistant to the President. Bell's appointment becomes effective Oct. 1.

Bell is presently assistant to Thad H. Brown, NARTB tv vice president. Prior to joining NARTB three years ago, he was sales promotion manager for WMAL and WMAL-TV in Washington. He is the author of the NARTB Television Station Film Manual.

Richards has resigned as administrative veepée, effective Oct. 1, but will continue with the association in a consulting capacity. His resignation was necessary when he entered into a partnership to purchase two radio stations in West Virginia.

in 1937, the British Broadcasting Corp. is now taking all practical steps to grab as much as possible of the available talent before the country's first commercial network into activity next year.

The policy was admitted last week by a BBC spokesman who told VARIETY: "We are now in competition in the matter of talent." This comment was made after the announcement that Gilbert Harding, one of the most controversial figures on sound radio and vision, had signatured a three-year pact with the BBC.

Although the BBC have had the television field to themselves, they've experienced keen competish in sound radio, mainly from Radio Luxembourg, the continental station which beams commercial programs to Britain. At one time the BBC decided to play it tough and warned that artists who reported for Luxembourg would be barred from their network. The embargo, however, was short lived and many of the top radio names perform regularly for both webs.

One of the least known but perhaps one of the most important trends in radio programming here in the U. S. has developed in another country. A good percentage of all canned audio airings are presently coming from Australia. The reason given is that Anzac product has a greater earning potential since there's no restrictions placed on the number of times, where or when, a platter out from down under can be played.

Moreover, the networks are all transcribed, Goodman said, and therefore Aussie radio scribblers, producers and technicians have developed a strong idea of what makes good radio.

first today... then Home ... a

With TODAY, starring Dave Garroway, NBC gave network television advertising a new dimension. Flexibility and low cost were its measurements. TODAY has become the biggest grosser in TV.

Then, to give advertisers the strongest possible hold on the nation's homemakers, NBC developed HOME, starring Arlene Francis. In six short months, HOME has established itself as *the* outstanding woman's service program.

And now ... with TONIGHT, starring Steve Allen (debut: September 27) ... the advertiser's day is complete! Now for the first time, advertisers can reach television's late-night audiences with "live", top-calibre, network programming. Now, for the first time, small change can buy big-league nighttime television.

what's going on ... tonight? From 11:30 p.m. to 1:00 a.m. in the East...11:00 p.m. to 12 midnight in Central Time zones... Steve Allen, the brainy, zany, big-time salesman, master of the unfrantic antic, who's as likely to shave, take off his socks, or milk a cow, as he is to spin out a tune, presides over these great goings-on:

- 1) TONIGHT takes America to Broadway during its most glamorous hours. It will go backstage and out front on glittering opening nights.
- 2) TONIGHT brings world-famous stars, critics and nightclub entertainers to the hearthsides of the nation.
- 3) TONIGHT gives the *very* latest news, weather reports and sports results . . . and brings in special events by remote pick-up.

Like its big brother (TODAY) and sister (HOME), TONIGHT offers important new television values to advertisers:

- big-time network TV at low cost
- complete flexibility—you buy only as much as you need, when you need it
- showcasing of your product by celebrities—at no additional cost
- minimal production costs for commercials
- special services by NBC Merchandising Department—unique in the TV industry
- TONIGHT makes the last commercial impression of the day . . . and it's the last impression that LASTS!

TONIGHT's low advertising costs will be even lower under NBC's new "T-H-T" Combinability Discount Plan—which gives you TODAY, HOME, and TONIGHT, at great savings. TONIGHT also offers additional savings under its Charter Client Plan—with exceptional advantages for the new program's first advertisers.

TONIGHT, by itself or in combination with TODAY and HOME, is ready to go to work for you! Better check with your NBC representative!

Trade Winds In Chi Blow

Murphy on down are attending And, like the NBC agenda, one would suspect the CBS-affiliate get together was designed as the big social clambake of the year. But the AM temper is of an entirely different shading. CBS comes to grips with the affiliates at a time when network radio has been going down for all but the count. CBS, for one, doesn't enjoy the status it flaunted a year ago. Like the other networks, it's fighting to keep its head high. And to make matters worse, as a "prelude" to the Chi meet, only the past week witnessed the first major defection from the daytime radio ranks by such hardy standbys as General Foods (cancelling out of CBS' "Wendy Warren and the News" and "Second Mrs. Burton") and Procter & Gamble (exiting NBC's "Welcome Travelers"). Since it's axiomatic that "when daytime network radio starts to go the way of nighttime, look out, brother!" The anticipation of any claim of the CBS group becomes heightened.

Further underlining the uncer-

Further underlining the uncertainties of the future was the notice sent out last week by Robert D. Swezey, of WDSU, New Orleans, as chairman of the executive committee of the NBC Radio Affiliates, revealing the appointment of a study committee to make a "full and projected study of the patterns and economics of radio network broadcasting and their adaptability to changing conditions." This was long anticipated and, some say, could invite practically anything in its wake—up to and including the ultimate decision that network radio no longer makes economic sense. The committee, comprising Wayne Coy, of Albuquerque; Walter Damm, of Milwaukee; Ralph Evans, of Des Further underlining the uncer-

complish something." (See separate story.)

Meanwhile, cutting across the whole pattern of the NBC-CBS radio dilemma is the Thursday (2) organizational meeting here of the Quality Radio Group in which some of the most powerful AM stations in the country (linked with major networks) are banding together for an interchange of taped radio shows with its own sales organization. They're even going after the NBC and CBS o&o stations. Whether this is the ultimate answer is anybody's guess. But many contend that, with 50 major operations in 50 major markets as bait for a national client who can get such penetration for not more than \$5,000, Quality or some such counterpart could well be it.

Philly's 'Telerama' As 'TV Journalism' Vs. Private Rights

Philadelphia, Aug. 31. Top WPTZ and Westinghouse execs presented a united front against an attorney's charges that the station's "Telerama" news program, which showed the arrest and questioning of two suspects in a payroll robbery, constituted an invasion of the defendant's right privacy.

of privacy.

Chris J. Witting, president of Westinghouse Broadcasting, Inc., which owns and operates WPTZ, described the attorney's charges as "one of many similar efforts in recent weeks to deny the public free access to information through television journalism."

Stan Lee Broza, WPTZ program director, described it "as just another attempt to force us to softpedal a hard-hitting local news show."

The charges were made (25) at a magistrate's hearing by Garfield W. Levy, a lawyer, who declared that his client had been arrested, that his chent had been arrested, tried and convicted on a television program." On the night before (24) "Telerama" showed films of the arrest and police interrogation of two men picked up in connection with a \$3,718 payroll job last June.

WPTZ news editor Dick McCutcheon and cameraman LeRoy Bell had been tipped off by the police that the arrests were to be made and were with the detectives when the suspects were nabbed on Aug. 19). The men, Al White, 21, and Samuel Hatchell, 22, both of Philadelphia, were held without bail for the Grand Jury by Magistrate E. David Keiser, and then Levy protested the television activity and program as "an invasion of the defendant's right of privacy." Levy told the court his client was "arrested, tried and conyicted on a television program be victed on a television program be-fore he was formally arrainged before a magistrate on specific charges."

before a magistrate on specific charges."

Witting denied Levy's charges with the statement: "In this and similar cases Westinghouse Broadcasting stations will continue to give their audiences full and fair coverage of all significant news events. It is the kind of reporting television can do best, and that it does all too seldom."

Broza said that "Telerama' has been attacked before for covering the local news scene" (Last June a group of Philly magistrates marched enmasse on WPTZ in protest against "Telerama's" mention of the local magisterial system). "Our program makes no attempt to editorialize; but it does let the chips fall where they may. WPTZ will continue to give this kind of news coverage to the people of this area. We will not be intimidated by unfounded charges."

VARIETY - ARB City-By-City Syndicated and National Spot Film Chart

VARIETY'S weekly chart of city-by-city ratings of syndicated and national spot film covers 40 to 60 cities reported by American Research Bureau on a monthly basis. Cities will be rotated each week, with the 10 top-rated film shows listed in each case, and their competition shown opposite. All ratings are jurnished by ARB, based on the latest reports.

This VARIETY chart represents a gathering of all pertinent information about film in each market, which can be used by distributors, agencies, stations and clients as an aid in determining the effectiveness of a filmed show in the specific market. Attention should be paid to time—day and time factors, since sets-in-use and audience composition vary according to time slot, i.e., a Saturday afternoon children's show, with a low rating, may have a large share and an audience composed largely of children, with corresponding results for the sponsor aiming at the children's market. Abbreviations and symbols are as follows: (Adv.), adventure; (Ch), children's; (Co), comedy; (Dr), drama; (Doc), documentary; (Mus), musical; (Myst), mystery; (Q), quis; (Sp), sports; (W), western; (Wom), women's. Numbered symbols next to station call letters represent the station's channel; all channels above 13 are UHF. Those ad agencies listed as distributors rep the national spot sponsor for whom the film is aired.

MULTI-RUNS' SYNDICATE SPREE

Advent of Color Seen Diminishing Value of Vidpix on Rerun Market

Hollywood, Aug. 31.

Lots of Hollywood's vidfilm producers are harboring a delusion that they can hold on to their product indefinitely, sure of millions of dollars in potential profit on the rerun market. But they're failing to recognize that the advent of color tv on a mass commercial basis, plus the continuous flow of celluloid goods on the market, will depreciate the values of their telefilms as time goes on.

That's the belief of Herb Jaffe, v.p. in charge of sales for Official Films, here from N. V. on a telebiz junket. Jaffe said that the lowering of prices of color sets will zoom the swing to color, and predicted within 18 months, tint tv will be here on a bigtime basis.

Opining black-and-white tw will always be prevalent despite the advent of color, Jaffe said nevertheless the commercially feasible tint will result in depreciation of band-w telefilms. Adding to that, the increased competition resulting from more vidfilms is already lowering prices of some of the vidix, he said.

Jaffe said he observes this tendency in Hollywood to overestimate rerun values, a producer thinking only in terms of his series, not taking other considerations into the picture. He said some firstrun series are indefinitely kept from the syndication field because sponsors don't want them in competition, but pointed to "Dragnet" as an example of a series which is doing well both firstrun and on reruns. "Producers should charge less to sponsors for the firstrun so that they can get into syndication sooner and avoid any loss," he declared.

Jaffe, here discussing a new anthology series and action show which would be distributed by Official, said his experience has been that anthologies are the safest bets for the rerun market. "General drama appeals to more people, and in our distribution of 'Star and the

Claudette Gives Own 'Liz' the Biz

Claudette Colbert arrived in New York on Monday (30) to discuss details of her projected telepix series with Rockhill Productions and before the day was out a shadow was cast over the future of the show. Understood the film star expressed dissatisfaction with the first and only stanza in the can, which was made for the pilot way back in February.

Series, tagged "Leave It to Liz" as the working title, has meantime had a nod from Toni, which is holding the 8:30 Saturday slot on NBC pending finalization of a deal for the package. There's some question of delivery, since Toni would like to be assured of a minimum 104 episodes less the hiatus periods—which would thus span two seasons.

Sponsor is primed to launch "Liz" in October, with "The Duke" pencilled in for the slot in the interim.

Irwin's Initial Entry In Vidpix With Fight Film

Vidpix With Fight Film

Carol Irwin, "Mama," producer, is planning her initial entry in the vidpix field with a vehicle on the fight game titled "Ringside." She's dickering with Robert Preston and Myron McCormack for the male leads, to be supplemented by professional boxers. Series will be scripted by sportswriter and scenarist Richard Marvitter and scenario with "Mama" writer Frank Gabrielson, who conceived the series, acting as script supervisor. Novelist sportswriter Paul Gallico will act as consultant on the series.

When Charles Wick's Telefilm Enterprises pointed up
the fact that its "Fabian of

the only film series to go on
the air with all its 39 pix already in the can, the firm met
with some agency skepticism.
Among the unbelievers were
John Hull, ad manager of Molsom's Brewery (Toronto) and
Pat Milson of Cockfield,
Brown, the sudser's agency.

only were Hull and Milsom
convinced that all 39 prints

A Fabian 'Dream' Come True: 250G **U.S.-Canada Deals**

That "dream publicity break" or Telefilm Enterprises' "Fabian for Telefilm Enterprises' of Scotland Yard" series a couple of weeks ago in Toronto started paying dividends last week, when Telefilm signed a regional deal for U.S. and Canada with Molsom's Brewery and at the same time pacted Astral Films of Toronto for distribution of the feature culled from the half-hour telepix.

distribution of the feature culled from the half-hour telepix.

Molsom's, via Cockfield, Brown & Co., bought the films for Buffalo (WGR-TV), Rochester (WHAM-TV) and Detroit (WJKB), plus several Canadian and U.S. markets still to be cleared. Deal will net Telefilm some \$250,000. Astral deal is for Canadian distribution of the feature made from the first batch of half-hours produced by Anthony Beauchamp and starring Sarah Churchill which Eros Films distribbed in Britain. Astral has already set the film for day-date openings Sept. 10 at five Toronto theatres, the Savoy, Humber, Danforth, Fairlawn and Colony.

It all started a couple of weeks ago when Robert Fabian, subject of the series and former superintendent of Scotland Yard, accepted a Toronto paper's request that he step in to solve a sixmonth-old kidnapping case. Papers broke the story with frontpage banners, and then the wires got hot.

UTP to Use Post-Mortem On Jet Ace Joe McConnell In Ken Murray Audprint

United Television Programs found itself in an awkward position last week following the death of jet ace Capt. Joe McConnell Jr. All its audition prints of the upcoming Ken Murray show, "Where Were You?" were the episode concerning McConnell's ex-

wynn Nathan, UTP sales chief, sent a memo to his sales staffers instructing them to explain that Bing Crosby Enterprises, which is producing the show, will cut in a special soundtrack eulogizing McConnell in the release prints. Meanwhile, though admitting that auditioning the McConnell show isn't in the best of taste, Wynn said it's too late in the sales season to call in the prints.

The multi-exposure yardstick which has become the economic bulwark of the feature film business in television is now beginning to make itself felt in the syndicated field. Moré and more, stations are buying their programs on a multi-run basis that cuts the perjeture cost sharply and permits the outlet to program at a fraction of live cost and one-run film charges:

the outlet to program at a fraction of live cost and one-run film charges:

Multi-run practice has been in existence among scattered outlets for some time, but now in many situations it's becoming the rule rather than the exception. Case is particularly true in the more competitive markets, but even in cities where one station dominates, the kingpin has gone to the multi-exposure technique. Not only has the practice spread among stations, but distribs themselves are no longer reluctant to submit their prime shows to multi-run exhibition.

For the stations, both advantages and disadvantages are obvious Multi-exposure cuts the per-program cost to a fraction of what it would be otherwise. It permits an outlet to get high-priced product it otherwise could not afford. On the other hand, these multi-run deals for the most part don't work out the way feature deals do—five or so runs over an 18-month period are more or less standard for feature films, but in syndication the pattern has become a repeat every three or four weeks. Regardless of degree there's bound to be some undesirable effect on the station's audience.

Pros & Cons

On the syndicator's side, the pros and cons are more subtle. (Continued on page 52)

Title Clearance Cited as Urgent For Telepix Biz

Hollywood, Aug. 31.

Warren Lewis, producer of Four Star Productions' "Star and the Story" series, asserts the vidfilm industry is badly in need of title clearance machinery to avoid current confusion and duplication.

Lewis expressed the hope that such machinery would be set up by the Writers Guild of America, Academy of Television Arts and Sciences or the Alliance of Television Film Producers, opining he felt they would profit by such a title clearance bureau. "There is a great need for such a clearance service. It is impossible with all the tv companies in the country to know what titles have been used, particularly in the case of anthology series. And this confusion is ultimately transmitted to the public by way of duplication of titles. It can also lead to the public by way of duplication of titles. Lotsa Offers For Autry-Rogers Pix But Rep Waits

Hollywood, Aug. 31. Republic, mulling several multindllion dollar television offers for its Gene Autry and Roy Rogers feature films, has decided to withhold the product from the video market pending a decision by the U. S. Supreme Court on appeals filed by attorneys for both cow-pokes.

Studio expects a favorable verdict from the high court, now in recess until October, and consequently decided to wait. A studio spokesman said lawyers feel the matter is an "interpretation of contract, and not a public issue, and the odds are 500 to one against rehearing."

Rep's subsidiary, Hollywood Television Service, has been deluged with offers including one for around \$3,000,000. Studio has 52 of each which would mean an average of \$30,000 per film for the largest block of pix yet funneled to television. Deadline for appeal is Aug. 31, but Autry's and Rogers' attorneys sent appeals back east last week to get in under the wire.

L&M Lops 'Early Show' In WOR-TV Grind Run Of 30 Feature Films

WCBS-TV, N. Y. key for CBS-TV, became victim of WOR-TV's 30 feature films. Liggett & Myers, first underwriter to take an eighth of the celluloid package last week, has made plans to ankle the flag's nighttime feature pix lineup on Sept. 5.

L&M contract ends with flag on Sept. 5, according to the agency.

the agency.

Whereas only the L&M brand name was pitched at New Yorkers via WCBS airlings, both Chesterfields and L&M will be exposed on WOR-TV. Latter, a General Teleradio-owned station (same outfit that owns the station's 30 features), is going to slot each pic at 7:30 and again at 10 p.m., seven nights weekly, plus two 4:30 performances on Saturday and Sunday.

Hollywood, Aug. 31.

TV is existing in a girdle marked either "live" or "film" and it should make use of both to break through the barrier of rigidity. So says Mort Abrahams, exec producer of the new "General Electric Theatre," a live-and-film show. Abrahams said the flexibility of the medium must be utilized fully, and this can only be done by making use of both forms of presentation. Vidpix, Features Parlay WGN-TY Intro Major Chi Sell-uloid Harvest

Chicago, Aug. 31.

Parlay of vidpix and feature films has projected WGN-TV into the practically SRO class for its nighttime fall schedule. Although there's a generous sprinkling of live local entries and DuMont shows, the backbone of the Chi Trib's station's prime time programming is strictly from celluloid. With its new season lineup breaking the next six weeks, WGN-TV will be unreeling no less than 15 half-hour vidpix weekly plus a nightly closing feature film—and they're all sponsored. Assuming DuMont will find a bankroller for the Saturday night pro football telecasts, the station at the moment has only two and a half hours open in its seven nights a week schedule from 7 p.m. through the 10 p.m. feature. In the words of general manager Frank P. Schreiber: "That leaves us in a healthy position." That may be the understatement of the year when WGN-TV's near-sold out status is compared against NBC-TV, CBS-TV, and ABC-TV blockbuster competition for the nighttime Chi audience.

But in and around these live shows are the vidpix names like

Also such sports film packages as the "Big 10 Football Hightights" and the "National Pro League Highlights." With few exceptions the telepix are all carrying the banners of hometown clients. And they spell the difference between a so-so and a bangup 1954-55 season for WGN-TV sales manager Ted Weber and his crew.

Admittedly a big factor is the saleability of the film packages, is that in this market at least last year wrote finis to any doubts about their ability to knock off good ratings, either as repeats or virgins.

WOR-TV Top Pix Test on 'Preview'

Bruce Balaban and Dave Sanders, latter an independent New York theatreowner (six houses in Manhattan), launch their "Hollywood Preview" half-hour show over WOR-TV, N.Y., Sept. 24 with an eye to national syndication. The local show, which will be emceed by Dan McCullough, will be keyed to the Broadway openings, so the film clips—three to five pictures, per half-hour—present no problem film clips—three to five pictures, per half-hour—present no problem from the tieup viewpoint.

As Balsan Productions, Balaban As Balsan Productions, Balaban & Sanders are in the process of clearing rights for film clips so they may be keyed to national syndication. This, obviously, presents a negotiating problem when they have their sights on such properties as Paramount's "White Christmas," Warners' "Star Is Born," and like

the like.

The prime idea is trailerizing the new film product, via video, with a guest personality, either from a coming or concurrently showing picture participating.

This upcoming show started its negotiations with WOR in July although NBC's "Bank On The Stars," film quiz with Bill Cullen; CBS' local N. Y. "Bits From The Hits" (Dennis James); and Emanuel Demby's "Hollywood to Broadway," got on the air in the meantime.

Balaban, son of showman A. J. Balaban, son of showman A. J. He has 50-70 markets all lined up via a package firm for syndication, once these rights are squared away.

drama has been created, and it's wrong to say something should be all film or all live. We shouldn't stick to the same procedures and presentation. TV is the most adaptable medium, but no one has really adapted himself to it by arbitrarily ruling something must be all film or live," the exec contended.

"Flexibility allows for a very important element now missing in tv—showmanship. We've become victims of our own straitjacket. We have to create an excitement, give the people shows they'll talk about. With good taste and craftsmanship you can do many things in a firstrate dramatic show," he said.

It's planned to make use of originals and adaptations in the GE series. Those shows which go to film are stories considered best handled via telefilming, such as action yarns. "If it's a show which requires illusion and a feeling of space and adventure, then we take it to film." Abrahams explained. Revue Productions is producing the film segments of the series, which is hosted by Ronald Reagan, and begins Sept. 26 on CBS-TV, with Gene Tierney making her teledebut in a live show, "Nora" (Ibsen's "A Doll's House" adaptation) from N. Y.

Abrahams said he considers material the most important factor in breaking down the name barrier, saying GE has been able to ink names such as Miss Tierney, Tyrone Power, Jane Wyman and Joseph Cotten because of the scripts offered them. "Eventually all stars will have to get into ty for the promotional value it will give their pictures," he opined, adding studios will fall in line for the same reason.

Don't Make Pilot, Isn't Gonna Sell

Unless you're an MCA TV, a Ziv or a Screen Gems, advice in vidpix circles continues to be "don't make a pilot." Still there are enough wildcatters and evan major production firms investing in these previews of new product to account for a sizable financial outlay—and loss. The safest are mostly named above—those with existing, sponsored series having formats flexible enough to eat up unsold pilots.

formats flexible enough to eat up unsold pilots. Generally though the obstacles facing any hopeful owner of a vidicial propers of the strength. Aside from the usual ill fate expected of low quality films, there are three other important factors: distributors are finding it more and more advisable to own product either almost completely or outright to make it possible for them to recapture coin outlay within a foreseeable amount of time. Present restrictions as to extent of the vidpix market (normally considered the first 100 tele markets) make it virtually impossible to share profit irst 100 tele markets) make it virtually impossible to share profit and come home reasonably early with a decent paycheck. Also because of the limited size of the market, and the demands considered equitable in each for vidpix series, a pilot and subsequent half-hours in any proposed series should not cost more than \$25,000, and according to a couple of distribs tapped for information, even that is too high. What has happened in at least one instance, observed one distrib who couldn't offhand estimate the great number of pilots brought to him over the past several months, is that a reputable producer brought him what he ultimately considered "the best television film show I've ever seen." He said that it was sure to be an audience catcher, but that his firm, and he thought any other distrib, wasn't equipped to turn it into a full series since the first pie was priced for over \$35,000. It was sreed for over \$35,000. It was sreed for over \$35,000. It was sreed the value slightly, but at that it couldn't have been made at same high quality for much less than the quoted sum. Take that amount, said the distributor, and add sales costs and the series might never show a profit in a life time.

The last reason, and one often reiterated in the past few months, is that the two major tele networks have no time available for new product, thus precluding the possibility of culling a national sponsor for a film series.

MCA and, to some degree. Screen Gems and Ziv, are absolved from danger in making vidpix. Each firm can blithely, now that the pattern is fixed, make all the pilots it wants, using all the top stars wanted. While these producer-distrib outfits are faced with all the same problems of other pilot makers, but possibly to a slightly lesser degree because of their powerful selling structures, any pilot film not sold can and usually does go into one of the dramatic series for Heinz or the "Pepsi Cola Playhouse," just to name a few by MCA, or the Ford series by Screen Gems. Since format of these shows call for varied

Rapidly expanding Canadian market, which will have some 20 stations on the air within another year, is already proving itself the source of a sizeable amount of revenue for telepix distributors. One distrib. Television Programs of America, anticipates a total gross this year from Carada of \$250,000, which while it's less than 3% of TPA's total anticipated gross for the year is still certainly nothing to sneeze at. And just last week MCA TV made a fistful by selling "Dragnet" to the Canadian Broadcasting Co, on a two-year deal.

All TPA's experience in the mar-

casting Co on a two-year deal.

All TPA's experience in the market (with four series and a feature package already in Canada) points to the fact that program quality will be the main basis on which distribs must sell in the future. This is especially true as regards multi-market deals, since any such deal must include Toronto and Montreal, where the Canadian Broadcasting System operates on a single-station basis.

CBC is virtually sold out at presented.

single-station basis.

CBC is virtually sold out at present and will continue to be so, and time clearance is a key problem. Only way a distrib can get a series on the web is to sell it to a current sponsor who's willing to drop his present show (subject to CBC approval) or to impress CBC so highly with the show's quality that the web itself will oust a current series and replace it with the new one. Since CBC is a government-run operation and is running at a virtual SRO anyway, a show's commercial qualities have far less bearing on getting into the country than its artistic merits, according to TPA.

Multi-Run

Continued from page 49

The income from a multi-run deal comes to far more in the aggregate than from a normal ringle-run sale. It's a new and fast r way of cashing in on the series' residuals, especially when the distrib is in the second or-third year of new product and hasn't been able to get his oldies off the shelf. At the same time, however, a multi-run deal usually means finisl to a series in that particular market—after three or four runs, the other stations won't touch the series and the station that ran the pix is afraid to. Aggregate coin resulting from individual-run sales of the reruns might total more than the sum the station dishes out for that first multi-run deal.

station dishes out for that first multi-run deal.

New York, with its seven-station situation, has seen more of the package or library deals than other markets. Latest adherent is WPIX, which is slotting "Liberace" twice daily, five days a week in 15-minute form, and has also slated "Ramar of the Jungle" for six days weekly. Both shows ran once a week in half-hour form previously. WABC-TV has engaged in the practice, with 10 showings a week of both "The Ruggles" and "Pulse of the City" in past months. Same station is running properties like "Boston Blackle," "Jeffrey Jones" and "Colonel March" two and three times weekly. WABD runs the "Big Town" reruns both under United Television's title of "Heart of the City" and its own "City Assignment," WOR-TV is planning four-a-week showings of "Paragon Playhouse" and three-a-week on "Dangerous Assignment."

Elsewhere, WFIL-TV in Philadelphia has been playing "Racket Squad" twice a day, five days weekly. WCCO-TV in Minneapolis is planning multiple exposure of "Liberace" on a pattern similar to that of WPIX.

WHAT'S IN THE GROOVE COUNTS'

"The play's the thing," said Shakespeare. "What's in the groove counts," was the late founder-president Jack Kapp's credo. as regards Decca, and it is an axiom with which the successor. echelon has not only concurred but furthered. The aphorism. incidentally, has become an intra-trade slogan for, with the continuing prosperity of the diskery businesss, the analogy to the Bard's classic crack is obvious.

From Decca's cradling in the deep depression days of 1934 the intent was to insure top value "in the groove." The founder-triumvirate of officers—prexy Kapp, sales veepee (now the late) E. F. Stevens Jr., and treasurer (now president) Milton R. Rack-mil—set about insuring topmost marquee values at the bargain 35c platter price, which was the founding pattern of Decca. That the quality of product—not price—is the ultimate barrom-eter was quickly established with the 35c retail tag for the old 10-inch, shellac platter. It eventually increased to 60c and 75c, and now is vividly climaxed with the extraordinary \$27.50 sales tag on a) Bing Crosby blowax anthology. Save for an independent's attempt for a similar stunt with Fred Astaire's bio in song-and-dance—at a \$50 pricetag, which was academic in light of the limited album sales—this is a new industry high for a "popular" item. Next previous high was RCA Victor's Glenn Miller album at \$25, and this had the added impetus of "The Glenn Miller Story," a concurrently releasing biopic made, by the way, by Decca's subsidiary, Universal Pictures—a smash film grosser which also produced a sock soundtrack bestseller for Decca.

Decca's design for industry impact was no accident. David intent was to insure top value "in the groove." The founder-

Decca's design for industry impact was no accident. David Decca's design for industry impact was no accident. David and Jack Kapp pioneered the artistic aspects; Stevens supervised the sales; Rackmil was the watchdog of the exchequer, and his canny perceptiveness resulted in the Universal Pictures buy-in and its uitimate control—long before "diversification of assets" became a fashionable catchphrase in financial circles. But from the start, despite the parlous period of '34, Decca's diadem was destined for the heights. In three years the company showed an \$85,000 profit; a year later (1938), the profit margin upped to \$207,000; in '39 it became \$374,000; in 1943 the company's gross of \$32,508,717 had resulted in a net of \$1,618,548. Decca last year netted \$1,862,266, a large part of which was due to Decca's interest in Universal.

Kapp was the subject of a lead editorial in Life in early March 1849, the same month in which he died, at 47, of a cerebral hemorrhage. It was written by Henry R. Luce, who knew Kapp personally, and was thoroughly familiar with the diskery topper's dream to propagate American music as a worldwide influence for peace and understanding. Kapp knew of no better way to achieve this than via records.

achieve this than via records.

That Decca isn't all Bing Crosby, and vice versa, may be gleaned from the continuing development of marquee names and marquee values. The innate showmanship to make "what's in the groove" count for greater values has been constantly developed, whether in pops or longhair; albums or educational readings. Perhaps best illustrating that have been the sundry Shakespearean, Dickensonian and even Biblical readings, along with film casts and scores, which have been enhanced, for Decca release, under the marquee potency of such names as Ronald Colman, Charles Laughton, Marlene Dietrich, Helen Hayes, Katharine Cornell, Henry Fonda, Charles Boyer, Edna Best, Judy Garland, Taliulah Bankhead, Carl Sandburg, Jascha Heifetz, Judith Anderson, Irene Dunne, Mickey Rooney, Ginger Rogers, Orson Welles, Fredric March, Mary Martin, Brian Donlevy, Gregory Peck, Loretta Young, John Wayne, Frank Lovejoy, Herbert Marshall, Bob Hope, Walter Huston, John Glelgud, Deanna Durbin, Agnes Moorehead, Raymond Edward Johnson, Frank Morgan, Ogden Nash, Ingrid Bergman, Fred Astaire, Al Jolson, Bing Crosby, Thomas Mitchell, Ethel Merman, Dorothy Lamour, Danny Kaye, Celeste Holm, Gracie Fields, Reginald Gardner, Donald Crisp, Gene Kelly, Irving Berlin, Dan Dalley, Carmen Miranda and kindred personalities participating in Decca diskings. Carmen Miran Decca diskings.

The company pioneered the "original cast" albums, and when "Oklahoma!", now having sold over 1,300,000 sets at \$5 per album—in itself a show biz mark of magnitude—manifested such wide generous public acceptance, Decca conceived the idea of "every home a first night."

The Kapps would take their portable recording equipment into the Deep South and, for flat fees, wax any number of "race" artists—a term that is now passe and even deemed uncomplimentary, giving way to "rhythm & blues" as a category identification. Same was true with the "hillbillies," another opprobrious nomenclature, and in this day and age identified as "country & western." But it wasn't long before Decca put Negro artists on royalty, and to this day the Ink Spots, the Mills Bros., Louis Jordan, Louis Armstrong, et al. are exclusively on that label. Sister Rosette Tharpe set a vogue with rhythmic spirituals. Ernest Tubb and that champ folksinger-gone-children's recording artist, Frank Luther, ploneered in their categories.

Mary Martin, Ethel Merman, Danny Kaye, Ray Bolger, Judy Garland are among the "popular" marquee values, from legit and filmusical fields, who have enhanced the Deccatalog.

This brand of diskery showmanship bellwethered the entire industry. Thus was laid down an invaluable catalog of standards which gives Decca enviable distinction in all types of interpretation. Names, music and tracts of literary and contemporary value have been imprinted on wax for posterity, in a manner that must pay off countless dividends with the years.

Thus, this commentary on Decca's 20th anniversary is in the best American tradition. It is a milestone that reflects not only a decade of achievement, but a fulfillment of an earnest dedication to a job that is being remarkably well done. It is an extension of ploneering vision in finest fruition. It encompasses a limitless horizon by aggressive and equally visionary executives who have mated the wax and the celluloid media, and whose sights on the electronics values of the future are limitless in their notentialities. their potentialities.

Shakespeare said it and Decca gave it the 20th century zing by insuring "that what's in the groove counts."

RACKMIL, PREZ OF DECCA AND U, KEYS B.O. OF BOTH TO WORLD YOUTH MARKETS

While there's no business like show business, there's also nothing about show biz that's like any other biz, according to Milton R. Rack-

mil. president of both Universal Pictures and Decca Records. A reluctant oracle about the entertainment industry's future, Rackmil said it's axiomatic that entertainment is show biz's only boxoffice commodity and that it's the public only—not somebody sitting behind a desk and holding fixed ideas—that can determine entertainment trends.

"This is not the kind of business," observes Rackmil, "where you can sit at a drawing board, put down some fixed ideas and say, 'here's what our model will be five years from now.'

years from now."
"In this business," Rackmil adds,
"you've got to watch the trends,
and if you have the experience to
analyze the trends you will come
up with the right answers to the
public's demands. One thing is certain, you can't force anything down
the public's throat. You may think
it's great, but it's only great if it

Rackmil has unbounded confi-

Rackmil has unbounded confidence and enthusiasm for the picture business. He discloses that Decca's buy into Universal, which started with a purchase of 26% of the stock (Leo Spitz-Bill Goetz holdings) in 1951 and has now expanded to a total of 72.5% of the picture company, was cued by Rackmil's memory of the record situation in 1930.

Decca and U Prove: Don't Write Off Disk and Pix Biz

Write Off Disk and Pix Biz
At that time, Rackmil recalled,
everybody was writing off the record business as a dead issue. It
was held that the public wouldn't
buy records when they could get
the same entertainment for free
via radio and just for the turn of
a knob. It was proved, however,
that the public would still buy records, provided they were given
something new and fresh every
week. It was also proved in radio,
as with tv today, that the public

ike.

Rackmil said he saw the same situation in the picture business a few years ago—a tendency to write it off against the free competition of television. Rackmil was convinced that the public would continue to buy pictures, providing Hollywood would provide the entertainment the public wanted. With the record situation of the 1930s in mind, Rackmil said that he virtually "hocked" Decca to buy the Universal stock. He eventually bought 600,000 shares of Universal, representing 60% of the stock, at a price average of \$16.50, or total of \$9,900,000. The remaining 12½% of the Universal stock was acquired by Decca via Exchanges, etc.

Fancy Figures Don't Lie
Rackmil said that with the Universal stock presently at \$25.25 not
only is the Decca investment extremely profitable, but couldn't be
duplicated now at double what he
had paid for it. He went on to
point up the advantages to Decca
of the Universal buy, not only from
the standpoint of dividends, which
may be well over \$2,000,000 for
the current fiscal year, but also
because of the diversification afforded both companies as well as
giving Decca an inside track on

Aside from Universal's pix, Rackmil made it clear that Decca doesn't hesitate to issue albums based on films made by other companies. "We have no pride of authorship," Rackmil added, and pointed to such upcoming albums as "White Christmas" and "There's No Business Like Show Business" as examples of Decca's disk merchandising as well as its merchandising as well as its merchandising as well as its merchandising as the process of pictures, Bing Crosby-Danny Kaye and Ethel Merman, the respective stars of the Paramount and 20th-Fox films, of course, are exclusive Decca diskers.

More 'Big' Pictures

Rackmil points to the studio's upcoming production sked as another instance of progressiveness
on the part of the company. Never
before, he says, has the company
committed itself to so many big pictures. And, he added, there isn't a
top personality in the business in
any category whom we won't buy

among others.

Several of these stars were on 50-50 sharing terms and Rackmil said this policy will be continued by the company where and when such deals are practical. However, he sees the time in the near future when artists will go back to the straight salary arrangements, since not all of the profit-sharing deals work out so lucratively for the artist. As Rackmil puts it, not every picture is a "Glenn Miller Story" in the way of profits—in fact, "in some pictures that just about manage to break even or a little better, the artist finds he worked for nothing."

TV a Question Mark Now

TV a Question Mark Now Rackmil has no definite views re-TV a Question Mark Now Rackmil has no definite views regarding the future participation of Universal or Decca, or both, in television. He said he is keeping an open mind on that medium and will certainly not put both feet into it until its more clearly defined as to just what the residuals have in the way of a financial future. Thus far, as he sees it, only a rare few have made any substantial profits out of tv. He named "Dragnet," "I Love Lucy" and that's all to his knowledge. When the financial issues are clearer, Rackmil said, Universal could well enter into tv-film production. Meanwhile, operations are being held to a small unit filming commercials. commercials.

While the profits in tv-filming are still nebulous. Rackmil says, he sees no practical reason to seque manpower into that field and take them away from feature pix, which can be much more productive. On top of the general manpower, he points out, would have to go his own and other executives' time as overseers and that, he says, would be a costly waste just now.

Deca's Bullish Season

the filmusical field. For years, due primarily to the company's failure with such type films, Universal eschewed musicals. Other than the Donald O'Connor-Peggy Ryan B's of 10 years ago, the company stayed clear of such productions. A few years ago it bought "Song of Norway" for \$250,000, but never got it off the ground.

Last year it put James Stewart and June Allyson into "The Glenn Miller Story" and found itself with a fantastic winner (Stewart's personal 50% share of the profits is expected to reach \$2,000,000). It also proved a bonanza for Decca presentially, a resurgence with the original soundtrack album; and, incidentally, a resurgence of Glenn Miller individual disks and an album anthology at \$25 per copy for the competitive RCA Victor.

The Decca prexy is very high on the Bing Crosby anthology, selling for \$27.50, which is the highest for \$27.50, which is the highest proved a real seller. (The Fred Astaire \$50 album two years ago was a sales flop). Rackmil says the sales have been even greater than anticipated—he, personally, was rather pessimistic about the release of such an album in August, and proved a note left him by Lou Gilman, west coast v.p. and sales man, wes

must go right," Rackmil stated.

He added that any company is bound to have its flops even a long series of them, but eventually the trend must go the other way if you keep trying and keep giving quality. "Decca," Rackmil pointed out, "has had its lean periods and it has had its good times, like now, but this was only possible through continuous effort to sell entertainment."

Decca Vicariously Involved in \$500.000 Suit Vs. Rubinstein

Decca made P. 1 of the New York tabloids last weekend (28) by way of a suit brought by Mrs. Laura Lee Payne, of Beverly Hills. Alleging that she had financed Serge Rubinstein, notorious Russian financier and alleged draft-dodger, to gain control of Decca, she sued the latter for \$500,000 damages in N. Y. Supreme Court. She averred that Rubinstein had achieved "control." To this the latter replied, "I wish I do, but I don't."

latter replied, "I wish I do, but I don't."

In last spring's stockholder proxy fight, led by George L. Lloyd, a disgruntled former Decca board member, Decca's management charged that Rubinstein was involved in the plan to take over the company. Miss Lee, former musical comedy actress and later a Warner Bros. lead, since married to stock broker Lou Payne (from whom she is estranged) came to New York, set up her campaign headquarters at the Savoy-Plaza Hotel, but found that by the time the general stockholders' meeting came around that prexy Milton R. had been given a vote of confidence.

As is characteristic of disk biz history, Decca at that time had no hot pop, hits riding but had maintained a strong profit-and-dividend position via its earning from Universal Pictures, which it controls to the extent of 72.5%. Since then Decca achieved the 1-2 top pop positions with the Kitty Kallen "Little Things Mean a Lot" and the Four Aces "Three Coins in the Fountain."

Decca's Gamble on Disks In '34 **Revived A Moribund Industry**

Newspaper and magazine readers of 1934 received a real shock when they saw that a new company—Decca—they'd never heard of before was advertising, of all things, phonograph records! To the radio addict of 20 years ago the phonograph and records were not just moribund, they were finally and irretrievably dead, and the average reader was as much surprised to see them advertised as if he were being offered a new issue of Godey's Lady Book or a setting of fresh dinosaur eggs.

However, a Decca ad which appeared in many newspapers of Dec. 6, 1934 may have been the turning point that started the platter business on the long and painful uphill trek that led it to new heights of prosperity. With the shrewdness that characterized the ploneers of the Decca organization, the ad concentrated on high quality recording, top-drawer artists and, perhaps in those depression days, the most important factor of all, low price. The Decca "All-Star" record was only 35c in the 10-inch size, and many a citizen who had stuffed the old Victrola back into the attic must have reasoned that if you could hear Bing Crosby or Guy Lombardo on a double-faced record for a third of a dollar, it might not be a bad idea to stock up on a few new platters.

But actually spending good money in the year 1934, with King Radio lording it over everything, radio or price that since 75c records selling at all, it couldn't do any harm to take the chance of selling at least a few at less than half the standard price. platters.

But actually spending good money in the year 1934, with King Radio lording it over everything, to advertise phonograph records! Who ever heard of such a thing? Of course, only half a decade earlier, it had been far different. For years, up to the late 1920s, Victor was the nation's No. 1 advertiser. Even when the record business showed all the signs of going to pot in 1924 the Victor advertising budget stayed high. The advent of electric recording in 1925 gave the industry a shot in the arm, and records were still selling at a lively clip when the 1929 depression moved in and convinced the average family that phonograph platters were one of the world's most expendable commodities. By 1932, the worst year in modern phonograph history, sales were down to about 5% of what they had been in peak years, and 1933 was only a little better. What improvement there was in 1934 was due almost entirely to the new blood brought into the record business by the newcomer Decca — then controlled by the English company of the same name, which was a direct descendant of the famous old British jobbing firm of Barnett Samuels.

Not that records costing only 25c weren't already available in 5-and-10c stores. They were. Other companies, such as Victor with its Bluebird label, also had 35c brands. But Decca's original and courageous contribution to the rebirth of the record business was its policy of giving the day's greatest stars at one uniform low price.

All For 35c

Let's go back a moment to the original Decca newspaper ad Imagine yourself a reader of The Houston Chronicle, and finding on page 10 a five-column ad headed, "Decca's coops Music World." In smaller type you read, "All New Recordings of These Great Artists Now on Decca Records Exclusively, Only 35c." Between the varying type faces were cuts of Bing Crosby, Decca's all-time Mr. Big, Guy Lombardo (still going strong in the Decca fold), Ted Lewis, Gelen Gray, Isham-Jones, the Mills Bros., Tommy and Jimmy Dorsey, and "The Street Singer" (Arthur Tracy).

The Decca sales pitch was summed up in half a dozen lines:

"Here they are—your favorite stars of radio, screen and stage—in their greatest performances of instrument and voice! Not obsolete records, cut in price to meet a market, but the latest, newest smash hits—exclusively DECCA. Hear them when you want— as often as you want—right in your own home."

George Graff Jr., set the example
a few years ago in their series of
"Hymns for Happiness.") In the
old days, religious recordings were
almost entirely the time-honored
staples—"Adeste Fideles," "Nearer,
My God, to Thee," "Onward, Christion Soldiers," "Abide With Me,"
and, of course, "Ave Maria." Incidentally, Decca, from the very
beginning of its recording activities in 1934, recognized the necessity of a strong religious catalog.
Among other things, it engaged the
famous radio quintet, The Revelers, to record a series of hymns.

In the earliest days of the phono-Chief new trend is that most big-

But even then phonographs were owned by serious-minded families, some of them do devout that the children were allowed to hear only religious tunes on Sundays. Hymn tunes were recorded for their special pleasure, and some pioneer artists, who were later to be known almost entirely as comedians, sang religious compositions at the start of their careers for a dollar a "round." Len Spencer, Billy Murray, Steve Porter and Dan W. Quinn all had whack at the doxology deal.

One of the early artists who profited most by the demand for hymns was the late "Harry Mac-donough" (under his real name of hymns was the late "Harry Macdonough" under his real name of John S. Macdonald, he afterwards became head of the Victor a&rett, whose specialty was "The Holy City." Macdonough once told this writer that he paid his rent each month for years with his earnings from singing Stephan Adams' brainchild at a dollar a throw. After he became exclusive to Victor, his interpretation of "The Holy City" could be had three ways—in a shortend version on one side of a 10-inch platter; the complete text on both sides of a double-faced disk; and under the disguise of "The Babbath Morn," he sang part of "The Holy City" with incidental chime effects. He likewise took the lead in the Haydn Quartet's interpretation.

nothing but religious offerings. It had an extensive staff consisting of Henry Burr, and its vertical-cut, seven-inch records were sold under the Angelophone label for 10c in department and five-and-dime stores. On one side you got a hymn sung by the fabulous Burr; on the other, some unidentified gentleman told you what the song was about. The records bore a suspicious resemblance to the Par-o-ket label which Burr issued for a year or two. He was one of the few recording artists who has ever owned his own company and simultaneously sung for all the competing firms.

Rodeheaver and Others

Rodeheaver and Others

Another, several years later, was
Homer Rodeheaver, the baritone
who led the group singing and
played the trombone in Billy Sunday's "hit-the-trail" revival campaigns. Around 1923-24, Rodeheaver was not only singing for
all the old-established record companies but was also turning out his
own Rainbow records with headquarters in Chicago. Besides extensively recording himself and his
duet partner, Mrs. Virginia Asher,
Rodeheaver also issued vocal selections and sermons by such almost
superannuated hymn writers and
do-gooders as E. O. Excell, Charles
H. Gabriel and the Rev. W. E.
Biederwolf. The nearest thing to

and "Humoresque."

Throughout the years Red Seal celebrities were perfectly willing to add to their royalties by recording hymns. John McCormack's "Nearer, My God," sold hugely, and "Whispering Hope," by Alma Gluck and Louise Homer, was one of the biggest sellers Victor ever had. But undoubtedly the all-time best-selling religious platter is Bing Crosby's Decca of "Silent Night."

Night."

Generally speaking, the religious record output was slanted toward the sort of numbers sung at a Methodist prayer meeting or camp meeting—pronouncedly evangelical Protestant music. However, no denominational possibilities were overlooked. Most Jewish selections were issued in special Hebrew lists, but Cantor Josef Rosenblatt was a good seller in Victor's regular catalog.

As early as 1903 Columbia recorded the voice of the Pope, who aged 92, must have been one of the oldest persons ever to make a record. The following year Victor followed with a series of Gregorian chants by the Sistine Choir, featuring the famous male soprano, Prof. F. Moreschi. All companies used the standard Christian Science hymns, such as "Day By Day the Manna Fell" and "O'er Waiting Harp Strings of the Mind," and Edison even turned out some 30 "lesson sermons," sung by a baritone, Robert C. Dyrenforth. After electrical recording was introduced platters made in the Mormon Tabernacle at Salt Lake City were platters made in the Mormon Tabernacle at Salt Lake City were a sensation.

a sensation.

A recent survey seems to indicate that "The Old Rugged Cross" is now America's most popular hymn, but less than 40 years ago you could have turnet through every catalog without finding it on even one waxing. Not until Rodeheaver began to put it over at the Billy Sunday meetings and on records did "Old Rugged Cross" grip the public emotions and heart strings. But you could take your pick of anywhere from six to a dozen versions of "Ave Maria," "Nearer, My God" and "Abide With Me" in the 1914 Victor, Edison and Columbia lists.

No survey of this type should

lead of the Peerless Quartet, must have run into the thousands.

Few artists have been so definitely identified with hymn singing as the late Frederick Wheeler and the still living John Young, who called themselves "James F. Harrison" and "Harry-Anthony" at the beginning of their recording careers. No Edison or Victor list around 1906-07 was complete without "Anthony & Harrison" singing "The Valley of Peace," "Tarry With Me," "When the Mists Have Rolled Away," "When the Roll is Called Up Yonder"—anything with a flavor of Moody & Sankey.

Around 1915 or 1916 there was one record company that issued with the Mist Harrison of Moody & Sankey.

'Tain't All Bing; Flock of Other **Tiptop Decca Packaged Wax Works**

......July, 1950

By MIKE GROSS

Decca as come a iong way in the packaged goods field since 1937 when it introduced the first modern pop album to the wax market. Its debut package was an album of Strauss waltzes cut by Harry Horlick and which racked up 50,000 album sales. In the ensuing years, the diskery has hit the golden circle jackpot with four 1,000,000 album sellers: "Merry Christmas" by Bing Crosby; "Songs He Made Famous" by Al Jolson; "Twas the Wight Before Christmas" by Fred Waring, and the original Broadway cast set of "Oklahoma."

And now, as part of its 20th anni celebration, Decca is laying down as broadside of 31 albums, sparked by the five longplay platter disk history of Bing Crosby (reviewed in VARIETY Aug. 18, 1954), to make the dealers and public Decca-conscious, and to try to rack up the biggest quarter-period sales gross in its history. Crosby's \$27.50 package is the spearhead.

Decca has made this fall push an all-encompassing release. From the 89-tune song cavaleade by Crosby, the albums run the gamut of today's package market to 'ia, (Continued on page 68)

clude pops, mood music, dance music, hillbilly, folk and jazz. Lone weak spot in the overall release is in the classical field; here the disk-

DECCA'S 20-YEAR SUCCESS STORY SPANS VITAL SHOW BUSINESS ERA

The Decca 'Records' saga spans only 20 years, but that's long enough to give it a veteran status in show business. Decca, in fact, is the second oldest company in the disk industry, second only to RCA Victor from the viewpoint of being continuously under the same ownership. (The veteran Columbia Records Co. became a CBS subsidiary some years after Decca was organized.)

was organized.)

Born in the economic slough of 1934, the company has since evolved through most of the major developments of 20th century show business. At the outset, it confronted the competitive threats of soundfilms and radio, and then went on to survive and surmount depression, war, the advent of television in the postwar period, and the internecine "battle of the speeds" some six years ago. Decca, in short, has been shaped by all the major economic and electronic forces operating in the contemporary show world.

The late Jack Kapp. co-founder

The late Jack Kapp, co-founder of Decca along with Milton R. Rackmil, the now deceased E. F. Stevens Jr. and English Decca chief E. R. (Ted) Lewis, came up with the decisive creative formula for the company. "What's in the groove is the only thing that's important." With that signpost to mark the road ahead, Decca has consistently moved along stressing mark the road ahead, Decca has consistently moved along, stressing the show biz fundamentals in its catalog while regularly coming up with the new idea needed to keep in step, or a step ahead of, the changing times and tastes.

Accent Marquee Names In Original Roster

The first flock of artists signed by Decca was the tipoff to the company execs' intuitive showmanship. Headed by the Bing Crosby, that group included Guy Lombardo, the Mills Bros., Victor Young, the original Casa Loma (Glen Gray) orch, Ted Lewis and the Dorsey Bros. Except for the Casa Loma crew, which is now defunct, every other name on that initial roster is still prominent in show business.

ness.

But it's a long haul from the shoestring status of 1934 to the \$20,000,000 annually grossing business of 1954. While today Decca is a firmly-established corporate entity with a supplementary base in Hollywood via its majority stock interest in Universal Pictures, 20 years ago the Kapp-Rackmil-Stevens team had to duck-bill collectors while scrambling for additional money from Lewis to keep their venture afloat.

Although Crosby ultimately was become the chief breadwinner to become the chief breadwinner for Decca over the years, the company first got off the ground in 1935 when Mike Riley and Ed Farley turned up with 'The Music Goes 'Round and 'Round.'' It was the initial Decca disk to sell 100,000 copies and in December of that year, the label had its first black ink entry of \$1,134.16. The following year, the Andrews' Sisters joined Decca and came up with the second click, "Bei Meir Bist Du Schoen.' Crosby's "Silent Night," etched in 1935, was ultimately to become Decca's first 1,000,000 seller. 1,000,000 seller.

1,000,000 seller.

At the outset, Decca execs flashed their business acumen and aggressiveness. With the disk biz caught in the paralysis of the general economic crisis, Decca slashed its platter prices to 35c. That move proved to be an invaluable hypo for an industry which barely sold over 6,000,000 disks per year in toto. It spurred Victor to conduct a sales drive for a \$10 player-record package (an early analogy to the more current low-priced 45 rpm disk-phono deals) and the disk biz was well on its way to share in the country's economic revival.

Shrewd Merchandising

Shrewd Merchandising

Decca's early setup of factory-owned branches, a system which the Kapp-Rackmil-Stevens trio had devised while working for the Brunswick company, is still the devised while working for the Brunswick company, is still the mainspring of the label's distribu-

tion pattern. At the outset, more-over, Decca envisioned the future importance of the jukeboxes as a promotional and sales medium and, with the 35c disks as a wedge, the label was sold to the coin-machine operators.

Decca has been listed on the N. Y. Stock Exchange since 1941, but was paying dividends to its stockholders since 1937. It hasn't missed cutting a melon since. In the 17-year interval, it has shelled out \$9,000,000 in dividends to shareholders shareholders.

it was during this period that E. R. Lewis began his gradual exit from the American Decca company. He sold half of his holdings in Decca in 1937 and 1938 and, a year later, when England was thrust into the Second World War, he sold the other half. Lewis, however, remained board chalman (in absentia) until the end of the war when that post was eliminated. Jack Kapp was the company's first president and served in that post until his death in 1949, when Rackmil, who was then exercise-president, moved up to the top spot which he holds today in both the Decca and Universal Picture companies.

Pioneered Packaged Goods

Pioneered Packaged Goods

Pioneered Packaged Goods
One of the key examples of the
savvy and showmanship within the
Decca organization during its
formative years was the decision
in 1937 to merchandise pop disks
in a single package. This was the
birth of the pop record album idea,
which today has grown into one of
the most important facets of the
business. Decca's expansion of its
pop albums also gave a permanent
catalog value to sides, which as
singles, had only transitory sales
importance.

In 1938, Decca's disk business

importance.

In 1938, Decca's disk business had grown to the point where it warranted entry into the accessory market with a line of phonographs, needles and other equipment. This equipment line was also handled by Decca's factory-owned distribution system, which at this time comprised 19 branches. During this period, Decca also expanded its plant with opening of a new factory in Richmond, Ind. to 'supplement the New York and Bridgeport pressers, and in 1941, Rackmil bought out the Brunswick Radio Corp. from Warner Bros. and acquired some 6,000 masters in the Brunswick catalog in addition to some real estate in Dubque, Ia., and Muskegon, Mich.

Big Business 10 Years Later

Big Business 10 Years Later

Big Business 10 Years Later
At the 10th anni marker in 1944, Decca was already big business although the industry as a whole was in a straightjacket of production quotas imposed by the exigencies of the war. Crosby had already hit the 1,000,000-sales total on "Silent Night," and Decca's roster of artists now numbered such names as The Ink Spots, Jimmy Dorsey, Judy Garland, Woody Herman, Count Basie, Louis Armstrong, Connee Boswell, Carmen Cavallaro. Bob Crosby, Deanna Durbin, Ella Fitzgerald, Louis Jordan, Tony Martin, Jimmle Lunceford, Ted Weems, Dick Haymes and others.

The horizons of the industry

Haymes and others.

The horizons of the industry were widening during this period and Decca began making its move into the various subdivisions of the overall music market. In addition to its pops, the basis of the business, Decca launched separate departments for country & western, blues & rhythm and kiddie disks. Latter department was created by Kapp by converting a baritone, Frank Luther, into a singer of juve songs and this initiated a segment of the business which grosses about \$15,000,000 yearly for the industry. industry.

Original Cast Albums Another Famous First

Another historic innovation by Decca was made in 1943 when the company conceived the idea of original cast album packages of complete legit musical scores. The first album of this type happened to be Rodgers & Hammerstein's "Oklahoma!" and this coup paid off with a sale of over 9.300,000 sets—and it's still selling.

Decca continued to hat with an

exceptionally high average in picking subsequent legit musicals for packaging. Included in Decca's catalog are such shows as "Annie Get Your Gun," "Guys and Dolls," "The King and I,"#'Carouse!" and "Wonderful Town." Here was a new concept of disk showmanship with a commercial kick. During this period, the company's more specifically cultural projects were also formulated by Kapp with the help of poet-anthologist Louis Untermeyer.

In 1945. Stevens, the first of

termeyer.

In 1945, Stevens, the first of Decca's triumvirate, died and Rackmil moved up from treasurer to exec vice-prexy. Leonard W. Schneider, who joined the company in 1940 as advertising-promotion chief, was upped to vice-president and Louis Buchner, one of the original Decca employees, was elected treasurer, a post he has continued to hold. Jack Kapp continued as Decca prexy.

Peak Sales and Joison Too!

Peak Sales and Jolson Too!

In the immediate postwar years, Decca soared spectacularly. In 1946, sales hit over \$30,000,000 and in 1947, business hit the peak figure of \$32,508,000. Big boost to the gross that year came from now-deceased Al Jolson, whose sound-track to his Columbia Pictures biog, "The Jolson Story," turned into a wax bonanza. Jolie's version of "The Anniversary Song" sold over 1,000,000 copies and his four-platter album of tunes from the pic, also shot over the 1,000,000 mark.

When the sneed battle was

mark.

When the speed battle was launched in 1948-49 with Columbia Records' introduction of the 33 rpm microgroove idea and RCA Victor's accent on the 45 rpm system. Decca made the best of both ideas. It began to package its albums in longplay form and adopted the 45s for its singles and, more recently, swung over to the 45 rpm extended play sets after Victor bowed this dea last year. In general, Decca's attitude was that the speed was secondary to what was in the groove.

Coral Cradled in '48 With Own Distribution

With Own Distribution
In 1948, Decca turned up with
the idea for subsidiary label, Coral
Records, with a wholly independent distribution apparatus. Double aim in this project was to cut
in on part of the business being
done by the flock of indie labels
which cropped up after the war,
and secondly, to develop new talent and disk ideas. Coral also absorbed the old Brunswick catalog
and from this roster, it became the
first company in the postwar era
to package an album series of jazz
classics.

On March 25, 1949, Jack Kapp, the first Decca prezy, was fatally stricken by a heart attack and Milton R. Rackmil, the last surviving member of the trio which founded became president of

Decca, became president of the company.

Under Rackmil, Decca underwent a new period of expansion. Decca entered the longhair field with its Gold Label line and affiliations with the Deutsche Grammophon Co. and Parlophone Records. In 1950, Decca purchased the Compo Co. of Canada and its affiliate, Apex Records.

Rackmil Buys Universal

Rackmil Buys Universal
Rackmil's most striking act was
Decca's buy of 26% of Universal
Pictures stock in 1951. Soon after,
Decca acquired a majority interest
in Universal (today it controls
72.5%) and Rackmil became president of both companies. Decca's
tieup with Universal now makes
the diskery a farflung show biz
entity, analogous to RCA Victor
with its network affiliation through
the RCA corporate setup, and Columbia Records, which is a subsidiary of the Columbia Broadcasting System.

Another historic innovation by Decca was made in 1943 when the iompany conceived the idea of original cast album packages of complete legit musical scores. The irst album of this type happened o be Rodgers & Hammerstein's 'Oklahoma!" and this coup paid iff with a sale of over 1,300,000 ets—and it's still selling.

Decca continued to bat with an ingression of the company and the company and the company and the company and the Rodgers of further growth via the shareholders to support Rackmil's management with a decisive vote of confidence.

AN INSPIRED PRODUCTION by an INSPIRED PERFORMER!

Decca's Bangup Album Job on Bing' Sparkplugs Diskery's 20th Anni

ABEL GREEN IN ARIETY

(WEDNESDAY, AUGUST 18, 1954)

Decca is celebrating its 20th anniversary this year, and tradewise is signalizing the event with an album sales push.

If it had nothing else to dramatize the event, its \$27.50 musical autobiography of "Bing" (DX 151) would be more than sufficient unto the purpose thereof.

pose thereof.

It's an inspired production, by an inspired performer, as Bing Crosby uncorks almost 4½ hours of palatable "groaning" and polysyllabic smalltalk of the calibre which has long distinguished him, vocally and as a personality. It quickly belies the modest insistence of his "call-me-lucky" life's summation because, by the very nature of this cavalcade of the cream of the crop of American music, does he give evidence, in plenty, why Crosby has remained on top for so long. He is a canny performer period. He knows how to spread the wealth, with credits for all, and long since after his colleagues, and even the title of his celluloid credits, have become dim in memory and chiefly for the archives, The Crosby vocal style has given new virility to the song excerpts therefrom.

And what a medley! He quickly proves why and how he has become "the most listened to voice in the world."

The wealth of song material is synonymous with the days of our years,

The wealth of song material is synonymous with the days of our years, and more than half of the album comprises specially waxed excerpts from the late 1920s and '30s—with the Cole Trio-and are updated with actual recordings in solo or in association with Jolson, Mary Martin, et al.

Offbeat Palaver

Crosby's small talk is pleasant palaver and a nostalgic refresher course on the early days of sound-pix and radio. The plenitude of names from both media, interlarded with Crosby's affection for the Petrillo clansmen, sounds like a yes'eryear directory of SAG, AFRA. (this was before AFTRA) and AFM personnel. He namedrops like a phone book, but it is all pithy, pungent and pertinent to the proceedings. There are casual anectiotes about songs and song-writers and song situations which are startlingly informative, such as the disclosure that Barris and Clifford wrote "It Must Be True" as a countermelody or obligato to "If I Could Be With You (One Hour Tonight)," and thus a hit was born. He salutes Paul Whiteman for giving him the first opportunity, and credits anybody and everybody with whom he was associated professionally and socially.

It's not all Tin Pan Alley product. He does hymns and folk songs, Irish and Hawaiian and Maori ballads, along with the galaxy of songs that constitute, the alltime Hit Parade of the past quarter-of-a-century.

Nifty Packaging Job

Decca's poet laureate and musical editor Louis Untermeyer produced an impressive 24-page brochure that goes with this elaborate package which is further distinguished by a wooden case, with miniature padlock (prop key enclosed), and an impressionistic multi-color cover of Bing. The booklet also includes an elaborate breakdown of the Crosby discognization of the color raphy, by singles and albums.

It's a timeless item of long durability, a signal salute to "Bing" and the diskery with which he's been identified from the start of Decca's birth 20 years ago. This album is living proof why "the voice of Bing Crosby has been heard by more people than the voice of any other human being."

from the spot this past season. The something new that's been added to this set are two medleys never before recorded. Vocals and instrumentals are interspersed neatly. It's all practically, a replica of a dance set at the Roosevelt.

Armstrong-Gordon kins: In recent years, Armstrong has strayed from his original jazz into the quasi-pop groove. He's got eight pop workovers on this \(\)'olich LP and although he does it with originality and vigor, it's not the best of Satchmo on wax. Gor-Jenkins has supplied some in-sting arrangements and backs

Armstrong with an okay beat. Armstrong with an okay beat.

Leroy Anderson: Although composer-conductor Leroy Anderson had a hitless year, his previous clicks, "Blue Tango," etc., have established him as a strong pop instrumental name and his new 12-inch LP pops concert, should please his fans.

please his fans.

Mills Bros.: While the new crop
of vocal groups are setting a
disclick vogue with harmony histrionics, discordant sounds and offbeat rhythms, the vet Mills freres
remain supreme in the combo field
with their placid and perfected
harmony techniques. Their relaxed
delivery on this 10-inch LP of eight
solid tunes excellently showcases
the Mills' style. The boys mix up
standards and novelties for a delightful ear-arresting song potpourri.

wrong with Peggy Lee's new 10. inch LP that some strong material wouldn't help. For the most part the songalog is just stuff which didn't take off as pop singles. It's an okay idea for the Peggy Lee fans but it's not taking full advantage of her potential. She's cut better tunes in her time and she can still etch better ones than the eight offered in the album.

Russ Morgan: The maestro's "Everybody Dance" series has been "Everybody Dance" series has been an okay seller for the diskery. This 10-inch LP set is the third of the group and it follows the pattern. Morgan has put together an inter-esting medley of danceable items, all in foxtrot rhythm, that'll also appeal to the wallflowers. Al Jen-nings and Betsy Gay help Morgan with the vocal chores.

with the vocal chores.

Ink Spots: A must for Ink Spots collectors, especially for "I Don't Want To Set The World On Fire." Bill Kenny's smooth soprano sparks the group through seven other tunes, classified as "torch items." It's a pleasant 10-inch LP with a couple of other standouts such as "Street of Dreams" and "I Cover The Waterfront,"

**Intra Colonna: "Music For

such as "Street of Dreams" and "I Cover The Waterfront,"

Jerry Colonna: "Music For Screaming" is the tag Decca's album department chiefs have given this 10-inch LP set. It's a self-incriminating monicker. It's doubtful comedy and it's questionable music. The Colonna fans, however, may be interested to know that he destroys such songs as "It Might As Well Be Spring," "You're My Everything" and "Sweet Adeline."

Jeri Southern: Thrush is one of the top exponents of the "warmintimate" style. The eight tunes, on a 10-inch LP, add up to a solid mood album for cocktail time or late hour listening. Most of it's culled from her night club repertoire and it's delivered in a cozy intimery mood. Dave Barbour's trio helps her pull through such sockoldies as "The Very Thought Of You," "All In Fun," "Ev'rytime We Say Goodbye" and "Mad About The Boy."

Van Lynn: The Van Lynn monicken in monicken in mone feerblest in Poles.

You," "All In Fun," "Evrytime We Say Goodbye" and "Mad About The Boy."

Van Lynn: The Van Lynn monicker is more familiar in Europe (Holland, especially) than in the U. S. but Decca is counting on the composer-meastro to help it make a dent in the "mood music" sweepstakes. Diskery has gone all out with Lynn, releasing five separate 12-inch LPs in its fall anni release. Diskery's confidence in Lynn is based on solid showmanship values. The a&r brass has figured that the "mood music" field is being flooded with albums covering the same standards penned by Rodgers, Berlin, Youmans, Kern, et al, so Lynn's European waxings of originals were grabbed for the all-out push. The LPs are in varied moods and should be an asset to deejay programming as well as to deejay programming as well as to home phonograph playing.

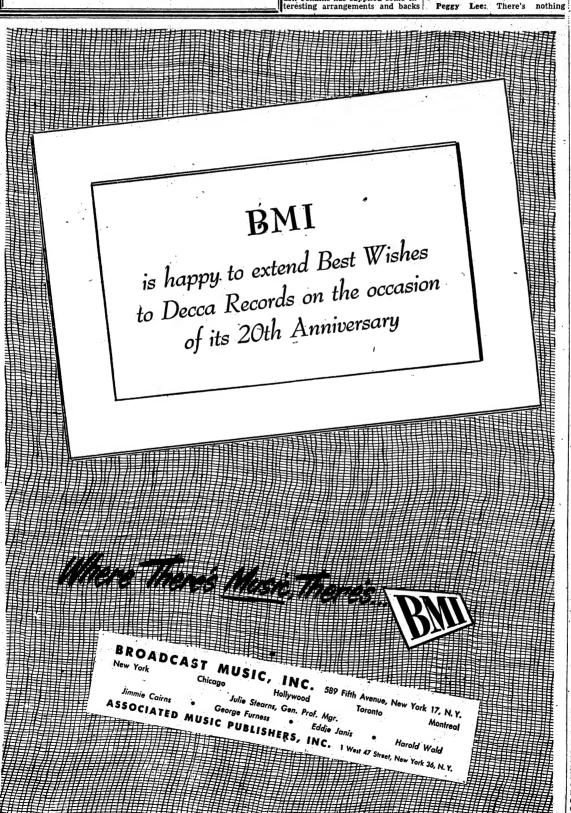

Burl Ives: The folk music fans have a treat in store for them in this latest 12-inch LP Burl Ives album. It's an on-the-spot recording of Ives' Coronation concert at Royal Festival Hall, London, last year and it retains all the exuberance and magic of a "live" performance. This marks the first time a folk singer's concert has been waxed right from the stage. Ives works over a flock of his standard stuff but when the aud chips in on his "Mr. Froggie," the feeling of being part of the concert really comes through. It's the same intimacy that Victor Borge achieved on his Columbia 12-inch LP.

Bob Crosby: Bing's brother Bob gets in to Decca's 20th anni act with a 12-inch LP of etchings he sliced while he was riding her with a top swing aggregation called The Bob Cats. Most of the numbers were recorded in the late '30s and they're all representative of their time.

Webb Pierce: 'At the Decca proxy fight a few months back a dissident from New England warned to know

Webb Pierce: At the Decca proxy

from New England wanted to know
what Webb Pierce was doing on
the roster. If he hasn't found out
you wall the management has to
do is send him a copy of Pierce's
latest 10-inch LP album. In eight
numbers, Pierce shows easily why
he is one of the top hillbilly singers around and why he's a steady ers around and why he's a steady moneymaker for the label. Set includes such Pierce clicks as "Wondering" and "Back Street Affair." It's got to go big in the aifalfa market.

'Standards' of Tomorrow

While a lot of Tin Pan Alley execs are bemoaning that "they aren't written the way they used to be" or "where are the standards of tomorrow," WNEW, N. Y., disk jockey Jerry Marshall last week programmed eight recent and current songs which he believes will be around for some time. Roster included "Secret Love," "Wanted," "Nearer My Love To Thee," "Hey There," "Little Things Mean A Lot," "Young At Heart," "Three Coins In The Fountain" and "H I Give My Heart To You."

Marshall said, "In any period there will always be a certain percentage of good songs and renditions, as well as poor ones, when we look back 10 years ago and 15 years ago, we can only recall the good tunes. These naturally survive because they've been continually played. We tend to forget the bulk of the numbers which were then in the mediocre to downright poor category because they just haven't received the spins after their initial two or three month stay."

publishers and writers over the payoff on mechanical royalties has payoff on mechanical royalties has cropped up again with a stiff protest by the Songwriters Protective Assn. against certain unauthorized deductions made by some publishers. SPA, in particular, put the spotlight on the practice of publishers to slice promotion costs off the royalty payments to writers.

History of this situation goes back eight or nine years when the disk companies began putting the arm on publishers to shell out coin for special promotional material, trade paper ads and other exploitations controlled the controll

for special promotional material, rade paper ads and other exploitation costs. In order to get more disks from these labels, the publishers usually okayed an outlay of \$500 to \$1,000 for this purpose. But without consulting the songwriters in many cases, the publishers automatically deducted half of this money from the writers' share of mechanical royalties.

Charles Tobias, SPA prexy, called the attention of publishers to the fact that the SPA pact of 1947 requires them to pay the writers 50% of "all gross receipts." Tobias said that, in his opinion, "the gross receipts with respect to a phonograph record are the monies due from a record company before, and not after, any deduction. Therefore, under the contract such deductions may not be made."

tion. Therefore, under the contract such deductions may not be made."

Frequently OKd In Advance
In many cases, the publishers have been getting the okay of the writers in advance of making the deductions but the SPA crackdown is aimed at those firms which make the cut without getting any prior approval. If a pop disk sells around 50,000 copies, the writers sometimes expect a check for a few hundred dollars to tide them over until the next song. With this type of sale, they should get \$500 or 1c per copy. Frequently, however, they wind up with nothing, or even in the red, because of the promotional outlay by the pubs.

The publishers aren't too happy about laying out for promotional costs either. They point out that the 1c royalty for themselves (when they get the full statutory rate) doesn't give them a big enough margin to warrant their helping out the diskeries with promotion. But the pubs have to go along, especially if they get a big artist on a song. They figure that the performance money and whatever sheet sales they can rack up eventually will take them off the hook.

New Legal Tactic Vs. Derby Records To Curb Freeloading by Mechanicals

Plugs to Order

Don't underestimate the power of a video plug in making a new song, or even one that hasn't been written yet. A couple of weeks ago, Paul Whiteman referred to his recent Coral Records' coupling of oldies, "Whispering" and "You're Driving Me Crazy," as music as played "now and then."

Since then, 'dealers have been asking Coral distribs for Whiteman's disk of "Now" and "Then."

Marek, an obvious theatre enthusiast, Is of the opinion that the reason why London legit is so thriving is because (1), as a nondrinking man himself he observes how well the theatre bar business booms, which he deems evidence of "general relaxation," and (2), there is also the relaxation that comes from an under-\$3 admission ticket against twice that in Broadway, with result that the N. Cleveland—(Grossman Music)

mg by Mechanicals

As a further step in his legal
maneuvers on behalf of music publisher' principals to stamp out
"freeloading" by the mechanicals,
on Aug. 30 Harry Fox, through
Julian T. Abeles (& Bernstein) instituted a series of novel actions
against Derby Records Inc. in the
N. Y. Federal Court.
In prior series of actions, likewise instituted through Abeles, although only nominal royalties
were claimed to be due, substantial recoveries were had, including
attorneys' fees. For the first time
also the \$250 minimum for each
recording was held to apply to mechanical reproductions. While the
defendants had anticipated that
such actions could not be brought
to trial for from two to three
years, judgment was obtained
within a period of approximately
one month by summary proceedings.

In one series of such actions
against Remington Records Inc., in
which summary judgment was likewise recovered and a master appointed by the court to determine
the extent of the recovery, Fox is
now seeking \$5,000 instead of \$250
minimum for each recording, based
upon testimony of damage wrought
by such unilcensed reproductions
to authorized recordings.

This legal maneuver virtually
squelched these rife unlicensed recordings which had mushroomed.
Apparently, under legal advice a
majority of such violators changed
their tactics and applied to Fox for
licenses. This was done with the
assurance that action could only be
brought in a state court and that
after a delay of two or three years,
the extent of the recovery, would
be the actual royalty payable under the license. With the possibility that the judgment would then
be as collectable as a ticket on an
also-ran horse, this appeared of dubious value.

To combat this new menace the
current actions against Derby have

bious value. To combat this new menace the current actions against Derby have been brought to establish a legal precedent. It will be contended by Abeles that as Sec. 1(e) of the Copyright Act is incorporated in the Fox license agreements, the U. S. Court has jurisdiction as an action under the act. This will enable Fox's principals to recover, in addition to the actual royalty due, three times such amount besides three times such amount besides court costs and attorneys' fees. Fox having estimated that Derby is in royalty arrears to the extent of \$20,000, a recovery of \$80,000 is anticipated in addition to costs and

anticipated in addition to costs and attorneys' fees.

If attorney Abeles establishes this legal precedent these actions will set a pattern for all future proceedings to enforce payment under the Fox license agreements. Fox, of course, is suing as trustee for the music publishers (copyright owners) whom he represents.

Inside Stuff—Music

"If I Give My Heart To You," Big Three tune which is currently getting coverage by the major labels, took a long time getting off the ground. Connee Boswell sliced the tune for Decca last January and the number was first released last June. Since that time, Miss Boswell's disk has been climbing steadily in the deejay charts.

The persistent jock spins for the Boswell side, in fact, cued Columbia Records to cover with Doris Day and RCA Victor with Dinah Shore. Both of these companies are going all-out to grab top money on this number although Decca now has the frontrunning side. The number to date is the biggest that Miss Boswell has had in the last seven or eight years. seven or eight years.

"If I Give My Heart To You," incidentally, was written by Jimmy Crane who also cleffed "I Need You Now," the newest Eddie Fisher slice for Victor, Crane used to be a fulltime Tin Pan Alley writer but now is in the jewelry business. He placed both songs with Lester Sims, general professional manager of the Miller Music wing of the Big Three combine.

The first roster of writers pacted exclusively to Broadcast Music Inc., lists a number of artists & repertoire staffers as BMI songsmiths. In this category are Henri Rene and Harry Geller of RCA Victor, Jimmy Hilliard of RCA's Label X, and Jerry Wexler, of Atlantic Records, Also on the BMI roster are a flock of bandleaders and instrumentalists such as Ray Anthony, George Auld, Maggie Fisher, Eddie Heywood, Mickey Katz, Peewee King, Rex Koury, Billy May, Lucky Millinder, George Shearing and Joe Thomas. In the longhair field, the list has E. Power Biggs, Lionel Newman, William Schumann and Roger Sessions. Roster also numbers a professional photographer, James J. Kriegsmann.

"Skokiaan," the Zulu tune from South Africa, continues to rack up an increasing number of disk versions. Following Perez Prado's mambo version for RCA Victor, Louis Armstrong has given it a dixieland workover for Decca, Tune, published by Shapiro-Bernstein Music in the U.S. and launched by London Records with the native Bulawayo Sweet Rhythm Band, has been covered by all of the major companies.

Gozzo's RCA Jazzo

Conrad Gozzo, trumpeter with the old Glenn Miller band and stope then sideman with most of the extant top bands, has been signed by RCA Victor to head up

a jazz combo.

First album will be titled "Gozzo
The Great." Jack Lewis, head of
Victor jazz operation, pacted the

Victor Offering New Groove Guard To All Diskeries

Akin to the manner in which RCA made available its 45 rpm system to all manufacturers, RCA Victor's Manie Sacks next week system to all manufacturers, RCA Victor's Manie Sacks next week will invite the disk biz's Record Industry Assn. of America to avail itself of the "groove-guard" which his company has developed.

This is a simple device, by raising the spindle centre and the edges, to obviate damage by the paper or cardboard jackets to the phonograph records.

'WANTED' SONG SEEMS TO STIR LEGAL SUITS

"Wanted" stirred up another legal action last week when Herbert Music, a Coast firm, claimed infringement of one of its copyrights, Witmark, firm publishing "Wanted," was named in an infringement

ed," was named in an infringement suit brought by Meyers Music a couple of months ago.

Herbert Music alleges that "Wanted" is an infringement of "Truly," penned by Johnny Mercer and Antone Ivello prior to 1949, Suit, which was filed in N.Y. Federal Court, is asking for an injunction and an accounting of profits. "Wanted" moved into the hit brackets via Perry Como's slicing on RCA Victor.

But I am concerned about your editorial of Aug. 11 in which you quote Bob Burton as saying: "It's a garbage business and you're bound to get fifthy when you play with dirt."

Did be really say that? That is

with dirt.

Did he really say that? That is unfortunate. If people of his standing in the music business take that attitude—don't they encourage rather than discourage unethical practices and chiseling?

We in the Songwriters' Protective Assn. do not believe that the music business is or should be a garbage business or that people in it are bound to get filthy. We will continue to try, to clean the business up as best we can despite the desire of other people to play with dirt. the desire with dirt.

Philly Solons Project Cuffo Teenage Dances With AFM Cooperation

Wednesday, September 1, 1954

Philadelphia, Aug. 31. Philadelphia's entertainmentminded Recreation Department plans to branch out into a new field and is asking City Council for \$10,000 to provide dance bands for teenage get-togethers at its neighborhood centers.

With its free Philadelphia Or-chestra concerts, free Robin Hood Dell programs, the popular-priced, municipally-owned Playhouse in the Park and other projects, the city solons have local amusement enterprises wondering how far they enterpri

Deputy Recreation Commissioner
Robert W. Crawford said the
budget request for dance music
came after a series of huddles with
officials of Local 77, American Federation of Musicians. Tentative
plan calls for several dances a
year at each of 29 centers, Crawford said, "to add variety to the
teen-agers' program, especially in
heavily populated areas."

heavily populated areas."

Plan has the unqualified support of Romeo Cella, president of Local 77, who has in mind forming two units of 15 to 18 musicians each to visit the various centers. Cella thinks plan "will be so successful it will keep on growing."

Local 77 musicians have not worked directly under city sponsorship since the band concerts in Fairmount Park, which were discontinued in 1932 at the beginning of the depression.

Crew Cuts: "Oop Shoop". "Do Me Good Baby" (Mercury). The Crew Cuts have found the sound and the formula that pays off in today's wax market. "Oop-Shoop" follows the same pattern as their current click, "Sh-Boom," and will get maximum spiris on all levels. Tune's rhythmic heat and nonsensical lyric will appeal to the juves. Flip side is another breezy item in rhythm & blues vein.

Joni James: "Mama, Don't Cry At My Wedding". "Pa Pa Pa" (MGM). Although "Mama, Don't Cry At My Wedding". is reminiscent of last year's hit "I Went To Your Wedding," it looks like another big one for Joni James. It's a hillbilly flavored item with the

Bob Manning: "I'm A Fool For You"-"The Other Side of the Story" (Capitol). Bob Manning has been edging up to a breakthrough disk for the past year. He's a step further with this coupling. It's doubtful if either side will take off into the big payoff groove but both will get a fair share of d.j. turntable time, Both are o.k. ballad entries and Manning delivers in a smooth and appealing manner. "I'm A Fool For You" has the better chances,

Louis Armstrong: "Skokiaan" (Decca). The "Skokiaan" wax kick has another potent entry in this Louis Armstrong two-sider. Part 1 is a strictly instrumental workover, and although Armstrong's trumpet shines through, it doesn't look like it will overtake the earlier waxings. Part 2 features Armstrong's crooning and it's this side that's due for a good ride.

I would liken the music biz to a tree—a musical tree—with many roots, which are the songwriter, the publisher, the a&r man, the recording artist, the musician, the diskjockey, the jukebox operator and many others. Now, if these roots are strong and healthy, combining their efforts to lend nour-ishment to the tree, the fruit will be good, the crop plentiful.

Night Club Reviews

Waldorf-Astoria, N. Y. Betty Clooney, Andrea Dancers (3), Henry King Orch featuring Ann Anderson, Mischa Borr Orch; \$1.50 and \$2.50 convert.

The Waldorf hasn't been batting 1.000 this season with its Starlight Roof bookings, as witness the Perez Prado band which stirred up a storm of noise, if nothing else, and now this new and final show of the summer season. As the mamboing Prado may have improved as he went along—he certainly did on moderating and modulating that fnambo beat—the admittedly tense Betty Clooney may likewise. However, as constituted, the younger sister of the Clooney clan, who is remarkably like Rosemary in looks and style if not in the same authoritative delivery, requires an almost complete revamping of routine. The Waldorf hasn't been batting

thoritative delivery, requires an almost complete revamping of routine.

Her repertoire is on the "surefires" side, with the exception of the "teddy bear" special, a missiout, and in light of inevitable comparison with other song stylists it requently brooks odious analogy. This is particularly true with numbers like "April In Paris," "My Man"—and Miss Clooney is too young, "nice," and much unlike a femme fatale to essay the Fannie Brice trademark song—and tothers. Titles speak for themselves, following her folksy opening "Smile and Shake Hands," as she goes into "Jealous," a pseudo-time-step (on mike) with "My Man," "Good Man Is Hard to Find," "Paris," "Will You Still Be Mine" and "You Wonderful You."

Miss Clooney has been on such labels as King and Coral, with occasional diskery impact, but requires seasoning for a more solid nitery rèsult. Spotting her into a top room like the Waldorf's Starlight Roof was a premature booking, as now constituted, even if she possessed a standout waxseller. A hit platter does make a lot of sychological audience difference, but in this case (1) it's lacking, at least not just yet, (2) the Rosemary Clooney reflex values may prove a mild bomerang, and (3) the kid sister requires further schooling.

Gloria De Haven, Gene de Paul, Paul Hebert Orch (7); \$2 cover.

For the next three frames Gloria De Haven will be dispensing saucy looks and sassy lyrics at the Mocambo and a full share of nitery trade will come her way. The Sunset Strip spot could well be subtitled "The Strippery" during her stand because she's doing a modified peel midway in her stint. It all goes with what she has to sell and the way she sells it, which is good. If you don't like her singing, you can't help but like her looks, or vice-versa. So how can she lose?

At opening show (25), the well-framed and costumed chirp was on for 25 minutes of a varied song-alog, mostly special material stuff that bangs its points about "Love's the Same All Over the World." A risque ditty, it's Miss De Haven's closing specialty, and for which she gets an appreciative hand. "The Blues" segues into the strip from a pink-sequinned gown and becomes a suspense number as shounces and shakes out the lyrics. "Little Things Mean a Lot," "Why Shouldn't 1?" and "Tm a Star" round out the turn.

Gene de Paul is 88'ing for Miss De Haven, and he's no "and the I wrote" composer making a nitery appearance. Kudos for his cleffings are taken care of by Miss De Haven, including a brief "I'll Ree

ming steadily, while the two supporting acts have followings of their own.

Ives is an affable performer whose cheery-faced warmth manages to turn appropriately stern on religioso items like "Noah Found Grace." Otherwise his demeanor is homey, wistful, tender or raucous as the tune permits. Easy vocal attack and gentle humor make him magnetic, and the crowd is loud with its approval on everything he issues. His sets are short, only five or \$x\$ numbers in each but they're satisfying for their variety as he shuns an overdose of any strict folksong mode.

Opening show (24) was kicked off with Irish novelty, "Killigrew's Soiree," and lilting "Rock Candy Mountain," Singing carried at a nice gait through "Grenadier's Pond." tock robust tone on "Noah," and relaxed on smooth, underplayed delivery of "September Song." Jules Podell is having himself a late summer bash with such cobilled contrasts as versatile Diosa Costello and psychomonologist Georgie Kaye. Assisted by the Caballero duo of Mario Regis and Phil Cook, the Latino cutup comes on for three separate innings in song, hoofery, shenanigans and, at show's finale, in a serious effort. She's a winning little bundle of nuclear fission, knows her way around a tune, can step and caper saucily and growl it a la Satchmo when need he.

Opens in Spanish style and then into a medley in English to fire away at "Love Me or Leave Me," "I'm in Mood for Love," et al. But the real wallop is in the native tongued "Granada"—as she says, seldom chirped by the femme of the species, but a great big lift for her forepart repertoire. In her second turn, Miss Costello is quite a visual kid in those glitteringly striped toreador trousers wherein she sings and pranees with the boys. Finish-offer at layout's closer is as Bloody Mary in a moody, deeply expressive, "Bail Hai" from "South Pacific," complete with a truncated hunk of scenery and with the boys as atmospheric helpmates. She's authentically caparisoned for a role that sets off her serioso demeanor to good effect.

Kaye's psychiatrist pitch spans 30 minutes. He's extra clever in the type of hop-skip narrative and monology that's become all but a lost art. His pace is alternately fast and slow, with carefully plotted timing and reversals that are just on the button to permit the chuckles to give birth and roll out, and then into another chore of milking 'em for the pails, His text is perforce exaggerated and eccentric, mandatory for his groove of comic. What remains is that personal identification of audience with the material that often is symbolic of genuine comedy, whatever its form.

Referendum to oust Jones was sent out a week ago following his speatheading a revolt against a Bright and Irving via a lengthy telegram to Four A's president—Paul Dulzell, requesting that charges fied against the AFM be dropped and a committee be appointed to take over the affairs of AGVA until Bright and Irving are investigated.

Jones and Bright instituted the referendum of AGVA's 45 board members on the grounds that Jones had exceeded his authority in calling the Philadelphia meet of AGVA reps that resulted in the issuance of the telegram.

SARATOGA TRACK BIZ OK SANS NIGHTCLUBS

The Saratoga, Aug. 31.

The Saratoga and 31.

The Saratoga racing season, which closed Saturday (28), was overall a good one despite an estimated 3% drop in attendance and a decline of slightly more than that in betting.

Again it was proved that Saratoga racing can be operated without the benefit of high-stake gambling in swank nightclub adjuncts, although evening business downtown suffered. Fewer people stayed over than was the case in the free wheeling days of the past. More patrons from upstate New York, western Massachusetts and Vermont visited the track.

In all, some 15 numbers are essayed. Act needs to be severely clipped as accordionistics become tedious in a 45-minute segment. Held over from previous show, comedian Sheeky Greene hits with a zany routine that focuses only on his strongest material. Accordingly he practices spoofery of hillbilly sirigers, Irish tenors, and pranchy prizefichters, which are fracturing. Greene, with much more confidence than at last time cought, clinches with a string of his best impressions involving Dean Martin, Johnnie Ray, and Frankic Laine.

Johnny Conrad and his three shapely femme partners start show off brightly in a primitive terp production. Unit is repeating here after making a fine impression six months ago. This much can be said for Cole that can't be said for too many other singers; not a word is surred and his enunciation is full-bodied and rounded. It's a neat trick he has of walking over to the piano and banging a few bars of a second chorus rather than just stand there with egg on his face from the splattered applause. His instrumental accompanists augmenting the crew of Dick Stabile — bass, guitar and drums (the fingered bongo beat is especially moody)—give him musicianly support.

To wrap up another first night of triumph for this fine artist, the applause thundered for minutes after his last encore. Not until Stabile cracked, "if you don't stop I'll play my sax," was the Jampacked room restored to a semilance of orderly conversation. Bobby Ramos kept the dance floor in a lather of leather. subbornly lay down on the floor is and refused to succumb to the councitish teasing of Miss Maxwell in her effort to get the beast up on its stand. What the tiger actually had to do with the act is a complete mystery other than the fact it may be classified as a publicity gimmick. The tiger was fired the next day after clawing Miss Maxwell at the swimming pool). Her act (see New Acts) will do okay with experience.

The scintillating vocal quartet, the Lancers, open the show in harmonies they made familiar at the Flamingo when they appeared there with Kay Starr not too long ago. But these harmonies are greater now, for the group has some a long way since then. They carbon the Ink Spots, Mills Bros. and are four Johnnie Ray's to big applause. Their oldie, "Muskrat Ramble," is socko, as is the spiritual "You Must Come in at the Door."

Will Jordan, a clever impressionist, mimes in song and character in surprising authenticity and 20 minutes of this is very refreshing. Unfortuately, at the opening he ran 40, which was 10 more than the star. He seemingly did not know how to get off or he feared the tiger backstage. In fact, he did Billy Daniels twice and it was feared he might repeat his entire repertoire. The high spot is a very clever Ed Sullivan and there could be no better place for the shears. It tops his array of clever impersonations.

The Last Frontier line of girls are fair in a pair of production numbers, while the Garwood Van orch does yeoman service backing the entire show which is in for three weeks.

Pair of other topflight numbers are "Sylvie" and "Quiet Girl."

This attractive warbler, whose name was spread via stage and film versions of "New Faces," is unveiling a well-conceived nitery act here that intermingles specialty songs and recitations with her ballad identities from the musical revue. She has a good grasp of her idiom and wisely sticks to it for peak impact.

Volce, which is strong and throaty, needs no mike in a small bistro and has an agreeable way of shifting to soft tones on ballads like "My Love Is a Wanderer." Miss Carroll tees off with lively "Things Are Going Well Today." "Spring Is Here," and then induges in a ludicrous monolog of a gypsy fortune teller with Bronx inflections. Rest of her yield includes "Guess Who I Saw Today" and "Penny Candy" from "New Faces" and a couple offbeat tunes.

As her experience on the legit shelf has taught, Miss Carroll has polse, a relaxed stage manner, and the canniness to worm a laugh from an innuendo. She's an excellent choice for smart' rooms and okay too for general yaude situations.

Americans returning from Germany in recent months have reported considerable production activity there. According to Podhorzer, 115 pix are made in Germany and Austria every year. However, while the U. wanten would lend themselves to universal acceptance.

Most recent company exec to make that statement was Joseph H. Moskowitz, 20th-Fox eastern studio rep, who returned to N. Y. Monday (30) from Europe. He said the Germans were active but lacked proper stories. Complaint is also voiced that the Teutonic film treatment is too heavyhanded in most cases to please U. S. audiences.

Podhorzer said Monday that, based on his own o.o. of German and Austrian production, the quality of these pix was on the upgrade, with the studios pitching their treatment to German as well as foreign audience requirements. He said a number of top German films could be expected shortly from the German and Austrian firms he's to represent in the U. S.

Indicated upbeat of touring shows for the upcoming season may be a virtual life-saver for the road. Except for the 1852-53 semester, which took a substantial jump, business on the road has been dwindling steadily for many years. Totals of both grosses and playing weeks reached an all-time low last season.

low last season.

On the basis of advance prosects, outlined in recent stories in Variety, the 1954-55 stanza looks bullish and should at least top the figures for '53-'54. Receipts for the first 12 weeks of the carrent season are approximately \$363,000 ahead of the '35-'54 take for the same period. Grosses so far this season have been getting a hefty boost from such b.o. smashes as "Caine Mutiny Court Martial," "King and I" and the "Peter Pan" tryout.

Road tally for '53-'54, based on Variery boxoffice reports totalled \$17,623,200. That represented a drop of approximately 25% from the big previous season, wheat the take reached \$23,417,60). Latter figure represented a jump of \$4,-589,700 over the \$18,627,900 total for '51-'52.

The '52-'53 boom was almost on a level with the 23,657,900 racked up in '48-'49. Receipts for the following three season dipped to the '51-'52 mark, which was rated an alltime low up to then.

Tieing in with last season's gross drop was the equally severe slipoff in playing weeks. Total for the season was 794, representing a dip of 242 from the 1,036 racked up during '52-'53. Latter total was 207 higher than the 829 tallled during '51-'52. Playing weeks for '48-'49 totalled 1,152, but decreased (Continued on page 84)

Modern U.S. Theatre Is 'Single Cultural Element.' **AETA Convention Told**

East Lansing, Mich., Aug. 31.
The American stage can no longer be strictly divided into "professional or amateur, commercial or art, civic community or academic, legitimate or musical." It exists as a national theatre, "a single cultural element in American life."
That was the theme of Warnes W.

Visitors in Philly to attend the Playhouse in the Park are apt to be left high and dry, literally, if they eat dinner at the Belmont Mansion, on Belmont Plateau, adjoining the municipally-operated show tent. Catch is that under the original deed of gift by which Philly acquired the pre-Revolutionary house from the Belmont family, the sale of liquors on the premises is barred in perpetuity.

Group of Broadwayites caught in that predicament last week appealed to Barney Abrahams, assistant treasurer at the Playhouse, who came through with a gratis bottle from his private store in the office safe. Setups are legal at the Belmont Mansion, so the fixins were no problem.

"Tea and Sympathy" has become censorship issue here as well as in Hollywood. West End producer Emile Littler, who saw the drama in New York, has written in a letter-to-the-editor of the Sunday Express that he favors cutting at least part of the play before allowing it to be done here. His statement was in reply to a beef by the sheet's the-atrical columnist Logan Gourlay against the Lord Chamberlain's ban.

"I do not think," writes Littler, "I do not think," writes Littler, "any theatre patron, man or woman, would care to sit out the scene in which three or four schoolboys stand on their toes on a bed fighting to peer through a small window at one of the school-masters' wives suckling her child. I found this more offensive than the much discussed sailors in 'Mister Roberts' peering through a telescope at a young girl undresstelescope at a young girl undress-ing."

While agreeing that there should While agreeing that there should be stage censorship, Littler avers that at times British drama suffers much from the heavy-handedness of the Lord Chamberlain's department. "Surely it is time," he suggests, "that the ban is lifted on a fine piece of writing like Lillian Hellman's "Children's Hour." Films are graded for their various audiences, but in the living theatre the Lord Chamberlain chooses the lowest denominator."

Answering Littler in an editorial footnote, Gourlay asserts that the scene referred to, which is short and unimportant, could easily be cut. It is irrelevant to the main scene. The New York critics, he adds, and many people from Britain who have seen the play are agreed it is handled intelligently, tastefully, movingly and inoffensively.

Neither Littler nor Gourlay mentioned the adultery or the references to homosexuality in "Tea and Sympathy," although those are the angles reportedly worrying M-G-M, which has bought the screen rights in the hope of getting a treatment acceptable to the production code.

Job-seeking promotional letters, standard practice among actors in recent years, particularly in to and radio, are now being used by legit stagehands.

Using a gag letterhead with the caption, "Wanted: A typewriter which spells correctly," C. Manley Lang, an International Alliance of Theatrical Stage Employees' member, has circularized Broadway managers with the following message:

"Speaking of the lesser evils, Uncle Moke used to say, 'When packing ham sandwiches for a pic-nic, pack your own ants with them ... don't take a chance on those found along the way.

"As you sojourn deeper into the realm of your production endeavors, it might be advisable to remember Uncle Moke's words.

However, the Centennial bosses pulled a giant snafu on the sound system and much of the narration of star Jeffrey Lynn is lost on the payees in the 9,000-seat grandstand. In addition, there's no backdrop to the 200-foot wide, multi-leveled stage and much of the sound falls back into the infield.

Lynn is okay in a difficult role,

Lynn is okay in a difficult role, but is overshadowed by tractor Sid Stone as the familiar pitchman. Most of the rest of the cast is local, and shows it. However, high spots are provided by a lively cancan number during the "Lusty Days" session, and Ellen Hegarty as a wiggling Little Egypt in the part depicting the "Trans-Missispipi and Internation Exposition" of 1898.

Generally, Omaha is getting its money's worth out of "Chuck Wagon," despite the fumbling of the sound system.

Players catch the nuances of the stage click, adding pleasant embellishment. Moreover, a feeling of participation is created in the intimacy of the theatre-in-thetround. Tom Browne Henry's direction gets solid performances from the four-actor cast, and the frothy aspects of play's girl-baffles-boy theme are will developed. For O'Seas Guests; Crix Slap at Lady Macbeth

Edinburgh, Aug. 31.

Launching at the Empire Theatre tonight (Tues.) of the English Old Vic players, headed by Moira Shearer and Robert Helpmann, in "A Midsummer Night's Dream," with Mendelssohn's incidental music added for the first time in 17 years, will likely prove the half-way highlight of the current International Festival here. Practically all seats are sold for this production, which leaves shortly for New York and an American tour.

The eighth International Festival is moving along steadily with no great excitement apart from speculation as to who will be its next artistic director, succeeding Ian Hunter. This plum British post, first held by the New York Metropolitan's Rudolf Bing, has been advertised widely throughout the world, and to date there are 120 applicants.

Another Festival highlight, a Scottish "Macbeth," has caused some controversy, with the 44-year-old English actress Ann Todd playing Lady Macbeth in long red tresses and being hit by certain crix for being too savage. It is a contrast from her glamor roles in pix, and Miss Todd hits back by saying nobody will believe in a weakly feminine Lady Macbeth. The role of Macbeth is capably taken by Paul Rogers. He rages and murders to fine effect on the apron stage of the ancient Assembly Hall, a massive building where the actors run on through the audience and risk danger of stumbling in the darkened aisles. Production achieves a gloomy and bloodthirsty effect, with soldiers in ancient costume and kilt, and squealing bapipers, swarming over the stage.

Overseas element is strong at this Festival, though most have squawked loudly about the miserable weather conditions of the opening half. It has rained down through the mist that surrounds the historic Castle on the rock. It has rained for hours and hours, and few have seen the capital city of Scotland in its true sunshine loveliness.

loveliness.
Estimated that, over the three-week stint, some 250,000 persons will be in the city to spend between \$6,000,000 and \$9,000,000.
To choose from, there is a total of 170 performances of the official variety, plus hundreds of "fringe" shows. Over 2,500 artists are taking part. Official Festival performers include 14 orchs, seven choirs, one ballet company and one opera company, five dramatic companies, and 27 soloists.

The Theatre Guild has hit a fine The Theatre Guild has hit a fine stride with this sombre new play by Dublin actor-playwright-novelist Walter Macken who also plays the central role. And to stage it, the Guild has brought back from television one of its old directors, Worthington Miner. After this week's auspicious breakin here, "Home Is the Hero" gets two more weeks of rehearsal before opening on Broadway, week of Sept. 20, earliest Guild premiere in some years.

earliest Guild premiere in some years.

Although Macken, comparitively little known to the U. S., is an impressive actor-writer, and is augmented here by an uncommonly interesting and highly serviceable cast, it is a newcomer, Loretta Leversee, who scored the outstanding opening night click.

"Home Is the Hero" has a monstrous subject. Paddy O'Reilly has long been a bully in his contemporary Irish city. His strength and bravado have long quelled his subjects, including his wife. Then, on a spree one day, he unintentionally kills his closest friend, and is imprisoned for five years.

In time his gentle, crippled, skeptical son is wooed by the daughter of the man he murdered. His own rather hard daughter, has a seemingly worthless suitor, and his cowed wife nips lager with the roomers she has taken in for solace and sorely needed funds. Released from prison at last, Paddy is still the bully. But after almost killing another man, he goes away on his own.

Macken gives a standout performance in the title part. Miss Leversee, as the neighborina daughter who loves the cobbler-son and survives his disbellef and his father's domination with equal aplomb, has a moving quality and warm assurance.

Glenda Farrell is especially good as the wretched wife, although her

Despite its Broadway-bound billing, its Broadway cast and big time flavor, "Michael and Lavinia," in its present form, falls far short of Broadway quality.

It is a studied and at times philosophical satire which somehow lacks the spark of spontaneity. And though it shows understanding of present day ills and human frailities, the opening presentation wasn't broad enough to evoke the expected laughter.

"Michael and Lavinia" is about a medieval duke and duchess whose devotion and maturity prove too much for the persistent romanic efforts of a local Don Juan. Latter makes the mistake of believing his own lecherous buildup via an imaginative troubadour. But even when the duke reluctantly goes away to a war he's too civilized to believe in, the would-belady-killer fails to make the grade. Perhaps the script might be sayaged by a 'broader melodramatic performance, even to the extent of musical comedy playing for a laugh-getting spark. The first act is very slow, its two scenes taking 30 and 35 minutes respectfully. Second act has two short scenes, with still not much action. Last act in trends and a tower room are imaginative.

as if she were Geraldine Page in a Shirley Booth vehicle. Only intermittently is there a glimpse of the sharp talents attributed to the now featured Miss Van Fleet.

The play is based on a short story by Albert Halper in which a rather silly New England spinster inflicts herself on a flat full of Chicago relations in nominal search of high romance. It is 1916 and Dalsy uses the insinuations of the Castle Walk and the Bunny Hug to bait a sleek young crony of one of her nephews. It is desperate the state of the control of the castle Walk and the Bunny Hug to bait a sleek young crony of ate attempt by a passionate Bostonian to escape the feavyhanded attentions of a portly suitor who works in the Chicago & Northwestern Railroad roundhouse.

Co-adaptors Halper and Joseph Schrank do not probe their cologne-drenched heroine and her problem is treated almost as a lark in fact, they call their play a comedy. Moreover, it has been staged by Robert Ellenstein at a breakneck pace that still is not fast enough for the narration dialog much of which is lifted from the pages of Halper's novelette.

With Miss Van Fleet floundering in the central role, helplessness is catching. Only Rusty Lane as the scorned fat man and Winnifred Cushing as a patient sister-hostes are notable. The role of the sharp young man is a caricature and as such is probably well played by Leslie Nielsen, who gets feature billing with Miss Van Fleet.

The play is grimly set in a walk-up flat over a South Side grocery.

Great TV Source Material
There are about a dozen outstanding short stories in Martha Foley's "Best American Short Stories' for 1954 (Houghton Miffin; \$3) which can be developed into outstanding dramatic tv shows. Some of the stories will probably require more work than others, but at least nine of the 24 as worthy video possibilities, namely: "The Third Guest" by B. Traven (Fantastic Magazine) which is probably the best of the group; "The Red Mountain" by Robert Payne (Harper's); "A Beautiful Night for Orion" by Richard Clay (Hudson Review); "My Brother Down There" by Steve Frazee (Ellery Queen Mystery Magazine); "A Change of Air" by Ivan Gold (New World Writing), "The House on the Esplande" by Anne Hebert (Queen's Mystery); "Char on Raven's Bench" by Frank Howenda (Accent); "The Indomitable Blue" by Ira Wolfert (Esquire); and "The Latter End" by George Loverldge (Yale Review). In addition to the reprints, Miss Foley has a thorough list of stories which could be scanned for ty or films in the Honor Roll" and "Distinctive sections. In her foreword, the anthologist epitomizes her selections by stating. "Happily, many good, original short stories are being written and are being published. From them I have chosen this anthology is bouquet," and presents "a broad section of short stories ranging from historical fiction to adventure, from fantasy to problems of contemporary life and love. He agrees with some points of those against overseas production, but added, "We can't take an isolationist position and live within our own borders. That's been proved wrong. Trade between countries is essential and healthy."

Cooper's real beef against overseas production is aimed at producers going elsewhere solely to utilize cheaper labor. He accused producer W. R. Now that Hollywood has widened the area of conflict (thus permitting lots more back-peddling?), the fear is becoming rampant that the remaking of old hits into musicals will become the new plague that will end in driving people out of theatres again.

Already faint cries can be heard begging for succor. My social conscience, which will be the ruination of me yet, cannot turn a deaf ear to such pleas.

Mind, these people are not against musicals. What they seem to be against are musicals made out of serious shows which in turn were made from serious stories. Like "Rain," for example.

They like westerns, too. Especially the one that move from here to

THE CAD AND THE CANARY

Ingrid Sunset, a manufacturer of peasant novels, was running out of depressing material and cheerful titles. Her last one was called "Happy Times." It concerned a farm girl who sang like a sick canary. She fell in love with her fiance's father. She soon saw him for the beast he awas. Then she returned to his son, seduced-him and leaped off a silo. This one sold 10 copies.

She then turned to writing about royalty. She had the king seduce the betrothed of the prince and when the heroine learned he was nothing but a wolf in an ermine's clothing she leaped out of the castle tower. This one sold two copies.

So Ingrid turned to agenting for royalty in search of jobs. It was obvious they would lose face if they looked for jobs themselves. The best she could do was to marry a prince to an old Hollywood prima donna.

They opened a restaurant where the cheapest thing was lox, which sold for \$10 a portion. To make sure life didn't follow her kind of literature, Ingrid took the king herself to Monte Carlo when she saw him making eyes at the prince's wife.

This would make a nice musical for Danny Kaye. He could play all four parts.

THE MAIL ANIMAL
The wide screen has enhanced western scenery and made the actors and the story unimportant. The main thing is to have something move, even if only from one frontier town to another.

Reginald Jenny realized this. Stuck in Tombstone, he wanted to get to Tucson in the worst way. The worst way was the stagecoach.

Joe Mangle, who drove it, got a tipoff the mail was going to be held up near Christmas, Ariz. He heard some Mexicans humming "I'm dreaming of a White Christmas." "Christmas" seemed to be the code word.

Joe reported sick. "I got a slipped disk in my spine," he said. "It needs fixin'. Let Jenny take over for this trip."

The Wells Fargo manager said no dame was going to drive Wells Fargo stages while he was manager. Mangle explained that the Jenny he meant wasn't a dame. He was Reginald Jenny, the remittance man. "The guy that walks around with his hand on his hip and talks like a Noxford dictionary?"

"He puts his hand on his hip cause he says it keeps his disk from slippin'."

"Which hand does he put on what hip?" asked the manager think-

"His right on his right. He handles the reins of his paint horse with his left."
"Right," said the manager. "Okay, let him stooge for you this time. But the mail bag is carrying a payroll this trip, remember?"
"Sure, I remember. The stage is carrying Sally Martinez too." Joe was sweet on Sally. She liked him too, in a half-hearted way.

Some of Martinez's old mob overheard Jenny being fingered and sneaked off before hearing the manager explain it was just a gag. They decided to change their plans.

Five miles out of Tombstone, it happened. The Martinez mob caught up with the stage by running their horses faster than a modern hopped-up hot rod. The stage with Jenny driving couldn't seem to go faster than a 1950 Cad. Besides its wheels seemed to be turning backward. Jenny put up a terrific battle. That trick of resting his right hand on his right hip made him much faster on the draw. He drilled four of the holdup mob, but one of the surviving badmen had captured Sally as hostage and was using her as a shield as they retreated to the rocks.

At that the manager rounded up a sheriff's posse and they started after the stagecoach. They rode so fast there was a loud double ex-

plosion.

Without knowing it they had pierced the sonic wall. This scared the bandits stiff. They dropped Sally and the mailbag and topk to the hills.

Jenny thought it was his gun that her made the double-barreled explosion. In some ways he was a dope. So was Sally, because she figured nobody, not even the late Joe Martinez, could shoot as loud as Jenny.

When the posse arrived Jenny and Sally were in each other's arms. At least he was in hers. From habit his right was on his right hip. She put it on her left hip,

Joe Mangle, the Wells Fargo manager and the sheriff's posse looked at the sight baffled. The stagecoach was tearing like mad toward Tucson, driverless.

"Some stooge," said the manager. "He gets the dame and will probably claim a reward. Oh, well, we're insured with Lloyd's. You get the stage, Joe."

"No," said Jenny, 'let Sally and me get it. We want to go to Tucson to get married anyway."

"Yeah, you said it," said Joe. "Some stooge."

Stripping Starlets

Stripping Starlets

The other day some American columnist had an item according to which the bikini has become out of fashion on the Riviera. The poor fellow would be amazed if he should take a look at the Cannes beaches. Not only is the bikini more popular than ever, but it now has become some kind of superbikini. In other words, it will be impossible to make it any shorter and skimpier. From noon till 8 p.m. there is a continuous nudity parade along the Croisette and there is no doubt that the strippers at Minalong the Croisette and there is no doubt that the strippers at Min-sky's in Newark are more dressed onstage than the gals here on the beach. She was "presented," as the program said, by Pierre Louis-Guerin, boss of the Parls Lido (who has her exclusive French management for his own spot), and introduced to the crowd by French actor Jean Marais. N. Y. Cafes Root For Giant-Cleve. **World Series**

Lou Walters, operator of the Latin Quarter, N. Y., is rooting for a World Series between the N. Y. Giants and the Cleveland Indians. He feels, that from the viewpoint of a N. Y. nitery owner, an ideal series would be between the Yankees and Milwaukee, but since Milwaukee is expected to have a tough time making the grade in the National League race, the next best is one between the Giants and Cleveland. Giants were picked because of the larger capacity of the Polo Grounds over Ebbets Field.

Walters reasons that a series be-Walters reasons that a series between two teams in the same city, brings a minimum of out-of-lowners, who do the bulk of the extra spending during that time. Walters says that a crowd of 15,000 coming in for the series would fill up a lot of hotels and would stretch the capacity of every nitery in the city. He points out that with the normal business, an extra 150 or 200 would bring capacity grosses to every spot.

Walters points out that he has done well during previous series, but takes were always higher when an out-of-town team played New York. Walters all but smacked his (Continued on page 10)

As if it had embarked on its own

As if it had embarked on its own version of the five-year plan, the film industry in 1954, as compared with 1949, is coming up with a far greater number of money pictures. It's no secret that business is better, of course. The boxoffice has spelled out the reason: Better pictures, and more of them.

Major studios in 1949 had 47 films in release which grossed \$2,000,000 or more in domestic rentals. (The top was "Jolson Sings Again" at \$5,500,000.) For the current year, it looks like a minimum of 74 and possibly as many as 82 pix which will reach or exceed the \$2,000,000 mark.

This is in the face of exhibitor howls about a "picture shortage."
That there are fewer entries on the release skeds around the industry is conceded. But it appears the companies simply have dropped the mediocre fare; it's the secondaing to several distribution reps, (Continued on page 75)

Des Moines, Sept. 7.

Municipal Judge Harry S. Grund was subpoenaed to appear before the county grand jury to explain why he showed films in his court last July 20 that had been seized by police as obscene. The investigation had been requested by the county attorney, who said his office would not "necessarily seek an indictment on a charge of presenting an obscene, indecent, immoral, impure exhibition." Maximum sentence on such a charge is a \$1,000 fine and one year in jail.

The incident followed a police raid on Hyman's Book Store, and pleas of guilty by the operators. In defense, Judge Grund said "there has been an unwarranted criticism" (Continued on page 73)

Venice, Sept. 7.

As the Venice Film Festival wound today (7) it left the impression that the great international have now reached a point of direct acceptance by most important film producing countries, and that there is a trend away from the more flamboyant, personality-ridden-fest to one which will show the best possible choice of films. This may make it tougher, for the army of scribes in finding news, but will make these meetings a more stable proving and testing ground for films and film trends, and make this a meeting place for film peoples of the various countries to meet. Russia and satellites, with the exception of Bulgaria and Poland, abstained this year, but 15 other countries had 27 full-length films shown plus 15 shorts which had already won prizes at the documentary fest plus a German retrospective and the various other films shown out of competition.

It is "The Sneeze," which Thomas Alva Edison made in 1894. It runs for two-and-a-half seconds, and features one star, Fred Ott, an assistant in Edison's laboratory, who annoyed his fellowworkers by frequent sneezing. When the master came round one day looking for subjects for the film camera he had invented, they suggested Ott, but for once Ott could not sneeze. A pinch of snuff set him off, and Edison-filmed his convulsion.

MORE FILM THEATRES THAN EVER

PIX HISTORY ENCORE

This is the first anniversary of 20th-Fox's big gamble with cinemaScope and, as the news story herewith details, Messrs. Skouras, Zanuck, Lichtman, Henri Chretien, the French scientist who figured in developing the lens for the new anamorphic technique, and all concerned have achieved a marked winnah.

What is more notable about the CinemaScope achievement the evidence anew that the picture business—an industry founded on the very shoals of high adventure—has done it again. This is but another manifestation of history repeating.

It was a greater challenge because, unlike the pioneers, in the depths of desperation gambling for high stakes—and much of it sheer happenstance—here was a carefully charted course which called for steel and nerve. It was no penny-ante gamble. The stakes were high and the loss could have been greater. It flirted with a graver debacle because the investing-adventuring company was in an economic eclipse, and had to combat equally adventurous pioneers.

Skouras & Co. faced an industry at a time when it was groggy from wide-screen, stereophonic sound, 3-D or not 3-D, and a diehard recognition that after Cinerama what? He set out to prove it with "The Robe" in CinemaScope.

"If it was not the panacea of the industry, it was a milestone certainly in the financial career of 20th Century-Fox. In achieving its own economic succoring, CinemaScope has influenced virtually every major producer-distributor, with the exception of Paramount which adheres to VistaVision. Some fancy figures, however, cannot be ignored by anybody in the trade. The company's 1954 sixmonth net of \$3,096,545; against the same first half-year in 1953 of \$185,309 profit, tells the story. A gross rental in '53 of nearly \$41,000,000 rental on only 12 pictures so far this year points up the tremendous earning power of CinemaScope productions. And the 20th-Fox stock, when "The Robe" opened at the Roxy last September it was \$17, and dipped two points after the picture opened—even going down to \$12.50—and today's \$26.75 quotation speaks for itself. Curiously-enough, by Nov. 30, 1953 Wall St. recognized CinemaScope's potentials because by then 20th-Fox had climbed to \$20 a share.

It is the history of show business, particularly the film end of 'If it was not the panacea of the industry, it was a milestone

It is the history of show business, particularly the film end of it, that the distress signals at the boxoffice invariably also herald a challenge to showmanship. It piques the imagination and results in boundless new horizons. Skouras proved that a year ago and there is justifiable cause for acclaim on this first anniversary of perhaps one of the most significant developments in the sary of perhaps one of the most significant developments in the field of mass cinema theatre entertainment. Skouras' generalship, Zanuck's showmanship, Lichtman's salesmanship, Charles Einfeld's merchandising, and their coordinated teams, rate a posy. And so also do the exhibitors who dared to do; it called for vision, imagination and sizable investments on their part too.

Allen to Produce WB's Worldwide Animal Pic

Paramount is out to nab the "best producers, directors and actors" for its pictures, Barney Balaban, president, told Par sales execs at a three-day meeting in N. Y. last week. The prez-stated he sees present upbeat economics leading to greater prosperity as a result of Hollywood's determination that "everything will be added to a picture that will help make it a good picture."

"Living It Up," Martin & Lewis comedy, was cited by Balaban as an example of the b.o. advantages of injecting extra values in pix. The entry is shaping as the biggest moneymaker of all M & L films.

Balaban made it clear that Par is relying on VistaVision to help keep the company on the uptrend. He also underlined as important careful planning, wise spending of money and close coordination between the sales and ad-pub departments. He added: "But most important to our good reputation is the fact that we have good product are inseparable in this industry."

Common Stock in 4 Cos. at New Highs Last Week, With All Pix Issues Strong

While all other film issues on the N. Y. Stock Exchange were strong over the past week, mainly being within a point of top quotations for the year, four companies saw their common stock jump to new highs last Friday 44. Supported by impressive financial statements recently, Loew's, 20th-Fox, Universal, and Warners reached new peak marks. Further bolstering investor interest in 20th and Loew's, in addition to handsome earnings, were upped dividends.

Chicago, Sept. 7.
Sellout here to the most recent heavyweight boxing theatre telecasts has tempted two new theatres to join the regular skein of four for the Rocky Marciano-Ezzard Charles bout on Sept. 15. One of the new closed-circuit outlets is a firstrun downtown house, the Loop, and the other an 1,800-seat ozoner, the North Ave. Drive-In of the Essaness circuit.

Essaness also has the Crown Theatre on the west side geared to carry the bout, per usual. Loop is a Telemanagement house with 600 seats and will peddle seats at \$4.40 each, every one reserved. B&K once again is entering three major nabe houses: into the theatre-tv sweepstakes, the Uptown, Marbro

Columbia, under sharp exhibitor attack for its rental terms on "The Caine Mutiny," reportedly is asking 50% terms for "On the Waterfront." Exhibs, with Allied States Assn. in the forefront, are readying protests on these terms.

Exhibs charge that the distribs justify the 50% terms on the basis of the cost of the production. In the case of "Waterfront," exhibs hope to argue that it was brought in at less than a \$1,000,000, considered a modest sum in the "big" pleture era.

First anniversary of the CinemaScope "revolution" next week (16)
finds 20th-Fox in an enviably
strong financial and product position and the industry and public

along with stereophonic sound.
20th not only accomplished a retooling of its own plant, but per,
suaded more than 7,000 U. S. exhibitors to invest around \$90,000,000 in new screens, lenses and
sound during this single year.
CinemaScope is largely credited
with providing fresh impetus to a
new public interest in pix. The
resultant sharp upswing in bo. returns generally started in the second quarter of 1954.

The other production companies,
with the exception of Paramount,
have jumped on the CinemaScope
bandwagon in varying degrees. The
most recent figures indicate that
some 115 and possibly as many as

C'Scope production is likely to be
stepped up as outlets increase.

The resentment and opposition

Par 'Participation' **Nearly Complete**

Further, stars, directors and other talent are engaging in participation deals with the company. Par theory, which is subscribed to by all other companies except Metro, simply is that giving a percentage of a film's ownership, instead of a flat salary, reduces the company's investment risk.

Un Technical Problems
The industry's long-neglected concern with technical matters, sharply focused by the confusion resulting from the new projection and sound methods, is ready for a complete aboutface. The need for technical knowledge, particularly among exhibs who have been bombarded almost daily with a succession of "new era" gimmicks, has been one of the sore spots in recent theatre operation.

While individual manufacturers, equipment dealers and film companies pushing a particular device, have offered some advice, there has been no central agency for the theatre op to receive competent, up-to-the-ininute technical knowledge on the equipment he had installed to protect the "new era" films.

With this superlative production of Shakespeare's classic romantictragedy, the Rank studios have made a motion picture which will bring prestige to the entire indusbring prestige to the entire industry and earn new laurels for British film-makers. The postwar "Henry V" and "Hamlet" and duction of "Julius Caesar" have shown that Shakespeare on the screen is boxoffice. "Romeo and Juliet" should be no exception, but needs roadshow presentation instead of the more conventional and rigid general release pattern that prevails in Britain.

stead of the more conventional and rigid general release pattern that prevails in Britain.

It is 18 years since Metro made its version of the same play with Leslie Howard and Norma Shapter in the title roles, but this production hopes to achieve comparable, fame without the use of such lustrous boxoffice names as starred in the original Irving Thalberg production. Neither Laurence Harvey nor Susan Shentall have anything like the bo. lure of the Shearer-Howard combination, but their performances are models of integrity and in the true classical tradition.

Renato Castellani, who directed his own adaptation, has done a connoisseur's job of compression and although the complete film runs for 138 minutes it is wholly absorbing, frequently moving and always of combined treat for eye and ear. The backgrounds, filmed on location in Italy, are enhanced by the excellent use of Technicolor. The settings have a natural splendor and the costuming reaches the best standards of period design. Technically this is an almost flawless production; the action, romance and tragedy are blended with a master's touch. And the poetry of the writing, rich in its epigrammatic quality, is given a standout appeal by the all-British cast.

standout appeal by the all-British cast.

The balcony scene, the classic of all love passages, is played by the principals with tenderness and sensitivity. It is a rich emotional experience, never overplayed and handled with delicate restraint. This scene is a special triumph for Miss Shentall, who made herscreen debut with this assignment and has already forsaken the screen for marriage. There is no visible evidence of her lack of experience; on the contrary, her youth and freshness make her interpretation of the 14-year-old heroine all the more credible. The touch, of naivite that occasionally creeps across her performance might well be a subtle way of adding a little extra conviction.

Laurence Harvey, with a Shake-spearean season in Stratford-on-Avon to his credit, is at all times a sure, fine performer. His diction is perfect, his bearing excellent and he plays with sincerity. The other players are dwarfed by the immensity of the two title roles, but the performances are all of matching quality and contribute to the general integrity of the production. Flora Robson, as Juliet's nurse, and Mervyn Johns, as Friar Laurence, play the top supporting parts with studied care, proving themselves once more class thespers.

nave prevaled, and Charles Clarke's fluid photography is a further assist in maintaining attention.

Action occurs within a few hours' time on a Saturday afternoon in Suddenly, where nothing has happened for years. A group of Secret Service men, detailed to guard the President, precedes him to check the security of the station area. Almost simultaneously, Sinatra and two cohorts arrive and take over a house, overlooking the station, belonging to James Gleason, retired Secret Service operative, with the intention of using it as a sniper's post to assassinate the President. They hold Gleason, his daughter-in-law and young grandson prisoners. When Hayden and the leader of the security crew drop by, the former also is held prisoner after a gun fight in which the agent is killed and Hayden wounded.

Considerable dramatic skill is exercised in progressing the narrative from the time Sinatra seizes the house until he is killed when the President's train doesn't make its intended stop, practically all the footage unraveling inside the house. Sinatra plays his role flamboyantly, while Hayden enacts his with repression as he seeks the weak link in the other's seeming strength. Both score heavily, and they get top support from a competent cast.

Nancy Gates excels as the mother of Kim Charney, believable as the boy, Gleason is up to his usual standard, and Christopher Dark and Paul Frees sock over their parts as Sinatra's henchmen. Other parts are handpicked. John Sheer's tight editing is a potent olus credit.

In a broad sense, "Three Hours to Kill" fits into the "High Noon's school of westerns. It's an outdoorer with a lesson, castigating, as it does, mob psychology. The Richard Alan Simmons-Roy Huggins screenplay, however, undertakes too much, resulting a conflict of themes, none of which is satisfactorily developed. It emerges as a better-than-average western, though, and should fit neatly into the programmer slot. Dana Andrews and Donna Reed provide marquee lure.

"Three Hours" further exemplifies Hollywood's departure from the "he-went-thataway" oaters by introducing a subject that will surprise veteran sagebrush viewers—the birth of an illegitimate child. It is delicately handled and the hero and heroine, in keeping with Code standards, do not enjoy a completely happy ending, apparently as atonement for their streams of the control of the c

squad," handles the reins in first rate fashion to Muild a suspenseful, interest-holding show.

Title comes from the three cases FBI Agent Kenneth Tobey is working on at the time he is willed. Special Agent Broderick Crawford takes over, believing the clue to the killer lies in the solution of one of the cases. The first is solved dramatically without turning up the murderer, nor does the second, but the third time is the lucky charm, and in spoiling an attempt at extortion and kidnap, Broderick gets his man.

While dealing with three distinct plot angles, any one of which would have been sufficient for a thriller, the picture is not episodic, thanks to the good scripting by the Gordon Gordons and Bernard C. Schoenfeld from the Gordon Grodons and Bernard C. Schoenfeld from the Gordon's novel." Case File, FBI." The separate plots are tied together neatly and the methodical police work carried on by the FBI is well detailed without occupying unnecessary footage in the 38 minutes of action.

Involved the first case is Martha Hyer, very good as the moll of the "Most Wanted" Joe Bassett, who is believed to have murdered Tobey from ambush Another femme delivering with fine feeling is Marissa Pavan, blind wife of Gene Reynolds, involved with a "hot" car gang in the second case. Ruth Roman, femme star of the fill heads the interest in the third case and does an excellent job of the young widow threatened with extortion by Casey Adams, presumably a suitor for her hand but a killer and blackmailer who, besides Tobey, has slain Suzanne Alexander, another of the cast's lookers who does well by her part. From Broderick on down, the players' trouping is topnotch.

With story that happily devisates from the conventional western. "The Black Dakotas" provides the action market with better-than average material. Cast toppers are Gary Merrill, Wanda Hendrix and John Bromfield, while Technicolor lensing of the outdoor vistas offers an added lift to this Wallace MacDonald production.

The Ray Buffum, DeValion Scott screenplay from Buffum's story reaches back to Civil War timeswhen President Lincoln was attempting to smoke the peace pipe with the Stoux nation in order that Union soldiers might be freed to fight the South. However, wind of the plan gets to the Confederates who replace Lincoln's emissary to the Indians with Gary Merrill.

Merrill, in guise of a Northerner, is supposed to swipe the tribesmen's promised gold for the Southern cause and at the same time incite the Sloux to harass the loyal Dakotans. As the script builds toward the denouement, there is a wealth of fisticuffs, chicanery skirmishes with the Injuns and hard riding before Merrill is exposed as a thief who is loyal to neither North nor South.

Ray Nazarro, an old hand at directing saddle sagas, draws ample suspense and movement from the story. Merrill carries off his role of traitor well Wanda Hendrix, who has the film's lone femme part, registers nicely as the daughter of a Southern spy John Bromfield, owner of a stage line and engaged to Miss Hendrix is a lusty hero.

Good support is lent by Noah Beery Jr., as a Southern spy John Bromfield owner of a Souther cast members. Ellis W. Carter ably, caught the scenic backgrounds with his Technicolor camera, while Aåron Stell edited the footage down to a tight 65 minutes in keeping with requirements of the program market. Mischa Bakaleinkoff's score is an asset, as are the modest physical values furnished by producer Macdonald.

MULL COUNTER

By HY HOLLINGER

Hounded and pounded for years by exhibitor antitrust suits, with the total in damages sought now totaling about \$400,000,000, distributors, via their legal_reps, are reportedly mulling means of instituting counter actions against the sue-prone theatremen. The legal_eagles are particutarly making an exhaustive study and are compiling lists of \$1,000,000 exhibsuits which were settled out of count for as little as \$3,000.

On the basis of the information gathered, charges will be leveled, pinpointing a harassment angle and contending that the suits were not honestly inspired and lacked good faith. Several distrib lawyers privately admit that the film companies have been at fault in making these out-of-court settlements to avoid what might have been more costly and time-consuming litigation.

With the suits pouring in at an unceasing pace and legal and damage costs cutting into the treasuries, distribs feel that a point has been reached where a positive effort must be made to bring the litigation to halt or at least to a slowdown. The chances the "harassment" suits will have in the courist is unknown, but it's felt that it's worth a try, even to the extent of publicizing the exhib-inspired suits.

'Luther' Makers Prep Reorg For Further Films

Lutheran Church Productions, responsible for "Martin Luther," is reorganizing and by the end of this month will be in a position to decide on the production of its next religioso subject, Henry Endress, chairman of the administrative committee of the Lutheran outfit, disclosed in N. Y. yesterday (Tues.).

"Luther," according to Cresson E. Smith, general sales manager for Louis de Rochemont Associates, which made the pic and is distributing it, had played 3,000,000 in the U.S. alone by the time it was withdrawn on July 31. It had also brought net rentals of \$200,000 in Canada.

Film starts going into release again Oct. 1 at regular admission prices, all prior dates having played at advanced admission. In N.Y., the Guild Theatre, which originally preemed the film, has rebooked it for a run starting Oct, 15.

Smith said "Luther" was expected to play at least another 3,000 dates in the U.S., and he kudosed exhibs for their careful and Imaginative handling of the plc. "I have never found a situation in which exhibitors were more alert (Continued on page 15)

COMPO INSURANCE PLAN IS ILLEGAL IN OHIO

Columbus, Sept. 7.
Compo's projected group insurance plan came a cropper in Ohio and in two other states due to state insurance regulations. An official of the state insurance board here said Ohio rules forbid a nationwide association to take insurance on domiciled employers and employees within the state. It is believed similar regulations prevail in Texas and Oklahoma. With three states automatically knocked out of the plan and with Allied's vigorous objections to it,

London, Sept. 7.
Fearing that British pix may be squeezed out of foreign markets by new Hollywood screen techniques the Board of Trade has asked the British Film Producers Assn. for its views on CinemaScope, Vistavision, etc.

As a first step, the BFPA, at its monthly sesh last Wednesday (1), requested all producer members to provide information on the effects of CinemaScope, on foreign mar-

of Cliemascope on foreign markets and also to give their will write and the new medi. In the meantime, they've assured the Board of Trade they are keeping their eyes, closely the new developments.

Board of Trade they are keeping their eyes closely the new developments.

Up till now, no British company has embarked on a CinemaScope production although number have been lensed in Britain by American majors. The Rank studios, however, are switching to VistaVision at the end of the year and the Korda group has atnounced it will be making "Richard' all?" in that medjum' with Sir Laurance Olivier starred.

For the time being, however, the BFPA is prepared to follow a waitand-see policy, encouraged to a large extent by the substantial grosses both in British and abroad by some of the latest conventional-type pictures. The problem is complicated by the limited home market available to the native producer in either CinemaScope or Vista-Vision, and past experience has proved that British films must rely on the United Kingdom market for the bulk of their income. To depend on foreign earnings, particularly dollar income from the United States, has always been a hazardous proposition.

Other AA Deals Shape In Wake of Rodgers Inking: Expect 34 Films in 1955

Expect 34 Films in 1955
With former Metro sales veepee
William F. Rodgers now in the
Allied Artists fold as an adviser
and consultant, prexy Steve Broidy
is expected to announce additional
production and personnel deals following his return from Europe
next week. Broidy, along with
veepee Harold Mirisch and foreign
chief Norton V. Ritchey, are
abroad to confer with John Huston
and attend an Associated British
Picture Corp. sales convention.
Prior to planing for London last
Wednesday (1), Broidy announced
the retention of Rodgers and also
disclosed that his company will
turn out 34 pictures in 1955 or
about five more than scheduled for
the current year. Top product will
be made by William Wyler, Billy
Wilder and Huston, each of whom
is to deliver three pix to AA. This
filmmaking trio, Broidy said, will
be financed 100% by AA.
Wyler has an untitled Gary
Cooper starrer lined up for AA,
Wilder is prepping "Ariane," based
on a love story by Claude Anet,
while Huston's first AA vehicle
will be "The Man Who Would Be
King." Based on a Rudyard Kipling
story, it will star Humphrey Bogart and may be filmed in India
Exact starting times are uncertain
since all three producer-directors
are currently working for other
companies.

Fine Meeting in Paris With Schweitzer on Pic

C. Robert Fine, prexy of Perspecta Sound Inc., left recently for Europe, where he'll meet Dr. Albert Schweitzer in France. He'll show the famed scientist the completed print of "The Life of Dr. Albert Schweitzer" which was filmed and recorded in Europe Jast year by Fine and Jerome Hill. Following this meeting, Flue will tour the Continent to inspect Perspecta stereophonic sound installations in Paris, Rome and London studios. He's due back in New York end of September.

Chicago, Sept. 7.

Another bangup week is in the works at firstrun theatres here, with Labor Day weekend helping to fatten the overall take. Of four new bills the big news is "Rear Window," which is racking up a mighty \$75,000 at Chicago, helped no little by Howard Miller deejay package onstage. "Gone With the Wind" reissue is sockero \$40,000 at United Artists, and "Her 12 Men" looks fine \$16,000 at the Monroe. At Surf, "Daughters of Destiny" is fetching a staunch \$6,000.

Monroe. At Surf., "Daughters of Destiny" is fetching a staunch \$6,000.

Second week of "Broken Lance" is big at Oriental, while combo of "Duel In Jungle" and "Outcast" look okay at Roosevelt. "Vanishing Prairie" returns are plump in third round at Loop. Woods is finding "Susan Slept Here" sturdy in the fourth, while Grand does better than-average biz with "Black Shield of Faiworth." Fifth frame of "La Ronde" shapes nice at the World, and sixth for "Brides for 7 Brothers" continues to soar lofty at McVickers. Par gross looms for "Caine Mutiny" at State-Lake in the 10th, and in the 58th week "Cinerama" is just plain great at the Palace.

Despite the large number of holdover pictures, Broadway firstruns chalked up hefty trade over the three-day holiday weekend. The influx of visitors plus localites contributed to the general upbeat, although there were a few situations, lacking topnotch product, which did not benefit. The excellent weather over the three days did not prove harmful to Broadway boxoffices.

A long weekend which draws out-of-towners proves that the visitors enjoy flesh shows, judging from the great returns racked up by the Palace and Radio City Music Hall, only remaining Broadway houses with stageshows.

ing from the great returns racked up by the Palace and Radio City Music Hall, only remaining Broadway houses with stageshows.

The Music Hall, with Metro's "7 Brides for 7 Brothers" also a solid draw, notched \$170,000 for the week, topping the previous sion's \$168,000. "Brides" gets an eighth week and possibly more, with MH toppers waiting to see how biz holds up for a non-holiday round. The Palace, with "Down Three Dark Streets" (UA) plus eight acts of vaude, grossed an estimated \$30,000, best in weeks for its vaude-film combo policy. "The Egyptian," at the Roxy, continued its smash pace with \$105,000, one of the highest second weeks in the history of the Broadway showcase, according to the management. Pic ranks as the theatre's biggest hit since "The Robe."

Best of the newcomers is 'High and Dry' (U. The British import, starring Paul Douglas, hit a whopping \$18,500 for the opening round at the eastside Sutton, mak'ng it one of the biggest grossers for the art house. "Private Hell 36," first of the Filmakers pix under the exhib guarantee plan, looks to hit a fair \$40,000 for its first stanza at the Paramount.

"Duel in the Sun," David O. Selznick reissue, appears headed for a big \$27,000 in first session at Mayfair, excellent biz for a reissue. "Waterfront," at Astor, with \$50,000 for sixth frame, and "Dragnet." at Victoria, with \$27,000 for third week, are holding up strongly. "Magnificent Obsession" closed at State with final \$25,000, closing profitable five-week run. Two Paramount entries. "Rear Window" at Rivoil with \$32,000 for 10th week. On the art. circuit, "Little Kidnapers" (UA) shows promise with first week of \$10,500 at Trans-Lux 60th St. and Columbia's Brazilian import, "Congaceiro," rates a nod for its \$7,000 second week at Normandie.

strictly a show biz family funeral.
The outsiders didn't know Bar-ney Dean. He had never been a headliner, never had his name in headliner, never had his name in lights. Anyway, his vaude days were so far behind him that it's doubtful if even the most confirmed vaude fan would have remembered him as one of the Dean Bros., a vaudance team of the post-World War I era. In recent years, however, Dean lived with the greats of show biz as a sort of unofficial comedy writer for Bing Crosby and Bob Hope.

Dean's position was one which is gradually disappearing—that of court jester. Traditionally most of the top names had someone in their entourage who could be depended upon for the right line at the right time, or as a convenient intra-family foil. Their duties might be varied but the function generally was the same. One of the earliest comedy foils was Sir Joseph Ginsberg, long with Ike Singer of Singer's Midgets. One of the best known today is Mack Grey, now the general factotum for Dean Martin and Jerry Lewis, and once the unshakeable shadow of George Raft.

He served, too, as pivot of some of what became standard show biz stories.

these events is widespread, especially in the newspapers and now on radio and television as well. This season has seen the three-way battle between Ferrari, Mercedes Benz, and Maserati.

The new Mercedes has proven in the fastest of the three; however, they are very tricky cars to handle and the new streamlined shape is not good for short courses. The Stuttgart firm has come up with a new exposed-wheel veryion that is far superior for this type course and it was one of these cars that won the German Grand Prix at Nurburgring last month. Ferrari has been pressed to the limit by these new cars and Maserati seems to need more reliability if they are to stick with the two pace-setters. Sport car racing is even more prevalent, and every weekend important meets are held. The 4-3 litre Ferrari and the new Jaguar XK-120D are having a terrific battle, with the Ferrari holding a U. S.

New Loew's Inc. Directors Vote Divvy Hike to 25c; Reagan Named to Board

Increase in the quarterly dividend from 20 to 25c was voted last week by the board of directors of Loew's, Inc., at the first meeting signalizing, the beginning of operations of the company under its new format. Old company ceased to exist at midnight Aug. 31 as the firm split into separate theatre and production-distribution outfits, in accordance with a Government consent decree. The theatre company is known as Loew's Theatres. consent decree. The theatre company is known as Loew's Theatres, Inc.

Charles M. Reagan, sales chief, and Benjamin Melniker, attorney, were elected to the board, succeeding Joseph R. Vogel and Leopold Friedman, who recently resigned to the Leonic Measurement of Leonic to Loew's Theatres,

Newly-elected officers named by Newly-elected officers named by the board included Reagan and Jesse Thurston Mills, comptroller, as veepees; Irving H. Greenfield, formerly assistant secretary, succeeding Friedman as secretary, and Marvin Atlas, assistant secretary. J. Robert Rubin, who retired as a veepee and general counsel, is remaining on the board. No official designation of the new general counsel has been made, but it's expected to be either Melniker or Greenfield. or Greenfield.

The papers fix nine as the maximum number of directors. Cleary, Weltman and Friedman, who also acted as filing attorney, executed them as subscirbers. State tax was \$1.500, plus \$40 for recording.

Loew's Inc., which was incorporated under the laws of Delaware on Oct. 18, 1919, executed a statement, via President Marcus Loew, designating, on Dec. 8, its head-quarters for conduct of a general theatrical and amusement business in New York State. This was filed with the Secretary of State in Albany, Dec. 26, 1919.

Marcus Loew, Joseph M. Schenck and David Bernstein were listed as directors for the first year. Friedman was filing attorney. Capital stock was set forth as 4,000,000 shares without par value.

The introduction of largescreen color standard. The introduction of largescreen color has long been looked upon by the closed-circuit industry as the spark that would serve to popularize the medium fully. While the closed-circuit medium has been building slowly, it's felt that its full impact will be achieved only after the widespread introduction of color units. With color, it's believed that industry will make more use of theatre-tv to display its wares to salesmen and even to the public. In' addition, it would open the gates: for b.o. attractions such as Broadway musicals and other events that require color for full appreciation. full appreciation

That side is credited with inspiring the present wave of mambo pops by the Brill Bldg, set which has made the switch from hillbilly to gaucho faster than one can say Pupi Robbins.

Instrumentally, Sonny, Burke, Decca's Coast recording chief, was probably one of the first to cutstraight mambos for the U.S. market, starting four or five years ago. At that time, RCA Victor was cutting Perez Prado its international label but none of the disks was being released here. Burke brought some Prado originals back from Mexico and recorded one under the title of "Mambo Jambo." The click of this album apparently cued Victor to release the Prado albums in the U.S. Burke, incidentally, is now readying another mambo album for Decca.

This has been worked out to an extent, and except for extraordinary logjams, the labs have been able to produce several working prints in ample time. However, the eastern publicity men still haven't been able to lick the "new era" policy of playing it close to the cuff, that is, making one picture at a time without providing for a backlog.

"Opinion Molders' Sluffed
This has been the case especially of Warner Bros., which apparently has no desire to the up its liquid assets with a large number of pictures at one time. WB pix, to a large extent, are released almost as soon as they are completed, giving the pub-ad men insufficient time for full exploitation. A number of recent pix, including "Dragnet," "King Richard and the Crusaders" and the upcoming "Star Is Born" and "Battle Cry," have been publicized without the usual screenings for the so-called "opi molders." See No Tax Relief Moves by Exhibs

A renewed exhibitor move to seek tax relief at the next session of Congress appears dead. The final blow was delivered by Allied States Assn.'s decision not to pursue at this time any action toward securing a further reduction or complete elimination of the Federal admissions tax.

complete elimination of the Federal admissions tax.

Without Allied, it's felt, any attempt to petition Congress for tax adjustments would be automatically doomed. Allied, it's pointed out, represents the core of the smalltown exhibitors and it was the plight of these exhibs which played the leading role in convincing Congress of the necessity for a tax cut. The grassroots campaign of Allied members in buttonholing their local Representatives and Senators proved the clincher in the tax victory. This grassroots drive, with Allied in the forefront, was cited by veteran Washington observers as one of the most successful pressure jobs in recent Congressional history.

Allied's decision to bypass a tax campaign is based on a variety of reasons. The exhib org fears that states and local municipalities may step in if the Federal Government bows out. An organization representing the nation's municipalities has flatly stated that admission (Continued on page 15)

Still Grounded **Slowed By Detail**

Amalgamated Productions, whose formation was announced more than three months ago, still hasn't been able to get off the ground. Company in which William F. Rodgers, Sam Dembow Jr. Cliff Work and Jack Skirball are partners, is being slowed down by an abundance of preliminary detail work which has cropped up, such as corporate legalistics.

There's still no indications of when actual production tees off, or the identity of the first property. It's apparent that delay is not costily to the outfit, however, since none of the partners is taking a salary. They're all in on profit participation deals.

Last week's announcement of a tieup between Rodgers and Allied Artists will not affect Amalgamated incidentally. It's pointed out that Rodgers' deal to serve as AA distribution advisor is non-exclusive. Amalgamated likewise has callupon his services on a non-exclusive basis. Amalgamated Productions, whose

HURTING IMPORTS

There's much resentment among

There's much resentment among European producers over what they conceive to be an increasingly difficult censorship problem in the U.S.

The Europeans are particularly scornful about U.S. Customs censorship which, they say, is tightening up on their pix. Some importers now get around this by shipping in bits of objectionable scenes via different ports of entry.

Since, in some ports, the screening procedure is negligent, the footage gets into the country and is then assembled in N. Y. for showing the non-censorship states.

states.

Producers abroad are telling visiting Americans that U. S. censorship is discriminatory against foreign product in that it appears to apply different standards to their pix from those applied to American productions. Furthermore, they say, there are now three hurdles a foreign film must face before it is at least potentially certain of a wide showing.

is at least potentially certain of a wide showing.
First, there are the U. S. Customs. Then there is the Production Code, and, third, the Legion of Decency. Of late, a fourth hurdle has appeared—the press. In the case of "La Ronde," none of the Chicago papers at first would accept ads for the film, which doesn't have the Legion okay. Later, several of the papers changed their minds, but the important Chicago Tribune, for instance, didn't relent. (Continued on page 20)

Dollar Tab No Bar to Mpls. B.O.

Minneapolis, Sept. 7.

If you wish to see a firstrun pic downtown after 5 p.m. here these days you have to be prepared to shell across at least \$1 in place of the onetime dime, as the general average local showhouse scale has hit a new high.

The buck now has gotten to be almost a standard night admission price at Loop theatres here and apparently has public acceptance and is no deterrent to attendance so far. It's in place of the previous \$5c, which prevailed for several years.

years.
When a local theatre now adver-

When a local theatre now advertises "regular C'Scope prices" it means \$1 after 5 p.m. But even non-C'Scope pictures, like "Caine Muliny" and "Magnificent Obsession," for example, have been coming in at a buck or higher.

Currently, only one of the Loop eight firstruns taps the public for less than the dollar. It's "Valley of the Kings" at the Gopher, where the tariff is 85c after 5 p.m.

It's \$1 for "Seven Brides for Seven Brothers," "Broken Lance" and "Magnificent Obsession," \$1.20 for "About Mrs. Leslie," \$1.25 for "Caine Mutiny" and \$2.65 for Cinerama.

That the emergence of films from a dime to \$1 is taken by the public as a matter of fact, is indicated by the lack of resistance and the few squawks, according to industry leaders here. It's the \$1 and higher pictures that are attracting the record-breaking partonage and garnering the long runs, these leaders point out.

As a matter of fact, it's the occasional 75c. and 85c. films that cause whatever boxoffice woe that's now in evidence from time to time, they insist.

Glassman Warns **On Exclusive To** Mitchell Film

Producers who may be toying with the idea of doing a screen biog of air pioneer Billy Mitchell were warned last week by Barnett Glassman of N.Y. that he owns the tv and film rights to Isaac Don Levine's "Billy Mitchell—Prophet of Air Power," published by Duell, Sloan & Pearce in 1943.

In a roundrobin letter, Glassman noted several studio announcements regarding pix on Mitchell's life. The Levine book, he said, "is the family authorized biography of the General, prepared from material and private papers owned by Mrs. Elizabeth N. Byrd, widow of Gen. Mitchell." He added that he purchased the rights to the book some time ago; that the rights were secured by friends of his, and that the original purchase was made via the Leland Hayward Agency.

Glassman said linked with the book purchase—on which \$80,000 have already been paid—were "various assignments of the agreements and quit claims from Mrs. Elizabeth Byrd, her two children, as well as the first Mrs. Mitchell and her three children." That's the gist of the reaction of Richard F. Walsh, prexy of the International Alliance of Theatrical Stage Employees, to reports that mobsters were again trying to move into the AFL theatrical unions.

unions.

Victor Riesel, labor columnist of the N.Y. Daily Mirror, wrote last week that N.Y. police knew that Elmer "Trigger" Burke, the gunman who escaped from a Boston prison recently, "was about to be used by the mob (when he was picked up last June 19) as the muscle! in: a drive to take over AFL stagehands and theatrical trucking unions." According to Riesel, the police knew from their own files that Burke was to be the advance "in infiltrating the television industry." From tv, said Riesel, he was to move into the legit unions and then into the lollywood studios.

The mob, according to Riesel, which one took \$1,000,000 in one year from the film studios via shakedowns "may be itching to return to the old hunting grounds." The Mirror columnist said that the mob "has tougher opposition now in the National Stagehands Union chief, Dick Walsh, so the boys planned to go after local unions."

Shades of Willie Bioff
In the meanwhile, Willie Bioff, the former labor racketeer who plagued the film biz for years, came back into the news via a couple of gang slayings in Chicago. Bioff, now living, in obscurity (he was released from jail for testifying against his former "playmates"), is mentioned by Chicago Daily News writer Edwin A. Lahey in a review of a couple of recent Chicago gang killings. "Both the slain gangsters" ('Cherty Nose Charley' Gioe and Francis Maritote, alias Frankie Diamond), Lahey wrote, "were among the defendants who squirmed and glared for weeks on end in the U.S. District Court in New York, while Willie Bioff, suffering from a slight prison pallor, told a jury how the mob shook down, the move mogules of Hollywood for \$1,000,000."

Theme of Lahey's piece is that the death of the old Capone gang-sters might bring Bioff out of hiding. "Perhaps some day," Lahey said, "when the rest of the mob has been laid to rest, Will

July Chi Pix B.O. **Up 16% From '53**

Chicago, Sept. 7.

Based on figures at City Tax Collector's office, month of July this year showed roughly 16% better pix biz than same month of 1953, with total amusements, theatres included, showing up 15% improved. City's 3% amusement tax brought in \$107.764 from theatres in July, 1954, against \$91,415 in 1953, and \$168,071 from amusements this year compared with \$145,298 in 1953.

First seven months of theatre business this year looks 10% improved, though amusements generally bettered themselves by less than 1%. Theatres paid \$767,839 in city revenue from January through July this term, and \$694,404 in same period last year. Amusements went \$1,226,287 against \$1,159,972.

British Eady Fund Hassle Settled; See \$11,000,000 Pix Production Loss

London, Sept. 7.

Peace has been restored to the British film industry. Last week settlement was reached on the longstanding wrangle over the future level of contributions to the E-dy Fund and the latest exhibitor offer, which should net over \$8,-400,000 annually to the production pool, was immediately accepted by the two producer organizations. Subject to ratification by the general council of the Cimenatograph Exhibitors Assn. tomorrow, (Wed.), the new rate of payment, will come into force on Oct. 24 for a three-year stretch.

The new CEA offer, made at last Wednesday's (1) meeting of the four major trade assns., was based on estimates of production costs and revenues submitted by the British Film Producers Assn. and analyzed by exhibitor accountants.

add a further \$1,500,000 to the deficiency. In round figures, therefore, the producers reckon that a loss in the region of \$11,000,000 is more or less inevitable.

They admit that the Eady Fund in itself will not entirely bridge the gap. Increased rentals accruing from higher admission tax concession are expected to net an additional \$1,000,000 each year. Above all, however, they are banking on the improved results of British pix at the boxoffice and hope that some of the triumphs of the past season will be maintained during the next three years.

Show Biz Finds State Sanctuary In Spain; Cheap Tab Upping Tourism

Madrid, Aug. 31.
A first trip through Spain, hit-ting the northern triumvirate (San ting the northern triumvirate coan Sebastian, Madrid, Barcelona), un-veils an interesting series of as-pects in land, thinking, history and show biz. Show biz seems to be in a state of suspended animation, an anachronistic status or just slum-bering and waiting for the impetus to send it hurtling into a top place here in the business hierarchy.

here in the business hierarchy. It has found a sanctuary where competition is lightened by state benevolence, where the great and prevailing draws are in a folk or historical pattern, and where many outsiders are congregated trying to put their knowhow into play here to give the added fillup, and turn that may more fully exploit the inherent drama, color and pictorial essence of Spain. The various stops seemed to bring these points out, and certain sidelights also bear on this.

The most intrinsically Madrida-

and certain sidelights also bear of this.

The most intrinsically Madridamean song ever written is "Madrid, Madrid, Madrid," which is heard everywhere in this rolling, pleasantly-climed city. It was written by the Mexican composer Augustin Lara, who had never been in Spain when he wrote it. He has also written "Granada" and was never there either. He is now here to see the real life counterpart of his chant interps. Ensconced his airconditioned room in the modernistic Castellana Hilton he can see the wide avenues, the edge of the new and sprawling University town and when he goes out into the heat, hot but bearable due to its dryness, he sees the well-planned streets, hustling crowds and the places he wrote about.

There are things like the man who carries a portable roulette wheel on his back and gives any comers a spi , and the vestige of the towncrier, become the Sereno, who has keys to all the outside doors of the apartment houses and comes when one claps his hands. Here is material for a Hitchcock film in dealing with a willy, dishonest Sereno. Sereno is part of the word serene, which he used to bray in the days of his towncrier-ship.

There are hundreds of men called Senor Rodriguez, reference to which erupts into laughter all those in the know Senor Rodriguez trose in the grow, Senor Rodriguez refers to married men who have sent their wives to a resort fown with the children and stay in Madrid for their work. The bache-

Usual foreign idea of a happy, dancing Spain is not the norm here as is any preconceived idea of a country. Changes have been wrought here but the church and government are still the central focus and driving force of the land and all stems from these sources. A powerful church means more apparent censorship and this shows parent censorship and this shows up in films and theatre.

Skrict Censorship
When "From Here To Eternity".

The Spanish film industry produces from 50 to 60 pi per year in Madrid and Barcelona. Most of the production is in Madrid, with seven studios, and in Barcelona with four. Jack Hylton has protested against the government import regulations which compel him to pay a 25% duty plus 33% sales tax on the costumes of "Joan of Arc" which be bringing to London for a four weeks' season. next month. These taxes are chargeable because he is employing 150 British artists. There would have been no duty to pay it he had brought in a completely foreign cast.

The "strange ruling" of the customs and excise, says Hylton, leaves him with this choice: either he must have new costumes made in British—a prohibitive expense for a limited four-week season—or he ust engage foreign, in preference to British, artists. John Trevelyan, chairman of the Advisory Sub-Committee of the Cinema Consultative Committee, said the United Kingdom led the world in the field of children's films. Vienna, Aug. 31.

The existence of ghostwriters isn't familiar here. Thus it came as a big surprise when Luis Trenker, writer and film producer, was sued by Fritz Weber for \$20,000 for back pay on stories claimed written for him. It was not revealed if. "The Diary of Eva Braun" is included.

Weber and Trenker, comrades during World War, I, had, as the complaint reads, started writing and producing shortly after the war ended. During World War II, Weber was taken prisoner by the American forces and when he returned from prison camp, work was started again.

To the last five years, however, Trenker didn't pay out the percentage due to the ghostwriter, it's claimed:

Overseas Outlets
That was 1951. Yet this summer, opera directors from everywhere came to Bayreuth to learn, and to beg the Wagners to export their style. Of the many houses that asked, Wieland and Wolfgang have chosen Barcelona and Brussels. Next season these cities will get Bayreuth-style Wagnerian productions. So will Paris, from a German company Wolfgang is taking there.

By now it's obvious for all to see By now it's obvious for all to see that the grandsons have vastly ex-tended grandpa's operatic life. "Taunhauser" was proof again that, subjected to Wieland's staging and direction, Richard Wagner's operas' are thereby improved.

are thereby improved.

This seesaw on sex and religion usually has audiences yawning as they listen to the romantic score. And with such a book, no wonder. Tannhauser, who has sinned on the Yenusberg, sings of the pleasures of love at a court singing contest, an outrage so enormous that he seeks the Pope's forgiveness at Rome. Elizabeth vainly awaits his return and dies just before the unforgiven Tannhauser looks for sin

return and dies just before the unforgiven Tannhauser looks for sin
again but discovers God.

Sin Is a Problem

Under Wieland's hand, Tannhauser, sung by Met tenor Ramon;
Vinay, is a strong man torn between good and evil, and the drama
becomes timeless. Expressing original sin stagewise is always a problem. But here it's tackled head on.
For setting the first act of "Tannnal sin stagewise is always a problem. But here it's tackled head on. For setting the first act of "Tannhauser" on the Venusberg, traditionally the mountain of love, Richard Wagner endured many jokes from his colleagues. But it took his grandson, Wieland, to put the Venusberg exactly where Gray's. "Andomy" puts it.

Opening curtain on Bayreuth stage finds Venus in smallest of concentric circles that absorb entire stage and form clearly a vortex. The ballet movements that follow are the most uninhibited since burlesque. They leave no doubt about the life Tannhauser, who's sleeping in the foreground, has been leading.

How theatre conventions change. Sixty-four years ago Isadora Duncan, then 15, refused to go on this same stage wearing the white smock that Cosima Wagner had designed for the Bacchanale ballet girls. Pointing to her scanty costume, Isadora said: "You just wait,"

same stage wearing the white smock that Cosima Wagner had designed for the Bacchanale ballet girls. Pointing to her scanty costume. Isadora said: "You just wait, in a few years all your Bacchante girls will be dressed this way." This year, with flesh-colored brasieres and panties, the ballet girls wore much less than Isadora, and looked completely naked.

The triumph of this production is not its sexiness, but that it achieved some of the universality that Wieland Wagner strove for. "Sometime in his life." says Wieland, "every man is torn between the Venusberg and Rome." All of this was staged, furthermore, with a dramatic tension that made it high drama.

the venusberg and Rome." All of this was staged, furthermore, with a dramatic tension that made it high drama.

In the final scene Elizabeth, a tiny circle of light on an almost bare stage, sings her adieu. Then, dying, she backs transversely across the stage, her arms outstretched compassionately, as the light dims to a blackout. It is unforgettable, and a characteristic Wicland Wagner touch.

Two singers, heard at Bayreuth for the first time, made a splash. Both have been reengaged. Gre Brouwenstien of the Amsterdam Opera sang the Elizabeth. She is a sharp looker with obvious singing-acting gifts, and can apparently have an American career whenever she chooses. New York Opera Cohas been angling. Dietrich Fischer-Dieskau did the Wolfram von Eschenbuch and the outstanding singing of the festival. This 29-year-old Berliner has a singular distinction among German singers, he got his start on the U. S. Army Special Service circuit in Italy after the war, singing to GT's, Rated a fine lieder singer, he will have first American concerts next spring.'

still pligrims.

Alone among festival towns, Bayreuth has no fleshpots. There is one fashionable winery, the Eule, and one deluxe restaurant, the Zoo-Garten. The hotels are strictly Zoo-Garten. The hotels are strictly for traveling salesmen. Experi-enced visitors live in the furnished rooms of Bayreuth families. So, clearly, the opera is the thing at Bayreuth.

It begins at four in the afternoon It begins at four in the atternoon and continues, with hour intervals between the acts, until tennish. Black tie and long dresses are the rule, and one blinks at first to see formal dress in daylight. Richard Wagner thought people should listen to his operas this way, and they still do.

still do.

Peculiarly, it's a regimen that fits. For once a performance has been seen here, it becomes obvious that Bayreuth, operatically speaking, is in a class by itself. Its 80-man chorus, chosen from the soloists of all German opera soloists of all German opera where, The 169-piece orchestra, so lected the same way, has bee called the "world's eighth wonder called the "world's eighth wonder" by veteran conductor Hans Knappertsbusch. Add to this a house with perfect acoustics, the most advanced stage lighting of any theatre, and the gifted Wagner brothers as directors.

Wieland, who is 37, and the better theatre man of the two, sees nothing incongruous about bringing his grandfather's operas up to date.
"Every work lives only if it can be givn form for its times. Shake-speare and Mozart were both played differently when they were first produced. The same for Richard Wagner."

Next season Wieland and Wolfgang, who is 35, will add "The Flying Dutchman" to the Bayreuth repertoire and drop "Lohengrin."

One Rough Area
Only place where the film has played abroad so far is Germany, where it was made at a negative cost of only \$500,000. 20th-Fox is handling "Luther" in many parts of the foreign market. In Germany it racked up extraordinarily long runs, and Smith said he expected big grosses in all countries, conceding however that there may be difficulties in some due to subject matter. Only place where "Luther" has run into rough waters so far is Quebec, where it was banned. Endress stressed that "Luther" had brought into the fact that it was actually made by the churches many people who didn't attend regularly, and he traced the appeal of the film to the fact that it was actually made by the churches themselves. Lutherar Church Productions was set up only for making "Luther" and thus, in order to undertake further ventures, reorganization is necessary. No definite projects have been decided on. Under discussion are a film on Johann Sebastian Bach and a possible struct to "Luther" applying the lessons from the film to modern times.

Venice Film Fest

Atthough the international Pro-ducers Assn. put a ix on two big "A" fests next year, with Cannes getting the first nod, it is expected in film circles that Venice will probably fight this and there may still be two big affairs next year.

U. S. participation was important festwise and there was a choice of unusual films which had more of the festival stamp than of previyears. The Motion Picture

years. The Motion Picture Assn. of America paid more atten-tion to documentation for journal-ists and there was a big industry turnout. Many U. S. foreign dis-tribs and producers turned out to trins and producers turned out jo ogle a cross-section of international production. The politics remained primarily internal, usually a case of producers jockeying for good projection times, or some trying to hix a newcomer, etc.

That 'Celebrity' Party

That 'Celebrity' Party
MPAA's hardest moments were
its setting up of the Celebrity party
which it decided to run in conjunction with Earl Blackwell of Celebrit tion with Earl Blackwell of Celebrity Service. It footed the bills though the lion's share of the publicity went to Blackwell, and this started some dissent among the companies. However, a big star roster was expected and its costume appeal was decided to be a fine factor for U. S. prestige. But at the last moment the Venice authorities nixed the use of a public palace for a private party and there were tense moments before a suitable spot was found. able spot was found.

Another drawback to the fest, for regulars, was the heavy evening sked of double features since no sked of double features since no competitive films were screened in the afternoons. This led to less free pre-film time, the time when scribes got their most news, and created late exits from shows and less time in bars and niteries here, which was fine with professionals, who wanted sleep, but led to a kick from concessionaires. However, Croze's contention of putting the emphasis on films was evident this year and gave the fest a substantial basis.

Films ranged in interest and showed that the big countries are still in a healthy state technically with the need for new subject matwith the need for new subject mater but still possessing a high vitality and entertainment potential. Japan reaffirmed its high level, and lesser countries showed good technical resources but still primitive approaches and subject matter in most cases. There were no great revealations, but it, showed world revelations but it showed revelations but it showed world production to be on an even keel, needing a more powerful emphasis on new subject matter and treatments to bring the film into its proper focus as the greatest mass.

Japan's "The Seven Samurai" art medium.

Japan's "The Seven Samurai" and "Sansho Dayu" showed that the practice of dipping back into the early, colorful centuries of history do not mean archaic principles filmmaking. The films both brim with power, movement and excitement with the pattern, ways and mores so different from the Western, giving it the exotic tinge which will always make the Japanese film limited in Western distribution. There's always room for them in art houses, but it is hard to see it breaking into general situations because of this limited appeal.

had ever seen a Bulgarian film before. "Poem On, Man" emerged as a competently made film of the 1925 revolutionary type films with all the mass movements and capitalist worker comments so familiar in these earlier films. Mexico brought a large measure of violence into the fest with two films of dark and brutal themes, one a primitive vendetta killing off people in "La Rio Et La Muerte" ("The River And Death"), and the other, "Rebellion of the Hanged," a rather joiling study of forced labor camps of the early 1900s where inhumanity and brutality ran rampant until the peasant laborers revolted. Based on a B-Traven novel, this has a rugged, red meat appeal for possible actioner spots and UA has it for American release, but it is limited for the large and the large was the large and the large actioner spots and OA has it rolled American release, but it is limited on its downbeat theme. Both films are well made but each lacks the character and progression usually inherent in Mexican films.

France, Italy and the U. S.
Italy had a dud in "La Romana," a literary stilted affair that miscast top star Gina Lollobrigida, and an interesting, if too studied, costume drama in "Senso" with Alida Valli and Farley Granger, and a moving dramatic film in Federico Fellini's "La Strada" ("The Street"). Castellani's "Romeo And Juliet" emerged another interesting attempt at Shakespeare on the screen with all the possibilities inherent in this backing with excellent color and imagery to boot.

U. S. had enough solid commercial films and offbeaters to make it one of the top selections, and other countries such as Indi, Argentina and Spain showed average with good techniques standing out in all. India again turned to a social theme of capital and labor in "Explosion" with enough exoticism to keep it commercial locally. Some offbeaters and shorter subjects also showed such as France's 40-minute "Francois Le Rhinocerous," a Disney-like attempt at animating animals of the brush and working a story into it. week, regardless of b.o. performance, Silverstone said it was "a disgraceful situation." He stressed that it was this issu of "locking in." a film, rather than stereophonic sound or anything else, that prompted the break between 20th and Rank.

Current installations in Britain total over 500, according to Silver-stone, with some 600 orders piled up and waiting to be filled. The 500 figure doesn't include the 75 up and waiting to be filled. The 500 figure doesn't include the 75 Rank houses that are equipped to show CinemaScope. 20th is now firmly committed to do business with the indies and Silverstone firmly committed to do business with the indies and Silverstone said that, even if Rank should change his policy, 20th couldn't and wouldn't turn its back on its present customers.

One of the problems in Britai, he explained, was that there is an understanding that the firms which originally installed the basic equiporiginally instance the basic equip-ment, such as projectors, etc., would also install any additions. Most of the British indies have Western Electric machinery and they're therefore dependent on WE to come through with the C-Scope equipment.

The 20th exec said C'Scope had cued the revival of British business and was doing very well in the houses playing it

Asked whether he had arranged Asked Whether he had arranged any coproduction while abroad, Silverstone replied he didn't think 20th would go in for coproduction on any significant scale "because I don't think the market here can absorb these films." At the same time, he did think that coproduction was probably the only way for time, he did think that coproduc-tion was probably the only way for foreign producers to get the kind of guidance that would make their pix palatable to the broad U. S. audience.

Lichtman pointed out that 20th had cut down on production "pricipally because we found that the public is no longer interested in just motion pictures in quantity. They are very selective in the kind of pictures they will patronize." This, he thought, was a better policy than the one the company had pursued up to the middle of 1953, "when this company released as many as 42 pictures in one year and when a large percentage of those pictures proved to be losers for ourselves as well as most of our customers."

The 20th sales topper recalled that his company had contracted for a number of standard-version productions, principally the 10 features via Leonard Goldstein's Panoramic Productions. "Most of these pictures we find very difficult to sell," he wrote, "and it looks as if w may lose money on most of them. I am sure, if it shall eventuate that we will lose money, our customers will not have done very well with them either."

Lichtman told Myers that his sales philosophy was one based on mutuality. "Both parties must be successful to remain in business." he stated. "My preference in dealing with exhibitors in general, except in very small situations, is on the sliding scale hasis wherener.

Lichtman emphatically confirmed what he had told the Myers committee before—that 20th is "perfectly willing to sell to such the small) theatres flat rental. As a matter of fact, in these situations we prefer to sell flat rental because playing percentage in these small possibilities entails preferred playing time. This is always a source of great argument with such exhibitors. It also entails checking, which is done at a prohibitive cost in such small situations."

In closing, Lichtman took a swipe at Allied in its efforts past and present to bring the courts into the picture. "I sincerely believe, without any attempt at disparaging anyone's efforts to do what they think is right, that the former so-called 'victories' that were obtained through the courts have possibly done as much har as good for those who were the instigators of the litigation that result in divorcement and the elimination of block booking," he wrote.

Referring to 20th's struggle to put CinemaScope on the map. Lichtman said the distrib's selling bolicies hadn't changed. "They have been, and are now and will continue to be patterned upon each exhibitor's ability to pay, with a view that both of us shall earn a on all the rest."

I remember, in the silent days, the industry wouldn't disclose so many of its technical secrets and the stars were rather mysterious and glamorous people, adored by their public. I don't think this is true any more, and it's not surprising. After all, the emphasis now is on convincing all and sundry that the top players are just people like everyone, else. And there are very few secrets about filmmaking that are still being kept. That has its good points, of course, but it detracts a little from the glamor that was." Lytell said that inevitably he en-

Lack of Inhibition

Same lack of inhibition is true for a couple of hundred arties throughout the country. However, lack of a seal, and Legion opposi-tion, definitely hurts in the com-

tion, definitely hurts in the commercial spots, even though possibly less so than a couple of years ago. Tied in with complaint over American censorship is the inevitable threat of retaliation vs. U. S. pix abroad. Actually, Hollywood exports run into plenty of difficulties in the foreign market from censor boards, Situation is slightly different, however, in that censors abroad as a rule scissor a film for the entire country. In the U. S., only seven states have censor boards.

Following the recent announcement of production chief Dore Schary of an increased filmmaking sked at Metro, the company's sales and pub-ad exces convened at the Coast studio yesterday (Tues.) for confabs on sales and promotion plans. During the three-day session, execs will view 10 of the company's upcoming films. Spearheading the group is sales chief Charles M. Reagan. Assistant sales manager Edward A. Saunders also came in from New York. The full complement of M-G regional sales managers are all attending, including John B. Byrne, Rudolph Berger, John J. Maloney, Burtis Bishop, John S. Allen and George A. Hickey. In addition to home office sales execs, the N.Y. contingent includes advertising manager Si Seadler, publicity manager Dan Terrell, and customer relations topper Mike Simons.

Summary judgment sought by Cusick International Films for dismissal of an action by Chesapeake Industries for \$30,000 on a chattel mortgage and promissory notes was denied by Judge Lawrence E. Walsh in New York Federal Court last week. The judge ruled that the action could not be disposed of on a summary judgment motion. Involved in the action are two pictures—"Pardon My French" and "Long Dark Hall." Chesapeake had also named as defendants the Chemical Bank, which holds a mortgage on the films; Eagle Lion Classics, United Artists, Sagitti Films and Neal Agnew.

Films have directly influenced the popularity of books most in demand at the Birmingham Public Library, director Faqt H. Thornley revealed. "Gone With the Wind" is now No. 1 on the library list, following a several weeks' run of the film at the Ritz. Even before "The Egyptian" opened at the Alabama Sept. 2 the book by the same name was again in demand. Other books among the top five in demand are "Magnificent Obsession," "The High and The Mighty" and "From Here To Eternity," a book that sprang back into popularity after a long film engagement at the Empire.

A film row faction in Chicago currently is pushing a plan to move the entire distrib stronghold from the present area to a more offbeat site where there would be greater room for expansion. Relocation drive is being led by Charles Teitel, foreign films distrib, who feels the present sector has been outgrown by the film row occupants. Teitel opines that present facilities are antiquated and inadequate for storage or trucking. Teitel proposes a westside uninhabited locale for the site but, as many of the major companies moved into buildings of their ow in recent years, it's not likely they'll consider making another move. move.

The Schulbergs seem to have hit the daily double at the current Edinburgh Film Festival. Writer Budd Schulberg is represented by "On The Waterfront", which he scripted for Elia Kazan, and brother Stuart is there with "No Way Back," prizewinning picture he produced in Germany. Both are sons of B. P. Schulberg, former Paramount production chief. Show biz experts can't recall a film festival where two brothers ever before shared the billing with two separate entries.

He is returning from a lecture tour in America with his wife (Ann Todd) when he's discovered standing by the dead body of a passenger. He's clapped into the ship cells and by sign language, with his wife as interpreter, makes a complete confession. Back in Paris, lawyer Michael Redgrave agrees to be defense attorney after sevial prominent counsel have rejected the brief. In a long, often suspenseful hearing, he succeeds in establishing the innocence of his client.

in establishing the innocence of his client.

Up to the point where the mute refuses to offer any defense because he's shielding his wife, the plot makes a dramatic impact. But the denouement, not effectively concealed, is too obviously contrived and carries little conviction. There are, nevertheless, several moving passages, notably the wife's confession of infidelity with the murdered man. However, the flashbacks showing the events which led to the mute's marriage and triumph as a writer are over-sentimentalized.

Michael Redgrave's interpretation of the bearded, bespectacled French lawyer is warm and colorful, with an appealing touch of ver-acting. Leo Genn gives a wholly sympathetic performance while Ann Todd turns in a forceful display of emotionalism. Kierom Moore does a standout job as the mute, registering dramatically without a word of dialog, Michael Medwin, as a ship's steward, and Jane Griffiths, blaying Redgrave's

marrying the daughter of the woman who put him into business. The bedroom-to-bedroom routine gets tiresome after a while, and it's only the broad comedies of Fernandel himself that keep the larghs coming.

The's backed by a good supporting cast. Mile Devillers comes through the dullish part of the faithful wife with charm; Arlette Poirter is tart as his occasional mistress; Jane Sourza is pert as the young girl; Blanchette Brunoy looks the part of the rejuvenated benefactor, and Jose Noguero has some funny moments as a diplomat. But the screenplay which director Jean Boyer and Serge Veber adapted from the P. Armont-M. Gerbidon comedy stretches the basic theme thin to the straining point. Boyer and Fernandel milk it dry, but the cow isn't productive enough.

This may not put Spain on the international pic map, but the film does emerge as one of enough indoes emerge as one of enough individuality and color to make for good possibilities in U.S. lingo spots or even for possible special slotting. It is a folksy tale of myth and prejudice overcome by love. Despite the familiar general plot. "Cursed Mountain" possesses enough offbeat locale to make this of interest. This won the crix prize at the San Sabastian Film Fest and also repped Spain at the Venice fete.

of interest. This won the crix prize at the San Sabastian Film Fest and also repped Spain at the Venice fete.

Story deals with southern village in Spain where there is a myth that all women born in the mountain section are barren, thus preventing marriage for them. One man from the valley braves this and marries a mountain girl. He is disowned by his family. When conditions are made difficult for him, he goes off on a special charcoal collecting expedition. He takes his wife along and a villianous mountain man tries to attack her and drags her off. The husband catches him and indulges in a vicious axe fight with him. Later the wife gives birth to a child, destroying the myth, for a happy ending.

Director Antoni Del Amo has used the rugged exteriors well. Line Rosales, as the mountain gal, and Ruben Rojo, the valley man, supply subdued performances. Skullduggery of Jose Guardiola is standard as is the pic plotting. However, the lensing is fine as is editing and supporting players. Paramount has this for Spanish and South American distrib. It also may take it for U.S. subsequent runs plus any other possibilities engendered by the pic.

Chicago, Sept. 7.

In one of his patented peeks into the future, RCA-NBC board chairman David Sarnoff, predicted here, last week at the NBC-TV affiliates meeting that tubeless tv sets will probably be a reality in another five years. This latest scientific crystal balling comes at a time when the tv manufacturing industry, namely RCA and CBS-Columbia, are in a dingdong battle over the merits of their respective color tubes, "Just about the time you pick the winner in the race for color tubes, there ain't going to be any tubes," Sarnoff punchlined after-sketching his version of the tele sets of the future. As he ensisted the set of the sets of the future. Dan Petrie Can't Fight His Way Out of That 'Tonight at-8:30' Tag

all commiserate with Dan Petri He's a tv director. He has a great big yen to do "Dinner at 8," but that former legit and Hollywood smasheroo is sewed up for 10 to 11 p.m. as part of Westinghouse's Wednesday one-a-month 'Best of Broadway" series on CBS-TV. Petrie also would fall all over himself to vidirect Noel Coward's three one-act plays, "Tonight at 8:30," reason being that, despite the title, it starts at 8 and stretches out to 9:30. But "8:30" is earmarked as the first of NBC's Mon-day spectaculars under the Leland Hayward banner (with Richard Whorf stepping in for the ailing head producer).

head producer).

For a semester or two Petrie staged "T-Men in Action." That was when it was an NBC stanza at 8:30 Thursday. "T-Men" has moved over to ABC, same time, same day, but Petrie didn't go with the new lease. Instead, he became director of "Justice," the successor to "T-Men," same time, same day, of course.

day, of course.

But whaddya know? Petrie got off the "Justice" kick and went shoppin' around for a new time to conquer. So what'd he get? So he got the melodramatic ("Climax") phase of the Chrysler series on CBS which will, it goes without saving, start at 8:30 and compete with "Justice" for the first 30 mi utes.

'City Center' As 3d Liebman Spec

Max Liebman has finalized blue-Max Liebman has finalized blue-printing of his third color spec of the NBC-TV season, scheduled for Sunday night, Oct. 10, in the 7.30 to 9 p.m. segments. No. 1 on the Liebman agenda next Sunday (12) stars Betty Hutton with the second Liebman specola set for Saturday, Sept 25, and starring Ann Sothern "Lady in the Dark."

The Oct. 10 show will be tabbed "City Center" and will be built around the N.Y. amusement center and what could happen there in the course of a season. Thus one of the major items will star the N.Y. City Ballet in a presentation of city Ballet in a presentation of "Filling Station." Judy Holliday will headline the 90-minute attrac-tion, which will also feature Dick Shawn and Steve Allen.

NBC-TV Wonders: Is 'Medic' What **Doctor Ordered?**

NBC-TV finds itself riding on the horns of a dilemma in connection with the premiere this month of the Monday night at 9 "Medic" series. Practically everybody's agreed, after a closed circuit view-ling of the pilot film, that "Medic" is precisely what the good doctor-ordered in terms of challenging the longtime "I Love Lucy" supremacy as the CBS rival attraction.

as the CBS rival attraction.
But there's considerable apprehension as to whether the widely kudosed pilot, scheduled as the first "Medie" installment, is the proper vehicle for the preem. Tabbed "White Is the Color," it pulls no punches in its visual presentation of a young mother giving birth, and of the fight to save the infant as the mother dies from acute leukemia. NBC recognizes that it's strong stuff—probably stronger than anything of its kind yet seen on 1v. And while the 'client, the network and the stations feel convinced they've got a winner in the vinced they've got a winner in the overall series, they're disturbed over possible audience reaction to the plot.

With the preem only five days off, the network must decide pronto whether to tee off with another, less realistic installment.

BOLONEY AT CHI

Last week's Chi gettogether of the NBC-TV affiliates and the netthe NBC-TV affiliates and the net-work brass proved one certainty, if nothing more—a "my network 'tis of thee! pledge of alleglance which today finds the major ty webs firm-ly establishels in the driver's seat. The affiliates' faith in the network was never more pronounced as at the Chi powwow.

Even though there were some minor rumblings from the optional stations who felt they were getting the short end of the affiliation deal because too many sponsors, were only buying the basic network (averaging 82 stations and leaving upwards of 100 out in the cold, the clincher came at the close of the two-day meet when these selfsame onlinels and the climber came at the close of the two-day meet when these selfsame optionals got up a kitty among themselves to advertise in the major dailies and the trade papers their expressions of faith in the network. Veteran observers say that's unprecedented.

that's unprecedented.

That the stations cherish their major network affiliations more so than ever before becomes readily apparent. For one thing, the days of the single station cities are over. That means a more highly competitive situation. The station flaunting the best programs gets the biggest audience. Thus every NBC and CBS affiliate has a vested interest, in the "sky's the limit" programming patterns evolved for the new season. The station's doing nothing to jeopardize its valuable nothing to jeopardize its valuable network franchise. If it's axiomat-ic in the trade that a network sonly as good as its station lineup, it now works the other way—in spades.

It accounts, too, for the concern registered by so many affiliate managers at the Chi session over managers at the Chi session over the upcoming Sen. Bricker-inspired investigation of the networks, for they realize all too well their own stake in any possible restrictive measures tossed at the webs.

'Hate That Network'

Actually, all the former affiliate vs. network gripes have now found a new and more stinging release in the CBS vs. NBC rivalry that in the CBS vs. NBC rivairy that probably hit a new crescendo at the Chi meetings when the CBS Radio and NBC-TV conclaves practically dovetailed. No longer characterized as "that other network," it developed into real name calling, with NBC-RCA board chairman David Sarnoff, for one, tossing his

Negotiations initiated by the Ted Bates agency on behalf of its Colgate client to pact Latin Quarter, N. Bates agency, which this season will be responsible for bringing in 20 of the Colgate stanzas, plans going far afield in the "if-yougoing far afield in the "if-you-can't-get-a-name-get-an-institution," addenda to ty programming. Plans encompass moving into rodeos, swimming shows (possibly as an Esther Williams vehicle), etc.

This and followup revelating had newscribes working overtime to track down the actual facts. Jack O'Brian, tv editor of the N. Y. (Show starts at 11:20 and goes to midnight, but ran over on Tuesday.) The suggestion was that the Allenshow had been successfully approached to drop the name, with O'Brian reporting that David Dubinsky, head of the International Ladies Garment Workers Union, "had a finger in deleting several times from the script. Irving Gray, manager for Milton Berle, is said to have phoned NBC from Las Vegas (where the comte was appearing at the Sands) and informed NBC that he was "speaking for one of the most respected members of the garment industry." Then came a call from the garment official mentioned by Gray. Allen is said to have admitted that he had been "pressured" by the official but refused to have the name deleted. Another caller asked Allen to cancel the show but he refused. The deletion was eventually made by Allen, however, because a reference to "Mr. X" couldn't be found in the book, "Murder, Inc." (On Allen's anti-crime panel were a number of legal and Government lights plus Victor Riesel, labor writer for the N. Y. Mirror.) Day after the show Allen had a discussion on the "deletion" with the chief of the rackets bureau of the district attorney's office. He made known that before the Tuesday show he had "reluctantly" promised not to divul, e the identity of "Mr. X" but that on the show itself. he had expressed "regret" at having made the promise. 20% RATE CUT DOESN'T ALTER STANTON'S FAITH IN BIGTIME CBS RADIO NETWORK

Chlcago, Sept. 7.

While there was no roaring optimism about the longrange future of network radio, the belief that CBS can make a go of it as long as anyone can was something of a unifying force at last week's gathering of Columbia's AM affiliate clan. The two-day sessions at the Edgewater Beach were neither a wake toasting the corpse nor the joyous reunion of a completely unworried family. But a general tone of "we're in this together and let's make the best of an admittedly troublesome situation" kept friction at a minimum and resulted in immediate plans to hold a similar convention, with its biz and fun aspects, again next year.

There was no shirking the fact that all's not rosy for network radio, 1954 model, or that CBS, too, has not suffered its slumps. However, the pledge by CBS prexy Frank Stanton that he intends to keep the family healthy, coupled with his "look at the record" reference to the web's postwar supremacy, and CBS radio prez Adrian Murphy's hints that hew formulas and approaches are constantly under study, served to strengthen the belief among the affiliates that when the time is ripe for major changes in network concepts, CBS will be prepared.

For example, Murphy admitted the web has been investigating the program service field as a "some day, maybe" approach and hinted at a possible evolution in this direction. In this connection, it's noted that the web toppers outlined a plan to offer more shows on a co-op basis this coming season.

on a co-op basis this coming sea-son.

With CBS' 20% rate slash al-ready ratified and to be announced formally next month, there appar-ently was not too much jawing over that issue. The affils did re-affirm their opposition to partici-pation selling, a field the web agreed to bypass, except for its currently on the shelf Power Plan, (Continued on page 42) (Continued on page 42)

3 UHF's Among NBC's 'Must' Buys

Whatever the prevailing sentiment about UHF vs. VHF, the fact remains that there are now three U's on the NBC affiliation roster of "must" buys for clients. These are in Portland, Ore. (the nation's top U success story thus far), in Youngstown, O., and in Norfolk, where the network pledged allegiance to WVEC-TV after losing WTAR-TV to the rival Columbia web.

web. Norfolk story, incidentally gets a three-faceted upbeat, with the expansion to a 1,000 kw. operation, the extension of the NBC affiliation contract to two years and the goal on conversions more than meeting the Oct. 1 deadline originally set by NBC-RCA playing major roles in solidifying the WVEC-TV picture:

CBS Out On A Program Limb in Pre-Exposing **New Talent to Affils**

Chicago, Sept. 7.
CBS Radio emulated the modus operandi of Hollywood studio sales chiefs last week in taking the wraps off one of its new network stars. Latter is Negro gospel singer Mehalia Jackson whose half-hour musical preems on CBS Sept. 26, following Edgar Bergen as part of the Bill Paley programming powerhouse for Sunday nights.

Dittoing the film company strategy wherein Warners' Ben Kalmenson, 20th-Fox's Al Lichtman, et al, regularly junket key exhibitors to Hollywood to gander upcoming company product, CBS Radio programming veep Lester Gottleb booked Miss Jackson into key spot on special show Columbia put on for its affiliates at Edgewater Beach hotel in Chi last week. Singer, slotted between Edgar Bergen and Peter Lind Hayes, had affiliates cheering her interpretation of "Lord's Prayer." "Didn't It Rain," etc. Some made comparisons to the redoubtable Marion Anderson. Amost unanimousy, affiliate station managers bestowed their blessing.

Mayer, former Royal Canadian Air Force pilot, followed his wartime training by ducking under his desk, microphone and all, and continued talking, describing the scene in WBZ headquarters. Boston Weather Bureau at 10:30 reported the storm center off Montauk Point, but Mayer, checking with other weather and Coast Guard stations, discovered it was already as far north as Providence. As a result, he gave Bostoners hurricane warnings far ahead of other local newsmen.

NBC'S 'NO TIME FOR EDITORIALS'

Even Beer Gets Ulcers

For the first time in boxing annals a championship fight was cancelled 24 hours before it was to take place—and it hadda happen in an age of television. When Kid Gavilan bowed out of the Johnny Saxton match last Wednesday (31), because of a reported virus, Pabst Brewing was left without a filler via CBS-TV. With less than a day to get things shaped up, agency Warwick & Legler nervously mulled various film fillers or a live fight from other than the Connie Mack Stadium in Philly where the Cavilan-Saxton bout was to have been held. Braintrusters settled for a live bout at noon, the day of the telecast. It was strictly ulcer inviting from then on out. Bobby Bell and Ike Chestnut were matched at 12:30 p.m. It was decided Philly was still the likely place, because facilities were all arranged, but the bout had to be moved from the Stadium to the Met auditorium, where somebody fortunately forgot to pull down the ring from an earlier fight. Everybody thought things were moving along smoothly until Pennsylvania boxing commissioner Frank Weiner refused to okay the match. He was finally convinced that both fighters were in shape for the event. Then somebody got the bright idea to schedule two six round fights, instead of one 10-rounder: George Justine and Elwood Davis were to start with the Bell-Chestnut match as a closer.

There was a last-minute rush for promotion via WCAU-TV, Philly's CBS affiliate, and at 10 the show went on.

Warwick-Legler, Pabst, CBS-TV and all involved have been pating themselves on the back for a ticklish job well done, but nobody yet knows what the gate at the Met was like.

Wherein GE's McNutley Goes Out the Window, Reappears as McNulty

Back some 70 years ago when the Rungeling family was breaking into show biz in the midwest, a newspaperman who never got to the head of his class, in spelling enshrined himself in a story wherein a famous circus name was born. The fourthestater's miscue came out "Ringling" and naturally that stuck both on its euphony and connotation of tankbark via "Ring."

Last season, probably the most misspelled title in tv was the character part of "Meet Mr. McNutley," the Ray Milland CBS show for General Electric. This season McNutley goes out the window and title becomes "Ray Milland Show." But the character's tag has been altered to McNutly (with some scribes no doubt continuing to refer to McNutley in their output). It's recalled there was another McNutly in show biz—Dorothy McNutly win made a rep as a Broadway dancer and went to the Coast as Penny Singleton, the Blondie of radio and comic strip series of that name.

STANTON'S VIEW

NBC-RCA board chairman David Sarnoff's last-minute revised text in addressing the NBC-TV affilin addressing the NBC-TV affiliates in Chicago last week encompassed, practically every facet of broadcasting-electronics, spanning some crystal-balling into the future ("I venture to say that within a decade from now almost everything that excites us today will be obsolete"); the future of network radio, color tv and its potentialities, the upcoming Sen. Bricker investigation of the webs, and the right of a network to editorialize.

on the latter subject, Sarnoff told the affiliates that, while the networks should have the right to editorialize, "whether they should exercise that right — and under what circumstances — calls for clearer definition than Dr. Frank Stanton (CBS president) has given in his statement on the air."

in his statement on the air."
"So far as NBC is concerned,"
Sarnoff declared, "we have not engaged in editorializing since we have been in the proadcasting business. And we are not ready to abandon our policy.

"If a network is to editorialize only when its own interests are involved, then I think the special circumstances of the case must be considered. It is not speaking in its own interests only when it raises its voice in protection of the freedom of broadcasting. It is serving the public's interest as well. But

CBS's new veepee in charge of news and public affairs Sig Mickelson, in answer, to queries by affiliates here last week about the web's future ventures into the editorializing arena, made it plain that the network will do so only after top management debate and that the stations will be notified in advance so they will have an opportunity to duck out if they chose. Internal Revenue Sifting Asked On **Hunt's Tax Status**

Washington, Sept. 7.

Rep. Wayne L. Hays (D-O. a member of the Special House Committee to Invastigate Tax-Exempt Foundations, last week called for a reexamination by the Bureau of Internal Revenue of the tax status of Texas millionaire H. L. Hunt's "Facts Forum" as an "educational" organization.

Hays said, in connection with a study of the program carried in the Congressional Record, that many radio and tv stations are giving it free time because it claims to be nonpartisan. "Far from being impartial," he asserted, "it consistently and aggressively expounds one point of view. Other opinions are included simply to camouflage its bias.

I strongly urge the proper authorities to reexamine this whole matter."

Hays has been having a running fight with Rep. B. Carroll Reece (R. Tenn.), chairman of the Committee, over the status of "Facts Forum." Hays wanted the program investigated but the Committee closed its hearings in July without going into it.

Hays report says that newspapers and Congressmen received a "flood" of mail froi listeners "in support of the side which Facts Forum supports, such as the Bricker amendment and Sen. McCarthy." The program, it declares, "insidiously pours venom into the unsuspecting listeners' ear."

QUALITY GROUP ALL SET TO SPREAD AM AS HEDGE AGAINST WEB PULLOUT

Chicago, Sept. 7.
Quality Radio Group Inc., newlyformed lineup comprised of many
of the nation's AM powerhouses
handed together in a co-op sales
and programming venture in an attempt to project some new life into
nighttime radio, already has the
first order "in the house." It's

mitted to a slice of the new taped apread.

On the eve of the outfit's incorporation last Friday (3), 24 major market stations were enrolled as charter members, with at least a half dozen more on the verge. And every one is also a primary affiliate with one or the other of the four national networks. The roster already pretty well blankets the country with the bulk made up of 50,000 watters. The additional stations to be brought in will fill in the gaps so that a sponsor buying into the package will get four-corner exposure.

This means that QRG's sales arm will be competing directly with the webs for national biz with either the new group activating additional ightline radio advertisers or scrambling for a chunk of the observers also sees QRG's formation as a hedge against the poslibility that one or more of the networks may pull out of the AM picture.

In view of RCA board chairman David Sarnoft's bearish, remarks about the future of network radio tossed out last week at the NBC-TV affiliates' meet, some significance is attached to the fact that out of QRG's charter 24-station encollment, 15 of them are longitime NBC outlets. They're Off On Nag Network Sept. 28

Louisville, Sept. 7.

Thoroughbred Broadcasting System prez Clem McCarthy has released statement that the net which he heads as chief wil begin operations on Sept. 28 on a six-timesper-week basis instead of tri-weekly as originally planned. Reason, McCarthy, says, is that many stations asked for six irings perweek, so the new net will accommodate them.

Talent charge to radio stations for the feature horse race presentations is not to be increased, according to McCarthy. Stations will get six airings—week for the same charge they would have paid for operation.

Another change in the network's setup resulted in the election of Brent Hart, of Louisville, as chairman of the board of directors. Hart also serves on the board of Churchill Downs.

Alfred Politz, the research sleuth, was off and running last week on a "revolutionary technique" of ad medium measurement that; were it capable of being translated to radio and ty, would put all the rating services out of business. As is, it adds another channel of measurement to the in-dustry's "Rate 'Em' and Weep" op-erations. If, as noted in a pre-vious Issue of VARIETY, ratings are vious issue of Variery, ratings are for the birds (meaning a tv lookerinner measurement by figuring the number of parakeet owners calling up a program for word on their stray feathered ones as set against the total number of lost parakeets per day), the Politz innovation is for the birdles.

count the eyes and divide by two."

Politz developed the measurement for Outdoor Advertising. Inc., major sales group representing owners of poster locations throughout the country. What the service sells is not precisely the rating—which is the result—but the gimmick, which is a sort of "Perch on the Birch" that works along these lines.

Based on the principle that "people who can "see the poster are those that the poster are those that the poster can see," the system brings into play electronic photo techniques to achieve "stopmotion sampling" method. Measurement delivers the number of people who see an outdoor display over a period of time, accomplished by still pictures which stop the motion of traffic between photos at the beginning and ending of a short duration of time, According to Politz, the proper interval of time bounded and recorded by the photos should be three seconds for city locations, and "five, for rural aleas." In this manner," Politz asserted, (Continued on page 32)

No Soft Soaping Those Daytime Operas; John's Other Wife Jail Bait

Television's soap operas, in-marked contrast to the troubled domesticity approach of the radio weepers, are on a distinct blood-and-thunder kick. Instead of "who-was-John's-other-wife-out-with-last ight?" it's become a matter of "when's-John's-other-wife-getting-out-of-fail?". out-of-jail?

ight?" it's become a matter of "when's John's other - wife - getting-out-of-jail?"

Virtually every major video soaper has as a running story at this moment character in or about to enter jail, or a character on trial for murder, or a principal involved in one racket or another. Going down the list, "Valiant Lady" has a juve character in 'all; the heroine's sister in 'Love of Life' is involved in a gambling ring; the principal plot situation current in 'Search for Tomorrow' concerns a murder and a dope ring; and in "Guiding Light," someone got 20 years in jail for murder. Portia in 'Portia Faces Life' has been defending an indicted gambler on a murder rap (with her husband's partner's wife involved with the gambler); and on 'Secret Storm' she heroine's son currently enjoying a prison term. What's responsible for the malevolence and mayhem doctrine? Some scripters and producers feel they're simply reflecting the temper of the times, especially as it concerns juvenile delinquency. Others privately feel that the old domesticity kick outworn, that the only way to go is onward-and-upward with sin. Whatever the reasons, what ever became of "Young Dr. Malone?"

WTAM's Whopping Live Daytime Yen

Cleveland, Sept. 7.

A radical change in late afternoon-evening radio programming
was inaugurated last week by
WTAM with a two-hour segment
highlighting a nine-piece band, an
emcee and a featured singer.

The 5:30 to 7:30 p.m. segment is patterned after WTAM's highly successful "Morning Bandwagon" that enters the fall season with a virtual "SRO" tag on participation spot availabilities.

The only breaks in the evening stint are a 10-minute Sohio newscast with Bill Tompkins at 6:15, followed by Tom Manning's sponsored five-minute sportscast, and the 6:45 NBC Ray Henley news-

show.

As yet there is no name for the new program—listeners will be asked to submit suggestions—and Johnny Andrews, the Bandwagon emcee, will do similar chores for the first two weeks of the evening period. Andrews, a former Manhattan patter-pianist-singer, has soared to one of the top positions in Northeastern Ohio's emcee circles during the two years he has been here. He has just been inked for a new NBC contract with WTAM-WNBK.

Henry Levine, of Bandwagon

for a new NBC contract with WTAM-WNBK.

Henry Levine, of Bandwagon and "Lower Basin Street" fame, will temporarily direct the evening musicians through a repertoire of pop and Dixieland, polkas, etc. Vocalist will be staffer Jay Miltner, who also has a two-hour Saturday morning teenage disk stanza. Producer-Director is Jim Rowe.

It's expected that Bill Mayer, WGAR disker, will be signed to do the emcce chores in the new show.

Mayer and the "Morning Bandwagon" have been fractions of a Pulsepoint apart, with the former keeping a split-point advantage.

In announcing the new format, Liloyd E. Yoder, general manager of NBC, emphasized "radio is neither dead nor moribund. Just as the morning audience is a radio-audience, so, too, is the late afternoon-early evening listening period a natural for radio."

Fred Allen's TV Sketches

Fred Allen has been signed by Talent Associates and producer Ralph Nelson to star in the "Armstrong Circle Theatre" production of "Sketchbook." It comprises a series of three sketches which Allen will act in as well as narrate. Show is tentatively pencilled in for Oct. 12.

CBS Continuity Dept. Dangling In TWA's Fold

Because Television Writers of America has dissolved, the fate of the CBS continuity department is up in the air. The 10-man shop in New York was the only network unit under TWA control.

The scribbler shop is currently searching around for a substitute for TWA. There are other unions to which the CBS department could pledge its allegiance besides the newly-formed Writers Guild of America, one of the writers said, but he would not disclose their names. However, he believed a decision as to who will have jurisdiction over the continuity department could be reached within the next two or three weeks.

On the Coast, western region prexy of TWA, Ben Starr, last week delivered the union's "obituary" to members. A referendum held on both coasts resulted in a decision to fold.

Though he felt that TWA could win another NLRB election for jurisdiction over live video writers, he said, "It is no good; writers cannot obtain a good contract unless they are united within one strong, democratic union."

In his "obituary," Starr said "TWA took a forthright stand against blacklisting and, unlike other unions who gave only lip service to this very important blight on our industry, we included pertinent clauses in our constitution; our contract demands, and took a firm stand in one much publicized instance involving a TWA employee."

He conceded that TWA had made mistakes but vowed the union was responsible for reorganization of Writers. He was referring to WGA

In most cases it was established that these accidents would not have taken place if adequate precautions had been taken to assure proper care of the animals while they are on NBC premises. It is the responsibility of a show's producer, director and unit manager to prevent such accidents by ascertaining that competent handlers are present with the animals at all times, that animals remain under direct, continuous control of these handlers except where the script may make this impossible for limited periods, and that good judgment is exercised in determining how animals are to be used on the show in order that contact between the animals and employees can be minimized.

Washington, Sept. 7.
Sen. Andrew F. Schoeppel (R.Kan.), member of the Senate Interstate Commerce Committee, wants the FCC to start proceedings looking to authorization of subscription tv. In a statement which appeared last week in the Congressional Record, Sen. Schoeppel said he could see "no apparent reason" why the Commission should not explore the feasibility of authorizing the service while Congress is in recess.

in recess.

As a member of the Potter subcommittee which recently held hearings on UHF problems, Sen, Schoeppel said he has become "more persuaded than ever" that the potential of pay-tv should be thoroughly looked into. In view of "the economic drought that is slowing down television growth," he declared, the time seems ripe "to provide tv with a 'subscriber' source of revenue so as to broaden its economic base and also its its economic base and also its revenues."

Since the FCC has the authority Since the FCC has the authority to explore and authorize new tv services, Schoeppel asked: "What are waiting for? In some recent weeks permits to build new tv stations have been returned to the FCC unused at a greater rate than new ones have been issued. The reason offered in nearly every case is the same—not enough revenue prospects from advertising in the given area to justify the rising costs of a tv station.

the good old sales presentation have been sounded. It would seem that for any tele station that can afford it, a film demonstration of live programming is a better "salesman" than a fancy-covered brochure, because KABC-TV. ABC flag in LA, did one, and now the three DuMont o&o's are planning a similar pic project.

Last week (Thurs.), KABC-TV unveiled to N. Y. time buyers and tradesmen generally its half-hour film made expressly to sell the station to national spot advertisers. Next-day, although the plan was probably in the offing for some time, DuMont o&o's decided at their N. Y. meeting that they would do a similar film job to expose the kind of live programming they have available. How the three stations (WABD, N. Y., WTTG, Washington, and WDTV, Pittsburgh) will combine their respective shows into one celluloid package is not yet resolved.

KABC-TV's pic is emceed by Art Baker, of ABC-TV's "You Asked for It," and features station's personality roster at work. KABC-salesmen admitted the film cost considerably more than originally planned, but felt they were writing more biz because of it.

Fellows Takes Radio-TV Ban Fight To Legion; Gets McCarthy Assist

Washington, Sept. 7.
With an unexpected assist from Sept. McCarthy, Harold E.
Fellows, prexy of the National Assn. of Radio and TV Broadcasters, carried the fight against the Senate Censure Committee ban on radio-tv coverage of its hearings to the American Legion convention here last week.
Following up on the CBS net-

taking the most powerful truth-telling media in the world today."

Pointing out that one state has prohibited the broadcast media from courtrooms and that rules against radio-tv coverage of public proceedings are being adopted at various government levels, Fellows asserted: "This is not a matter that alone concerns the private interests of broadcasters. On the contrary, broadcasting can easily schedule programs contrived to captivate greater numbers of viewers and listeners than those who will be enticed to the receiver by open legislative hearings or court proceedings. More significantly, this issue goes directly to the public interest of every citizen."

Warning that broadcasting, if controlled by government, "can be employed insidiously to whip a nation's people into a fervor of hate," Fellows said that "unfettered, this medium takes its rightful place

lie-detector—a circumstance much to be desired in these days of silent witnesses and iron curtains."

Almost at the very hour that Fellows addressed the Legion on Thursday (2), Sen. McCarthy appeared before tv campras to lash out at newspaper coverage of the Censure hearings. Charging that the Washington Evening Star misrepresented in its headlines his questioning of the impartiality of committee member Edwin C. Johnson, McCarthy asserted: "I think this indicates the possible lack of wisdom in barring radio and tv from the hearing room." "Such completely false reporting." he added, "wouldn't be possible" if the hearings had been open to radio and tv.

Aside from the "equal access" principle involved, reporters covering the hearings were extremely doubtful the proceedings would attract a radio or television audience. The sessions so far have been productive of little dramatics and on the whole dull.

Subscription TV

dition of subscription service to the advertising programming that could be done in many market areas might well make the difference between a profitable and effective local station and no station at, all. As a result, a group of UHF broadcasters have themselves urged the FCC to authorize subscription tv. I would go further and conclude that if such an expansion of tv service is good for UHF it ought to help all tv stations, large or small, VHF or UHF. "There are a number of reasonable prospects as to why this should be so. For one thing, I am told on good authority that the gadgetry necessary to equip regular broadcast stations, and regular tv receivers, both old and new, to receive the special subscription programs has been highly perfected. Various field tests of it have already been held under FCC temporary authorizations. There seems to be no technical reason

of colon" Senoeppel said pay to would obviously involve "competitive adjustments" in the entertainment field. "This new use of tv," he added, "would probably require some new rules of the game among broadcasters and perhaps in allied industries like the movies... However, I believe that after these new services had been established and adjusted, the broadcasting industry and the overall economy would greatly gain from the expansion of public service thus to be derived from the modern miracle of television."

"The luckiest man at today's hearings was Dr. Frank Stanton, president of the Columbia Broadcasting System. Next luckiest was the television audience that wasn't there.

"Dr. Stanton went on the air the other night and protested mightily about the TV ban on the hearings. He didn't know what he was missing. As a television show this one would be approximately as excitting as a recitation from the New York telephone directory. Chairman Watkins promised to take the circus out of Congressional hearings, and he succeeded. After an hour of legalities and reading old letters into the record, it was obvious that decorum was triumphant. The Watkins committee may not censure Senator McCarthy, but it may very well bore him to death."

wiewing and interchange kept to a high, bright level, and the half, hour resulted in a top "Person" program.

First quarter-hour saw Murrow, from N.Y., interviewing Humphrey Bogart and his wife, Lauren Baeali, "live" in their Hollywood home. Second segment brought in Alec Templeton and his wife from Connecticut.

The Bogarts sequence moved fast, deftly and amusingly. It was a good switch on tough-guy Bogie to see him relaxed at home with wife and two charming kids, although he stayed in character with his down-to-earth, terse but friendly rejoinders. Actor was himself, natural, while Miss Bacall, a little stagey, hammed it up a bit.

Informal note was set at the start by Bogey telling Murrow he had seen their nutual friend, Ben Lyon, recently, and that Lyon was sending Murrow his regards through Bogart. The Templeton sequence had lore sentimental appeal, perhaps, so the audience watched the bind pianist (never identified as being sightless) grope his dodly-suremy about his home, displaying his trinkets, his collection of music boxes, the grandfather's clock in its unusual key, etc. Sequence opened smartly with Templeton did a comic vocal-keyboard takeoff of Wagnerian operas, followed by a short musical per part the had just composed — of Murrow. in order to keep track of the move-ment even when Donna Atwood glided. These long views couldn't do justice to any personality that she would show. It's a difficult matter to capture the spirit of a blades show on the tele cameras, but the finale with the intricate formations came closest. There was enough color in that sequence to give some indication of what po-tential customers would see in person.

person.

The lack of top comedy was another item that marred the final result. The "Doggie in the Window" number was cute, but that was the closest approach.

Sullivan buttressed the refrigerated fevue with some personalities that he brought down to Convention Hall, Atlantic City. Topper was Roberta Peters, who got the first really good closeup of the show, with her coloraturing of "Una voce poco fa." A major bright spot in the program.

The Harmonicaires (2) put over

"Una voce poco fa." A major biggins spot in the program.

The Harmonicaires (2) put over a classical medley, and Sonny Howard, heralded as being from the Copacabana, N.Y., (not in the current show) did fairly well with impressions, but he had to work extra hard to get by.

The ice show cast included a pair of acrobats, one of the more melodic sequences, "An American in Paris," by Miss Atwood and Bobby Specht with choreography too ambitious to be captured on the camera, and a male comic in ballet skirt whose work was pretty mild.

"Lux Video Theatre," after an auspicious premiere the week before, floundered into an abysmally amateur and slipshod production on its second time out last Thursday (2) with a creaky adaptation of Par's "Welcome Stranger" featuring J. M. Kerrigan, Bill Goodwin, Martha Hyers and Eliabeth Patterson. Stacked up, against the initial "To Each His Own" Lux performance, or for that matter against most of the qualitative hour-long dramatic entries to which tw viewers have now become accustomed, "Welcome Stranger" was embarsassingly second-rate. Practically everything about it had the aura of the late night pix oldies on tw Aside from the antiquated claptrap that passed as a script, the dialog was hoary and the production was reminiscent of tw drama in its earliest stages. If Lux and its Coast impresarios have any designs on wrestling creative productivity away from New York, they better rally their forces pronto. Not only was it a "no competition" contest in the east vs. west claims for tv program laurels, but it didn't help the film industry either.

didn't help the film industry either.

Dorothy Lamour and her South Sea company provided an insipid tending to an undistinguished season of the "Summer Colgate Comedy Hour." Miss Lamour may have been a fine motion picture comedy foll, and her figure wrapped around a Technicolor sarong might have provided something of a b.o. incentive, but as a television solo headliner, she's no great shakes. Her viole is passable, but no more, her dancing nis.h.; and she's got little in the way of charm and warmth that projects onto the home screen. Only spot in which she clicked and when so me personality came through was in a quartet with three Hawaiian instrumenalists. Otherwise, the South Sea stuff was standard.

Show's saver, if there was one, was Barry Storch, who through the plot device of a shipboard show, was enabled to skim through the highlights of his nitery routine. Storch's entry last summer as a replacement for Jackie Gleason fell apart largely, because of strain on material and because he decided to do sketches a la Gleason. But in this guest shot, with his standup repertory, he was solid all the way, socking across his mute umpire bit, his Russian and Japanese doing an American-type beer commercial

John Harris, producer of "Ice Capades" gave away a generous slice of extravaganza on the Ed Sullivan show on CBS-TV. Sunday (5). There were approximately 40 minutes of that layout on "Toast of the Town" encompassing some of the highlights of the show that will tour major arenas. Whether this will affect the boxoffice when the frappe frolic tours is 'still to be determined. It's especially significant in view of the fact that the icer advertises "not televised" in its newspaper space.

Unfortunately, the cameras scouldn't capture the inherent speciale of the ice show. "There had to be a predominance of longshots in order to keep track of the movement even when Donna Atwood the CBS-TV's superlative documenting of the camera of the company to the camera of the came

CBS-TV's superlative documentary series, "You Are There." really swinging on Sunday (5) its historical closeup of the origins of jazz in the U.S. Flashing back to 1917 when the ragtime beat began to break out of its New Orleans boundaries, the video show brushed lightly over the historical details and let the Jazz musk and the Jazzmen speak for themselves. Such modern Jazzmen as Louis Armstrong, Bobby Hackett, Billy Taylor and Cozy Cole personlifed the pioneer jazz personalities and combos such as King Oliver, Jelly Roll Morton and the Original Dixieland Jazz Band. Armstrong, in the role of Oliver, could have been spotlighted more, especially since Satchmo is an excellent thesper as well. Taylor was outstanding in his moody recreation of Morton and the rest of the cast was equally effective in projecting the beginnings of the music most typically U.S.A.

Show was frank in its pinpointing of the "red light" district of New Orleans, Storeyville, where the first Negro jazz units played. The sinfulness of jazz from the viewpoint of the moral guardians of the 1917 era, played a big part in the script and could have been meant as a parallel to the current uproar over the deleterious effects of some current video shows. The analogy, however, was not spelled out. Walter Cronkite gave his usual authoritative commentary with an assist from several CBS reporters "who were there."

Last Friday (3) marked the third anni of "Sports of the Night" on WCBS-TV, the N. Y. key of CBS. Late-night capsuler—11.25 on the even days, to allow for the web's 11 o'clock "Chronoscope," and 11:10 on the three odd days, segueing from the local's "News of the Night" with Robert Trout as the callman—has had Bill Hickey pitching the athletic statistics since last May in a takeover from Jim McKay. Latter is doing the station's six-day "Six O'Clock Report" and web's "Youth Takes a Stand" moderation after having ankled the nocturnal roundup for a similar chore on Columbia's "Morning Show." Ironically, that waker-upper has dropped the McKay segment, along with other components upon Jack Paar's entry.

"Sports of Night" a snappy show. The conferencier must always be jumpin' to ride over the scores and such plus pitching the plugs on vestpocket stanzas; but Hickey carries all chores off nittly (with General Cigar's Robert Burns smokes and Piel's Beer rotating over the six-day course) with a twinkle in his eye and a part in the middle of his noggin as contrasted with crewcut McKay's effective deadpan style. Trau.

An offbeat theme provided touch of the unusual on the Philo TV Playhouse over NBC-TV. Sunday (5) but unfortunately lacked the strength to bring its characters to life and it didn't provide them with sufficient motivation to make the story ring true.

This was the first Playhouse u der the Gordon Duff production banner and it offered proof that prior high standards of the program would be preserved. Sunday's show, "Run Like a Thief," had much of the quality that makes for good ty; it had good performances and created a good deal of suspense.

The Medina Touch

Appearance of Judge Harold R. Medina, of the U.S. Court of Appeals, on CBS-TY last Thursday (2) night in rebuttal to CBS prexy Frank Stanton's "editorial" protesting the radio-tv ban on covering the Senate's censure probe of Joe McCarthy, was something of a revelation. Not so much forr, what he said (although within the 15-minute framework of his talk he encompassed as convincing and forceful truisms as the "other side" could possibly champion) but rather for the way in which he said it. He revealed himself as one of the most interesting and arresting personalities to front the cameras in a long time; as natural and calm as they come, yet persuasive and packing an aura of sincerity that, in itself, could probably clinch any argument he was propounding. Should he ever decide to switch from the judicial to the thespic robe. Judge Medina would be a natural for tv.

Succinctly and concisely, Judge Medina wrapped up at the outset his concept of the fundamental question in dispute, to wit: "What I say is this; whenever there is a proceeding the object of which to ascertain the truth, from conflicting testimony of witnesses and other proofs, where it be in a courtroom or at a legislative hearing, or before the Baseball Commissioner, or a meeting of a Board of Directors or anywhere else, the questioning of the witnesses before television apparatus, radio and the like furnishes such an impediment and handicap that the ascertainment of the true facts becomes well nigh impossible."

Judge Medina said that other arguments (lights, desire for personal publicity, etc.) merely confuse the central issue and could be brushed aside, for the real question, first and last, is whether television and radio interfere with ascertaining the truth. "When the judge, the witnesses and the lawyers, or their counterparts, perform their functions before the microphones and batteries of floodlights, knowing that perhaps 10,000,000 people or more are listening and watching their every move, the temptation to put on an act becomes almost irresi

judicial abuses might flourish unseen and be impossible of detection and exposure.

"It is just and right," he added, "that the people should see the wheels of justice in motion and that the press should have free access to every court from the lowest to the highest. But the comings and goings of the members of the press are orderly and easily controlled. They present no such psychological barrier to the ascertainment of the truth as do radio and television."

It was a year and four months ago that Peg Lynch and Alan Bunce launched "Ethel and Albert" as a half-hour network entry on NBC-TV., after some 10 years in radio and some warmup spots on the cristwhile Kate Smith daytimer on NBC-TV. Show has proved itself as much of a charmer in tele as it ever was in radio, and should be around for many years to come. At the time of its network preem,

be around for many years to come. At the time of its network preem, the one point made by the skeptics was that Miss Lynch might have trouble scripting for a half-hour format after so many years in a quarter-hour pattern. Fortunately, Miss Lynch has proved herself on this point too, and the program experienced clear sailing all through last season.

That scripting problem isn't

through last season.

That scripting problem isn't likely to come up this year, judging by the preem. If anything, the kickoffer was overwritten, with about five separate incidents combined into the one half-hour. There was certainly no lack of situation in a script that saw the Arbuckles, on vacation, being forced to put up, for the night at a fleabitten hotel, meet up with a group of touring actors, get into a hassle with a hayseed sheriff and finally, at home, give a neighbor a gift, which she had originally given them.

which she had originally given them.

The principal charm of the show has always been its ability to portray the commonplace annoyances in ribticklingly human vein. But there's a thin line between the commonplace and the hackneyed, and Miss Lynch's opening script stepped over it occasionally with the employment of some overdone plot situations. At the same time, however, she worked in some oright bits of business that kept the show fresh and up to par. Example was her fumbling with a road and digging in her bag for a dime at a toll booth, at the same time holding up a line of cars, much to Bunce's annoyance. Of the easily recognizable argument when to get motel accommodations, at 5 in the afternoon when there are plenty of vacancies or late at night, when so much more ground has been covered.

Per usual, Miss Lynch's and Bunce's acting was excellent.

Stocked will all the shock ingredients of high drama and gripping suspense, Loretta Young raised the barrier on another telepix season with a strong entry that gives bright promise of capturing its share of the Sunday nighty audience and holding it. From a well molded teleplay by Jack and Luci Natteford that took certain literary liberties to dovetail the diverse elements that ventured far beyond our own border. Miss Young turned on her dramatic voltage to give the piece, "Guest in the Night," both power and believability. It was potent with clutch material that allowed full scope to her undoubted talents.

Story picks up with Miss Young and her husband, Hugh O'Brian, a paroled con on the lam with a hot necklace, holing up at a friend's lodge in the mountains. Lost in a raging blizzard is a youngster and his dog, who take refuge in the cabi The kid is running a high fever and verging on pneumonia but O'Brian resents Miss Young's ministrations. He balks her attempts to call in a doctor and in an unguarded moment he is locked in a storeroom.

While he's imprisoned she frantically turns to a two-way shortwave set in the lodge, to summon aid. Her first call contacts a ham operator in Hawaii, who relays her call to a medico in England. He radios her instructions for treatment of the patient and it all works out fine until a helicopter brings in a doc and a deputy. When O'Brian guides the plane to the ologe at the peril of being returned to prison, it sets up the closing line from Shakespeare for Miss Young to wit, "men at some time are masters of their fate."

After winning, she refused to come home until Randall gets the point—namely, that she doesn't want to be an exhibition piece and wants to be an exhibition piece and wants to be appreciated for her other qualities. Wrapped within the pleasantries of the script were opportunities for Miss Blair to pipe forth with some winning renditions of standards like "Embraceable You" and "Dites Moi," plus a socko song-and-dance duet with Robert Fortier to the tune of "When There's a Shine on Your Shoes." Songs were well integrated, and Miss Blair sold them solidly. The song-and-dance number also fit quite naturally into the plot. Randall, as the hubby, scored in his customary manner, and Fortier was impressive as a screen star. Bert Thorne and Maxine Stuart were good in support as a down-to-earth neighboring couple and Kevin Coughlin and Tommy Gray did nice jobs as the children. With Janet Blair, Tony Randall, Bert Thorne, Maxine Stuart, Robert Fortier, Kevin Soughlin, Tommy Gray Producer: Ralph Nelson Directory William Corrigan The live half-hour dramatic "ant thoogy" series is almst a thing of the past, both for conomic and artistic reasons. The "different play-every-week" concept, because of the absence of any central and continuing theme or characters has become a natural for filming because of the quick availability-of residual monies. Correlative to that residual bonanza is the fact that a filmed stanza costs the sponsor less, since for the sake of those-residual a producer will turn out the series at a below-cost price to the client. On the artistic side, those-hour-long jobs have taken all the steam out of the half-bour wishows, which though still registering with commercial impact, haven been able to overcome the rigidity of the 30-minute format. Armstrong has chosen for reasons of its own to keep its "Circle Theatre" live, but last season it found the show's impact. wanning show is indicative of the rest of the season, then Armstrong ought to be able to regain some lost rating ground.

"Mama" is back with the original troupe. Robin Morgan, the Dagmar, is 12, old enough to have played the name role in "Alice in Wonderland" for Kraft "TV Theatre" (NBC-TV edition) some months ago. Peggy Wood, the matriarchal "knows best" of the family Hansen, is so an naturel and vivid as to give the impression of "lib adding" the role (there's a single viewer's suspicion that she threw in a lulu of a line at the preemer to cover another character's apparent miscue in not being on the set pronto). Judson Laire the Papa, Dick Van Patten as Nels, and Rosemary Rice as Katri are so inextricably bound up with their roles as to give the respective album characterizations the old Stanislavsky try. Such running regulars as Ruth Gates (the Aunt Jenny, pronounced Yenny, in, Norwegian style; and Alice Frost (Aunt Trina)—with only the former repped on the opener — add spice to the family's life.

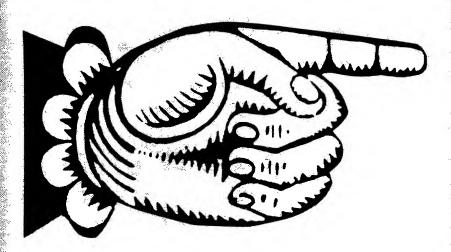

Last Friday's (3) seasonal introduction to the series revolved around Katrin's infatuation for sweet Biff McGuire—an actor's dresser posing as a visiting legit company's star. It was all straightened out eventually, as per "Mamas" incredibly believable approach to such young love memorabilia. many cared that much.

NBC video coverage usually remained pretty unobstrusive, which is as it should be. Columnist-turned-commentator Jimmy Powers had a smooth background delivery, but couldn't always avoid editorializing. If it could be arranged, another camera or two would help considerably. One lens became wearing after a few rounds, and also a lot of the could-be-exciting in-fightling was lost to theviewer in session caught. Gillette's commercial pitches every other round were entertaining and diversified.

Plotwise, the film starts with members of the patrol just disintegrating into space and being taken up by a villain who holds power on a distant planet, and who forces them into being slaves. The heroes in trying to rescue them, are in a precarious position at the close of the cliffhanger.

The acting is about on the same level of most of the juvenile epics. If it weren't for the gadgetry, this could be one of the early film serials.

a web of circumstances. Play was also over-dialoged.
Kurt Kasznar played the waiter with warmth and intelligence. Gusti Huber registered as the wife, giving a performance that seemed to almost put more into the part than there was to it. She was particularly good in her emotional scenes and in communicating her yearning for a better life. James Dean as the boy, Kasznar's protege, emerged as a rather unclear figure even though his thesping was beyond reproach. He was the man the script forgot to explain, and the void made a difference. Barbara O'Neill had dignity as the proprietress of the hotel.

Jeffrey Hayden directed with a fine sense for movement even though in spots the show definitely lagged. Background music had real merit. What was wrong with the show was simply that a man as depicted by Kasznar wasn't the type that would pick up a diamond bracelet, present it to his wife and then, upon her learning of its real origin, wouldn't immediately return it to his owner. Maybe that kind of thing comes under the heading of dramatic license. But it was a hard one to swallow.

Frank Sinatra doesn't need this
show. It doesn't help him and the
flagrant commercialism of this
series definitely hurts radio. On
this transcribed show, Sinatra does
a minor disk jockey stint, but his
major casting is as a shill for the

On the basis of the maiden-broadcast, Heatter prefers to con-centrate upon the "news-behind-

Heatter's description of how and where the war is being fought, although a graphic one, occasionally was a bit too flowery and dramatic, indicating he subconsciously may have absorbed some cliched lines from "Dragnet" or similar crime mellers. But withal it was a searching probe of the situation that laid much of the blame on too few courts and jails. His style is rather slow and deliberate and adds emphasis to his thoughts.

Therefore, if one takes the position that a network should editorialize as freely as a newspaper, he might also do it as frequently. Thus, there may be a daily network editorial as well as a daily newspaper editorial. Well, if a network broadcasts one editorial a day on some important subject, is it going to give the other side or sides an opportunity every day to answer that editorial in the same time? That would seem to me to be impractical for many reasons.

"Because of the complex and serious nature of this problem, I think that while Dr. Stanton picked the right issue in demanding that radio and television be accorded the same rights as the press to broadcast the McCarthy hearings, or any other public hearings, I regret exceedingly that he has considered a region of the problem of the proble regret exceedingly that he has confused a specific case with a general principle by adding the word "editorial" on the tv screen. Whether a network should or should not editorialize raises a fundamental question that calls for the most careful study and consideration.

I recognize the distinction between a network and a broadcasting station. Insofar as individual stations are concerned, I believe they should have not only the right to editorialize, but that they might

they should have not only use right to editorialize, but that they might well exercise that right in their local communities.

"The mstances surrounding stations certainly different from those surrounding networks.

For example, in New York City stations certainty different from those surrounding networks. For example, in New York City there are more radio and television stations than there are newspapers. I can visualize an independent station being frankly partisan, just as there are newspapers which are frankly partisan. But, when it comes to the network imposing its editorial views on a public or controversial question upon its affiliated stations, it is quite a different matter. It is not a sufficient answer for a network to say that a station could reject that editorial if it did not share the networks' opinion and views. There are practical limitations of program scheduling, etc., which must be taken into account by stations as well as by networks."

At one point in his network radio summation Sarnoff commented: "I don't say that radio networks must die. Stanton's Case. For Radio

Stanton arrived here last week

at the web's affiliates convention

a statement made just two days
previous by RCA-NBC board chairman David Sarnoff which was

widely interpreted as a bearish view of the same subject.

Early in his speech at the closing luncheon of the CBS group Thursday (2), Stanton tipped his mitt that he and his cohorts were plenty burned over Sarnoff's comments on web radio given at the NBC-TV affiliate's session two days before. In an opening aside, Stanton said he'd heard that "at another meeting, another hotel in this same city; someone else had something to say on the same subject."

He was referring to the RCA chieftain's remark, given in the context of underscoring network radio's importance in the field of news and information, especially in times of national emergencies, that "It may be possible for network radio to eke out a poor existence for another few years, but I don't know."

And there was no mistaking Stanton's grim reference when he asserted: "This is a business you must believe in. If others don't believe in it, I think they ought to make way for people who do, rather than to undercut the vitality of the medium." He wound up his "let's look at the record" recital of facts and figures as to radio and CBS radio's postwar growth with the toplevel assurance that the radio arm will continue to get "top attention, top budgets for programs and promotion to maintain its leadership." And he pledged the affiliates than the health of the radio family will remain one of his chief concerns.

Sarnoff on the color issue:
"Since I arrived in Chicago last night, I saw a piece of boilerplate handed out by a competitor in which the theme song is: 'Aren't you glad you waited for CBS color?' VARIETY - ARB City-By-City Syndicated and National Spot Film Chart

VARIETY'S weekly chart of city-by-city ratings of syndicated and national spot film covers 40 to 60 cities reported by American Research Bureau on a monthly basis. Cities will be rotated each week, with the 10 top-rated film shows listed in each case, and their competition shown opposite. All ratings are furnished by ARB, based on the latest reports.

This VARIETY chart represents a gathering of all pertinent information about film in each market, which can be used by distributors, agencies, stations and clients as an aid in determining the effectiveness of a filmed show in the specific market. Attention should be paid to time—day and time factors, since sets-in-use and audience composition vary according to time slot, i.e., a Saturday afternoon children's show, with a low rating, may have a large share and an audience composed largely of children, with corresponding results for the sponsor aiming at the children's market. Abbreviations and symbols are as follows: (Adv.), adventure; (Ch), children's; (Co), comedy; (Dr), drama; (Doc), documentary; (Mus), musical; (Myst), mystery; (Q), quis; (Sp), sports; (W), western; (Wom), women's. Numbered symbols next to station call letters represent the station's channel; all channels above 13 are UHF. Those ad agencies listed as distributors rep the national spot sponsor for whom the film is aired.

WHAT MAKES SAMMY RERUN

Guild Files for \$1,000,000 Stock **Issue: \$1,085,182 7-Month Gross**

Guild Films is preparing to launch \$1,000,000 stock issue which will place 250,000 shares of the firm's 700,000 shares on the market as a public issue. Issue has been filed with the Securities & Exchange Commission and the New York brokerage firm of Van Alstyne, Noel & Co. has arranged to handle the issue.

Col will be used primarily to wipe out the company's indebtedness to factors and its principal stockholders. With four series, "Liberace," "Life with Elizabeth," "Florian Zabach Show" and "Frankie Laine Show," currently in production, the firm had secured private financing for the films. New issue will wipe all but \$210,268 in bank notes off the books and will enable Guild to finance future production largely out of operating revenues. Firm will pay off a total of \$483,994 in loans with the issue, consisting of \$25,000 in bank notes. \$283,944 in loans from factors, and \$175,000 in stockholders' loans. Shares will be offered in 15 to 20 days at a price of about \$4 each on an over-the-counter basis. Par value will be 10c, providing for a balance-sheet capitalization of \$70,000, but the firm will have a capital surplus of \$1,600,000. Guild preyx Reub Kaufman and his associates, a group of Denver businessmen, will continue to retain control, holding 500,000 shares, or about 64% of the outstanding stock.

Preliminary prospectus prepared by the brokers reveals some inter-esting figures on the firm's opera-tion, hitherto unrevealed. For the seven-month period from last Dec. seven-month period from last Dec. 1 to this June 30, it earned after interest and taxes, a net of \$69,295, on a total distribution income of \$1.085,182. Profit before interest and taxes was \$234,716. Prospectus-indicated that prexy Reub Kaufman is pulling down an annual salary of \$40,000 (raised by the directors in June from \$25,000). Prospectus also revealed that Barney Goldman, firm's former sales manager, has filed a breach of contract suit alleging wrongful dismissal and asking \$250,000 damages. Guild has filed a counterclaim for \$2,000 in improper expenses submitted by Goldman while with the firm. Suit is in N.Y. Supreme Court.

Major buy at Interstate consists of 78 15-minute "Popular Science" pix, formerly handled for theatrical distribution by Paramount. Branton said that all of them have been updated to avoid scientific anachronisms. A new series of 26 Wally Tabor "Big Game Hunter" films were also bought in color. And last a skein labeled "Beyond the Yukon," narrated by Ken Niles, was stocked for tint tv. All the buys are of 15-minute properties, and Branton disclosed that first syndicated sales were made in black-white prints last week.

Branton, in N.Y. prior to Labor Day to confab with his sales chief, Lloyd Lind, announced that his company is after color features. He said that they "will have great value for television."

Branton said he knew of many sources for color features which he hoped to tap for tv use. The official said that "the process any color feature is made on will-be found compatable" for tv. He was referring to the problems faced by tv technicians and color film experts in accurately reproducing any company's tints, whether it be those of Technicolor, Eastman or Cinecolor.

Interstate meanwhile is out to bolster sales through increased profit-sharing by pitchmen and through general expansion of the office and sales forces. Expansion of the sales staff gets underway immediately, that being one of the major reasons Branton was in N.Y. last week.

Lind disclosed that his staff of seven will be upped to 20 shortly. Branton chimed in that "salesmen will have a substantial share in their sales efforts." He said that commissions will be increased under the new setup.

'ANGELS AUDITIONS' TO ROLL NEXT WEEK

Broadway Angels puts the first of its "Angels Auditions" shows on film starting next Wednesday (15) at the Telson Studios in Long Island. First play for the series is the upcoming Jeanette Patten-Theodore Hirsh work, "Put Them All Together," which is slated to star Fay Bainter and Kay Medford.

CREATES CHAOS

Hollywood, Sept. 7.

Telefilm industry is beset with chaos trying to keep up with rerun payments due the various Hollywood talent guilds, the frankenstein created because the industry is growing at a tempo far beyond expectations.

expectations.

Producers, especially of anthology series, are complaining the problem has created a monstrous bookkeeping job, and that the methods of reruns and distribution are so complex it's virtually impossible to keep tab on them so they can pay the various residuals.

possible to keep tab on them so they can pay the various residuals. Problem is a continually increasing migraine, and producers are trying to come up with a solution. Illustrative of the financial burden on producers is the fact that several years ago "Fireside Theatre" producer Frank Wisbar spent \$1,-200. year to learn he owed screen writers \$600 in residual payments. The nut was for bookkeeping entailing extra clerical help, attorneys, and CPA checks. Since that time the situation has worsened considerably, with so many telefilms being rerun it's more difficult than ever to keep check on the maze.

Obviously the problem is much simpler with those series having stet casts and creative help. But for the anthology producer, who has a different cast, writer and director on every picture, it's become a "craziness," as Wisbar puts fit" Echoing Wisbar's complaint, others contend the producer is primarily concerned with the making of vidfilms, that he can't afford a longrange bookkeeping plan.

'Guilds Missed Boat'

"Guilds Missed Boat"
Wisbar contends the guilds missed the boat in their thinking when they first negotiated the typix pacts, that not realizing the complexities of vidfilm distribution, they were thinking in terms of motion picture distribution, a comparatively simple method. Show will preem as a film entry (after 16 months as a live local show on WABD, N. Y. Sept. 17 on WBZ-TV in Boston, WFIL-TV. Philadelphia and WGN-TV in Chicago under sponsorship of Pez comedy.

Besides the Pez sale, firm has already lined the show up in 10 minor markets and is dickering with DuMont for WDTV, in Pittsburgh and WTTG in Washington. All of which means a projected gross on the series of \$250,000 for the year, not including the WDTV and WTTG deals but including the WABD live show, which continues as a strip. Films are being produced both as a half-hour onceaweeker (which Pez is using) or as a cross-the-board quarter-hour strip.

Danny Dee is also tying in a merchandising campaign employing Doty's commercial art and his sketches for the program itself. There's Danny Dee soap, with characters from the show engraved on castile soap, a pre-sketched panel with paints and brush and a visual imagination contest for viewers. In the works are a series of 25c books to be published by Grosset & Dunlap.

Signing of sponsors for the features themselves, each at an estimated \$4,175 weekly, is only part of the coi influx. Directly attributable to the start of the features on a 16-a-week basis later this month are most of the 10 new spot advertisers in camp. And Schaefer Brewing has firmed for the "Favorite Story" repeats on Wednesdays at 9 p.m., between showings of the features.

at 9 p.m., between showings of the features.

WOR-TV is going to about \$36,000 for promotion and advertising the feature films for the first month of their run, through Oct. 15. Chief outlay will be for daily ads in all met area dailies. Moreover, imitation banknotes for "Million Dollar Movie" (running title for features) will be distributed through N.Y. merchandisers.

The upbeat biz has caused the Gordon Gray-led video operation to lay hold of 151 "Famous Playhouse" dramas from MCA; 39 "Cowboy G-Men" episodes from Flamingo, and a package of 165 animated cartoons from the same distrib outfit. More shews are being mulled by Mil Fenster, station film buyer. Most of them will beslotted around or between the features.

Industrial Telefilms No Longer a 1-Shot

Advantage of the 13-week series over the one-shot in the industrial telepix field is demonstrated by the announcement by Association Films, the industrial distribution outfit, that it has seven 13-week

outfit; that it has seven 13-week quarter-hour series enjoying heavy station playdates; throughout the country. Firm is also preparing the release of an eighth series, "First Semester," a 26-week group.

Association has "Made in the U.S.A." on 108 stations; "Films for the Family" on 70 stations; "A Stacked Deck" on 78 stations; "Boy's Rallroad Club" on 82 outlets and "Sur-prize Package" on 69 outllets. Two new series, "TV Travel-log" and "Italian Rainbow," have just begun making rounds and are showing heavy demand, are showing heavy demand,

Eliot Hyman, head of the newly reorganized Associated Artists, last week completed the financing and sale to Rheingold Beer of the third year's production on "Douglas Fairpear s production on "Douglas Fair-banks Presents." Deal involves re-gional sponsorship of the 1955 series, not yet in production, by Rheingold, and gives Associated Artists distribution rights in non-Rheingold markets.

Hyman is also in the process of wrapping up negotiations to take over distribution rights on this year's Fairbanks series from Interstate TV, the Allied Aritsts telepix subsid, which has been distribing in non-Rheingold markets pursuant to the deal made when Rheingold renewed and NBC Film Division stepped out of its distribution deal after the first year. Rheingold in 1955 will sponsor the series in N.Y. Atlantic City, Binghamton, New Haven and all of California, with Associated Artists syndicating the rest of the country. Associated Artists is the second outfit associated with MPTV to reestablish itself. Flamingo Films, owned by the Harris Group, split away from MPTV and set itself up earlier this year.

Berle, Rooney Into Own Telefilm Co.

Hollywood, Sept. 7.

A telefilm production partnership has been formed by Milton Berle and Mickey Rooney, who are planning to lens a couple of series in the near future.

Neither Berle nor Rooney will be in the projected properties, first of which is "Daniel Boone," with the pilot rolling in Noyember. An adventure series starring Sabu is set, pilot to go in January.

Nancy Walker has been signed by Berle as the regular comedienne on his show. Ruth "Max" Gilbert will only be in two or three shows next season due to impending motherhood. Rooney guests on the initial Berle show Sept. 21.

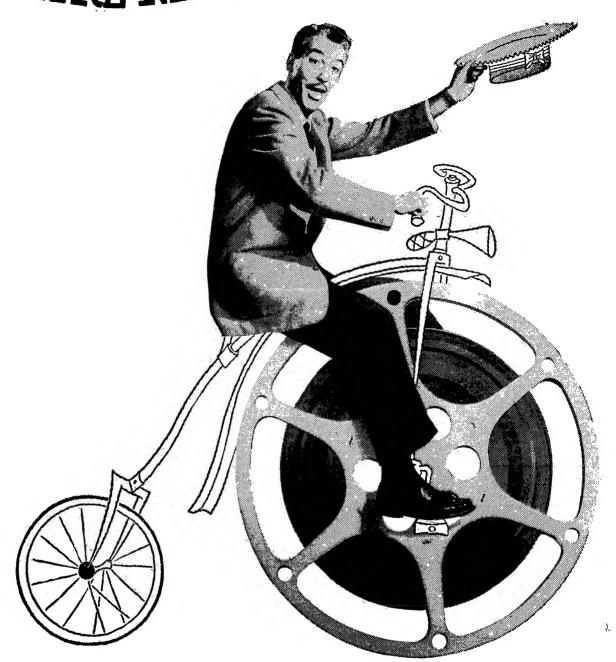

Vitapix's Grid Series

Vitapix's Grid Series

Vitapix, the station-owned distribution outfit, has picked up a series of 26 quarter-hour football series for fall sales. Package is split into two groups, "Pro Grid Classics" and "College Grid Classics" and "College Grid Classics" and being produced by Ray Gordon Productions.

Narrated by Marty Glickman both series, show clips of great plays and players in addition to new film. College series includes clips showing Red Grange, Tommy Harmon, Blanchard & Davis, Albie Booth and others. Pros include Sid Luckman, Sammy Baugh, Olto Graham and Steve Van Burch. It's the second sports series for Vitapix, which acquired a restling package earlier this year.

Merchandising a Big Bust For Vidpix, Yet There's No Escape From It

Accent on merchandising of syndicated telepix shows is beginning to assume the form of a double-edged sword for some distributors. What began as a minor service has become a selling "must," and yet at the same time, it's become a ball-and-chain around the neck of economy-minded syndicators.

Fact of the matter is that while many clients won't consider buying

Fact of the matter is that while many clients won't consider buying a syndicated show unless it's got pre-packaged merchandising-romotion campaign to go along with it, few of them use the campaign after they've purchased the show. Result is a wasted expenditure in display material and premiums and giveaways by the distribs. They can't sell without it, yet once they have sold, it becomes a white elephant.

An additional headache is the fact that the merchandising campaign is beginning to be used as pricecutifung device in the already culthroat market. Some syndicators

Exceptions

There have been some notable exceptions to the general failure of merchandising as an industry device. Fortune Merehandising has staged some socko campaigns, and Guild Films' Liberace record promotion has done fabulous jobs for its sponsors. But Liberace is a phenomenon in itself, and Fortune a fulltime merchandising service with widespread research, development and field facilities that virtually insure success. When Fortune takes on a job, it's got men in the field to insure its success. This is one of the keys to the general merchandising failure in the syndication business. In this way a producer could pay more when he buys a teleplay or story. A copyright cannot be sold in Europe, because according to the law there something you write is as original as your you write is as original as your soul. But a producer can take a lien on it, and eventually it reverts back to the writer.

"There, is a stupid foundation to this entire residual plan, and no-body knows for sure how many times a picture has been rerun. The distributors are so far behind in their bookkeeping it's awful.

This fall will see an unprecedented number of new half-hour programs offered in the syndication field, with at least 22 new half-hours already being udifioned throughout the country. This, I course, is in addition to network shows going syndicated for the first time, or national spot product being made available locally for the first time.

While there's no selling season for syndicated product, length of the list indicates to what extent the syndication business has grown. 2-SPEED STANDARD FOR DISK BIZ

'GIVE MUSIC FOR XMAS'

Too often editorial comment in these columns has been Too often editorial comment in these counties has been on the captious side, because mainly it is rare that opportunity for an affirmative nod presents itself. Edwin H. Morris & Co.'s pitch, "Give Music For Xmas," is one of these rarities. As is pitch, "Give Music For Kmas," is one of these rarities. As is detailed in the news story herewith, the idea of an individual music publisher sparking a gummed seal campaign, and making it available to all contiguous music enterprises—sheet music, records, follos—is the more laudatory.

A sorry note is the fact that none of the trade associations ized upon what should be an obvious merchandising pitch. In actuality, the "give music" campaign, laudatory as it is, is a belated paraphrase on what the book publishers have been doing for years, not only in combined industry advertising campaigns but as inexpensive bookmarks, imprinted with the local bookseller's name, to further the idea.

Certainly "music for Xmas" is one of the most inexpensive Certainly music for Amas: is one of the most inexpensive and most durable items extant—even a pop record, at under \$1, becomes a lasting gift, as durable as a book which may be read over a period of weeks. It's a campaign which the diskipher of the contemporary music publishers, the deciays, and certainly the respective retail outlets should sieze upon. The Mor-

tainly the respective retail outlets should sleez upon. The Morris outfit's Sid Kornheiser and Phil Lang—the latter through his educational music department, which has been vivid in sparking the "give music" idea—say that they have ordered the slogan stickers in hundreds of thousands lots, and will supply their colleagues gratis. What the trade should do in this connection is obvious.

DEMISE OF 78 RPM

The emergence of a two-speed standard for the disk industry, with the discontinuance of the 78 rpm platters. Is envisioned by RCA prexy Frank M. Folsom as being in the near future. Folsom said that "eventually, the sale of all 78 rpm records will be so small that they will not support distributor or dealer inventories and they will be discontinued." Folsom's predictions about the

will be discontinued."
Folson's predictions about the disk industry's future was made in a statement last week commenting on the current shift from 78 rpm to 45 rpm in the disk jockey field. He said: "Broadcasters desirous He said: "Broadcasters desirous of providing audiences with the best in popular music in the period ahead will, therefore, find themselves at a loss to maintain high listening standards unless they join the changeover to 45 rpm recordings." This was taken as a hint to some recalcitrant stations to start converting their equipment to 45s if they want to keep up with the pop music biz in the immediate years to come.

the pop music biz in the immediate years to come.

Folsom said, "The present trend became markedly visible two years ago when the industry found it necessary to discontinue the manufacture of 78 rpm classical albums. Last year, it became necessary to discontinue virtually all 78 rpm popular albums. This year, the sale of 78 popular records is drop

DJs and A&R Men Pose Challenge To Industry Move

While an increasing number of stations are converting to the 45 rpm system in order to play the disk jockey cuffor, most of the indie outlets in: New York are refusing to toe the line and are still playing the 78s. Fact that the N.Y. stations are able to get the 78s is laid at the door of the publishers as well as most of the major record companies.

While formally comitted to the 45s for the jockeys; exces of some majors have been known in recent weeks to supply the old-style platters to metropolitan jockeys one way or another. Usually, the disk excess tell the jocks to call-up the publisher of a given tune for the hot 78 and the publisher transfers the platters to the right place. The sales and production exces of the disk companies want to see the conversion to 45s take place as soon as possible, but the artists & repertoire chiefs want to get their releases played firstest and the mostest. It a jockey asks for a 78, the a&r men are finding it tough to resist, since it means a plug. While an increasing number of

tough to resist, since it means a plug.
It's expected, however, that sooner or later the N.Y. stations will have to give in to the \$5 rpm trend. Firstly, as RCA' prexy Frank M. Folsom points out (see separate story), album repertory is becoming unavailable on 78s. Secondly, the handling and storage of disks is greatly facilitated for the stations on 45s. The abrupt manner in which the industry swung over to 45s, with no advance consultation with the stations, is not regarded as the best public relations maneuvice on the part of the disk industry but, after the stations pique and conservatism fades away, it's believed that 45s will become universal.

Muzak's Test Suit Vs. Yonkers Cafe

A precedental suit to block the unlicensed pickup of music from wired services via frequency modulation radio has been filed by Muzak Corp. against Wilskers Inc., a Yonkers, N.Y., restaurant. Action, brought in N.Y. Federal Court, involves charges by Muzak that Wilskers was using Muzak music in its store without proper licensing or payment of royalites. One of the key issues in the Muzak suit is whether the restaurant has the right to install on its premises a sound system containing electronic device to eliminate commercial announcements and other verbal material. Muzak supplies such devices to its customers for this purpose and it's alleged that Wilskers is using a similar contraption.

Muzak is buttressing its claim with charges that restaurants played three songs owned and copyrighted by the wired music service. Three Muzak-copyrighted tunes are "Someone Dear to You," "Don't Be So Sure" and "Now That You're. Here," all written by Andrew M. Wiswell, Since these tunes are owned, copyrighted and licensed by Muzak, the wired music service is also acting as a performance collection society and is suing the defendant as such.

RCA's Marek to Expand Pop Album Operation With Wider Repertory

George R. Marek, manager of artists & repertoire at RCA Victor, who just returned from another of his periodic quickle lights to Europe, this time to supervise some HMV recordings in London, is personally taking command of the company's popular alhum recordings. It is for this reason that he brought in Ed Welker from the field to work under him in this department. Latter was erroneaus ly reported as an aide to Joe Carlton, who will confine himself to the akr pops.

the akr pops.

Among the new horizons in the popular album business, Marek envisions a greater extension of standard operetta music; an extension of the "popular" international albums, in which Victor is lacking; and a program to "devise new ways of presenting good music for mass appeal—a sort of 'de-intellectualizing' the great masterpleces so that the term 'longhair' will not be forbidding to the mass consumption market. And that, of course, is what we are after."

On the international front, now

On the international front, now that Victor's disk pressing plant in Italy is functioning, he has a "Girl, On The Spanish Steps" ("Piazza di Spagnia") album in work. Actually it's the voice of an RIA (Romeradio) thrush, Katyana Ranieri, but Marek is figuring on the "Coins in the Fountain" type of merchandising to project what otherwise-is an unknown quantity in America.

entry tailored for the Sinatra erooning style.

Gary Crosby: "Got My Eyes On You"-"Mambo In The Moonlight" (Decca). The Crosby clan is shaping into one of the more important show biz dynasties. On his first solo wax flight for Decca, Bing's son, Gary, registers as a savy performer who's ready for a high spot on the bestselling lists. (Gary, of course, was already up there four years ago via a duet with Bing on the two-sided hit, "Play A Simple Melody" and "Sam's Song"). On the rhythm & blues tune, "Got My Eyes On You," the youngster displays a tricky vocal attack and a piping style that's similar to his father's but by no meas a carbon. The mambo tune on the reverse is likewise due for a hefty number of spins.

Brins.

Bing Crosby: "Count Your Blessings Instead of Sheep"." What Can You Do With A General?" (Decca). From the Irving Berlin score of the Paramount pic, "White Christmas," Bing Crosby, one of film's stars, has come up with a pleasant coupling of new tunes. "Count Your Blessings" is a lullaby-type of ballad which Crosby projects simply and effectively. "What Can You Do With A General?" is a piece of special material with lyrics about the fate of our military leaders.

Rosemary Clooney & Betty Clooney: "Sisters" - "Love, You Didn't Do Right By Me" (Columbia). Two more tunes from "White Christmas" turn up on this Columbia platter. Appropriately enough, the Clooney sisters, who used to work together many years ago with Tony. Pastor band, reunite on the "Sisters" number, a light entry with a cute set of Berlin lyrics. On the flip, Rosemary Clooney, who's also in the film, changes pace with a slow-tempoed solo of a torch song.

Peggy Lee has effectively cut the same two tunes for Decca, using the dubbing technique to get the duo effect on "Sisters."

ballad with a good idea and pretty melodic line.

Jo Stafford: "Nearer My Love To Me". "The Temple of An Understanding Heart" (Columbia). "Nearer My Love" is a good ballad to which Jo Stafford gives one of her lucid expositions. The lyric has the tourist flavor of "Soune-where Along The Way," but with an original twist. Flip is an excellent number with literate lyrics, a good melody and standout projection by Miss Stafford—but that title perhaps makes for an unnecessary awkward handle.

Betty Madigan: "Always You"." "That Was My Heart You Heard" (MGM). Still riding with "Joey," Betty Madigan continues to show good commercial form on this coupiling. "Always You" is a big ballad which she belts attractively with choral and lush orchestral

coupling, but it would undoubtedly help. This is Dizzy Dean's debut on disks and, as a singer, he's a great play-by-play announcer of baseball games. Dean has an authentic hillbilly flavor, and it probably doesn't matter that he hasn't much of a voice.

The Chords: "Zippity Zum"-"Bless You" (Cat). The Chords combo, one of the faves in the rach field, dish up some snappy harmonies on "Zippity Zum," with a dirty sax background. This is the type of rach material that could well spill over into the pop field. "Bless You" is a slow-tempoed number with doubtful chances.

needs of this room, assures the orch's continuation.

Sidemen who double on instruments give the band unique scope. It can be an ensemble of six strolling violinists against two rhythms, or a society dance band of the Guy Lombardo school comprised of three reeds, a trumpet, vibes, rhythms, and the maestro's viol in the fore. Accordingly the strolling fiddlers stroke out lilting airs at the dinnertime tables, mount the bandstand for a subdued listening catalog over the post-prandial brandies, and bring out the couples for dansapation with a fine pops rep in the later hours.

Chirper Peggy Taft has a thin voice that falls short on projection and needs loosening on the Latino tempos. She's best on low-pressure, intimate ballads.

While orch's harmonies are seldom very intricate, it can serve up an excellent variety of musical textures and never loses a pleasant sound. Showmanship too is always of high order.

Verdi: La Traviata (Cetra, 3 LP; \$17.63). Brisk, engaging version of the melodious opera, recorded in Italy, Highly-touted Maria Callas, though erratic at first, shows a warm, ringing soprano of wide range, and a strong, true coloratura, Violetta. Tenor Francesco-Albanese shows fine lyric quality and dramatic style as Alfredo. Bartione Ugo Savarese, despite an occasional tremulo and chalky tone, is resolute and adequate as Germont. Gabriele Santini reins the whole deftly.

Chopin: Concerto No. 1, E Minor (RCA Victor; \$5.95). Poetic yet wirle version of the romantic masterpiece by Artur Rubinstein, ably supported by the L.A. Philharmonic under Alfred Wallenstein. Recording is vibrant technically as well as highgrade artistically.

Massenet: Scenes Pittoresques & Scenes Alsaciennes (Epic; \$5.95). Flavorsome pictorial pieces have verdant appeal, as lushly played here by the Lamoreux Orch under Jean Fournet.

Bach: Goldberg Variations (Vanguard; \$5.95). Bach's gay but substantial set of variations on a dance air is charmingly played here by Dutch harpsichordist Gustav Leonhardt, with style and flourish in the performance as in the involved but inviting composition.

Victor Herbert Serenades (Columbia; \$4). Most of these serendes are unfamiliar, but all are fragrant, appealing if light music. Morton Gould leads the Rochester Pops in faithful renditions.

Bartok: Concerto for Orchestra (Mercury; \$5.95). A modern classic, this music is stern, harsh, concise but emotionally appealing. The Minneapolis Symph under Antal Dorati has a warm, understanding approach to it.

Chabrier & Saint-Saens: Pleces for Plane (Westminster; \$5.95). The Chabrier pieces are glittering, impressionistic and representative the Saint-Saens more romantic and showy. Both sets call for technical dexterity as well as interpretive skill, which they get from Ginette Doyen, a polished planist.

Bing Crosby Pitching To Teenage Market Via High School Promotion

ALBUMS

High School Fromotion
Hollywood, Sept. 7:
Plans for a series of "Bing's Day
Dedication Dances" at high schools
in this area have been developed
by Nelkane Benton, recently hired
as Crosby's record promotion gal
in this area, to launch a new drive
to make the teenage set more conscious of the Groaner. Scheme involves a three and one-half hour
show to be presented high
school auditoriums at a nominal admission price with proceeds going
to the school's dance fund.
Preliminary arrangements have

to the school's dance fund.

Preliminary arrangements have been made with school authorities and a complete program has been prepped by Verne Vang. Idea is to use a small combo to play the show and dance sets, a male and a femme vocalist and someone who has worked with Crosby as a guest speaker. A local deejay would emice.

Program format involves concentration only on tunes 'Crosby has recorded over the years, no problem since there are about 2,000 of them. Between sets, selections from the "Bing" autobiographicalbum will be played; to give the layout a 100% Crosby motif.

Initial "Dedication Dance" probably will be held early next month

if all details can be finalized. A highlight will be the presentation of a record player or possibly the "Bing" album, to the student body. Crosby office would handle the total cost of the promotion.

Expanding its educational catalog for children, Columbia Records will package a series of disks this will package a series of disks this fall designed to introduce young-sters to the classics painlessly. Diskery has made extracts of complete movements and arias from a half-dozen of the more popular longhair works for its initial six releases on 78 rpm and 45 rpm platters. Selections were taken from Columbia's regular Master-works catalog and will be released for the kiddle field with special covers.

Market for juve-slanted longhair Market for juve-slanted longhair works has grown steadily since the end of the war when "Peter And The Wolf" became a popular item with culture-minded parents. Capitol Records released four longhair sets, with story and music, for the kids, and RCA Victor came up with "The Little Ballerina," which combined interest in both the dance and good music. A couple of years ago, Columbia released its "Story of Music" series, also with words and music. The newest Col juve disks will have only music.

Owe disks will have only music.

Col. meantime, is standarding its jacket for its juve line for more ready identification on the counters. Upcoming kiddle product will also include sides by Rosemary Clooney and Jose Ferrer, Art Carncy and Robin Morgan.

Dash Dashes To Europe For Decca (London) Tieups

Irwin Dash, head of London Records' two American music publishing subsidiaries, Burlington Music and Felsted Music, is en route to England and the Continent on further, music publishing tieups. He follows E. R. (Ted.) Lewis back to London, Lewis is head of Decca (British). Records, whose U. S. label is called London Records.

Is called London Records.

In Zurich Dash is particularly huddling with Maurice Rosengarten, Decca's rep in Switzerland, from where he covers the Continent. Dash will enlist Rosengarien's organization to scout Continental song material a la "Happy Wanderer," "O Mein Papa," and the like

In the U. S., Dash operates Burlington as the ASCAP firm and Felsted as the BMI affiliate. (Felsted, incidentally, is named after Lewis' country home in England). sted. incidentally, is named after Lewis' country home in England). Overseas, of course, there is no distinction between the two American performing rights societies, Dash will channel his European copyrights through the Builington firm. Incidentally, the London-Decca hookup with songs and songwriters, through the subsidiary music publishing outfits, is the frank-set tie-in between a diskery and a song creator. On the premise that "getting a record" is today's most potent exploitation outlet, instead of becoming involved with any payola and kindred sub rosa charges, Dash is wooing song material for his two firms on the frank pitch that top London recording artists will be given priority opportunities to wax the material.

Dash is an American but long-

to wax the material.

Dash is an American but long-time resident in England. He stayed there throughout the London blitz. He headed his own Dash-Connelly and Irwin Dash Music companies when he was affiliated with Reg (Campbell-) Connelly, but is now operating again in N. Y.

Columbia Gambles 8G In Cutting Liberace At **Live Hollywood Concert**

Live Hollywood Concert
Hollywood, Sept. 7.
Columbia took an expensive gamble Saturday (4) for an "on-the-spot" taping of Liberace's Holthwood Bowl concert, but it will be another few days before the plattery knows how much of the material is marketable. Concert lasted almost three hours.
Under AFM Local 47 recording regulations, plattery's gamble will be in the neighborhood of \$8,000, even if nothing is used. Liberace was backed by 106 men—the L. A. Philharmonic Orchestra and an additional 10 sidemen of his own.

Philharmonic Orchestra and an additional 10 sidemen of his own. Sidemen must get \$38.50 each for the date, whether Columbia subsequently markets the recordings or discards them, and the plattery had about another \$4,000 investment in the technical preparations for the date. A special Telefunken mike was used and the telephone coi pany ran a special 15,000 cycle li to the Hollywood Bowl to facilitate carrying of the program back to Radio Recorders where four tape recorders captured the program.

Decision on how much, if any, of the program will be used for a Liberace album, will determine the final cost. Under AFM regulation, the \$38.50 cost applies to a 2-hour session fro which 40 minutes of music can be obtained. Overtime rate is figured at \$9.63 per half-hour.

Columbia Shuffles Field Sales Staffers

In a recent reshuffling of Columbia Records' sales, personnel in the field, Joseph Broderick has been assigned the Syracuse territory in addition to his Boston beat. Broderick will report to Bill Galagher, division manager headquartering in Philadelphia.

other realignments around the country were Walter Hayum to St. Louis; Merle Weiss to Pittsburgh; Ken Glancy to Chicago and Milwatkee, operating out of Detroit, and Jack Devaney to Seattle and Spokane.

Gordon V. Thompson, Ltd., Canadian firm making Gavotte records, continues to specialize in LP platters featuring former outstanding phono artists. Few months ago Gavotte issued disk of song recital waxed by late Reinald Werrenrath, Met baritone, four months before his death. Latest offering is eight-song LP by Charles Harrison, who ranked as topnotch tenor for 20 years beginning in 1911. Critics who have heard plattering say fresh, vibrant quality of Harrison's voice is virtually unimpaired. Understood, Gavotte's recording director, Ed Manning, means to take another tape recorder to New York and catch the voices of more surviving artists of acoustic recording era.

Warner Bros. film, "Strange Lady in Town," has its own mood music in the title tune which producer-director Mervyn LeRoy is utilizing during the actual filming. LeRoy plays the tune, written by Dimitri Tiomkin and Ned Washington, during the shooting of the non-dialog scenes. These are the scenes in which the tune will be heard in the finished film, LeRoy believes that utilizing a special recording of the number on the set helps put Greer Garson and Dana Andrews in the proper mood for the scenes in question.

Columbia Records is using the personal touch on its cover for a new Mitch Miller album of longhair selections played with the Daniel Saidcnburg Orchestra. Longplay platter has been packaged with a picture of the longhair oboist, who's pop a&r chief, together with his nine-year-old daughter, Margy. Picture was taken for a mag layout a couple of years ago when Miller's succession of pop clicks for Columbia made him a hot story property.

Big success of recent "Doggie in the Window" led Ray Walker to hope there might be a revival of interest in "Fido is a Hot Dog Now," whose music he wrote in 1914 to words by Charles McCarron and Tom Gray. Felst Music publishers agreed to put some promotion behind "Fido." Couple of weeks ago Walker got his royalty statement from "revival." Two copies had been sold, so he got a check for 2c.

Jazz pianist Joe Bushkin and director Garson Kanin have become a new songwriting team and one of their first efforts, "Boy Wanted," has been cut by June Valli for RCA Victor, among others. It's Kanin's debut as a songsmith, although Bushkin has several numbers to his credit. To date, they have written 13 tunes in collaboration. "Boy Wanted" is being published through Bregman, Vocco & Conn.

Columbia Records' promotion department has come up with a Communa records promotion department has come up with a "how to win friends" disk package designed for disk jockeys and station librarians. Diskery has compiled about a dozen of its recent top releases into a 12-inch longplay platter and is distributing them to radio station personnel with a notation that the LF is not meant as an addition to the station library, but for home consumption.

"Madalena," recent "Carnival in Rio" tune click, has racked up its 30th wax workover. RCA Victor alone has cut the tune seven times. Latest Victor workover of "Madalena" is by Fafa Lemos for his "Dinner in Rio".longplay platter. Tune is published by Rex Music.

Bernie Wayne has penned the official tune for the Miss America Pageant. Song, tagged "Miss America," was picked up by Vinton Freedley, pageant's producer. It'll be preemed at Convention Hall, Atlantic City, Sept. 11.

Warning to Broadcasters

Commenting on the switch to cuffo deejay copies, Folsom stated that "it is recognized that the furnishing of records to stations is of tremendous mutual benefit to the stations and the recording companies. Looking forward to the time when 78 rpm records are no longer available, it is clearly evident that we will both lose if stations are unprepared to play the new microgroove records. "Folsom asserted that "the most popular record merchandise for all companies in dealers stores throughout the country at the present time is the 45 rpm 'extended play' albums. In many cases, these selections are not available in any other speed. The only way to get them to radio stations is on the 45 rpm speed."

Folsom warned "that the problem of providing radio stations with good programming material will get more and more acute in the future for stations that are not geared to play what record customers are buying, what dealers are stocking, and what the industry is recording."

Aussie Legal Battle

Sydney, Aug. 31.

Allan Jones, U. S. singer, currently playing the Tivoli vaude-revie circuit for David N. Martin, is the center of a legal battle with Harry Wren's Celebrity circuit; the opposition to Martin here. Celebrity has applied for a writ of care, authorizing Jones' arrest if he attempted to leave New South Wales while its \$20,000 court action against him (for alleged breach of contract) is pending.

Harry Wren, managing director of evidence, said that Jones had agreed to appear at the Palladium here for \$1,200 per week, or 12½% of theatre's gross for four weeks. Jones has denied breach of contract. He is due to play Melbourne Brisbane and other key cities for Martin.

Las Vegas, Sept. 7.

Despite recent indications that Herman Hover had terminated his deal as entertainment director of the Last Frontier Hotel in Las Vegas, he's still on salary at \$25,000 per year, according to reports out of the gambling center over the weekend in connection with the lawsuit filed by Belden Katleman. Latter charged officers of the hotel with gross mismanagement and misappropriation of \$1,000,000. In connection with the suit he charged that Hover had been made a secret partner. Hotel prexy Jake Kozloff denied the charge, saying Hover, owner of Ciro's, Hollywood, was a salaried employe of the Las Vegas hotel.

Trying to overcome a like problem, a committee of local bonifaces met last week to discussiont improvements along Rush Street, a major eatery and nitery belt here. Section's operators, calling themselves the Greater North Michigan Ave. Assn., are pooling resources to facilitate better parking service, reduce traffic congestion, improve street lighting, and to engage in joint promotion that would establish the section as the biggest out-of-Loop entertainment reentre in the Windy City.

Niteries that would be directly affected by these changes are Black Orchid, Blue Angel, Cloister Inn, and a lost of cocktail Jounges and clubs. It's presumed too that more spots would take on live talent in the sector if traffic inconveniences ceased playing havor with contrainment investments.

New Las Vegas Hotel, With Showboat Format. Bows in Off-Strip Locale

Bows in Off-Strip Locale
Las Vegas, Sept. 7.
Las Vegas' newest hotel, the Showboat, was completed in time to meet the Labor Day weekend biz. The official ceremonies and opening took place Friday (3) after a big struggle to get in under the wire for the final, big summer holiday, as preparations, were made to take care of 50,000 visitors during the long weekend. The casino play on the big holiday could get the latest, hotel enterprise off to a flying start.

The imposing hostelry is not located on the Strip wherein lie the seven big hotels that have made Las Vegas the show capital of the world. It is on a stretch of Boulder Highway, about 10 minutes from downtown. The outstanding exterior feature of the hotel is the reproduction of a showboat steaming full blast into the swimming pool which adjoins the highway. The boat-hotel is authentic to a Mississippi boat in every respect and the interior is an artfully contrived two-storied bar and cocktail lounge.

Principal owner of the hotel is Bill Moore, Hotel El Cortez executive. A combine of Desert Innexes control the casino and shows that will be presented by Frank Sennes. The first offering currently trodding the boards is "Minsky's Follies of 1955."

Appropriate christening ceremonies included the pouring of 10 gallons of Mississippi River water into the pool. The Showboat is expected to bring a surge of business to the Boulder Highway region which has hitherto been a

One hundred rooms make up the domicilliary part of the novel enterprise reared at a cost of \$2,000,000. The shows will not be geared for Strip hotel competition, and will not feature top names. Rather will they tend towards package presentations, with times of performance staggered so that tourists can see the shows as well as those on the Strip.

AGVA Fires Jones

Jones had attempted to deal with James C. Petrillo, American Federation of Musicians prexy who is feedration of Musicians prexy who is feedration of Labor. struments, and the dropping of all court tests by the performer union. Jones in his bid for leadership sent a telegram to Paul Dulzeli, head of the Associated Actors and Artistes of America, calling for charges against the AFM be dropped, an investigation of AGVA, and the taking over of that union until the investigation is completed. Copies of the wire were sent to AFL prexy George Meany and, although not marked on the wire, a copy was sent to Petrillo. Although Jones has been fired and severance pay sent to him, it remains to be seen whether the firing will stick. This is the second time that Jones has been ousted. The last time he was fired as an organizer in Philadelphia. At that time he caused an investigation of AGVA by former Representative Fred Hartley, co-author of the Taft-Hartley act. He had taken the union into court and at one time got a settlement of around \$13,000 from AGVA. Following all this, he was taken back into the AGVA fold.

Canadian. Rep Squawks

Montreal, Sept. 7.

Local AGVA execs are burning her following a letter to Armand Marion, union rep, from Jack Irving stating that the entire exec board of AGVA voted for dismissal of Dick Jones as of Sept. 1. According to Marion, local national member Leo Rivet wrote Irving saying he would not pass judgement on Jones till there was full investigation. Marion also doubts that Richardson, of Philly, and Daniel, of Baltimore, requested the instant fiting of Jones. Entire proceedings are weakening the AGVA case here in Montreal and unless a full explanation comes from New York, AGVA is faced with more desertions by Canadian members who are already drifting to the AFM each day.

ANN BLYTH Songs 35 Mins. Top's, San Diego

of all the film stars who have ventured into the after-dark field, Ann Blyth is among the most gifted. She has a beautiful soprano voice, a fairy-tale princess look and a fragile kind of wholesomeness that never grows, cloying.

voice, a fairy-tale princess look and a fragile kind of wholesomeness that never grows, cloying.

There's little patter in her act, only a moderate bit of self-spooling in the songalog from her Metro films, "Rose Marie" and "Student Prince." It's gentle ribbing, handled neatly, although the French accent for "Rose Marie" could stand strengthening.

A medley of love songs opens the well-paced act. Top mitting goes to "When You Are in Love." An Irish hillbilly tree follows for a too-abrupt char'ster change. More zestful approach would make this one a solid winner. As it stands, the song is plasant waggery about a four-star Irisher named Hennessey from Tennessee. "Swing Low Sweet Chariot." with the second chorus uptempo, follows the songs from her pix.

A fresh way of gaining contrast Comment in a "hit parade" from January to December, with a song pegged for each month. This is socko stuff, starting with January's "I've Got My Love to Keep Mam" and around the calendar to "Silent Night" and "Auld Lang Syne" amid pindrop silence. Inbetween high spots include the belliringing "Funny Valentine." "April in Paris." "MacNamara's Band" and "September Song." "May the Good Lord Bless and Keep You" is a good closer.

Although a silght case of nerves was apparent, Miss Blyth has a knack for "g an audience. She's a looker a rose-covered, wide-skirted go and her smile is warm and wide. The flexible voice is showcased by Charles Henderson into an appealing act that blends nostalgia, dignity and funder handles show-backing choves in fine fashion under Henderson's direction. Don.

MAMBO ACES (2)

MAMBO ACES (2)

Dance
7 Mins.
Chicago Theatre, Chl
This youthful sepia pair has a brand of snappy terp that is an up-to-date counterpart of the standard flash tap. Boys are doing the mambo—and doing it we til reagusto—at the peak of time when everyone's digging that jazzed-up Latin beat. It's whirlwind, rubberlegged stuff the way they do it, and they've got it timed perfectly in synch.

Mambo Aces, sharply dressed, open to, a mambo-maniacal speed beat, slow the pace slightly with "Tea For Two" in the same idlom, and shift back into high on "Cumbachero" closer, Fancy solo work, one lad at a time, breaks the repetition of synchronization and involves something resembling leg acrobatics. Can't miss as an opening act on any vaude bill where flash is needed.

Palace, N. Y.
Donna Griscoe, a looker who
does well on the fiddle, trots out
a repertoire that calls for a lot of
digital dexterity. She keeps the
customers interested not only
through her selections, but her
technique, which calls for simultaneous bowing and pizzicalo, interests the customers in this nonclassical house.

She scores well in her three
numbers, but her finale, an arrangement of excerpts from
"Carmen," has her usual digital
pyrotechnics along with the added
advantage of familiar melodies.

Jose.

AMBY HUGHES-

Songs 20. Mins. Sid's, Detroit

"Runaway rhythm" features this youngster's individualistic stylings which are further spiced with self-composed numbers and some well-done impromptu lyricalizing to fit special occasions.

He does nicely with a "world tour" medley of "J'Attendrai,"

"Sorrento," "Yiddishe Momme," "Roamin' in Gloamin' mad "Danny Boy." The rhythm numbers, "Smoke Gets in Your Eyes," "Million Dollar Baby," his own "Allo, Baby" and "I Love Paris," are a solid click.

Example of ad lib vocalizing is his deftly done plea via "Oh Promise Me" to a gal who was about to leave after being feted at a going-away-to-college party, to stay until he had had a promised dance with her. Audience gives it sock mitting. Voice is big and clear, with good vange. He accompanies self experily on piano, but also likes to travel floor with mike. On the short side, he's good-looking and has a pleasing, relaxed manner. Excellent for the intimateries and okay too for general vaude situations.

ALFRED VIDBEL'S BABY ELE-PHANTS (3)
10 Mins.
Palace, N. Y.
Alfred Vidbel, in this turn, which should do well on the outdoor circuits, puts three elephants through interesting formations. Although billed as Baby Elephants, they look quite adult. Vidbel, assisted by a looker plus a groom, has put some pace into the turn. It's virtually impossible to speed up action with these packyderms but the tricks and formations follow in fairly rapid succession. The femme adds interest by having a formation of the beasts on top of her, and she's lifted precariously by one of the animals. It's a good turn that should find a profitable outlet in the outdoor fields. Also, OK for tv. Jose.

DAVE KING
Comedy
10 Mins.
Empire: Glasgow
Young English comedian has quiet approach to the laft-producing game, and on basis of this original twist looks like having some promise if he can only get hold of some slicker material.

After undistinguished opening patter, he mimes a man entering a cinema in the darkness and fumbling for his seat to embarrassment of the film customers. Then he impersonates various: types of film sequences, such as an American Pacific drama, a French love film (in which he tilts cleverly at the subtitles in English) and war films. Segues into travesties of the gait of John Wayne, Bob Hope and Mitchum impressions being particularly good. Winds in unoriginal fashion by singing tunes associated with such as Crosby, Jolson and Billy Daniels.

Comedian with a possible future, he should deviate from well-trodden paths of film travesties and seek some different impression subjects among the new Hollywood personalities. Young man has talent, and his calm, authoritative approach is prime asset.

SANDOW SISTERS (2)
Aerialists
8 Mins.
Empire, Glasgow
Blonde and brunet sisters, the blonde bearing the heavier half of the chores, offer a solid aerial act in best traditions of vaude and circus.
Act is opened by the blonde, shapely and yet sturdy, swinging in aero routine from the high trapeze. She follows this with graceful one-arm swings. Partner then teams up for double routine on trapeze, and the twosome engage in unexpected forward thrust which has section of the customers gasping. The fair-haired distaffer next hangs up the brunet in two circular rings and, herself suspended from trapeze, swings her thus attached. Final gimmick is a forward thrust with rope when one of the girls again appears to be thrown forward towards the outfronters.
Okay for vaude circuits in U. K. and Commonwealth.

30,000 An Afternoon
Afternoon grandstand auto races and thrill programs at \$2 top have been pulling crowds of up to 30,000. The non-name Barnes & Carruther's revue, at a similar scale, has been averaging 15,000. Carl Sedlmayr's Royal American Exposition, which has had the Fair's Midway privilege for the past 33 years, has been built up from a shoestring to a \$1,500,000 outfit with 26 rides and 18 shows and that also includes many other important state and other fairs in its itineraries.

Such stars as Gypsy Rose Lee. Sally Rand and Bonnie Baker have topped its "Mouli Rouge" girlshow, but names were eliminated three years ago. Current show comprises line of 12 girls, vocal group of two boys and a girl; Ross Wyse, Jr., and his feminine partner, long a standard vaudeville turn, furnishing the comedy, with a featured exotic dancer, Christine. Producer Leon Miller, who was for many years with the late A. B. Marcus Shows and who also is a burlesque veteran, doubles as a performer, doing some dancing. Hour long performance follows familiar burlesque and revue format. A pianist and drummer provide the music. Several flash production numbers are gaudily costumed and the setting and lighting rate passable. Bite for entering the tent and watching the show from hard bench seats is a \$1 at night and 50c in the afternoon. Number of performances depends upon patronage—there can be as many as 14 in a day.

The Midway

Other Midway flesh show is the "Harlem in Hayana" Negro revue with the same scale and schedule, It's the only Midway attraction with its own band, an eight-piece outfit in front of which the performers work. The comic is Al (Fats) Jackson, who like Wyse, is only on for a brief turn. The line of eight gals dance much better than those in "Moulin Rouge" and there also are two boys and a featured femme. Flash production numbers run to the exotic and mambo and are inclined to be arty and show the Katherine Dunham influence. Producer is Leon Claxton.

A new attraction this year is "Dancing Waters," the novelty brought over from Europe and presented at Radio City Music Hall in New York. Given extra advertising and exploitation, it's proving along, with the two girl shows and the sideshows the Midway's best boxoffice bet next to the rides which include the largest portable roller coaster, a double Ferriswheel and many of the other devices in evidence at amusement parks.

Sedimayr says tv hasn't changed the public's amusement tastes as far as the Midway is concerned. Year after year they go for the same sort of entertainment fare and they're buying it now even better, if anything, than they did before video, he asserts. He believes that 80% of the people attending the Fair visit the Midway. Income is being helped this year because the Federal tax on grandstand admissions was lowered from 20% to 10% with no cut in the prices. The Federal admission on the front gate and horse show admissions were eliminated last year, and in this instance, too, the savings were retained by the Fair.

Willow Grove Park. Philly Amus, Center, Sold for \$1.905.000

Philadelphia, Sept. 7.
Willow Grove Park, one of the oldest amusement parks in America which came into prominence at the turn of the century with concerts featuring such bandsmen as John Philip Sousa, Walter Damrosch and Victor Herbert, has been sold for \$1,905,000 by its owners, the Philadelphia Transportation Co.

the Philadelphia Transportation Conformation Terror years because of its location 14 miles from the center of the city, Willow Grove Park was considered a natural for the transit firm as a ride-promoting agency. Growth of automobile transportation has cut this phase of the park's value- and was the determinant ibringing on the sale. By a coincidence two of the three purchasers, Harry S. Jacobs and Morton Michelson, are former new and used car elson, are former new and used car dealers.

Willow Grove Park was built in 1895 by the Union Traction Co. and has been owned continuously by Philadelphia transit companies, except for a 10-year period starting in 1936, when it was leased to Bandleader Meyer Davis.

Bandleader Meyer Davis.

Charles E. Ebert, president of PTC, said Willow Grove has drawn approximately 1,000,000 persons a year and has averaged for the company a profit of \$100,000 a year. Sale of the 107-acre tract constituted the largest real estate transaction since the PTC's reorganization in 1940, Ebert said.

Louis J. Goffman, well known in local film circles as counsel for the Stanley Warner Co., represented the purchasers. Goffman said a portion of the park will be developed as a shopping center.

Instead of adhering to revue patterns, Chalfen says that all of his ice shows will tell stories on ice, the same as they do in England. In this connection he has bought the British ice rights to such former stage musical hits as "Chu Chin Chow," "Rose Marie," "Humpty Dumpty," "Sleeping Beauty," "Robinson Crusoe," "Dancing Years" and "Aladdin." Chalfen plans to make another attempt to get one of his shows into Russia in exchange for a proposed tour of the U. S. by a Russian ballet troupe. acquisition of the Statler chain by Hilton Hotels apparently put the western outpost of the Schine hotel circuit in an even more difficult position, talent-wise.

It was reliably reported over the weekend that Frankie Laine, whose local nitery appearances have been exclusively at the Ambassador, has switched to the Statler and will make his bow there late in the year. In the past, the Ambassador has lost such attractions as Dorothy Shay and Hildegarde to the Statler. Shay Statler.

Although Miller's deal includes "production," no details have been worked out as to the extent of this phase of his operations.

Meanwhile, with the conclusion of the deal with Miller by Ambasador veepee and general manager Joseph Hoenig, the hotel has shelved temporarily its plans to refurbish the room. Cocoanut Grove had planned to shut down after New Year's for several weeks while undergoing a long awaited face-lifting. Miller's advent indicates a renewed emphasis upon talent with the result that the refurbishing probably will be post-poned for as long as a year.

Once more it's a Barnes & Carruthers Revue, as the No. 1 unit, providing the Minnesota State Fair grandstand night entertainment fare before audiences averaging around 12,000. And the show runs true to the past in format and content, comprising mostly the familiar circus acts plus four flash production numbers. The only appreciable difference from one year to another is the performers and production, although a bit of novelty also manages to intrude.

auction, although a bit of novelty also manages to intrude.

There can be no gainsaying that Barnes & Carruthers lave the know-how when it comes to putting together a fast-moving, skilfully routined and continuously pleasing performance. Like its predecessors, the current layout is sans names, but long on the sort of diversion and variety the payees come to see. Some 12 acts and four elaborate production numbers give a good two and a half hours' money's worth of entertainment.

Probably the two best known acts are those of Tulara Lee and Ming & Ling. Miss Lee and her male partner have a comedy coating for their handstand exhibition and they score. The vocal mimicry of Ming & Lee, the Oriental 'hill-billies,' again registers strongly.

For thrills there are the aerial

billies," again registers strongly.
For thrills there are the aerial didos of La Lage, a daring young woman; the Great Arturo Trios highwire feats and the Hustreiduo's pole swaying. The six To-kayers perform spectacularly on the teeterboards, while Chuck Brown & Rita contribute acrobatics on a portable rigging and the four Asia Boys hand balance in superior Japanese fashion.

Johnny Mack's smooth tanning

four Asia Boys hand balance in superior Japanese fashion.

Johnny Mack's smooth tapping and Nalatha & Aldine's exciting bilind barrel pumping stunts win mitt pounding. Novelty and comedy are supplied by Andre & Bonnie and their human mannequin in a unique dancing turn and additional laughs are tossed by Peterson's trained animals.

Dorothy Hild has staged the four flash production numbers with finesse, colorful costuming, lighting and effects, rating above par. The 24 girls are lookers and their precision dancing excites admiration. Veteran Minneapolis showman Al Sheehan has superintended the grandstand shenanigans for 25 years and on this occasion he tosses in the usual fireworks display finale along with several nonpro singing and marching groups. etc. The afternoon auto races and thrill presentations, which pull up to 30,000 people a performance, also are under his direction.

"Columbus Discovers Kraehwinkel" is running all over Western Germany and Berlin. It's a hit, too, unfortunately. I'm attaching a distributor's ad for your information. Make no mistake about it: "Kraehwinkel" isn't some sort of sub rosa picture—a German "Salt of the Earth"—it is a regular popular, everyday kind of movie which has gotten a lousy press but a boisterous welcome from the general public. The reviews take it apart as a film, but not as a piece of clever propaganda. The only amazing thing about this is that three Americans made it all possible.

From that point on, the bill shows a lot of strength following up with Yvonne Moray, the lower cased singer, who punches out a succession of tunes in a manner that ties up the house. Miss Moray brightens her tunes with comedic touches and she gets the maximum out of the crowd.

Jimmy Valentine & Rita, another repeater, comprises a dance team, male half of which is a monopode. He handles the girl as well as some of his two-legged contemporaries in similar acts. The tandem gets by on its merit.

(12); "Rear Window" (Par).

Here is a two-week pic and vaude tandem that can only be surefire boxoffice. There's much ado locally about Howard Miller, especially with teenagers, he being the most radio-tv saturated deejay going in these parts. And while most of the talent he's packaged for this bill are of the new record crop they too are familiar names to the top-tunes followers by way of Miller's broadcast plugs.

This show is nearly all music, and it's all firstrate. Pacing is brilliant as the show, which has three more acts than the normal formula bill here, spurts to completion in 50 minutes, each performer concentrating apparently on the high points of his (or her) routine. Miller himself weaves in and out as emcee and warms the outfronters with that clicko personality that wins 'em on the air. He's natural at his work, glib off the cuff, and has his wits with hiat all times—meaning he's capable of passing off a good gag or two when the occasion permits. Guy's a terrific handler of an audience and cannily gets the coke set to huza everyone he brings forth.

For the singers, it speaks well that none resorts to the obvious

huzza everyone he brings forthat For the singers, it speaks well that none resorts to the obvious tonal trickery that begs for squeals. Top name in the group is June Valli, Miller's spouse, who looks nifty in a full-skirted gauze gown. She's in excellent voice on a group of four, numbers that touch off a hefty, response. No mere standup singer, she opens, with abouncy ditty and strolls with handthinke for casual interp of "Hey University" of the I well of the I was the constant of the I was the was the constant of the I was the was the was the constant of the I was the was th

is Lola Dee, Mercury warbler formerly known as Lola Ameche. She's spunky performer who registers big in selling "Padre." With "I'm Gonna Rock This John" she does just that, the kids picking up her nifty beat voluntarily with their palms. Jerry Vale, a youthful Columbia artist, kicks the show off with showmanly snap on a pep tune and scores just as easily in baritoning a sweet ballad like his new etching, "Go."

Leo De Lyon serves up the comic relief and has the house ringing with guffaws in, the course of his stay. Guy has an amazing set of vocal chords that can imitate nearly everything, and he delights with a brace of quickie singing impressions, multi-register hoking of ballads, and spoof of a film travelog with sound effects interpolated. His tidbit of simultaneous whistling and humming amazes, as it always does, and stubholders don't spare the mitting. Mambo Aces, reviewed under New Acts, are a big hit on the novelty side.

Layout is wrapped up by the Four Tunes, a sock colored unit whose rhythms are infectious for foot tapping. Boys have some fine stage business in among their songs, and they've worked out some tricky harmonies that bullseye every time. "I' Understand' has guitar-playing member thrushing the lead with rest of the boys chiming in the "bolings" behind. "Sugar Lump" is a rouser, and "Marie" draws the curtains in a salvo.

(15); "Hangover Square" (20th).

Despite strong layouts at this Harlem vaudery these past weeks, customer count appears at best average. Management is banking now on headliners, Ink. Spots and Nicholas Bros. for the solid hypo. Offerings of Charles Fuqua's Ink Spots of from tops to so-so. There's an okay opener for this mainline act, followed by a smooth "Eyes Wide Open." "Ebbtide." third number in turn, merits heavy mitting and is succeeded by hyper-commercialized "Melody of Love." Pewsters find cornball chatter of bas ludricous in that one. Other tunes. "Shanty Town" and "If I Didn't Care" begoff, are okay. Latter tune, incidentally is closely associated with tenor Bill Kenny's Ink Spots, of which this group is an offshoot. Since its formation' two years ago, the Fuqua unit has cut for King Records. Kenny's group continues on Decca.

Other top act, the Nicholas Bros. mixing snappy precision: solo and challenge hoofing routines with hefty song and buffoonery, make out well. Smaller of two handles vocal chores in solid fashion, lending his strong chords to two ditties. Other half clowns up with Lucky Millinder Band as singing occurs. Despite merit, act is a shade too long, and could be trimmed for maximum impact.

Cee Davidson Orch (11); no cover or minimum.

The combined talents of Helen Traubel and Jose Greco will regale stubholders for the next three frames with one of the brightest offerings ever to hit the Strip.

With all the dignity befitting a Wagnerian diva, Helen Traubel touches lightly on opera in one medley. The opera star, already established as a nitery personality before her local advent, renders traditional American music as no pop singer could deliver. The contralto must stand some distance from the microphone for her range is wide. The clarity of her tones match the charm of the diva's personality to score a rousing reaction throughout her stint.

The well-balanced repertoire includes "Vien, Vien," a stirring "I Believe," and a condensed score from "Song Of Norway." Adapting the nitery stage to her operatic talents, she wanders out on the darkened stage to score with arias from "Madam Butterfly," "Carmen," an "Il Pagllaccl." She also sings "No Other Love," then following a sober announcement of a song from her native province, the star socks with "St. Louis Blues," and her ease at handling the rhythm and blues along with the more grandiose music makes Miss Traubel a standout among the more serious singers who have followed the nitery trail. Special material goes over big in "It's A Brill When A Real Plano Player Sits Down At the Keys." Her own accomper, Lou Maury, does an excellent job. The begoff is a touching Brahms "Lullaby" without a mike.

A fiery personality exuding grace in all his movements, as an exponent of the Spanish dance, Jose Greco must be classed in a niche all his own. Greco brings in his own company of 10 dancers and musiciams (2 guitarists to chant, clap hands and wield the castanets in a colorful array of Spanish costumes that range from the Dons to the peasants. Contrasting ballet and gypsy, numbers, move swiftly in the skilled footwork of the talented company. Costume changes are many in the rapid unfoldment of the exciting Latin terps. Rayel's "Bolero" is still a top Greco offering, bringing into sharp focus everymember of the troupe in 15 indutes of whirling, heel-stomping, romantic dancing. "Contivo," a dance of the horsemen, is a Gaucho number, featuring Greco wielding a write in his mose exciting choreo.

Although Miss Gloria has lost none of her vivacity, her opening night act had a ragged appearance and didn't take shape until she reached her final number. It was at this point with her smash rendition of 'Granada,' using pair of castanets to heighten the dramatic effect, that she gave evidence of her real talent. Her other entries, such as "It Takes Two to Tango" and "Mademolselle de Paris," are done with a slight coy touch which is out of harmony with the chirp's style.

The fall entertainment season was ushered in at a fast tempo at the Rice Hotel Empire Room, with comedienne, Vivian Marshall, giving the popular downtown Houston night spot a running start. She sings and clowns through the regulation 20 to 30 minute stint, but on opening night had to stay on for a full 55 minutes.

She does a good job on a medley of standard tunes, but, hits, here hest pace when she drops inhibitions and goes into her special material with a boinedy fiare. Standout are her takeoff on an asthmatic male singer, and a slightly pixilated opera singer, but the killier is her routine on a pitchman hawking Paris postcards. Some of the ilines are a bit on the risque side, but she tosses them off in and off-hand manner.

Joe Reichman, who recently resturned to the band bix, proves that he shas lest none of the old knowhow. He is a believer in solid music with dust, enough schmaliz to keep it interesting. His plano is box-car, size and he plays seyrone of the black and whites in every composition, He is a fine showman and generates the kind of good feeling and appreciation for the audiences that will certainly remake him into a solid band for many years to come.

Inside Stuff—Legit

A sort of drama critic's credo was expounded recently by Richard Watts Jr., legit reviewer of the N. Y. Post, in a Sunday column. I'd better confess at the outside," he wrote in part, "that it (his assignment for the coming season) will be chiefly reviewing, which is fairly humble trade and consists of an attempt to set down an immediate personal reaction to the works opening on Broadway, and not criticism, which is a loftier business and strives to capture more austere artistic values. But I hope you'll occasionally find some of the latter here, too.

"You certainly won't encounter any effort on my part to pretend that I'm being objective, and that's a matter I want to emphasize. The reviewer who says or implies that his reviews are objective trying to deceive either you or possibly himself. All he can do is to present, as accurately as possible, what he, a fallible and highly opinionated fellow, with trankly personal tastes, theories, ideas and predelictions, happens to feel about the play or the musical comedy he has just seen. He is an ardent playgoer, just as I hope you are, and the difference is that he gets in free and is supposed to rationalize his verdicts in print.

"I've never believed," Watts added, "that the theatre existed in a pleasant little vacuum called Broadway. I've always felt that it, was a very important part of a struggling, tormented and chaotic world; indeed, one of the few fine and civilized forces in that embattled, semi-barbaric universe, and, as such, deserved to be cherished and honored. I certainly don't think reviewers should take themselves too seriously or demand only serious plays, but I do think that we should recall we are custodians of the subject of potential importance, and try to relate it to the world about us."

Earlier in the week, in one of his "Random Thoughts on the Drama" columns, the Post reviewer called critics "the most determined collection of incurable romantics currently at large," explaining that they "spend the best years of their Ilves sitting evening af

Paul Gregory, who stepped out from the lecture department of Music Corp. of America to become one of the most successful legit producers in recent years, is "fed up with the theatre" and may devote all his time to films hereafter. In an interview with Thomas M. Pryor, published in the N.Y. Times last Sunday (5) under a Hollywood dateline, the presenter of "Don Juan in Hell," "John Brown's Body" and the current two-company "Caine Mutiny Court Martial," who is now producing the "Night of the Hunter" picture, said in part, "The great advantage in picture making is that one's headaches are limited. Once you have produced a film, it is finished work. It may be good or bad, but it is finished. When you produce a successful play you have to live with it. That's the beginning of the headache."

The interview went on to quote Gregory as asserting that his "financial success has not compensated for the 'bitter experiences' he has had in the three years' since producing "Don Juan in Hell."

The piece added, "He complained of having been 'kicked in the stomach by an actor—and you'd be surprised if I mentioned the name of this great artist' during a heated discussion of money. 'Actors do a lot of talking about going on the road and bringing the theatre to the people, but they're always complaining about travel and hotel accommodations and looking for more money.

"Hiring an actor for a picture is like buying a utensil you need for a certain job. 'After it's finished you put the utensil aside. I don't want to spend the rest of my life living with the ego of artists. I honestly say I don't care if I never do another thing in the theatre."

Stratford, Ont., Sept. 7.

The Stratford Shakespease Festival may switch to a non-name operation next year. No final decision may be reached at once, however, as it would obviously be risky to commit the project to such a policy for a full summer run, so the question is being carefully considered. However, the Stratford Festival in England got away without stars this year, and thereby earned a bigger than usual net.

Although there's mention of the possibility of Alec Guinness, who launched the Festival in 1953 as costar with Irene Worth, returning next year, it's figured an outside prospect. If the no-name policy is adopted, it's likely that two of Shakespeare's more popular plays will be produced, preferably action dramas such as "Romeo and Juliet" and "Julius Caesar."

Under, a non-star policy, Canadian actress Frances Hyland, who scored a personal success in the Festival this summer, would be cast as Juliet. In any case, Tyrone Guthrie is set to return as director and Tanya Moiseiwitsch as designer.

Actor, Author Terms Ruining Barns, Sez Strawhat Producer Ratcliffe

Upper minimums for actors and rising author royalties are forcing summer theatre to the wall, according to Thomas G. Ratelliffe, co-producer at the Sea Cliff Summer Theatre here As provided to the Comment of the Comm ducer at the Sea Chir Summer Theatre here. As president of the Stock Managers Assn., Ratcliffe hopes to have facts and figures to back this claim when he appears at the quarterly membership meet-ing of Actors Equity this fall.

In questionnaires sent last week to more than 100 silo operators, Ratcliffe asked for comparison figures on 1953 and 1954 operatfigures on 1953 and 1954, operating costs and grosses. Costs are broken down into salaries paid to stars, amounts disbursed on Equity and Chorus Equity contracts, plus percentage increases broken down into salaries paistars, amounts disbursed Equity and Chorus Equity tracts, plus percentage incre in author royalties.

Ratcliffe believes that actor

Ratcliffe believes that actor and author demands are strangling stock and are actually hurting. Equity by depriving the rank and file membership of employment. "As long as managers continue to operate theatres and other managers open new theatres to fill the gap created by houses that close. Equity and authors' agents will go on the assumption that stock can stand the gaff," he says. "But," he continues, "no one asks the important question of why more theatres don't open." Material from the questionnaires, he hopes, will convince Equity and the agents that they hold the key to the big query.

he hopes, will convince Equity and the agents that they hold the key to the big query.

Strawhat operators this year have paid an Equity minimum of \$75 per work-week and \$40 per rehearsal stint. Last year's figures, were pegged at \$55 and \$30, respectively. According to Ratcliffe, small house ops who wanted to do large cast productions this year were forced to seek plays with fewer parts or to reduce the large cast shows by cutting or merging some of the characters. Whatever their choice, the result was that fewer Equity members got jobs.

This year's waiving of the three-packages is also under fire by the SMA prexy. The harmful effect is two-fold, he argues. The padded package increases running expenses for the beautiful paragraph of the presented for the beautiful presented.

The play, authored by Edmund Morris, opened July 27 at the Phoenix. After a slow start it caught on and has been doing profitable business, with Joan Milera scostar.

Lawson gave his notice after being signed for a prominent role in the upcoming West End production of "Bell, Book and Candle," to be presented by H. M. Tennent, with Rex Harrison and Lilli Palmer recreating the leads they played in the Broadway original in 1950-51, and Harrison doing the staging.

MAD ANTHONY PLAYERS **NEED NEW COIN IN '55**

Toledo, Sept. 7.

Mad Anthony Players, ending their third Summer here, plan to return next year, if financing can be arranged. Group has employed Terry Roloff as promotion manager. This Summer schedule included 10 plays, and was about 2,000 payees short of breaking even.

2,000 payees short of breaking even.
Last show of the season, "My Three Angels," drew the top crowds of the summer, followed by "Streetcar Named Desire." The least patronized shows were "Taming of the Shrew" and "Dracula."
This year the company moved from the Indoor Theatre at the Toledo Zoo to the larger Doermann Auditorium at Toledo U. It was figured that this may have caused confusion about the professional status of the troupe.
Gregg Falls and William West, directors, are on the faculties of the Vermont U. and Stephens College, respectively. Murray Stahl, business langer, is director of student activities at Toledo U. Robert W. T. Peindt, original organizer of the Mad Anthony Players, was in Paris this summer, studying.

A 14-week sked of eight musicals and six straight 'plays, opening early in June, is contemplated. Jamaica 35, N.Y.

Greater Cleveland's strawhats are experiencing one of their best seasons in years. If the weather remains favorable, this may prove to be the best season since World War II.

Newest wrinkle in the area, Musicarnival, under the banner of John L. Price, has had an attendance record for its all-musical proance record for its all-musical productions far beyond expectations. Bringing in Broadway talent has paid off for the new tent-covered, theatre-in-the-round. Spot may play a longer season next year. At the same time, such veteran stands as Cain Park, Chagrin Falls and Rabbit Run also report good business

ness.

Musicarnival, started on a 10-week stand, has already extended it by increasing "Show Boat" to two weeks, instead of one. According to Price, "We're figuring on 14-to-15-week season next year. At the same time, we're planning to utilize our grounds by working on a program to bring industrial plants, fraternal and civic groups, etc., to picnic days and shows at night."

shows at night."

Typical of the show's strong beat was the \$20,000 for "Annie Get Your Gun" for a six-night, one-matinee stand, and a \$35,000 ate for the two-week "Show Boat" run. The house is scaled \$3 to \$1.25 for Tuesday-through-Thursday and \$3.50 top Friday-through-Sunday. Weak spot in the season has been Sunday night, but Price says the tent hasn't had single losing week.

What Musicarnival discovered

What Musicarnival discovered this year, Cain Park, under Marvin Kline, has been practicing since 1951 when it introduced its all-musical season. Each performance runs two weeks. Except for a slow start due to bad weather, the season has been strong.

Because of cool nights early in the summer and rain late in August, the community-operated al fresco theatre has had difficulties. But with a weather break in the remaining run, Kline believes the season will be an outstanding one. Kline maintains that two-week bookings are necessary because some patrons are unable to attend the first week, either because of weather or other commitments, but can catch the show the second week. Cain Park's four productions this year have included "Gentlemen Prefer Blondes," "High Button Shoes," "Wizard of Oz" and "Call Me Madam."

Dallas, Sept. 7.

State Fair Musicals ended its record-breaking 13th summer season last Sunday (5) with a hefty gross of \$515,375 from five revivals and a variety show during the 12-week season in the State Fair Auditorium. Figure topped 1952's previous high of \$499,300.

Even with an upped budget of \$485,000, or about \$81,000 per show the season showed well on the plus side. Last year's gross fell to \$422,500, against a \$432,000 nut.

Closer, "Wonderful Town." pullied \$42,000 in its second stanza. Imagene Coca, John Tyers and Edith Adams headed the cast. First week's seven performances drew \$40,600.

Record bo. is also impressive from a weather angle. In its 84 night season, the Musicals bucked an all-time high heat wave, with 47 days of over 100-degree temperature, with no rainout. Ironically, Musicals were moved indoors in 1951 due to 11 rainouts in a fortnight in 1950.

Puts Season in Black

Kansas City, Sept. 7.

Final rush to see Starlight Theatre's al fresco finale. "Oklahoma' in its closing week, led officials to stage a midnight performance Saturday (4), first in the history of the operation. With this boost, Starlight wound up the season Sunday (5) in Swope Park with a second sock week of the musical and a rousing gross over the \$75,000 mark.

Coupled with a brilliant \$73,000 for the first week, finale easily is the season standout and among the all-time socks of shows produced here. Terrific take from the Rodgers-Hammerstein hit also gives the Starlight a good chance to come out in the black for the season, despite some unmeriful buffeting from hot weather and at least three weaklings among the 10 presentations.

Season's receipts are expected to pass the \$600,000 mark when final official count is in. Without smash biz from the final musical, the season would probably have ended in the red.

Midnight show was sold all seats \$2, on a first-come, first-served basis, against the regular season top of \$3.50. Phone calls and other demands for tickets forced the extra show, and it was spotted in Saturday midnight as the only possible slot, according to business manager William Symon. Hopes of extending the playing time could not be realized, as Starlight officially ended the Sunday before Labor Day and actors have other commitments thereafter.

Show officials had a few werrisome moments when Jim Hawthorne, playing the role of Curly, collapsed on stage in the first act of Wednesday's (1) performance. He went on with the show after a few minutes rest, but was briefly hospitalied and treated for a stomach disturbance. He played the remainder of the week without incident.

"Lollta" sets out to give the audience a good time and is successful in keeping ripples of amusement going. Mrs. Chase makes kindly fun of the antics of a harried mother, the behaviour of children, and of unimaginative men. Without malice, she pokes fun at women and their organizations.

men. Without malice, she pokes fun at women and their organizations.

The playwright shows that fun without the element of human sympathy can develop into mischief and that mischief can become sinister. Her understanding fable merges laughter and terror into a yarn about a mother who loses her four children and finds them again.

The elder daughter Lolita is the queer one, not too bright. Unlovable, beliverent, she finds fairytale escape with the little people who have built their magic castle in her back vard. The fun-loving Countess of the castle welcomes her as droll amusement and rewards her ith the fabulous clothes she wears.

It is a clinical character study that loses emotional impact from its very objectivity. Featured with Stewart is Felicia Montealgre. It difficult to imagine how the integrity of her performance could be bettered, as she plays a girl who so resembles the producer's mourned wife that he falls in love with her on sight. As a first work by playwrights Paul Streeger and Berrilla Kerr, "Vacant Lot" is a symbolic and often tender play about the problems of adolescence. Motivations lack clarity, however, and the symbolism is vague. Play will require major improvement before it's ready for Broadway.

For all its structural weaknesses, "Vacant Lot" casts an unusual spell slightly reminiscent of the carly Tennessee Williams. This is partly from its mystical view of adolescence and from the locale a dugout converted to a Hopi Indian "kiva" or shrine in the vacant lot of a southwestern town.

Plot concerns an attractive but childlike teen-age girl with a father complex. With her friends, she extends her dream world in the "kiva," which serves as an amotional crutch until'she can face reality.

As the girl, Sara Harte does well, considering her tackling the role with two days' rehearsal after Eliot Englehardt became ill, Brett Halsey is creditable and handsome as the youth who leads the girl to reality. Cindy Robbins and Jeff Silver give good comedy performances and Alan Dinehart III, although a mite stiff, is acceptable. Norman Lloyd's direction is clarifying, with one dance scene sparking an otherwise moody play.

Show's locale is a lonely little Show's locale is a lonely little Caribbean island upon whose apparently deserted beach arrive a lady teacher and her bevy of Shakespearean girl students who disturb an orinthologist's research about a fabulous bird, believed either mythical or extinct. The femme pedant knows the bird-man and has long had a yen for him. Scientist's efforts are furthen hampered by the arrival of another savant with a group of college students studying oceanography. Despite the ensuing conjustion, the fabulous bird—naturally never seen by the audience-finally roosts in a lunch basket and is captured. Screwball nature of this yarn redeemed by the novel, witty, adult lyrics.

Bob Herget's staging of , the dances and musical numbers is skillful and several of the men in the "chorus" click with individual dance numbers. The males, by the way, look like brawny college athletes with pep had personality that help sell the show. So do a couple of the femmes, Most all the whole company enunciates clearly to put over the lyrics. The music ranges from jive to conventional (and catchy) melody.

It all adds up to an entertaining show, although its only tangible chance appears to be in the off-Broadway category. Waters.

"Strictly French" at the Cecilwood Theatre is only moderately
diverting as summer entertainment, offering little for Main Stemconsumption. Although it boasts
some pleasant performing talents,
the sketches are mostly ordinary,
much of the music is borrowed
and the choreography is tame.

Piece's glimmick is the French
tour of three wide-eyed American
girls whose peregrinations are the
usual rounds of sidewalk cafes,
Folies Bergere, Notre Dame, etc.
A museum visit occasions the
ditty, "Three Little Girls In the
Louvre Are We," sung by Venus,
the Mona Llsa and Whistler's
Mother, but this kind of concept
proves sporadlc.

"Grand Guignol" is a macabre
skit in the Charles Addams manner. "Cosette" is a lengthy anecdote about the legendary gal of
5,000-franc virtue, In "Dogs," the
sharpest sketch, a man who wakesup in a cemetery for canines misunderstands the conversation of a
woman mourning her late pet.

Folk singer Susan Reed gets two
brief opportunities for her fine
volce, once in a staging of "The
Angelus" and again as herself,
James Karen displays a keen
comedy technic in "Dogs," getting
a nice assist from Mary Lou Taylor.
Miss Taylor also appears to advantage as Katharine in the French
lesson scene from Shakespeare's
"Henry V."

Claudia McNeil's pleasantly
husky voice is a virtue, "The
Devil's A Man" serving her best.
Dorothy Cudner is zesty and helpfully vigorous, especially in her
Let's Do It" routine. Jill Andre,
Linda Soma and Jean Stapleton
are the ingenuous tourists, Miss

Polly Jo McCulloch and George Quick production of a drama in three acts, by John O'Hare. Stars Marjorie Gateson. George Demberd Stars of the Star

In "Pride and Joy," actor John O'Hare has written a somber treatise on the evils of momism. Starring Marjorle Gateson as a mother whose obsession for her only son leads to alcoholism, perversion and murder, the play is given a careful production at the Hyde Park Playbouse

leads to alcoholism, perversion and murder, the play is given a careful production at the Hyde Park Playhouse.

In order to get her boy a State Department appointment, the mother lets her good intentions drive him to subterfuge, deceit and homicide. She removes normal companionship from his life, only to activate his latent tendency toward homosexuality. Finally, she tries to persuade him to blame his father for a murder, but the boy's second thoughts lead him to rebel.

Marjorie Gateson gives an uncertain performance as the cloying mother, having understandable difficulty making the woman human. She capitulates quite early, however, the resulting performance being largely superficial.

As the son, John Lehne is forceful and concise, succeeding in making credible the surprising gulibility of an otherwise intelligent young man. James Reese plays the father whose defeat as a self-respecting husband drives him to drink.

As the son's friend who indulges in self-seeking machinations which are considerably less than friendly, Ray Boyle is sardonically extraverted. Late in the play, welcome comic relief is provided by Wood Romoff in a brief scene as an ulcerous detective. James Maloney is assured as his chief who quickly gets at the truth. The vest of the company is okay as assorted servants and pokiemen.

Sometimes reminiscent of late Victorian melodrama, "Pride and (Continued on page 71)

idea's okay, as is the plot conflict inherent in having wife and mistress of the same man meet, unknowingly.

Chief difficulty is the dialog, which wavers between the brittle and the banal. The best of Miss Walker's sentences are those with adjectival claws—and it's this tinge of "The Women" that gives the play its best moments.

Demetrios Vilan's direction manages to maintain a steady pace, but most of the performances are merely average. Louise Lorimer shines as a would-be-ageless femme and Ann Staunton is easy to look at in the principal role. Dorothy Gulliver gets the biggest laugh in a curtain sight gag. As usual, Paul Rodgers has contributed two good sets.

"Breed" was written in 1939, when war clouds were looming, and produced in 1943, when the bombs were falling. The closing monolog in which the hero tells his infant grandson that the British will never surrender their centuries-old principles of decency and self respect was doubtless a welcome note of hope in 1939 and a rallying battle-cry four years later. Tom Helmore scores a personal triumph in the lead, a meaty part that Coward presumably wrote for himself. As the solid citizen who believes that the trouble with the world is "too many ideals and not enough 'orse sense." Madge Satterfield Barbara Knock Capt. Von Gravenitz J. Talbot Holland "Champagne For Two" is domestic summer brew without a bubble. Thomas Barbour's winner of Don Swann's third annual playwrighting contest lacks such essentials as comedy, originality and likable characters.

This is the wayward husband vs. mousy wife formula with a Washington locale reminiscent of "Affairs Of State." A tedius prologue, shows a middle aged State Department official concluding an elicit weekend with a continental femme fatale. In the following three acts, friends of the diplomat's meek, provincial wife adjust matters by arranging her transformation into glamorous and youngish spouse. Swann's resident company handles Barbour's script competently. Earl Simmons and Kathleen Claypool are adequate leads, though neither adds personal animation to the material. Margaret Stewart is effective as the continental siren despite some fumbling with the dialect.

Elaine Swann also has a shaky accent as an amoral baroness.

It's based on an old Austrian piece, "Einen Jux Will Er Sich Machen," by Johann Nestroy, staged in Vienna in 1842. Plot has familiar farce routines, from mistaken identities to frantic chases through doors, but Wilder has added such excellent characterization that it comes amusingly to life. His castably backs him up. If some of them overdraw their roles into caricature, the piece is none, the worse for it. The witty lines about femmes, money and love are all here. The Wilder flair for making his characters take the audience into their confidence is a clicko touch. This introduces the mock-serious moralizing and philosophy, as when Patrick McAlinney, as an Irishman, advises not to have more than one vice at a time.

solidly, and garnered long, appreciative applause from a packed firstnight audience, including celebs and world crix. She never lets up the pace as the aggressive, worldly-wise woman. Role is a difficult one, but Miss Gordon seems an ideal choice for it. This looms as one of her finest chores to date. Deserting tragedy, Eileen Herlie, Scot-born actress, is lovely as the attractive widow. Her rich extraction (she was an O'Herlihy before taking stage appendage of Herlie) aids her diction. Although she hasn't nearly as much to do as Miss Gordon, Miss Herlie carries off the part with a distinctive, happy style.

Same Levene, U.S. actor, cently seen in the London version of "Givs and Dolls," capably handles the longish, central male part of Horace Vandergelder. He is dignified and gruff but still human, His voice is always intriguing. Minor part of a cabman is richly portrayed by Peter Bayliss. Esme Church flutters as the placating Miss Flora Van Huysen.

Miss Flora Van Huysen.
Settings by Tanya Moiseiwitsch are imaginative and never cluttered. Play has been criticized here by some as too rowdy to tee off an international drama junket. But acting, direction and general entertainment value surmounts such barbs. Piece looks worthy of U.S. production.

Aga Khan's Memoirs

The Aga Khan, the Begum, Aly Khan and all the little Khans have been worldwide news, dating from the annual weigh-in bit in gold dit became diamonds on his 75th jubilee) to the Epsom, Longchamps and other racetracks. From the Paris and Rivlera playgrounds to the more than infrequent detours to Hollywood (Rita Hayworth, Gene Tierney, etc.), the Mohammedan ruler's memoirs almost come under the broad category of show biz. True, it is only in his relaxing moods and moments, and particularly as applied to the Aly & Rita two-act that the accent is more pronounced in that direction. For the Aga Khan also makes out a good case for his regal responsibilities.

It reads as if he really wrote it by himself. There is an editorial acknowledgement to W. Goinciding with the concurrent elebration of the Jewish tercentary in American life are two just-published books, "Adventure In Freedom (300 Years of Jewish Life in America)" by Oscar Handdlin (McGraw-Hill; \$3.75), and "The Jewish It earn leave it may be gathered items for his column, The brighter Sider," while on the providing the course of the seekers of religious freedom who first came to America in the Colonial times, and their integration into and contributions to the land of their doption. They are exhaustive, admerican history in the making in a manner that should give these

treatises wider appeal than among coreligionists.

Oscar Handlin is a professor of history at Harvard, whose last book, "The Uprooted," won the Pullitzer prize for history in 1952; it was a study of 19th century immigration.

Rufus Learsi, author of the other work, likewise taught history and languages in the N. Y. City high schools before devoting himself to writing on Jewish life and literature.

Perhaps by coincidence of the tercentary celebration, Dr. Samuel Rosenblatt, associate professor of Oriental Languages at Johns Hopkins Univ., and a former Baltimorerabi for 27 years, has authored "Yossele Rosenblatt," a biography of his father. Cantor Josef (Yossele) Rosenblatt was famed in the 1920s and 30s as "the Caruso," toured bigtime vaudeville and concert, and earned fabulous fees. His discoology of secular recordings for Victor and Columbia almost total 100, and still enjoy steady sales. Farrar, Straus & Young publishes at \$4.50.

No Jackpot Novel

No Jackpot Novel

The creeps and cretins on the giveaway circuit are a depressing lot, no matter how many times they fall to give the correct answer to the question who is buried in Grant's tomb, and placing them in a novel doesn't increase one's admiration for this monotonous breed of mankind. Steve Fisher has placed these characters in a rather dull piece of fiction tagged "Giveaway" (Random House; \$3.50).

Related in the first person, it tells of Eddie Shelton, a teen-aged runaway from Gary. Ind., who winds up in Hollywood where he encounters a mother daughter team living a scrubby existence by appearing on television shows for prizes and then selling the loot. The mother and daughter introduce the kid to every angle of the shoddy business. There are "pros," it seems, and they sniff at the amateurs. The highspot of "Giveaways" is the attempt of the pros to be married on a man-and-wife show in order to cash in on the numerous prizes and then have the marriage annulled.

At no time do any of Fisher's characters manage to come to full life. His Eddie is a feebly-drawn character, as are most of the other seedy types in this so-so fictional expose of the giveaway" for faintly reminiscent of the Salinger technique but doesn't quite hit the jackpot. Too bad that "Giveaway" should go thataway.

COLLIANS CO-SCULLY'S SCRAPBOOK

By Frank Scully

Desert Springs, Cal. At first sight that might

Bob Hope is a happy man these days. At first sight that might sound like one of Lolly's exclusives that get a banner line. But it really has depth as well as width. He's finally got a picture that represents him as a married man with a family. And what a family. In all Hollywood none has topped this and only Johnny Farrow and Maureen O'Sullivan have matched it.

For Bob is playing Eddie Foy in "Eddie Foy and the Seven Little Foys." That seems like an impossibly long title for a theatre marquee, but it could have been longer because Eddie Foy's real name was Edwin Fitzgerald.

He changed it to Foy because way back there in 1873 he was a fan of the Foy sisters. Millie Vitale is playing the third Mrs. Foy, Madeline Mozando—the Italian prima ballerina who gave that up to become the mother of all those little Foys.

I had quite a chat with Madeline Foy O'Donnell on the set at Paramount while. Hope was simulating her father when tendered a banquet by the Friars. Jimmy Cagney, playing George M. Cohan, which by now is a character part for him, was presenting Hope with a cup from the Friars as "Father of the Year."

With Madeline was her daughter, a beautiful chick of 17, with the lighter coloring of the Milanese Italians. Madeline herself looks more like her mother, who was dark like the Neapolitans.

In fact, there were a lot of Foys around the set. Charlie was all over the place as technical advisor. Bryanie, now a producer at Columbia after years at 20th and Warners; fathered the whole deal but was smart enough not to produce this one himself, since there are five other Foys living and, brother, would he get it if he didn't give them proper billing! This way, after dividing up the money, he can claim the thing is out of his hands.

Eddle Foy Jr. wasn't around either, unless he hopped in from New York between performances of "The Pajama Game" while my back was turned. Mary was there, however. She performs at Charlie's nitery in the San Fernando Valley. Irving, who runs a dance school in Taos, NM, didn't show up while

Hope's First Blo

This is the first biographical role Hope has played in all his years in Hollywood, unless you include "Sorrowful Jones." Mel Shavelson and Jack Rose wrote "Jones" for Hope in 1948. Since then they have moved up to where now they are a producer-director-writer team. Hope told me that what he liked best about the pleture was that it released him from all that old leering, dame-chasing down various roads, and gave him an opportunity to act as a man of substance as well as humor. In appearance he and Foy are not too far apart. Whereas Bob has a ski-nose, Eddie had a crescent-shaped mouth. I remember when Bob, fairly fresh from Broadway and "Roberta," came out of Hollywood and did very nicely in a musical thing of Par's called "The Coconut Grove." That was the musical in which he first sang "Thanks for the Memory," and seemingly has never been released from expressing his gratitude in those four little words. Though it was in the midst of the depression, Par celebrated the preem with a supper-dance at (surprised?) the Coconut Grove. Bob emceed it, He-was gracious, funny and perfect for the cuffo part. That was the night he was dropped into ferrous mold called typecasting. After that he was always a best man, but never a bridegroom. He handed out more Oscars and more laughs for free than anybody in the business. He used to do some kidding on the square in relation to this and ultimately the Academy gave him one of those honorary Oscars. honorary Oscars.

Chance Now To Win An Oscar

He has a chance to earn one now, because this is the sort or preture that has everything, including the Iroquois Theatre fire when Eddie Foy calmed a terrified and overpacked house by continuing to perform while his wig, was being scorched from the flames. He saved a lot of lives that day and became one of the heroes of show biz.

In their picture, Messrs. Shavelson and Rose decided to stress the story of Foy in relation to his family more than his life before the footlights. It was their opinion that Foy was family man against his will.

footlights. It was their opinion that Foy was family man against his will.

In those days, wives and children of performers were neither nor heard. But Eddie Foy was proud of his, and took them on the road, and to the consternation of the Gerry Society, trotted them out in Brooklyn one night as "Eddie Foy and the Seven Little Foys." There was an attempt to stop the show as an "exploitation of child labor," but it was difficult for the bluenoses to convince any judge that these kids were not having a lot of fun and would have broken out of any cop's custody to join their old man in their act, for it was no longer his but theirs.

Joe Laurie Jr. "Vaudeville" is the authority for saying the Foys were talented, crazy and lovable. Joe says it was in Brooklyn that Eddie answered the Gerry Society by remarking, "If I lived in Flatbush, it would be a city." (The original town Eddie used as a butt for this gag was Bayside.)

Pled Piper Hope

for this gag was Bayside.)

Pled Piper Hope

Par has cast a great collection of kids to play the seven little Foys and Hope proudly goes around with a picture of himself and the kids, all of them wearing pearl grey derbies and tailor-made suits, which were tops in their era.

which were tops in their era.

Some of them have quite a background in show biz. Lydia Reed, nine, was the moppet who scored such a hit with Helen Hayes in 'Mrs. McThing.' She was in the show for 18 months and after it closed joined the cast of "Valiant Lady," a tv soap opera. She plays Mary Foy. (Seems to me there was a Catherine before Bryan and Mary Fo Charlie.)

Mary Foy. (Seems to me there was a Catherine before Bryan and Charlie.)

Billy Gray plays Bryan E. Foy. He is 16 years old. He danced with Dan Dailey i "The Girl Next Door" and more recently seems to have developed into a mooncalf, having played i "Moonlight Bay" and "By the Light of the Silvery Moon."

Charlie Foy is played by Lee Ericson. Lee is 13, and has appeared in around 100 video shows since he was 10. He began his career at nine in little theatre productions in Sacramento.

The late Richard Foy is played by Paul de Rolf, 11. He, too, has had most of his experience in lv shows, though he has also appeared in Par's "White Christmas" and "The Country Girl."

Madeline Foy is played by Linda Bennet, seven, who has had two years of tv experience and one picture, as the daughter of Glenn Ford in Columbia's "The Big Heat."

Eddie Foy Jr. is played by Jimmy Baird, seven, who hasn't been seen in pictures as yet but danced with Dan Dailey and Ethel Merman in "There's No Business Like Show Business." In that picture he played Johnny Ray as a boy.

Finally there is Tommy Duran, four, who portrays Irving Foy. Maybe "portrays" is stretching his role a bit because he wanders in and out of the show, being more or less his own director and dialog writer. Hope once had him on a tv show in a song-and-dance sketch with Margaret Whiting. In fact, if half his comedy gets on the screen he will be a panie.

with Margaret Whiting. In fact, if half his comedy gets on the screen he will be a panic.

Though Eddie Foy first made a hit in Dodge City, Leadville, Butte and other western towns, he actually was born in New York, and it is there I suspect that Hope will make his biggest hit in this picture. Eddie Foy had a thousand imitators, still has them, but Bob Hope has made a character-study of him, and character, not parody, is the thing that endures.

BARNEY DEAN

BARNEY DEAN
Barney Dean, 50, comedy writer
and former actor, died of cancer
Aug. 31 in Santa Monica. He had
been with Paramount for 15 years
and was a close friend of Bing
Crosby and Bob Hope with whom
he worked on their "Road" pic-

tures.

A native of Russia, Dean, whose original name was Fratkin, spent several years in vaudeville before going into pictures. He first appeared with Eddie Leonard's minstrels and later formed a vaudeville dance team with Sid Tarradasch, known as the Dean Bros. He also appeared on the stage with Jim McConnell and Jay C. Flippen.

While needdling Christmes cards

Jim McConnell and Jay C. Flippen.
While peddling Christmas cards at Paramount he met Hope, whom he had met on the stage, and Crosby. They arranged a job for him as a gag writer and later helped to get him a contract, which lasted until his death. Whenever Paramount threatened to take him of salary between pictures, Crosby and Hope protested. Crosby in his autobiography referred to Dean as "pixie in human form,"

Complicating the bidding is the fact that plans have been completed for construction of a new hotel at the Salt Lake City highway edge of town which will be exclusively for Negroes. This hotel plans naturally, to book Negroenterta's ent only and will match the Strip hotels in salary. If successful, this could mean that such Strip regulars as Miss Horne, Billy Eckstine, Billy Daniels, Sammy Davis Jr., Pearl Bailey and others would be lost to the Strip spots and thus lessen the pool from which the hotels hope to draw a ending supply of talent.

With "On the Waterfront" and "The Caine Mutiny", now in release, "Miss Sadie Thompson" already distributed and a flock of other potential biggies either being sold or upcoming, Columbia should have about seven on the \$2,000,000,and-up list. Col had two in this class in 1949.

and-up list. Col had two in this class in 1949.

Some Tipoff

It obtains with Col and all other companies, of course, that there's no way of predicting the b.o. on pix in advance. But casts, credits, production values and story properties can be the tipoff to some extent on whether the \$2,000,000 mark will be reached, at least.

At United Artists, "Apache" is certain to go well into the bluechips category. Of the 16 pix to be released in September through December, the distrib might have another four, for a total of five blockbusters, UA had two in 1949.

20th-Fox's CinemaScope will be well represented on the \$2,000,000 roster with a total of 14, at least. It could be higher. Same outfit had 10 in 1949.

RKO has "French Line," Pinocchio" (reissue) and "Susan Slept Here" in the tall money division this year. Balance of the year could bring one or two more, such as the epic-sized "Conqueror" it's tossed into release. Also there's Walt Disney's "20,000 Leagues Under the Sea," set for Christmas and possibly via RKO. Metro, with 14 productions of \$2,000,00 caliber in 1949, looks to have the same number this year, as minimum: It could go to 17.

Par's Likely 13

Presuming that the as-vet unveleased "Sabrina Fair," "Country Girl" and "Ulysses" don't unexpectedly collapse at the bo., Paramount likely will have about 13 in the hit money class. "White Christmas" apparently can't miss. "Rear Window" and "Living It Up" have reaped enough coin in early dates to assure substantially over \$2,000. 000. Par had 10 among the 1949 winners.

Matty Fox Petitions FCC to OK Toll-TV BIZ REACHING As Aid to 'Plight' of UHF Telecasters

Pointing up the economic plight of the UHF broadcasters, Matthew Fox's Skiatron TV Inc. yesterday (Tues.) asked the Federal Communications Commission to authorize a "supplementary" system of subscription tv, limited for the first three years to UHF stations only.

only.

The petition, which stressed the need for speedy FCC action as a means of alleviating "the present plight of the UHF stations," urged modification of the Commission's rules to allow UHFers to carry toll-tv shows on a commercial basis "for a period not to exceed 35 hours per week."

Peculing for the FCC that

hasis "for a period not to exceed 35 hours per week."

Recalling for the FCC that "presently the UHF channels in the major markets are going begging," Fox declared, "If subscription television service is made available to UHF operators who are given an advantage or a 'head start' for a period of three years in order to build up an audience and perfect their techniques in servicing the public with this supplēmentary service, then those who now have UHF construction permits will be anxious to build and complete their stations quickly. New applicants will have a sound reason for applying for those UHF channels which are now open and available."

Fox, who's prexy of Skiatron TV, sponsor of the Subscriber-Vision method of pay-as-you-seet twishich was developed by the Skiatron Electronics & TV Corp., said FCC action authorizing toll-tv for UHF not only would spell out survival for these i operators, but would speed the installation of converters.

S-Bomb Explosion At Steve Allen Show Linked to Crusade

An unknown person or persons set off stink bombs Monday night (13) during Steve Allen's WNBT, N.Y., late night show at the Hudson Theatre in an apparent aftermath to Allen's "Tenth Commandment" show on crime in N.Y. two weeks ago.

Presence of the odor became known during the show, and although Allen and the staff couldn't trace the culprits, it was believed they were in the balcony. Allen said on the air that they could continue to harass him, but he wouldn't back down from his public stand vs. crime and juvenile delinquency. He warned the culprits that they'd be caught if they did it again. A contributing factor is an unusually active summer season in Britain, the Scandinavian countries and other parts of Europe, where summer customarily means a sharp drop in business. Explanation for this year's strong summer b.o. is that the Continent has experienced a very rainy summer, with Britain particularly hit by gray skies.

At the remittance end, the continuing economic recovery of Europe is an important factor in helping Hollywood bring out those dollars. Fed. Agents Probe Music Biz Payola

Washington, Sept. 14.
Payola has reached official Governmental attention.
A legal representative from the Bureau of Investigation of the Federal Trade Commission called at VARIETY's capital bureau to look up the "payola" editorials, armed with a roundrobin complaint signed by a "group of smaller writers and publishers." That is all the FTC agent would tell VARIETY, excepting that the antitrust division of the Justice Dept. has also received a similar complaint. However, in the interests of efficiency and economy, when both agencies receives similar complaints, the Justice Dept. refers it to Federal Trade of Commission to explore the values for both.

N.Y. Police Blast **Crooked Cop Pix:** 'Juve Crime Aid'

Recent cycle of pix built around the crooked cop theme has law enforcement authorities and policemen doing a burn at Hollywood. Police, who for years have fought the film industry's tendency to present them as dumb flatfoots or nincompoop Keystone cops, feel that pixites are rendering the nation a disservice in showing policemen as shady characters. With juvenile delinquency at a peak throughout the inquency at a peak throughout the country and crime flourishing at an unprecedented pace, the law enforcers contend that the crooked cop pictures tend to foster disrespect for the law and make the job of the policeman tougher.

Theatre TV Comes of Age Tonight With Champ Fight; Back to \$1,000,000 Gate?

Large-screen theatre tv, particularly as a boxoffice entertainment medium, reaches its greatest height tonight (Wed.) when 70 theatres in 50 cities, a new record, will carry the closed-circuit telecast of the Rocky Marciano-Ezzard Charles heavyweight championship fight from Yankee Stadium, N. Y. The fight, prompted by the International Boxing Club and set for closed-circuiting by Nate Halpern's Theatre Network Television, is expected to draw over 200,000 viewers to the theatres and drive-ins with the gross seen as exceeding \$500,000. The admission tab, depending on the situation, will vary from \$2.50 to \$6.60.

Previous high for the medium was set last June when the telecast of the first Marciano-Charles clash piped to 61 theatres in 45 cities, grossed an estimated \$450,000. Possibility of \$1,000,000 gate, first ince the lush-days of boxing, is anticipated for tonight's events, between theatre tv and park.

The June fight brought in slightly over \$500,000 at the Yankee Stadium, and if this figure is duplicated and the theatre take lives up to expectations, the \$1,000,000 mark can be reached.

The current lineup of theatres, which includes eight drive-ins, represents 98% of available closed-circuit situations, according to Halpern. New York and New England, under an agreement between the BC and TNT, will both be blacked out, with theatres in a 50-mile radius in both areas denied the, attraction. In addition, theatres in certain cities—such as Fortland, Ore.; Seattle, Wash., and Binghamton, N. Y., for example—could not obtain the event because the AT&T could not clear the necessary long lines. Large-screen theatre tv. partic ENTRATTER-SINATRA

Winner by nearly a five-to-one nargin was the Dubuque-Jerrold Television Cable Corp., a firm owned by Jerrold Electronics Corp., which has outfitted 262 or approximately 80% of all the community antenna systems in the country and has management or stock interests in 18 of them. rate policy vs. personalities from abroad.

Kohner observed that where the European industry was becoming increasingly international-minded, with stars from different countries well known all over the Continent, Hollywood was standing aloof. "It's a difficult thing to understand," he said. "The producers know perfectly well that if they use a foreign name in a part it'll do them a lot of good in Europe and also in the U.S., where audiences are looking for new faces. Still, it's more difficult than ever to sell a foreign personality to Hollywood." Hollywood prefers to use established U.S. names over and over again rather than try to introduce a new element, Kohner complained. "It's even difficult to get people to look at films with these foreign players," he said.

Kohner, who attended the Venice film fest, said he strongly favored an international film festival in Hollywood. "That's the logical place for it." he maintained. Everyone in the world would flock there." He reported that U.S. representation at the Venice affair was unimpressive and haphazard as far as talent showing was concerned. If don't quite see why the American companies continue to participate in these festivals," he opined. "They're all pre-arranged, anyway. It's politics, pure and simple. Prizes aren't really given to pictures because they have outstanding merit. It's deplorable."

He said he would attempt to rouse interest in Hollywood in an international competition to be held there.

Mozart Pumpernickel Mixes With Opera For Salzburg's Big Splash By SIMON BOURGIN

By SIMON BOURGIN

Salzburg, Sept. 7.

It's been said that Bayreuth lives for Wagner, and Salzburg lives off Mozart. This is worth some thinking, now that Salzburg has again held the annual musical orgy devoted to its favorite son. This city has Mozart's birthlouse and his sister's grave. It also has, after the composer, a Mozart bridge, square, hotel, cafe, laundry, bathhouse pastry shop and musical college. There are Mozart cigarets, Mozart balls (chocolate), and there even Mozart pumpernickel.

Being also a member of the church council of this town, he knew that not only objections had been raised, but that the other members of the council would try to prevent the showing of certain too sexy scenes.

The censor had an idea, He bribed the operator and was in the cabin whenever the picture was shown. Whenever one of those objectionable scenes would appear, he covered the lens with his hand. Protests by the audience induced the manaiger to investigate. Pic is now shown without the "black hand." The censor was fired from the church council.

MPAA Deal Halts German Move To Cut U. S. Entries

Possibility of a serious drain on Yank earnings in Western Germany, which is now regarded as second in importance only to England as a foreign source of money for American film companies, has been averted. Accord, which runs to September, 1955, provides that the American distributors will voluntarily limit themselves to the sale of 200 films in the year to that territory. This is the same number which had been sent over the past year. Spurred by local W. G. film interests, a move had been underway to cut the imports from the U. Goldwyn Holds Off On 'Guys and Dolls' Distrib

Hollywood, Sept. 14.

Although he usually releases through RKO, Samuel Goldwyn has not made any arrangements to date for the distribution of his forthcoming musical, "Guys and Dolls."

Understood the producer will not make any definite decision about the release of the film until he determines what process he will use. It may be CinemaScope, Vista-Vision or Todd-AO.

20,364 **Cinemas Of All Kinds Now Operating In U.S.**

Number of operating theatres in the U. S. today is 20,364, which takes in both regular theatres and drive-ins, according to a corrected 20th-Fox survey. Figured in terms of overall population, that's one theatre to each 7,390 persons. The tabulation by 20th in last week's VARIETY gave a higher total of 23,330 houses by including both operating and closed situations.

Overall count of 20,364 operating theatres includes 16,079 four-wall houses and 4,285 cozners. The last such survey, made by the Motion Picture Assn. of America in 1947, put the number of operating indoor theatres at 18,351, or some 2,000 more than are in business today.

N.Y.'s Gov. Thomas E. Dewey is headed for a key post in the Motion Picture Assn. of America, it's reported in the film industry's upper-echelon circles. He recently announced intentions of retiring from public life upon windup this year of his current term.

Reports of the status he'd have at MPAA are unclear but it's emphasized that in no case will Dewey change Eric A. Johnton's role as president. An important spot now open is head of the producer-distributor association's Hollywood office. Johnston, as president also (Continued on page 14)

also in arranging coproduction and package deals.

In reporting this on his return from Europe last week (11), Coast talent agent Kohner explained that the expansion and consolidation of his European representation was made necessary by the increasing exodus of Hollywood talent abroad and the fact that inadequate arrangements exist there to look after the Americans' interest.

Kohner said he had found a great deal of interest among European producers in the use of American talent, not only for the marquee value of the names in the U. S., but also in other countries. One of the services his new outfit, will perform will be to popularize ctrain players

Adjunct to U. S. Scene
Kohner firmly believes that the foreign market is now an important and necessary adjunct of the U. S. show biz scene and financial returns, and that it needs a more settled interchange now. He proposes to have a service for foreign producers which would analyze scripts and suggest appeal for U. S. narket and then supply English script for pre-dubbing (i.e. shooting specially synched closeups and medium shots) which would lend an English version palatable for the American market. He also believes that most pix of U. S. potential would be immeasureably aided by a big American name in the cast, and he says that this will also work for the benefit of the star and U. "We don't think the agreement practicable as far as our organization is concerned," he declared. "If it is put on a practicable basis we might consider it."

Walsh pointed out the danger in the pact as far as it applied to IA's relations with NABET, a CIO affiliate: "That organization never did have jurisdiction over films," he said, "They've been in it just a year and have been trying to take over in television."

The IA chief said there was no bitterness resulting from Roy Brewer's challenge of the Walsh slate at the recent convention. "It was fought out at the convention," he said, "and when the delegates left, it was with a good feeling. Everything worked out satisfactorily."

CEA RAPS 20TH-FOX'S C'SCOPE EXPLOITATION

London, Sept. 14.
A sharp rap on the knuckles has been administered to 20th-Fox by technical experts of the Cinematograph Exhibitors Assn., who criticize the company's methods of CinemaScope exploitation. A report submitted to general council last week on the recent demonstration with the new Bausch & Lomblens admitted that there was a much higher quality of definition and improved color reproduction. It was unfortunate, the report adds, that the demonstration was marred by "spurious comparisons" with pictures of other aspect ratios and by the improper use of stereo-

and by the improper use of stereo-phonic sound recordings. The en-hanced quality of magnetic record-ing was destroyed by excessive vol-ume or loudness. The report also complains of the "exorbitant price" still being charged for anamorphic

lenses.' CinemaScope, the report con-cludes, has a long lead over other systems, but when VistaVision films are available it will be found that they can be shown in large and small theatres with "equal fa-cility and much less cost."

Hot TV Doesn't Dent B.O.

Film theatre business around the country Sunday night (12) was normal, i.e., consistent with the boxoffice action of the recent past. The number of stout moneymakers in release continued to show drawing power and the milder programs reeled in just about the amount of coin expected.

All of which sounds routine except for one factor. In a large sense, late Sunday was getaway time for television's new season. It was the first weekend following Labor Day and the public had made its summer-to-fall transition. Two tv shows in particular—Ed Sullivan's "Toast of the Town" salute to Darryl Zanuck on CBS, and the season's first spectacular, Max Liebman's "Satins and Spurs," 90-minute original musical starring Betty Hutton—were highly touted and, as anticipated, shared a kingsize living-room audience.

were highly touted and, as anticipated, shared a kingsize livingroom audience.

Video programming of this type not long ago was murder on
theatremen. But now, states RKO Theatres president Sol A.
Schwartz, the public is "picture minded." There are many clicks
among the Hollywood releases and now "we're in the race, whereas
a few years ago we weren't even running. This is encouraging,"
sums up Schwartz.

Reports from many key points mirrored the normalcy in ticket
sales. Broadway firstrun managers said, they virtually were unaware of any tv competition. Ditto for neighborhood spots i
Manhattan, Brooklyn and the Bronx. Only Chicago reported some
softness, a slight dip in nabe revenue. No apparent effect was
found in L.A. Minneapolis and in the south.

New England was unique. Business was off, but this
the wake of hurricane Edna.

N.Y. circuit owner Harry Brandt provided this footnote: "We
were frightened because we didn't have any big pictures. But
comparison with last year showed that the drop in business
substantially less than what we expected."

Inasmuch as these houses do the bulk of their business during weekends they probably wouldn't be hit financially by the limited operation, it's pointed out. At present the boxoffice take on most of the nights which would be eliminated is negligible and it decreases as winter's rigors increase, says S. D. Kane, NCA executive counsel.

Dallas, Sept. 14.

Midwestern Security Life Insurance Co., of Texas, which will cater to people in the film industry, has been formed here, according to John J. Houlihan, prez. He is local branch manager for Republic Pictures. A site is being selected for either purchase or to build a local office. Temporary offices will be at the film distributing center here.

Should Midwestern become a national company, as is expected, it will continue to make its headquarters here. It will engage in life, health and accident, and hospitalization insurance coverage.

Stock will be offered primarily to people in the motion pic biz, and the first 50,000 shares will be sold at \$10 per share. William J. Garrett Co., local securities firm, will handle stock sales.

Other members of the film industry on the board of directors are Claude Ezell, prez of Claude Ezell & Associates, John Franconi, prez of Capitol Pictures; E, V. Green, prez of Texas Theatres, and C. V. Jones, yeepee of Rowley United Theatres.

'Leagues' Distrib **Selling Plans To Be Set This Week**

Distribution outlet and sales and merchandising plans for Walt Disney's "20,000 Leagues Under the Sea," reputedly the producer's costliest pic to date, are to be blueprinted in a series of Coast conferences this week.

Leo Samuels, global sales topper, headed a homeoffice contingent of execs who winged to the studio. over the past weekend to confab with Walt and Roy Disney, Group included Irving Ludwig, domestic sales chief; Ned Clarke, foreign manager, and Mort Myerson, advertising exec.

Indications so far have been that the Disney epic, which represents a negative cost of over \$5,000,000, will be released through RKO, thus continuing the indie filmmaker's tieup with that company. However, no deal has been set as yet.

Key RKO h.o. execs also are on the Coast this week for confabs which could well have a bearing on a new pact with Disney. Walter Branson, worldwide general sales manager; Herb Greenblatt, domestic sales head, and Nat Levy, eastern-southern division sales manager, are conferring on the RKO lot in Hollywood with James R. Grainger, president, and C. J. Tevlin, in charge of studio operations.

The Stodel-Bloomberg party has been getting the VIP welcome from Spyros Skouras, Murray Silverstone, George Weltner, Arnold Picker, Danny Kaye, et al., absorbing American atmosphere; tradewise and otherwise. They arrived from Europe buffeted by Hurricane Carol two weeks ago, but "American hospitality has been such a terrific antidote," says Stodel, "that we have all but forgotten it."

QUALITY FILMS DRAW SUPPORT

Quality pix are accomplishing what the industry's 1952 "Movies Are Better Than Ever" campaign failed to do.

The b.o. is zooming in all parts of the country, and what's more, the nation's editorial scribes are catching on and are giving films the kind of support which millions of dollars couldn't buy.

Survey of editorial comment shows the papers intent on the upbeat angle, singing Hollywood's praise and observing wistfully that the prophets of gloom were dead wrong when they predicted the demise of films.

"Maybe it's a renaissance, or maybe the critics who said the motion picture, industry was dying were wrong," commented the New Orleans Times-Picayune. "Whatever the explanation, New Orleans largest theatres have been doing record business at their boxoffices the past couple of weeks. Perbaps this experience simply reaffirms what many veterans of show business have insisted all along, 'Give'em good pictures and you'll, draw good crowds."

And the Lexington (N. C.) Dispatch opined: "The motion picture has a definite place in American life and recent developments in the industry indicate its importance. But that place cannot be properly filled by 'playing down' to the intelligence of the people. Fortunately, those who direct the great motion. Better motion pictures are (Continued on page 16)

MPAA Shifting Corwin To Coast in New Spot

Alfred F. Corwin, information director of the Motion Picture Assn. of America's N. Y. office, will shift to the Coast early next month to work on a new overseas information program, MPAA president Eric A. Johnston announced yesterday (Tues.).

Corwin will be associated with Clarke H. Wales, secretary of the Studio Publicity Directors Com-mittee of the Assn. of Motion Pic-ture Producers and with the stu-dios' International Committee.

Allied Prez Gets 'Caine' Despite Assn. Stance

While Columbia has been one of the prime targets of the Allied States Assn. blasts about film particularly (concerning terms for "The Caine Mutiny," it was disclosed this week that Ben Marcus, president of Allied, has contracted for the film at Col's terms. "Caine" was made available to him in three situations in Beaver Dam, Appleton and Menomonie, Wis., and he accepted deals based on the 70-30 split for each of them.

It's common practice for thea It's common practice for thea-tre men to beef about the costs of pix but still buy them, of course. Marcus' position is not the usual case, however, considering that numerous Allied national and regional leaders have singled out "Caine" for particularly unfavor-able spotlighting. North Central Allied picketed Col in Minneapolis this week protesting high terms

Allied picketed Col ire Minneapolis this week, protesting high terms (see separate story).

Formula in licensing "Caine" provides for 70% of the gross to the distributor, 30% to the exhibitor and a guarantee that the exhibits net profit will be a minimum of 10% of the gross. Howebver, there's a reverse guarantee to Col which directs that the distributor will receive a minimum of 50% of the gross. Thus, if business is slow this reverse guarantee could cut in on the theatreman's 10% profit guarantee.

Allied Kudoses Montague on Courage But Raps 'Appalling' Terms of 'Caine'

Columbia sales chief Abe Montague, Allied States Assn.'s main target in its blast at distrib sales policies, is nevertheless kudosed by the exhib org for "his courage in taking full responsibility for whatever Columbia does in pricing and selling pictures." While Allied notes, in its comprehensive report on the recent talks with the film company sales managers, that several "hid behind the circumstance" that the terms were being fixed by an outside producer, it points out that Montague "declared firmly that he would not handle a picture for another producer unless he was given a free hand and could sell upon any terms he deemed advisable." Columbia sales chief Abe Mon- | mands in addition to 70% of the

Montague's courage, however, did not stop Allied from terming his "Caine Mutiny" policy "as the most appalling terms ever demanded" and one which "ill stand manded" and one which "ill stand in motion picture history as a mon-ument to that company's greed ..." Col is asking a 70-30 split for "Caine" with an indicated 10% profit to the exhibitor, but de-

mands in addition to 70% of the gross, that the exhibitor give it a 50% minimum guarantee.

"This creates a precedent," says Allied, "to which the exhibitors dare not accede, or allow to spread. If the picture does not measure up to Columbia's exalted notions concerning it, the exhibitor's 10% profit stands to be wiped out by the 50% minimum guarantee, and he will have played 'Caine' to the glory and enrichment of Columbia and the impoverishment of himself."

The report, compiled by board chairman Abram F. Myers, notes that a recent complaint has been the raising of the floors and lowering of the ceilings in a revision of percentage scales. The popular scales of 25% to 40%, it's claimed, are being raised to 30% and 35%. minimums. In addition, it's pointed out that the scales are becoming useless with the sudden increase of 40%. 50% and 70% pictures. The distrib argument in favor of raising the floors is based on the (Continued on page 14)

Richard F. Walsh, prexy of the International Alliance of Theatrical Stage Employees, disclosed this week that the IA has already approached Eric Johnston, president of the Motion Picture Assn. of America, about labor representatives taking part in negotiations with foreign governments on film agreements. Walsh said that the MPAA topper thought it was a good ide: but that nothing had been worked out yet.

In revealing this bid to Joh aton, Walsh vigorously endorsed the idea of a labor seat at the conference table as expressed by Tom O'Brien, British labor leader and MP, during his recent visit to the U.S. "That's been our idea for some time," Walsh said. While referring specifically to Anglo-American talks, Walsh also feels, that labor reps of other countries should participate in joint talks to serve as advisors on "anything that comes up affecting labor in both countri." He pointed out that the U.S. Government in talks with foreign governments and in matters dealing with the United Nations usually has a labor advisor present. Reds Woo India Via Moscow Fest

Soviet courtship of the Indian film industry is being intensified via an Indian film festival skedded soon in Moscow and several other Russian cities. Reds are purchasing five Indian government documentaries which are now being dubbed into various Russian dialects.

Festival was arranged by N. P. Kulebiakin, Sovexportfilm rep in India, who also arranged the purchase of the Indian exhibits at a cost of 300,000 rupees (\$63,000).

Russia coincidant with the festival, Composition of the group hasn't been announced yet but is likely to include personnel connected with the making of the festival entries. This is the latest move in the Soviets' "cultural offensive" in India. The Russians sent a large delegation to the last Indian file festival, at which time they garnered plenty of newspaper space with offers to ald the Indian industry. Soviet- Indian coproduction is again on the agenda of the Indian group, which is to go to Russia for the forthcoming event.

STATEWIDE ITO MEETS ON HIGH FILM PRICES

Allied Artists can very legitimately give the same type of heavy exploitational campaign to this film to back saturation bookings, already announced, as it accorded its "Riot in Cell Block 11" earlier, this year. Picture is a sock bigcity police story packed with sex as well as violence and excitement and should be a hefty grosser for the studio, particularly in situations leaning toward strong melodrama.

drama.

Authoritatively produced by Hayes Goetz, who gives it honest treatment straight through, film is a welcome switch from the current trend of bad-cop pix. The politics of a metropolitan police department backdrop an almost documentary narrative which has been imaginatively directed by Joseph M. Newman with punchy overtones. William Sackheim and Daniel Fuchs' hard-hitting screenplay, based on former's original, also carries femme appeal via Jan Sterling.

Fuchs' hard-hitting screen, based on former's original, also carries femme appeal via Jan Sterling.

Feature is marked by standout portrayals of a hand-picked cast I who insert forceful realism into natural characterizations. Gary Mertill, a police captain who had passed his bar exams and is about to leave the force, is prevailed upon to head the notorious Heights district of the city, where conditions have reached the point that no one is safe. In his revitalization of his department and attempts to solve a murder he meets with opposition both from some of his own men and those above him, but finally cracks the case and whips the district into shape.

Merrill gives true meaning to his part and Miss. Sterling belts over the role of a tough blonde who is used as an alibi by Chuck Commors, excellent in his characterizing of the murderer. Actress stages a clever striptcase which can be used for potent promotion. Regis Toomey as Merrill's second-in-command, Lamont Johnson as a vet detective at first antagonists to his new captain. Pat Waltz as a new plainclothesman who accidentally shoots an innocent by stander to bring city wrath down upon the captain, and Emile Meyer, the police chief, score heavily. So, too, do Paula Raymond as Merrill's patient wife, Florenz Ames, as underworld leader, and James Westerfield, aging police captain succeeded by Merrill.

Technical credits match up, Ellis Carter's cameras aiding the fast action and Lester Sansom and Samuel Fields' editing being tight. Music by Hans Salter catches the pace and David Milton's art direction gives story fine backing.

Hello Elephant!

Hello Elephant?

"Hello Elephant!" Italian import which opened at the Fifth Avenue Cinema, N. Y., Thursday (9), was reviewed by VARETY, Aug. 20, 1952 at the Locarno film festival under its original title of "Buongiorno, Elefante!." Arian Pictures is distributing the Vittorio DeSica starrer in the U. S.

Hawk, in appraising the Rizzoli-DeSica production, opined that "under the DeSica banner, and with word-of-mouth aid, it should get a run in the special spots in America." Picture concerns an impoverished schoolteacher who tries to keep his family going in face of economic adversity. "DeSica is fine as the teacher," reviewer opined, "but the film's value lies in its story and the warm, optimistic humor it produces."

presentation has some sexy angles that offer an exploitation twist. Peggie Castle and Lita Baron, accorded star billing, are pleasant to look at in a flock of loweut gowns that point up their visual assets. Mississippi terrain, where the film was lensed, plus the accents of most of the supporting players, add up to sales appeal in the south. But for the general market, 'James' Women,' will best fit as a companion feature to stronger product. The. D. D. Beauchamp screenplay is a contrived yarn minus the majestic mountain scenery found in most oaters. Moreover, a chase through a Mississippi cornfield lacks the glamor and excitement that's conjured up when hard ridin' hombres head the stage off at Eagle Pass.

Story has Donald Barry the title role on the lam in a small Mississippi town, along with brother Frank (Jack Beutel) plus a number of other cohorts. In rapid succession Barry is enamoured of saloonkeeper Miss Castle, songstress Miss Baron, banker's daughter Joyce Rhed and cattle owner Betty Brueck. Taunted by his followers, he asserts he's merely using the femmes as a means of stealing enough coin to make the trek back west. The footage becomes rather tedious before the James boys finally hit the homeward trail. Performances under Barry's direction are hardly credible and the film takes on the aura of a satine, although the cast was probably playing it straight. Barry portrays James much too broadly. Beutel, however, is believable as Barry's first lieutenant. Miss Castle deserves better material than she was handed here. Her knock-down and drag-out brawl with Miss Brueck, for example, is more ludicrous than dramatic.

Miss Baron, aside from her decorative values, warbles as brace of so-so romantic ballads—"Careless Lover" by George Antheil and "In the Shadows of My Heart" by Stan Jones. Other players, most of whom utilize the Southern vernacular, are fair.

United Artists release was produced by Mississippi theatreowner Lloyd Royal and T. V. Garraway, a businessman from the same state. Camerawork of Ken Peac

movement. Narrative is further weakened by liberal liberties taken with history. Plottage deals with the efforts of Dale Robertson, a cavalry major who believes in fair treatment of the Indians, trying to keep peace between the redskins and whites. On the Indians' side, there is also Sitting Bull, who has the same idea; even after many of his people have been killed by the whites. For recusing to fire on some Sioux escaping from an Indian agency, Robertson nearly is drummed out of the service, but is saved by the Intervention of President U. S. Grant, with whom he served in the Civil War.

Assigned by the President to arrange a meeting with Sitting Bull, Robertson returns west and makes the contact, but while awaiting the arrival of the President, war breaks out when Custer disregards orders and moves in on the Indians. Robertson is courtmartialed and sentenced to death by a traitor when he prevents further bloodshed by leading the Indians saway from the cavalry, but is again saved by Grant when Sitting Bull arrives at the fort to explain the young officer's actions.

This Wayne Morris western stacks up as standard fare for the giddyap trade, its catchy title offering exploitation potential. While long on dialog, in its action scenes there's plenty of punch.

In a case of mistaken identity, Morris rides into the outlaw-ridden town of Outpost and is immediately made a deputy sheriff, It's believed he's the gunman the sheriff has summoned to rid the town of its vicious element and clean up rustling activity which has been depleting ranchers' stock. Although his true identity is revealed, hero stays to accomplish the job and is kept on as sheriff. Morris delivers rather woodenly, but gets by in role with the able support of Morris Ankrum, as the sheriff, Roy Barcroft, a wealthy rancher under suspicion of heading the rustler operations, and Beverly Garland, who provides the romantic interest as latter's daughter. William Phipps is okay as the real outlaw leader and Robert Wilke scores as his aide.

Vincent M. Fennelly provides film with suitable values and Lewis D. Collins' direction is as good as the Dan Ullman script will allow. Joseph M. Novac's lensing is up to the requirements of piece and balance of lechnical credits also rate.

pleasing second feature for local houses.

In a drab area of London a benign old man runs a pawnshop with a multiplicity of oddments and a rare collection of old musical boxes and figures. He is confronted by a ravishing blonde in floating draperies who wants to hock her harp. It had been revealed through cloud shots and vocal commentary that an angel had been granted permission to visit mortals on a goodwill trip, and her first need is cash. She goes to a dogtrack, where she makes enough to live on, and proceeds to exert her benevolent influence and smooth out troubled paths in the "Passing of the Third Floor Back" tradition.

paths in the "Passing of the Third Floor Back" tradition.

Diane Cilento, who won a film contract with Sir Alexander Kordafter her performance in "The Big Knife" last year, has no great strain put on her acting abilities in this, her first screen role. She looks ethereal and attractive as the heavenly messenger, tempering her beatific demeanor with an occasional impish twinkle. Felix Aylmer is superb as the old pawnbroker and Jerry Desmonde brings a sparkle of worldly trickery as a livewire salesman. Shella Sweet and Philip Guard give a good account of themselves as the lovers, and Apyllis Morris contributes an excellent character study of a venomous busybody. Supporting cast makes a realistic framework to the story, and direction by Alan Bromly is simple and well defined.

Variety Berlin mugg, Hans Hoehn, footnotes: "Columbus' is frankly just a poor film. In the first place, it is overdone all through. In many instances it merely reveals the filmmakers' bad taste. It's so bad it almost doesn't deserve any fuss being made over its misguided attempts at hunor or satire or whatever, Alexander Paal & Co were trying to prove. Local press reaction was only so. So. Crix didn't join in any arguments. As to the lay public, I feel most of the locals don't take this film with any degree of seriousness. High Ct. to Rule on Philly Consent Decree Quirk

Washington, Sept. 14.
Supreme Court was asked last week to decide whether a consent decree against a major picture producer can be related to a local situation in a private antitrust case. Question was posed in a petition filed by Miss F. E. Harrison, owner of a theatre in the Philadelphia Main Line suburb of Bryn Mawr, for review of lower court decisions against her in a suit charging eight major distributors, Warner Bros. Circuit Management Corp. and Stanley Co. of America with conspiracy in giving the Warner theatre in the area firstrun preference. Miss Harrison contended the lower courts should have allowed evidence the Paramount consent decrees, The distribs, in opposing review, said the Paramount case had been fully explained to the District Court jury and evidence had shown that the distributors acted independently. The Court of Appeals, Third Circuit, upheld the District Court.

Although the curtain time was midnight, over 3,000 persons turned, out for the private N.Y. unveiling of Paramount's "White Christmas" at Radio City Music Hall last Wednesday (8). No formal invitations were sent out, Par reps having tipped off some reporters and columnists via telephone calls.

Barney Balaban, film company prez, surprised by hefty patronage, commented: "What were we giving away? I said okay to Jerry (ad-pub v.p.) Pickman when he suggested a midnight preview on account of VistaVision requiring the Music Hall screen, But I never expected such an all-inclusive show business turnout."

Among attendees were prominent figures in the various entertainment fields, including members of current legit shows, music, radio-ty and the agencies. Irving Berlin, who did the "Christmas" score, and Danny Kaye, who costars with Bing Crosby, also were present.

"The glorification of youth by Hollywood not only reflects current "The glorification of youth by Hollywood not only reflects current attitudes in society but does a great deal towards intensifying them. If we can motivate picture makers to examine this problem themselves, progress will be made." This was the reply made Thursday (9) by Al Abrams, research specialist and executive assistant to N.Y. State Sen. Thomas C. Desmond, chairman of the Joint Legislative Committee on Problems of the Aging, whose recent report, "Growing With the Years," criticized Hollywood's approach to senior citizens. The Motion Picture Assn. of America was one of those making a quick response to and a sharp denial of the committee's complaint. A letter to Senator Desmond at Newburgh, asking how he would suggest that motion picture producers change their slant on the aging, brought the comment by Abrams.

He wrote: "The only psychological method of altering attitudes is not by speeches or statements, but by having the individual's whose

Marilyn Monroe arrived in N.Y. for "Seven Year Itch" locationing last week and bowled over the N.Y. press. Greeted by some 500 people on her arrival, including about 60 scribes and photogs, the 20th-Fox star landed on Page 1 with pix and stories in every afternion daily, reviving memories of another day when such attention to Hollywood players was more commonplace. It was La Monroe's first visit east in three years. Novel touch was added by the coverage of her arrival by tv cameras sent to do a remote for the Dave Garroway "Today" show on NBC. Since Miss Monroe's contractual obligations limit her tv appearances the typhore kept at a respectful distance. tv appearances, the tv boys kept at a respectful distance.

Revising its entire policy of tradeshowings; Metro reportedly is weighing a return to exhibitor forume as means of contacting theatremen both on sales policy and the exploitation of upcoming M-G ams. While formal trade showings, which have been costly and poorly attended, will be dropped, the film company is nevertheless considering ways to best present its product to exhibs. Success of the special showings of such pictures as "Seven Brides for Seven Brothers" and "Kiss Me-Kate" has given the company an idea that perhaps this technique is the best for introducing product to theatremen as well as to the vast number of opinion molders, as represented by the press, radio-tv, civic officials, and club men and women. In the case of "Brides," the invitation to the employees of rival film companies not only paid off in goodwill but also provided a potent word-of-mouth force.

Revival of the forum, policy M-G discontinued two or three years ago, perhaps stems from the recent talks between sales chief Charles M. Reagan and a committee from Allied States Assn. Reagan was commended for the manner in which he received the group, and this give-and-take session may have given the sales topper the idea that closer contact between exhibs and distribs, via a thorough thrashing out of the problem of both buyer and seller, may lead to better relations and bring to an end the bitterness that now exists.

Eddie Ruben has announced that he'll install the equipment in all of his 13 outdoor theatres before next season's start.

Included among th Ruben drive-ins will be three new ones at Devils Lake, N. D., and at Montevideo and New Ulm, Minn.

By the end of this summer's outdoor theatre season, within the next four to six weeks, there will be only four of the territory's 86 ozoners that have converted to one-track optical sound C'Scope.

Despite indications that unless they qualify for C'Scope, the drive-ins may be faced with a product shortage next year, and that such a condition is likely to become increasingly worse during near-term subsequent seasons, many operators still are insisting they'll remain off the C'Scope bandwagon until there's a change in sales policy.

Already suffering from the usual post-Labor Day holiday lull, Broadway first-runs were delivered a body blow by Hurricane Edna Friday night and particularly Saturday (11). Heavy rainfall, high winds and constant reminder by radio and to about the storm kept thousands home and cut deeply into attendance. Brisk, clear unusually big uplift at the box-office, but further inroads were suffered Monday-Tuesday (yesterday) with the reopening of schools. Launching of two prize tele shows Sunday night meant little or nothing to the Broadway box-office, biz running almost the same as the Sunday of a week ago which was just prior to Labor Day.

PICTURE GROSSES

Los Angeles, Sept. 14.
While the post-holiday lag and school reopening are having some effect on first-run grosses, the bit level still is encouraging here, even with only one newcomer this week. "Brigadoon" is shaping smart \$18,000, showcasing at the Warner Beverly, being the lone new entry.

smart \$18,000, snowcasing at the Warner Beverly, being the lone new entry.

Topping second-week films is "Egyptian" with sock \$27,000, at Chinese on showcase date. Samefigure is likely for second round of "Dragnet," playing in three spots plus additional coin from zoner playdates.

Other second-weekers are tapering although "Black Shield of Falworth" looms okay \$14,000 in three houses plus drive-in coin. Nudist "Garden of Eden" also is good \$8,500 in single site.

Still reaping substantial takes although in fifth week are "Gone With Wind" with \$20,000 in two spots, and "Rear Window," with hefty \$15,000 at Hollywood Paramount.

Biz is on the slow side with only one newcomer downtown currently. "Her Twelve Men" is just fair at the Adams. "Dragnet" in its third week at the Palms and "This Is Cinerama" at Music Hall for its 78th week are best of the hold-overs. "Gone With Wind" is kicking up a breeze, too, in its ninth round at the United Artists.

Decided tumble in downtown trade this stanza. Moderate returns on new bills with "About Mrs. Leslie" at Palace only so-so. "Duel in Jungie" at the Grand looks okay. "Dragnet" dipped sharply in second stanza at big Albee but is still a hefty secondistanza lure. Keith's outlook continues plenty clear on third session of "Read Window," smash, "Cinerama" is regaining hotsy pace after school bells brought matines letdown.

Esstimate for This Week
Albee ((RKO) (3,100; 75-\$1.10)—"Dragnet" (WB) (2d wk). Pleasing \$14,000 despite comedown from \$30,000 preem, partially blamed on return of kids to school.

Capitol (Ohio Cinema Corp.) (1. die) (13th wk). Rebounding to hotsy \$29,000 following last week's dip to \$26,500 when juve trade lightened at matinees.

First time anybody can 'remember when there hasn't been a single new pic in the Golden Triangle. Holdovers everywhere and they're all doing fine, with the possibility that two or three may stay on again. "Seven Brides" still is trim in third week at the Penn and may stay on. It's virtually certain that both "Broken Lance" at Fulton and "Magnificent Obsession" at Harris will get fourth weeks. "Dragnet" is down considerably at Stanley after a big opening while "Robinson Crusoe' holding up at Squirrel Hill. "Cinerama" is still knocking out fine money in nine months at Warner. Estimates for This Week Fulton (Shea) (1,700; 65-\$1.10)
—"Broken Lance" (20th) (3d wk). Holding up well at fine \$8,000 or over. That's more than enough to hold. Last week, \$9,500.

Harris (Harris) (2,200; 65-\$1.10)
—"Magnificent Obsession" (U) (3d. wk). Not too murch letup and heading for big \$10,000. with fourth week practically in the bag. Last week, \$13,000.

Penn (Loew's) (3,300; 65-\$1)
—"Seven Brides" (M-G) (3d wk). Trim \$13,000 or more. May hold. Squirrel Hill (SW) (900; 65-85)
—"Robinson Crusoe" (UA) (2d wk). Should be close to solid \$3,000 this week on top of \$3,500 last round. Stays again. Recent "Hobson's Choice" (U) broke all-time record at this art naber, doing over \$20,000 in six weeks.

Stanley (SW) (3,800; 65-\$1)

Topping second-week films is "Egyptian" with sock \$27,000, at Chinese on showcase date. Samefigure is likely for second round of "Dragnet," playing three spots plus additional coin from ozoner playdates.

Other second-weekers are tapering although "Black Shield of Falworth" looms okay \$14,000 in three houses plus drive-in coin, Nudist "Garden of Eden" also is good \$8.500 in single site.

Still reaping substantial takes although in fifth week are "Gone With Wind" with \$20,000 in two spots, and "Rear Window," with hefty \$15,000 at Hollywood Paramount.

Eady Fund Row Ended by British Exhibs Approving Provisional Plan

London, Sept. 14.

This should be about the final episode in the long serial concerning the futur of the Eady Fund. Last week the exhibiting industry indorsed the terms of the provisional settlement, and the new levy will come into operation towards the end of next month.

The agreement however was a vision of the provisional settlement, and the new levy will come into operation towards the end of next month.

will come into operation towards the end of next month.

The agreement, however, was not reached without a last-minute bid by two major independent theatre circuits to secure a postponement. Both the Granada and Essoldo groups protested the terms of the agreement, claiming they had not been adequately consulted, and that they would have to bear an unfair burden of the increased contribution. They particularly gibed at the fact that terms of the settlement had been the subject of prior discussion with the major theatre a oups, who would eventually get some of the money back via the production programs of their associate companies.

Under the agreement reached a

Under the agreement reached a week earlier, the difference between the exhibitors original offer of \$6,450,000 annually and the compromise offer of \$8,500,000 will mainly come from increased contributions payable on costlier adission prices. Cecil G. Bernstein contended that this placed an fair burden on his group of theatres. (the Granada circuit). The new Eady agreement, which has now been indorsed by the four major trade associations, like its predecessor, will run for three years. Apart from a small proportion earmarked for special purposes, the income is distributed among British producers on a percentage basis according to the disamong British producers on a per-centage basis according to the dis-tributors' gross. The average dis-tribution during the past year has been 34%. A couple of years back it was running at over 40%, but ince then there has been a decline in revenue because of a drop in ticket sales.

ACT Exec Pleads Vs. **Free Conversion Clause** In New Anglo-Am. Pact

In New Anglo-Am. Pact
London, Sept. 14.

A plea to the British negotiators to resist free convertibility during the upon ing negotiations for renewal of the Anglo-American film agreement have been made by George H. Elvin, general secretary of the Assn. of Cine Technicians. In a letter to the Times, he argues that such a step might lead to a cessation of American-sponsored British pix which would result in further decline in production facilities and employment.

Recalling that the statutory provision for the distributors' quota was dropped from the 1948 Films Act. Elvi avers that the Anglo-American film agreement has broadly had the same effect as the earlier legislation, and that U. S. interests have continued to produce in the United Kingdon An amendment to the Anglo-

all exhibitors to project squeeze prints in any squeeze ratio which was dropped from the 1948 Films Act, Elvi avers that the Anglo-American film agreement has broadly had the same effect as the earlier legislation, and that U. S. interests have continued to produce in the United Kingdoi An amendment to the Anglo-U. S. monetary pact permitting free withdrawal of earnings would he contends, no longer offer any inducement for Yank companies to produce in Britai.

Elvin also points out that the new methods of production, such as CinemaScope and VistaVision, are resulting in a reduction of total output by the Hollywood companies. Also, on the grounds of costs, it is unlikely there will be many British productions in those systems. Therefore, while th total number of films will be reduced, he contends that American pix will take a larger proportion of boxoffice receipts.

City Offers Support

City Offers Support

Vienna, Sept. 7.

The "49ers," so called here, because seating capacity in these theratres is 49 (state license needed only from 50 seats on), opened before the regular theatrical season started. They are also called cellar-theatres, but this does not necessarily indicate that they are located underground. In general, they are considered by the regular theatres as "appetizers," since people otherwise disinterested in drama and comedy might get an impulse to attend regular shows.

These 49ers are run on an almost strictly amateur basis, Best known of them are Esterhazy, Tribune, Secession and Little Stage, all producing more or less avant-garde plays.

Profits, if any, are divided, but the city of Vienna handed out considerable sums to help them get started this year.

UA's Worldwide Personnel Shifts

Series of merit romotions and key appointments within United Artists' worldwide sales organization were announced in New York last week by foreign chief Arnold M. Picker. John Neil, 'UA in Australia for the past 10 years and more recently branch manager in Adelaide, was named manager in Thailand, the replaces Harry Wilholt, resigned.

Succeeding Neal in Adelaide is Ron Jessup, who first joined UA's Australian organization in 1935. H. F. Gribble, formerly branch manager in Auckland, N.Z., and with the company for some 18 years, becomes acting manager in New Zealand, replacing Harry S. Withers, resigned.

Ted Rysfeld, formerly manager in Trinidad, has been shifted to Hong Kong in a similar capacity. Post previously was held by Arthur Solmson, resigned. William Korenbrot, onetime sales rep with Warners, Metro, and Film Classics in Panama, moves into Rysfeld's old beyth in Trinidad.

Leon Feldun, formerly manager in Puerto Rico is Sam Jones, once with Warners. in Indonesia. Picker also disclosed that Morton Raven, and John Stephens, two homeoffice "trainees," have been sent to Sydney, Australia, and Santiago, Chile, respectively.

The Society will continue under the management of Dr. William Gero who also operates the Pigalle nitery in Piccadilly, one of the few West End cabarets with a fullscale floor show. The Society, however, will have only single acts.

The other nitery to reopen is Ciro's Club which closed a few months back. No date has been set for reopening, but if present negotiations succeed it may resume activity within the next two to three months. Negotiations had been in progress for some months for a takeover of the club premises as a warehouse for Bermans, the theatrical costumers. This deal has apparently fallen through.

Kaufman Will Continue Production in Aussie: Sees Big Film Future

Sees Big Film Future
Sydney, Sept. 7.
Joe Kaufman, topper of Treasure Island Productions with Byron
Haskin and Martin Raskin, plans to continue film production at Pagewood Studios here throughout 1955. Trio recently put Technicolor "Long John Silver," starring Robert Newton, in the cansafter several months in this zone. "Silver" will be distributed in the Aussie and South Pacific zone by 20th-Fox.
Pic, biggest of its kind yet produced here, is due to preem around Yuletide over the Hoyts pic loop. U. S. distribution will be via D.C.A. under Fred Schwartz. "Silver" has been made in two versions—CinemaScope four-track and ordinary widescreen.

versions—CinemaScope four-track and ordinary widescreen.

Kaufman said that he would plane to Hollywood Sept. 17 to set further production plans covering next year and later would go on to New York and London before returning to his Pagewood base.

He added that he had just completed a deal with Aussie author Colin Simpson for his novel, "Come Away, Pearler," an adventure yarn of the South Seas. A deal also had been set for "Singapore," another adventure yarn. Talent would be imported from both U. S. and Britain, supported by local talent. Yarns would be scripted by Martin Raskin, with Byron Haskin directing. Kaufman went on to add that work was currently going ahead with 26 features in color on the adventures of Long John Silver. Each would him about 60 minutes and would be set in regular theatres before going over to ty loops.

Kaufman said there was "tremendous" opportunity her for film production. His company had been given every assistance by the Robert Menzies Liberal Party government and key government officials, Kaufman said.

It is estimated that the Casino will lose several hundred seats to set the house for the new installation.

M-G's 1st Postwar French Pic Rolls

Paris, Sept. 7.
This week Mitchell Leisen started the first big studio film to be made entirely in France since the war. This is "The Paris Story" (M-G), to be made with blocked funds and benefit from Paris Iocale in a CinemaScope dress. Even scenes supposedly taking place at an American airport were made at a masked Orly Field here to make this a pie completely "made in Paris." Even the film will be developed by French labs in East-mancolor, and 40 Gallic technicians have joined the nucleus of 10 U. S. technicians. Pic is a comedy-drama about a visiting American clergyman who almost gets tempted by a comely French singer, but avoids it to be true to his cloth. Steve Forest plays the troubled priest and Anne Baxter is the curvaceous chancosy. Miss Baxter's Gallic lingo.

plays the troubled priest and Anne Baxter is the curvaceous chantosy. Miss Baxter's Gallic lingo know-how will help in this. French thesps in the film are Simone Renant, Claude Dauphin, Victor Francen and Georges Galley. All speak English well. Film has an eight-week shooting sked and lenser Walter Wottiz hopes to get in the voluminous background footage i spite of bad weather. Also swelling the ranks of Yanks shooting abroad is Richard Sale in exteriors here for "Gentlemen Marry Brunettes" (UA), with Jane Russell and Jeanne Crain, and the recent Alfred Hitchocok lensing of exteriors for "To Catch a Thief" (Par).

'PET SHOP' TOO TALKY; UNLIKELY FOR LONDON

UNLIKELY FOR LONDON

London, Sept. 14.

"The Pet Shop," presented by James P. Sherwood at the St. Martin's Theatre last Tuesday (7), is a new play by. Warren Chetham-Strode which deals superficially with the problem of illegitimacy and adoption. The piece is full of talk but has little action.

It rarely succeeds in making its point and has limited prospects of survival. Press reaction was generally unfavorable. Principal parts are played by Adrianne Allen, Constance Wake and Peter Myers. Norman Marshall directed.

Henry Sherek presented a new farce, "All for Mary," at the Duke of York's last Thursday (9). It is an amusing trifle by Hapoid Brooke and Kay Bannerman of a frivolous French girl coping with two husbands, past and present.

Well acted by Betty Paul, David Tomlinson and Michael Shepley, play is directed by Jack Williams. Kathleen Harrison steals the honors as a ruthless old nursemaid.

Dated Excuse

Vienna, Sept. 7.
Because the Turks besieged Vienna unsuccessfully in 1683, repair work on the badly-damaged Burg Theatre is being delayed.
While working underground, difficulties arose due to a discovered fortress system, making new excavations necessary and changing architectural plans.

Mexico City, Sept. 7.

At least one cinema chair Teatros Nacionales, Andres Santo Teatros Nacionales, Andres Santos Martinez prexy, doesn't hold with the beef of certain local exhibitors about too many houses for a cinema public which the local trade estimates at 190,000. Teatros is spending \$1,440,000 this year building cinemas here and in the provinces. Four of them are here and five in the stix—one each in Tampico, Monterrey, Guadalajara, Puebla City and Torreon. All the rural houses will be Cinemascoped.

Puebla City and Torreon. All the rural houses will be Cinemascoped, Two local houses, the Cine Sonora, 4,000-seater and \$40,000-cinemascoped, and Cine Juarez, 3,000-seater, are skedded to open Dec. 20. Both will be second run. The other two, not yet named, will open in February. Besides, Teatros is spending \$25,000 Cinemascoping its flagship here, the swank firstrun Cine Chapultepec.

Trade points out, however, that all cinemas Teatros is putting up will be second run. They aver it's next to impossible to make a business of a firstrun here at the ceilinged 32c admission price. They admit, though, that thanks to greater volume at 24c, the second runs' price, cinemas less than first break can run in the black. However, they declare that starting a cinema now is much of a gamble. Nevertheless, the latest here, the swank Cine Paris, has made every post a winning one since it opened in June. It plays French pix only.

Best Edinburgh Fest Yet Winds to \$57,000 Deficit; Sadler's, 'Dream' Big B.O.

The 1954 International Festival of Drama and Music, which ended here Saturday (11), has been one of the most successful of the eight so far held. But deficit for the Festival is likely to reach about \$57,000. Highest debit figure was notched up during Festival of Britain year, 1951, about \$117,000, when booking of the N. Y. Philhamonic called for unusually heavy expenditure.

International Festival Fund, drawn upon for deficits, stands cur-

monic called for unusually heavy expenditure.

International Festival Fund, drawn upon for deficits, stands currently at \$224,400, and toppers of the Festival treasury expect if will soon reach \$300,000. Contribution from Scot Committee of the Arts Council of Great Britain was upped last year from \$15,000 to \$22,500, and a similar sum is promised this fall. Edinburgh corporation grant remains at \$45,000, and private donors have sent \$30,000.

Festival toppers shy from raising ticket prices, already high. They feel fewer tickets would be sold. Orchestral concerts regarded here as a luxury.

Bookings for the 1954 Festival were high for Sadler's Wells Ballet and "A Midsummer Night's Uream." There was heavy coin, too, for the Milltary Tattoo. Festival Club, social centre of the junket, has also pulled in good biz for food and drink.

Gross 1954 commitments ran to \$480,000 even before a single ticket was sold for this year's Festival.

The impetus to do more for the actors in the way of accommodation has been very much alive. There is talk of taking the 2,000-seater New Victoria Clinema. a J. Arthur Rank house; and turning it into a modern live theatre next year. And there are growing pleas for the building of an Elizabethanstyle Playhouse.

GET READY FOR M-G-M's "BEAU BRUMMELL"

FROM FILM DAILY—SEPT. 14, 1954

- • ONE OF THOSE PUBLICITY "BREAKS" that seldom come as a windfall for a movie is hitting M-G-M's new color production of "Beau Brummell" a month before release date. At the moment, it is still snowballing around the country. A "feud" between cities as to which has the most well-dressed and chivalrous men has developed, resulting in "Beau Brummell" publicity that already has piled up some 600 clippings on Howard Dietz' desk. The spontaneous stunt started in Boston when the head of the Chamber of Commerce there wrote to Dietz asking that the pic's world-premiere be staged in the Hub because Boston has "more well dressed men and more chivalrous men" than any other city. No sooner had this been printed in Boston newspapers, than the Houston Press took up the defense of Houston, Texas, to the tune of a four column story.
- ◆ THEN THE NEW HAVEN, Chamber of Commerce chimed in, with front page stories, declaring, among other things, that Yale has the best dressed campus. This not unnaturally started repercussions in other colleges. Next, the Washington Board of Trad > threw in its gauntlet and pointed to the nation's leading Beau Brummells in the White House (Eisenhower and Nixon). That resulted in a 400-word wire story by the Associated Press. . Some 500 papers printed the story. . . . Milwaukee's Association of Commerce quickly got into the act, deriding Boston's claims. "We put Boston to shame in baseball; we can do it in the Beau Brummell field, also," said the Association head—in the newspapers. The New York Mirror carried the AP story and the New York Association of Commerce and Industry roared its pride for New York as the one and only city of well-dressed men. The Chicago American gave the yarn a four column head and named local Beau Brummells. Mass. papers are giving page one space to the debate. The story is still rolling, and bids fair to make "Beau Brummell" one of the most-read-about movies in years. . . And M-G-M may wind up with a simultaneous 10-city-world premiere just to keep the Beau Brummell feud from becoming a United Nations problem.

THE NEXT STEP!

Meanwhile a Charter Committee of prominent people has formed "The American Society of Beau Brummells." Watch this group go into action with local chapters in 200 cities.

GET READY FOR "BEAU BRUMMELL"!

A sensational attraction launched by an unprecedented advance campaign! M-G-M will have a giant advertising and promotion campaign to climax the terrific advance publicity. Metro Unlikely to Join With ANICA; Italo Group Due in N. Y. for Talks

Chances of Metro joining ANICA, the Italian producer-distrib org, are very slight as the company is determined to preserve its freedom of action in the Italo market, it's understood. Metro is the only major U. S. outfit that isn't a member of ANICA.

Question of Metro coming into the ANICA fold will be raised when an Italian delegation headed by Eitel Monaco, ANICA prexy, arrives in N. Y., Sept. 27, on the Andrea Doria. He'll be accompanied by Franco Penotti, head of ANICA's distributor section. Renato Gualino, Italo producers' topper, precedes Monaco to N. Y., coming by air on Sept. 20. Also arriving is Renzo Rufini, manager of IFE's Rome office.

Motion Picture Export Assn.'s ANICA committee, consisting of Paramount's. George Weltner, Warner Bros.' Viole Cohen, and

unt's George Weltner, Bros.' Volfe Cohen and Paramount's Warner Bros. Volle Cohen and Metro's George Muchnic, has held meetings in preparation for the Italians and to hammer out the MPBA's position connection with the overall ANICA question.

MPEA's position connection with the overall ANICA question.

U.S. Members Unhappy
The Americans aren't happy with their voice on the ANICA board, and they are complaining that they are inadequately consulted on ANICA actions bearing on their interests as distribs.

Distrib section of ANICA combines a total of 10,455 votes, of which 3,465 are held by the major. American outfits, excluding United Artists and Columbia. Voting strength is arrived at by multiplying the number of pix handled by each distrib and the regions in which they are released. Distrib section is divided into three parts. Vs. Schines for \$35,000

Buffalo, Sept, 14.

Settlement of a \$450,000 damage suit brought in Federal Court by Carl B. Moore, exhibitor of Van Wert, O., against Schine Theatrical Co., Inc. and four other Schine corporations was reported here last week. Although the parties and their, counsel declined to discuss the amount, it was reported that \$35,000 had been paid in settlement by the defendants.

Moore's action, which was discontinued by an order of Federal Judge John Knight, was brought under the antitrust law alleging that the defendants conspired to deprive his theatre in Van Wert of first and second-run features in favor of two Schine theatres.

Other defendants named were Paramount, 20th-Fox. Warner Bros., RKO and United Artists.

Examiner's Decision Awaited as Ohio Row Re Trucking Goes On

Columbus, Sept. 14. Huntington-Cincinnati Trucking Lines, which has been involved in a running battle for months over film hauling rates with the Inde-pendent Theatre Owners of Ohio, appeared before an examiner of the Public Utilities Commission of Ohio and the University of the Commission of Ohio only a week ago to justify its request for a minimum rate of 25c a package. Some months ago when Huntington-Cincinnati tried when Huntington-Chieffich, the rate to put this rate in effect, the rate was suspended by the Commission until Dec. 4 at the request of the ITO.

Burden of proof for the new rate was upon the trucking company. The only reason attorney D. H. Armstrong offered for his trucking client was that parcel post, express and bus rates are higher than those of the truck company.

Robert A. Wile, ITO exec secretary, asked that examiner James L. Fullen take judicial note, therefore, of rates charged by the Walker Film Service, an H-C competitor over almost the same territory and Fullen agreed to compare the two tariffs. two tariffs.

An examiner's recommendation on the case is expected within a few weeks.

claim that exhibs are padding their operating expenses. Montague said plainly that he resorted to the minimum guarantee because of "exhibitors' dishonesty in reporting their operating expenses."

Allied's answer to this charge is "we again point to the remarkable fact that so many methods and devices for increasing film rentals became operative in such a short period of time—and that period happened so fortuitously (for the distributors) to coincide in point of time with the tax relief measure."

ime with the tax relief measure."

In a report on the print shortage, Myers says: "The sales executives denied that there is an artificial print shortage or that prints are being manipulated to enlarge clearance or delay availabilities. Some of them claimed they were supplying as many prints as in the past; others put the blame on the laboratories for failure or inability to fill their requirements." Metro's sales chief Charles Reagan said, according to Allied, that Metro's own lab, due to problems created by CinemaScope and stereo sound, had fallen behind in its work. He added, however, that the lab was rapidly catching up, and that by this month M-G would be able to supply the usual number of prints per picture.

Myers notes that Allied would take legal steps to restrain the film companies if it could prove they are engaged in a conspiracy to raise and maintain film rentals, either to confiscate the tax benefit or merely to make more money." However, he points out that the ex-hib org has been advised "that we could not prove such a charge."

declared last week. Paramount declared last week. Paramount Pix firmed up to 35 in Friday's session, where it was less than a point away from the highest price of the year. Preview of "White Christmas," initial Vista Vision pic, after the regular show last Wednesday (8) night on the huge Music Hall, N. Y., screen, was viewed as factor in this bullishness. This production does not preem at the Hall until sometime in October. in October.

Pictures Columbia hovered

prem at the Hall until sometime in October.
Columbia Pictures hovered around 31¼ on Friday, as compared with the year's old high of 31½. Great earnings for both "Caine Mutiny" and "Waterfront" provided the readiest explanation of the move. But the fight to gain a foothold in the company and force a more liberal dividend policy perhaps figured importantly in sustained interest in these shares. General Precision Equipment, which is cashing in on demand for more widescreen, tele equipment, etc., from the film industry, also drew attention because of the company's diversified interests in the airplane and military supply fields. It held at 45½, not far from the best 1954 price. RKO Theatres ran up to 81¼, where it was an eighth from the year's peak.
The fact that "The Egyptian" is shaping as a worthy successor of "The Robe," albeit not the same sensational sort of grosser, was rated as the current factor in the marked strength by 20th-Fox. It wound at 265%, even ex-dividend, for a gain on the week. Fact that there are more C'Scope installations being made daily by exhibs who would not come in for CinemaScope at the former costly outlay, also is rated a big plus item for 20th-Fox.

Republic Pix issues held around the best '54 level much of the week. CBS "A" shares climbed 2½ points to 64½, while the "B" stock advanced two points to the same level, RCA edged up to 32¾ for a minor gain on the week while Zenith was in like category, finshing at 70½.

However, the scene was eventually okaved.

ever, the scene was eventually okayed.

N. Y. censor's action recalls the banning of the film, "Birth of a Baby," many years ago. Action then created quite a controversy.

Censor statute in N. Y. still allows the banning of pix on the grounds that they are immoral (as re-defined earlier this year by the N. Y. State Legislature), obscene, indecent or tend to incite to crime. Re-submission of "Mom and Dad," a sex-education film, follows a pattern set following the U. S. Supreme Court ruling in the case of "La Ronde," which forced the Legislature to redefine the meaning of "immoral." General Impression has been gained since the court's ruling that the various cension has been gained since the court's ruling that the various cen-sor boards have leaned backwards to avoid another legal clash. A number of pix previously banned have thus been passed both in N. Y.

New Ohio Censor

and in other states.

Columbus, Sept. 14. Effective Thursday (16), the state Columbus, Sept. 14.

Effective Thursday (16), the state of Ohio will have a new chief of the Film Censorship Board. R. M. Eyman, assistant director of the Dept. of Education, will step up to the post of education director, which carries with it the job as titular hetd of the censor board. Eyman succeeds Dr. Clyde Hissong, who has held the top education spot nine years. It was during this period that anti-censorship forces got in some of their most telling blows against the state's 41-year-old film seissoring law, and lately Hissong has been kept busy in the courts with suits, injunctions and mandamus actions either aimed at lifting censorship altogether or lifting censorship altogether or shaking loose an individual pic-

shaking loose an Individual picture.

Eyman's views on film censorship are unknown but he can hardly do less than take Hissong's view of the rather plaguey post—that of upholding the law as long as it is on the books. Eyman' was appointed by Gov. Frank J. Lausche to fill out Hissong's term, which runs until August, 1957. However, a neconstitutional amendment approved by voters at the last election sets up a new state board of education, which will name the director to serve at its pleasure. It is now up to the next Ohio Legislature, which meets in January, 1955, to determine how the board will be set up and whether its members will be elected or appointed. All this will, in effect, have some bearing on Eyman's tenure.

Newly added to the list of subconcessions to the Codes' critics.

Newly added to the list of subject material now permitted is the use of "hell" and "damn." Both words came into prominence within the framework of the code in a relatively recent period. Hal Wallis' "Cease Fire" was given Code approval only on condition that they be deleted from the dialog spoken by American Gl's in Korean combat. The Code, as revised by the mPAA directorate at its Monday meeting, now provides that miscegenation, liquor and drinking are okay subjects if presented in "good taste." The Sioux City (Ia.) Other editorials comment on the reduction in the volume of pix put out, and the improvement in quality stemming from this concentration on content rather than numbers.

Georgia Radio-TV Loves Those Dems, **But No Runoff Coin**

Georgia's television and radio Georgia's television and radio mills' visions of extra coin via a runoff election two weeks hence went glimmering when Lt. Gov. Marvin Griffin spreadeagled his eight gubernatorial opponents and picked up all the marbles in the first primary held Wednesday (8).

Governor-nominate Griffin pulled something of a coup to win. Gov. Herman E. Talmadge, publicly disavowing that he was backing any. of the nine horses (one of them a filly, Mrs. Grace Thomas) in the race, got the word out on the quiet race, got the word out on the quiet to his machine that Griffin was his man. M. E. Thompson, a former Georgia governor, was supposed to have the inside track and predictions were that a runoff primary would be needed to settle the issue. That's where the tv and radio stations were supposed to reap another golden harvest. But, Griffin's landslide victory spoiled all that.

All nine candidates for governorship (victory in primary is all a candidate needs down here in this one-party Democratic state) used video and radio liberally. Although candidates are supposed to hold their campaign expenses to \$25,000,

Although the station management is making no statements on the situation at this time, it's understood that it's taking the position that the tele directors are supervisory employees and as such, not subject to union jurisdiction. As of last week, negotiations were continuing on a pact covering the floor men.

RTDG claims that "an overwhelming majority" of the station's ty directors have been signed up. Petition filed with the NLRB by attorney Stanford (Bud) Wolff states that "on Aug. 5, in a meeting with several employees involved called by Frank P. How best to streamline the 1956

topics to be discussed in Indianapolis this Saturday (18). A Special

Stephen A. Mitchell, chairman of
the National Committee, was authorized to appoint the committee

Among the beefs about the 1952 conventions in Chicago was that the tv screens showed the nation long, dull periods of speechmaking during which most of the delegates were absent from the floor. Requests have been made to tighten up the show by eliminating the windbags and waste motion.

Y&R'S \$67,000,000 TOPS IN TV

Dig Those Crazy Salaries

Indicative of those \$300,000-per-show tabs pertaining to some of the NBC-TV spees, as in the case, for example, of last Sunday's (12) Max Liebman-Betty Hutton "Satins and Spurs," initial production, are the stratospheric salaries and auxiliary coin deals in order to latch on to top marquee names. Miss Hutton's reported \$50,000 for her videbut under the Liebman spec banner is one off the alltime high figures for a tv one-shot.

However, it's the over-the-above commitments beyond strictly salary figures to which the networks are bound that has cued the "how-high-is-up" eyebrow raising. In the pacting of Ginger Rogers for the upcoming "Tonight at 8:30" spec, it was not just a case of shelling out \$40,000 for the star, but with it went a binder obligating the network to a \$10,000 wardrobe fee for Miss Rogers and permitting her to select her own producer (Otto Preminger) at \$12,500 for the onetime production.

Similarly, in the case of signing Ann Sothern for the 10-dayshence "Lady In the Dark" spec presentation, the necessity of NBC buying up a previous contract to which Miss Sothern was committed hiked the overall tab for her one-shot services to a reported \$60,000.

Lux TV Vs. Lux Radio

There Is a Difference Today On Pix Availabilities And Use of Names

Generally speaking, trade hepsters (and a good segment of the lay press chical fraternity) are of the opi ion that "the old gray mare ain't what she used to be" in paral-Coast-berthed "Lux Video Theatre" to its 20-year-old "Lux Radio Theatre" counterpart as one of the more vital, talked-about programming entities. leling the new hour version of West-

ming entities.

It has sparked considerable pro and con discussion as to the value of pix properties for adaptation to tv (in this instance Par product) without recourse to the big name stars who appeared in the original film versions. Also, in an era when practically most of the Hollywood film names have had at least one guestar exposure on the multiple half-hour vidpix shows, the Lux decision to clamp a \$3,000 celling on pix stars, thus restricting the roster of availabilities, is seen as a mitigating factor.

Whereas, too, only Par is in for

roster of availabilities, is seen as a mitigating factor.

Whereas, too, only Par is in for the Lux ride on the tv version, the radio show, whose top-rated status through the years has outlived most of the stars it showcased, enjoyed the benefits of major properties from virtually all the studios, including its stars.

But considered of even more vital consequence is the sentiment that, with feature films inundating the tv stations of the country, this is an era when greater importance is attached to original tv properties, as abound on the array of New York-originating hour stanzas such as "Robert Montgomery Presents," "Studio One," "Kraft TV Theatre," "Philco-Goodyear Playhouse," etc.

Ford 'Pressure' **Cues Dissolution** Of Hayward Unit

Behind the decision of NBC-TV last week to dissolve the Leland Hayward tv unit on the forthcom-ing Monday night spectaculars and install Fred Coe as executive pro-ducer of the series was the report-ed pressure from Ford Motor Co., via the Kenyon & Eckhardt agency.

via the Kenyon & Eckhardt agency.
Ford, along with RCA (also a K&E account) is sponsoring the costly one-a-month color spees and was concerned over Hayward's illness and inability (at least for the time being) to devote any time to the series. It's understood that Ford and K&E laid it on the line to NBC to do something pronto in resolving the "crisis," in view of the fact that Ford was predicating a major car sale campaign on the upcoming spees. When NBC finally decided on the release of Hayward, along with his associates, Richard Whorf and business manager Herman Bernstein, and instead install Coe and an entire new unit in the slot, K&E and Ford chimed in with an assent.

Actually the Hayward pattern of assigning individual producers to each of the specs will prevail, along with some of the personalities already designated. Thus Otto Preminger produces the initial one Howard Lindsay and Russel Crouse the second, with Alfred Hitchcock

21 SPIDERS MAKE TV No Longer 'Show Biz In a Hurry' AN AGENCY WEB

Young & Rubicam's \$67,000,000 in tv billings for the new season gives it undisputed leadership among Madison Ave. commission houses with a stake in bigtime video. That's enough billings to practically choke a minor network, certainly enough to keep it in Dūsiness for a whole year. And behind the "no-other-agency-canmake-this-statement" swelling of the Y&R coffers is a diversified roster of shows—21 in all—capable of programming a coast-to-coast network in itself.

On the personality front, for example, the agency boasts such names (even though some are only on a participating basis) as Arthur Godfrey, Bob Hope, Imogene Coca Joan Davis, Celeste Holm, Eve Arden, Ray Milland, Robert Young and William Bendix. For full hour dramatic s ho w c a s e s, Y&R is pledged to the Elgin "TV Hour" and the Goodyear "Television Playhouse." It's all over the lot on situation comedies ("Father Knows Best," "I Married Joan," "My Favorite Husband," "Our M is s Brooks," "Jamie," "Honestly Celeste," "Life of Riley," etc.). And under the Nat Wolf tv managerial aegis, the agency today has a bigger stake in filmed network programming than any other ad house (just Y&R, with an approximate \$8,000,000 of the \$67,000,000 representing spot buying, is now moving more and more into syndicated film buying, as for example on behalf of White Owl).

Oddly enough, despite the fact that Y&R shows are sprinkled all over the ABC, NBC and ABC video spectrum, the agency is almost totally bereft of any single show that can be called "agency programming—it he networks and the film boys are better equipped to turn 'em out, that's okay with Y&R, so long as they rack up the ratings, move the goods off the shelves and keep the clients happy.

Easier to Bring In a Legit Show In contrast to the "old tv" where a producer could get a show on the air in a week's time, or at the most two, the era of the spectaculars has brought in its wake a situation paralleling legit and the motion picture studios, with some of the upcoming video attractions requiring planning months in advance. Some of the NBC and CBS shows scheduled into December, January and February, for example, already have been blueprinted, with producer-director-cast-writer credits assigned. The "new tv" and scrapping of the "show-biz-in-a-hurry" technique was pointed up only last week in the Leland Hayward crisis" when NBC-TV, accompanied by prodding from the sponsor, Ford Motor Co., discovered that time was running out on committing the November and December Hayward spees to paper, recognizing that by mid-September even the January attractions require attention. Hence the decision to disband the Hayward unit and install Fred Coe as exec producer.

With such pix personalities as Ginger Rogers, Betty Hutton, Ann Sothern, Frederic March, Claudette Colbert, Ethel Merman, Judy Holliday, Alfred Hitchcock, Otto Preminger, Billy Wilder, F. Hugh Herbert to mention but a few of the Hollywood luminaries involved in the NBC-CBS major showcases—it's now a case where the network must resolve its own schedule months in advance to avoid conflict with pix studio commitments. This, aside from the fact that the very nature of the specs themselves require detailed, longrange planning, since it's now a case where the vehicles themselves must be built around the stars.

One producer with a Broadway legit background now engaged on the tv spec front put it tersely: "Believe me, it was easier bringing in a legit show."

Another GF daytime casualty, "Second Mrs. Burton" (now owned by CBS after its surrender by Young & Rubicam for GF) will also get the benefit of Armour coin.

P&G, it's recalled, checked out a couple of weeks ago on NBC Radio's "Welcome Traveters," so it's assumed the soap company had "Wendy Warren" on the rival web in view at cancellation time.

TELEVISION REVIEWS

By GEORGE ROSEN

Pat. Weaver & Co. inaugurated NBC's "Era of the TV Spectaculars" Sunday night (12) when the first of the "26 by Liebman" series of 90-minute big-big-big shows, starring Betty Hutton in an original musicomedy production in RCA-NBC compatible color. "Satins and Spurs," preemed in the 7:30 to 9 p.m. slot. It was an auspicious occasion (but as a show bordering between fair and disappointing) in the onward-and-upward ascent of tv into the hottest aspect of present day show biz, racking up in the process a host of "firsts" for the medium. As video milestones go, it paralleled a kleig-lighted world preem of a major Hollywood studio or a Rodgers & Hammerstein opening night on Broadway (and entailed approximately the same amount of production coin as the latter).

for Miss Hutton in her videbut), it doesn't necessarily minimize the efforts of the NBC masterminders to inject a new and fresh element of showmanship, bigness and originality into a medium already in need of revitalization, so swift has been the drain on talent and traditional patterns. On this score NBC merits a bow. But since any spectacular costing \$300,000 must of necessity invite a spectacular rating and practically decimate all competition to justify the expense (and \$14,000,000 in sponsorship coin is riding on the NBC premise that it can turn the trick), it raises a lot of moot ouestions, which eventually only the Nielsens can resolve. (Already the overnight Trendex returns gave NBC much the worst of it.)

resoive. (Already the overnight Trendex returns gave NBC much the worst of it.)

Written especially for ty and for Miss Hutton by Billy Friedberg (ex-Martha Raye scripter) and Liebman, with an original score by Jav Livingston and Ray Evans (which even prior to the preem was released by Capitol Records as the first ty-created musicomedy album), "Satins and Sour." was perhaps a worthy first to embrace the rainbow spectrum as the initial compatible color spec. Originating from the newly-refurbished ex-Vitagraph studios in Brooklyn now commandeered as NBC's major home of the tint specs (though still lacking a master control room and necessitating use of a mobile unit for color transmission). "Satins," with its extravagantly-costumed background, was treated to one of the most rewarding efforts to date in the application of the compatible hues and shadings. In its color transition, it was a finer and richer spectacle than as a black-and-white attraction. Not that it was anywhere near perfection. Change of cameras frequently brought change in color tones and inadequate Menting resulted in untrue colors. But as a come-on in whetting the public's desire for tint ty, there's no question but that it advanced the cause depending, too, on how many we the prismatic version.)

It wasn't surprising that Miss Hutton was the standout element

ton also starred.

Principal weakness of the show was in the Liebman - Friedberg book depicting Miss Hutton as a rodeo star hitting the big town and falling for a Life mag photographer (played by Kevin McCarthy). Its only function was to serve as a springboard for the Hutton pyrotechnics. Show broke down into four acts and 13 scenes, with the dynamic singing comedienne practically dominating all of them, primarily in the vocal dept. (where she hit her peak in a brace of rousing Huttonesque tunes, "Little Rock Roll" and her "Sexy Sadi" finale.) The lattes, for some inexplicable reason billed the show as "Georgeous Gertie," was easily one of the hottest bumpin and grindin, items to come ty's way, even outstripping the controversial Sheree North bit of several months- back." Hutton gave it everything and it packed one of the standout wallops of the 90 minute frolic. But the question of taste arises for it'll probably invite bluenose reaction, as will some of the other lyrics, principally in the sensitive byplays on "harassin."

Title tune "Satins and Spir" and "Willoat Smathers" were also

On the ballad side, "Nobody Cares" offered less of the Hutton fulfillment although it allowed for a welcome change in tempo. "You're So Right For Me" probably registers as the potential hit tune once those songs get around.

as the potential hit tune once those songs get around.

The show was definitely short on humor. Yet it remained for Miss Hutton to contribute, sans music, the top bit of hilarity in her dressing room scene of mugging to awaxed lesson on speaking. Indicative of the entire show's one-star tempo was the fact that few, if any, other personalities involved had an opportunity to register. Possible exception was the French chanteuse billed only as Genevieve who did a single turn in a nightclub scene. (She appears headed for a buildup, having been booked into the Persian Room at the Plaza Hotel, N. Y.) Spotlight also was given ballerina Mary Ellen Moylan in an effective if not highly original ballet tur. As the Life photog on the make for Miss Hutton, McCarthy hardly registered as much more than a stooge. Hutton generated no specific personality. Unfortunately. Neva

on the make for Miss Hutton, McCarthy hardly registered as much more than a stooge. His dueting of "I've' Had Enough" with Miss Hutton generated no specific personality. Unfortunately, Neva Patterson, a gifted actress, had little or nothing to do or say. Josh Wheeler's ballading of "Back Home" was a pleasant interlude. Despite the widely-ballied spaciousness of the Brooklyn studios, the action appeared clustered around the cameras. Certainly many a Liebman "Show of Shows" revealed more mobility, scope and dimension than. "Satins and Spurs," which somehow or other seemed confined and therefore lost some of the production values. Even the opening 51st & Broadway street scene, though effective, seemed constrained. Pretense toward the biggest 'production' scene was a dress salon, which invited the incivitable fashion parade for some of the show's most stunning and vivid color.

Charles O'Curran's direction of the musical numbers, Paul dupont's costuming, Frederick Fox's set designs and Charles Sanford's musical direction had that qualitative stamp that by now identifies a Liebman production.

Steve Allen came on for a quickie and "cutie" afterpiece in for the Hazel Bishop and Sunbeam commercials, there's no quarrel with the tinted process (in fact. Sunbeam benefitted immeasurably), but the lacks in "dramatis personae" on the lipstick pitches (completely devoid of any charm or personality) destroyed the effectivess.

It's the eventual ratings that will hold the answer, not only for "Safins" but for the whole see

It wasn't surprising that Miss Hutton was the standout element of the show as she bounced into to in her first time up with an explosive gusto, although to many some of the material must have been in questionable taste. Liebman and Triedberg along with Livingston and Evans were obviously playing it safe, for "Spurs" inevitably reminded the viewer, both in format and book and tempo of the serviceable though uninspired score, of the Par filmingiation of Irving—Berlin's "Annie Get Your Gun't'in which Miss Hut-

Here's one situation comedy klatch that emerges as among the best of the current vidpix crop, new or old. Its text is, in the smartalez genre, plussed by setups and trappings from near the top shelf of the Hollywood-to-tv celluloiders. There's some significance in the fact that producer Alex Gottlieb is in a doubling role as writer, not unprecedented, to be sure, but not common either. Such a tandem can be unbeatable when it's right since the left hand always knows what the right paw is doing.
"Dear Phoebe," judged by theopening salvo, has the staying power potential. Slick, speedy and crisp, it costars Peter Lawford and Marcia Henderson who are more than equal to the repartee burdens. Lawford is the Phoebe (Goodheart) of the, title who's pressed into service as an advice-to-lovelorn columnist for a Coast sheet. He delivers with gusto, complete with surefire mugging and timing that's socko. Miss Henderson is a lovely citizen who, in a switch from orthodox, is cast as sportswriter Mickey Riley forever raising hob with Lawford and, of course, going for him while deploring his philosophy and antics the's an ex-college instructor bent on a new career).

Strategic in the support are Charles Lane as the managing edion did to interior, which is another twist, and Joe Corey, a copyboy who just crackles with deadpan wit. Gottlieb in his reiner-writer role has given them everything that's possible to produce a winner and Don Weiss, judged on the preemer, has provided a staging foundation that should catapult "Phoebe" into the bigtime among telepixers.

Back on tv after a several-year layoff, "Stop the Music" is still a hep quiz and music blend that makes it one of the more entertaining giveaway shows. And those giveaways are as big as ever. The average contestant on this show cops about \$200. in cash and then gets a crack at the giant jackpot, comprising several thousand dollars in cash and merchandise. That kind of bait dangled before home viewers automatically should insure a rating.

As emcee, Bert Parks is an always effervescent and frequently witty host who keeps this half-hour rolling at a plenty fast clip. He clowns it up with the studio participants and doubles as a vocalist in delivering the tunes, for the title-guessing posers. In this department, he's given a top assist by Jaye P. Thus the onus was on Liebman and Miss Hutton to keep those first 30 minutes fast and furious to circumvent an 8 o'clock switchover to "Toast," with NBC throwing in an assist by eliminating the 8 p.m. station break and playing through to 8:15. "Medic" is television at its creative and dramatic best. There's little question that this James Moser-inspired, Worthington Moser-inspired, worthington; (Tony) Mi produced telefilm series will be around for a long, long time to come. Employing a model for television to aim atactual and educational in content, but with a dramatic kick that few shows in any media have ever rivalled.

NBC has pulled out all the stops for this one, not only because of its realization that it has a property second to none on its hands, but because it's using "Medic" as the keystone of a Monday night programming schedule designed to take the rating supremacy out of the hands of CBS, where it's long resided. It's an unanswerable question whether "Medic" will be able to dislodge "I Love Lucy" from its dominance in the Nielsen sweepstakes, but whether it does or not, NBC can be sure of a loyal following, in this or any other time slot.

or not, NBC can be sure of a loyal following, in this or any other time slot.

Network has thrown the book at "Lucy" without success to date. It's tried comedy vs. comedy without effect, and it feels, that a show as powerful as "Medic" might do the trick. There's only one possible fallacy in this thinking, and that's the failure to take into account the tremendous program-selection power wielded by America's kiddies. It's no secret that despite "Lucy's" comparatively late hour, a large segment of its audience is composed of children, and even if NBC can get the adults to switch over, it's a question whether the kiddies will allow them to. "Medic" is strong stuff, and it's not the type of show for which the children will desert "Lucy." And as the kids go, so goes the hapless parent. Nonetheless, NBC was unsuccessful in wooing the moppets with Dennis Day, and could be that "Medic," with an audience turnover from Sid Caesar, will appeal to the little brutes.

That highly effective semi-documentary technique used on "Doca"

turnover from Sid Caesar, will appeal to the little brutes.

That highly effective semi-documentary technique used on "Dragnet" is put to even more dramatic use on "Medic." One reason for this is that the trade lingo in the latter sounds so much more real, and the script, the photography, the entire character of the show finds its basis in real medical case histories that have inherent drama in them. NBC and Dow were faced by a ticklish problem in launching the first show, a raw story of a pregnant woman who's fated to die of leukemia, with the only question remaining that of whether her baby could be sayed. It was strong, and potent stuff and the net and sponsor had some uncertain moments as to the propriety of launching the series with this particular episode. Station and trade reaction being affirmative, they decided to go ahead with it, and it's to their credit and probably to their advantage that they did.

cided to go ahead with it, and it's to their advantage that they did.

For nothing like it has been seen on television up to now. From the moment Richard Boone, as the medic, tells Lee Marvin, the husband, that his wife is going to die, the show builds in intensity and impact. And the last seven minutes, when Boone extracts the premature baby from the dead mother and goes to work trying to make it breathe, there's no letup to the suspense and the pictorial intensity. Those shots of Boone trying everything to make the child live and finally succeeding (with probably the most primitive method, hot and cold baths) won't easily be erased from anyone's mind.

Everything about this production is crackerjack. Boone's underplaying heightens the dramatic impact; Marvin's restraint as the father equals Boone's interpretation, and Beverly Garland as the mother evokes sympathy and warmth. It's easy to believe that creator-writer James Moser spent two years in hospitals living this series—it shows in every frame of film and every bit of dialog. And NBC can be excused for putting Trony Miner on the shelf for two years—"Medie" was worth it. Bernard Girard's direction telescopes the action in surefire manner; Frank LaTourette's production is a faithful transcription of medical life all the way through and Victor Young's music tops a real top-notcher.

While some of the massive research and kaleidoscopery as translated to the homescreens was almost as difficult to follow as Prof. Einstein's gorgeously expostulated E=MC's equation, the general effect that "One, Two Three—Zero!" hoped to produce, that of measuring the age of the atom against the hopes and aspirations of the peoples of the world, came off as a resounding click that, curiously, burst upon the screens with an eloquent gentleness virtually devoid of the bombast from whence it sprung. If sermonizing via video (as yet a dubious contribution to tv) could carry the same impact and blend of showmanship (that characterized last Sunday morning's (12) "Precious Heritage" presentation in commemoration of the settling of the Jews in America 300 years ago, then most of the problems besetting religioso programming would be solved. Second in a series in observance of the tercentenary, Sunday's installment was called "A Night At Valley Forge." As a dramatic vehicle, and in its execution by all concerned, it had qualitativ values on a par with such nighttime entries as "You Are There" (though obviously brought in for considerably less coin). But Valley Forge with its travails and hardships for the Continental soldiers merely served as a framework for as honest, sincere and forceful a paean against bigotry as the most ardent worshipper and seeker of truth could desire.

A great measure of the credit belongs to Morton Wishengrad as the writer, for his tale of the young Jewish merchant-turned-surgeon who suddenly finds himself ministering to the miserable Continental souls, had a searing ring of conviction without resorting to the usual

As an addenda to the "even-our-ulcers-have-ulcers" turmoil, confusions and backbreaking application attending the premiere of the new tv season, particularly one that is generating more than the usual excitement, the mounting casualty list at the peak of "premiere time" is causing no little anxiety in the trade. Aside from the Leland Hayward "crisis" at NBC, with the impresario's illness and enforced layoff cueing his release from his multi-million dollar "spec unit," a whole array of NBC personalities are down for the count. These include Bob Smith, who suffered a heart, attack last week, pecessitating a revamp of the daytime tv schedule; Jerry Lewis, who was obliged to cancel out as the curtain-raiser of the "54-55" (Colgate Comedy Hour" series; Martha Raye, whose collapse has raised some question whether she'll be ready for the teeoff of her Hazel Bishop-sponsored Tuesday night series.

On the executive front: Sam Fuller, NBC-TV national program director, is still doing wheelchair duty as result of his recent auto accident. And NBC prexy Pat Weaver goes into the hospital this week for an operation on his jaw.

Buckley's Live Music Policy As WNEW Still Plays It 'Different'

Shuffle comes as a move to spur new interest in the station and its personalities, despite their well-sold status. It's a move to throw off the wraps of a rigid sameness and to reinstill in the public a sense of the outlet's individuality. It's especially significant in that it's the first major policy declaration by especially significant in that it's the first major policy declaration by the Buckley management since it took over from the longtime Bernice Judis-Ira Herbert combo last April. Stations Flocking To 'Disneyland'

Station clearance on ABC-TV's upcoming "Disneyland" is progressing at a faster rate than anticipated, with the web having set 112 outlets out of the 120 ordered and achieving 95% video homes coverage already. Web has signed 52 stations for live pickups, 60 for delayed broadcast, with the premiere of the show still more than a month away (Oct. 27).

What's made the network especially happy is the bullish situation in the two-station "captive markets." Execs, for example, could hardly believe it when informed that WHBQ-TV in Memphis has preempted its live pickup of CBS "Toast of the Town" on Sundays at 7 (local time) in order to carry a DB of "Disneyland" at that time.

BBD&O Taps Hoagland

Jim Hoagland has been tapped to head the program and talent buying operation of BBD&O's radio-tv department. Don Rowe, business manager of the department, will take on the additional duties of head of production, with George Polk slated to function as liaison between the department and the media department.

All three will report to Bob Foreman, v.p. in charge of radio and tv at the agency.

EVEN TOP LEVEL

With the two major webs engaged in a struggle for supremacy that is reaching out more and more to the public as well as the trade—as witness the heated exchanges between RCA-NBC board chairman David Sarnoff and CBS corporation prexy Frank Stanton and the "Look, Ma" jousts of each camp in connection with their coloracular, drama and public affairs agendas, et al.—it's not mere coincidence that each of the networks is undergoing a reshuffle of its press relations at the top level. There have been, of course, bonafide resignations—always standard operating procedure in a hectic business; but there have been axings as well, with the "resignation" tag riding on situations under which given positions have been made untenable. In addition, at least two new top levels have been established to ride herd on the departments for greater efficiency based on confronting the competition with "surefire" public relations weapons in the much-vaunted "Electronic Era" that's defined as "if it isn't bigger than big, we can't handle it."

N.Y. Radio-TV Gives 'Edna' A Big Whirl

Hurricane Edna provided lotsa wind for broadcasting's sails. Although the highly touted "Big Gale" laid an egg in metropolitan New York, everyone in that sector got in on the act in a switch pitch occasioned by the fact that virtually everyone was caught without tickets the week before when Hurricane Carol burst upon the stage in the opening flash act. Stations and networks were determined to latch on this time in a sometimes bloodthirsty, boastful approach to a manifestation of nature in one of her angriest moods. It was a case of making hay while the sun didn't shine. There was more hamming going on than one would find in a scoreful of vintage stock companies.

"My Favorite Husband," an outstanding new situation comedy last season, returned for its second semester Saturday night (11) with a dull thud. Series, starring Joan Caulfield and Barry Nelson, won its popularity in large part through some very fine writing, but this quality was missing on initialer.

initialer.

While the basic idea was good enough—kidding the Dior craze—the material failed to live up to the premise, and consequently Dior was a bore. "Husband" had some laughs, but the quota was far below par for this course. Scribblers appeared to be reaching into left-field and their work was singularly undistinguished. Sol Saks, who is also associate producer, turned out the script, along with Shirley Gordon and William M. Cowley III, but they'll have to do much better than this in future frames.

rames.

When the Coopers' neighbors return from Paris, the distaffer brings along some of the Paris gowns, and this springboards the situation to a controversy over male - vs. - femme fashions. Liz Cooper (Joan Caulfield) rebels at Dior's dictating the new styles, but surrenders when she is able to wangle a chic gown for herself. There's some amusing kidding of men's fashions, but on the whole the half-hour is sadly deficient in Vitamin Wit.

Miss Caulfield and Nelson as

Vitamin Wit.

Miss Caulfield and Nelson, as the George Coopers, do what they can, but the material they're given doesn't offer much opportunity for distinction. They are good comedians, and better than the lines. Bob Sweeney and Alix Talton, as the neighbors, and Steve Dunne, their bachelor friend, are also competent in the other regular roles.

Producer-director Norman Tokar helms at a slow tempo, something unusual for the "Husband" series. Since this was the opener and the producer presumably had far more than the usual week to prepare it's surprising he couldn't come up with a better show.

Musical backing by Lud Gluskin and his orch is good. International Silver and Simmons share the tab on "Husband," and their filmed commercials delivered the sales message satisfactorily. Daku.

Problem of selling its own shows is a difficult item for a network at times, especially when the web allots a full hour of its cream time to extol the forthcoming National Collegiate Athletic Assn. games which start over the chain on Saturday

start over the chain on Saturday (183).

The web and its producer for the show Jerry Danzig had to work within a very narrow confine, and within its limitations, Danzig did creditably. However the basic premise of the show seemed off base. The bulk of the time was devoted to film clips of games played last season by the various colleges that will play the NCAA series on this web. In the few instances where there was no game last season between two schools that were meeting, action shots of contests in which the NCAA contestant figured were shown. At the end of each clip, commentators Ted Husing, Bill Stern and Francis Wallace pontificated, and the most they dared say on the outcome of the game was that it would be an interesting contest.

However, some imagination was rhown in getting referee Albie Booth, onetime Yale football great, and now a referee, discussing the new rules. Insertion of a clip by Bob Hope plugging the games also was a good departure. Otherwise, the show represented a difficult job that left much to be desired.

There was some between-quarters entertainment with a sprightly production line, the ideas of which seemed to be taken from the '20s. College styles have changed considerably since then.

To the tradition that names are

In the tradition that names ar newsworthy, "Stork Club" half-hour, in a new time slot over a new network, is assured of audience ap-peal if only on the manpower pronetwork, is assured of audience appeal if only on the manpower projected weekly. While obviously specially cast for the ABC-TV network premiere, boniface Sherman Billingsley's posh bistro isn't exactly a Kiwanis haunt, so the supercharged roster of "guests" at Saturday night's (1.1) preem must, at least, be called "representative." And if they're not there in person, the emcee-host shows a photographic galaxy of personalities, such as Bobo Rockefeller, Sen. James Duff, Jack Dempsey and Gene Tunney side by side, Dorothy Kilgallen and Walter Winchell ditto, Bert Lahr, Lloyd Nolan, John Hodiak, Morton Downey, et al. Just for the convincer Downey, whom he called his "partner" (without identification of the Sortilege perfume business) was also there in person along with James A. Farley and other Stork Club regulars.

The show, per se, is in the same

Innere in person along with James A. Farley and other Stork Club regulars.

The show, per se, is in the same plush parade of personalities from show biz and the social pages, a potent array of names. The off-screen regisseur identifies them dining tete-a-tete, either in the recreated Cub Room or dancing-dining in the actual cocktail lounge and the main dining rooms. This is the show's new technique—the roving cameras will pick up celebs making their entrances off East 53d St., or navigating through the sundry public rooms.

The "person-to person" appeal thus is undeniable. Whether it's a Ted Steele afternoon show for Pepsi-Cola, showing teenagers terping in al fresco juvenile conviviality, or the lush atmosphere of a worldfamed top bistro like Billingsley's Stork, the revealing image orthiconh pickup is arresting audience stuff. In the case of the Stork, the Saturday night looker-inner, let's say in Duluth or Stroudsburg, Pa, must get a vicarious kick from being privy to such fancy-dan shenanigans by the formally attired clientele that is attracted to the Stork. It's a closeup on how the other half lives.

As for the show proper, it's almost surefire in its unspooling, what with an Eddie Fisher—not forgetting that plug for Coca-Cola—balladeering "If I Ever Needed You" to Shermane Billingsley She is the host's teenage daughter, a regular vis-a-vis to her father in some of the "interview" stuff. Their penchant for pet dogs (which are prize giveaways also) is reprised.

Nanette Fabray did two numbers, "On Behalf of the Visiting People From Any City" (an improved paraphrase of Johnny Mercer's original "Visiting Fireman" lyric) and "Louisiana Hayrice." Latter was the finale, leading into a seasonal autumnal touch with a camouflaged pooch in the haystack, excepting that the propertyman goofed by not having the puppy properly crated although it made for an unexpected laugh, as Billingsley ad libbed for the signoff.

In between, fashion designer Carrie Munn was interviewed and showcased her latest samples of haud coutu

"It's a Great Life," taking cold-blooded aim at the visual values with contributions to the slapstick larder, brings filmster Michael O'Shea to the homescreens via the telepix route. He shows up as an upand-at'em deliverer of lines sometimes akin to the whammo style of

Danny Thomas as he is spoke.

Joined with O'Shea in sundry
shenanigans, with behind-closeddoors mistaken identity as main springboard for the initialer, are James Dunn in what is for him an offbeat clown's role and William Bishop as a sort of love motif straight, though also skilled at the ripostes. (The other side of the romantic shuffle is Barbara Logan, a long-gammed looker seen on the preemer but who'll be succeeded by Barbara Bates on the subsequents, this being due, apparently, to Miss Bates not having been available at shooting time).

quents, mis being due, apparently, to Miss Bates not having been available at shooting time).

Ray Singer and Dick Chevillat, doubling as scripters and producers, have come through with funnybone material that depends on some stock but laff-raising situations for its effect. However, the playing and timing thrust the opener into a position to command future attention.

O'Shea and Bishop are post-Korea GFs intent on settling down in Southern California. They wind in Southern California. They wind in Southern California. They wind the home of Frances Bavier, a straitlaced widow straitjacketed economically by out-of-work Dunn, who's intent on protecting his cushy shelter from outside on slaughts. Miss Logan is the widow's daughter who catches Bishop's roving eye and vice versa. Extended complications set in when the only available room (except for the attic, which is earmarked for Dunn) is rented to another couple by the unknowing daughter. Thus a quartet readies to become occupant of the same bedroom, precipitating a revolving door series of entrances and exits as each of the principals grapples with the double entendre situation, inclusive of bathroom and clothes closet processionals.

Dunn is centered in the byplay since he feigns half-wittedness in an effort to drive the twe sets of boarders away. While doing so he's called upon to wear outlandish habiliments and comport himself as the dizzy guy alive'to the intentions of his pretense. On the bathroom side, O'Shea is caused to drape himself with a girdle handed to him by the husband who believes his wife to be dressing in the cubicle. It's a funny bit only in the sense that pie-in-the-face usually is—and, forthwith for-

usually is—and, forthwith and gotten.

With all hands pitching for all they are worth; the future of "Life" in the rating sweepstakes depends on how producers-scribes Ray Singer and Dick Chevillat and director Christian Nyby will, along with rest of the cast, be able to sustain the interest in a theme that can wear pretty thin in its one-joke jacket. On the other hand, the central idea of GI's returning to the homefront with "unreal" behavioristics can be a flexible one.

'The Zanuck Story'

The Zanuck Story

Somewhere towards the end of the "Darryl F. Zanuck" story, which Ed Sullivan presented on his "Toast of the Town" over CBS-TV Sunday (12), Zanuck observed that his success was actually a tribute to the work of the many who have been associated with him through the years. It was this modest thought which Sullivan and co-producer Marlo Lewis adopted as the theme for their hourlong tribute to the head of the 20th-Fox studios.

The result, even though it told little about Zanuck the man or his personal formula for success, nevertheless provided tw with a bright, fast-moving, often hilarious and mostly nostalgic hour of top entertainment. Many words might have been spoken both by Zanuck and about him. Instead, "Toast" made the man emerge through his work. And for added frills, there were the familiar faces of a host of Hollywood stars, both on the screen and in person, in the audience.

Much great artistry was crowded into this all-too-brief hour, by "live" performers, such as Tony Martin and Dan Dailey, here making his tv debut; Gloria De Hayen and Jack Benny, and via bits from the film landmarks in the Zanuck career.

The excerpts, some of them undoubtedly not pleasing to the vanity of the older performers in the audience. Few things are more fun than watching the old classics, or parts from them, and "Toast" proved this beyond the shadow of a doubt Sunday. There were clips from "42nd Street," "Capt. January," with a long and delightful dance sequence starring five-year-old Shirley Temple; "Thin Ice," starring Sonja Henle whom the camera also picked up in the audience; "Charley's Aunt," which introed a very funny Jack Benny bit with Sullivan; "Girls Dormitory," "Lloyds of London," which launched Tyrone Power on the road to stardom; "Gentlemen's Agreement," with a powerful seen involving Gregory Peck; "Snake Pit," "I was a Fugitive from a Chain Gang," "Grapes of Wrath" and "Sitting Pretty."

Marilyn Monroe came in, for proper attention yia screen test footage and a more up-to-date bit from "Gentle

shoe routine was competent but unexciting and Miss DeHaven's "You'll Never Know" number was a sentimental salute to Virginia and Darryl Zanuck.

Benny almost stole the show. His timing as perfect as ever, he brought down the house, and even had a little scoop for the trades. His "Horn Blows at Midnight," generally considered a flop, did make money, he confided. Ask the director, he told Sullivan, he now works here as an usher. Finale, which no, Hollywood show with stars in it can resist, had all the stars lining up stiffly and uncomfortably on the stage for quick camera perusal while Martin crooned "There's No Business Like Show Business." It's probably figured that the fans demand this kind of closeup. Actually, it's inevitably disappointing.

"Toast" did itself proud by Zanuck, winner of three Irving Thalberg Awards and one of the most dynamic top execs in the history of Hollywood. It told his story in terms of his taste and his conscience, and he emerged as one of the great creative personalities-of the century, a man directly responsible for more and better entertainment than almost any other.

And Zanuck, in turn, gave "Toast" one of its best shows in years. On camera, he was modest and pleasant, a man 'conscious of the value of his work, and yet humbly grateful for the good fortune of having capable associates. He paid tribute to Spyros P. Skouras, Jack Warner, Al Lichtman and other of his earlier and present associates. He did it simply and effectively and the audience must have liked him for it. "Toast's" toast to Zanuck was really a toast to the industry as a whole.
